100. In the 24-Parganas the total length of Schedule D embankments was 210 miles, as in the previous year. There are 73 sluices in these embankments, of which 48 are maintained at the cost of Government, while the remainder are *takavi* sluices maintained at the cost of the zamindars. Three Government sluices which were maintained formerly by the Calcutta Corporation were transferred to the Public Works Department during the year under report. All the sluices in the district are reported to be in good order. A retired line of embankment at Akalmegh was under construction during the year. In Murshidabad the Zamindari Embankments are generally in good condition In a few cases steps were taken to have the necessary repairs carried out by the zamindars concerned, and in two cases the *pulbandi* allowances payable to the zamindars were stopped, as they neglected to execute the repairs. The question of improving the village sites in the area liable to floods owing to the abandonment of the Laltakuri Embankment, is still under consideration in the Public Works Department.

In Khulna new embankments were constructed in the Government Estates of Chandkhali, Katipara and Gobindpur at a cost of Rs. 1,101. The Collector of Khulna reports that the embankments in the Sunderbans area are not properly maintained and the question of revising the form of lease of the lot-holders in order to provide for this is under consideration. There are no embankments in Nadia and Jessore.

Patna Division.

101. The Gandak embankment which runs through the four North Gangetic districts of this Division is maintained under the contract system. Out of a total demand of Rs. 74,361, a sum of Rs. 55,338 was collected and Rs. 7,905 adjusted from the previous advance collections. The balance outstanding at the close of the year was Rs. 11,118, out of which Rs. 2,932 from the district of Champaran has been realized since the close of the year. Steps are being taken for the recovery of the balance. The Turki and Daudpur embankments in Muzaffarpur and the Ganges embankments in Darbhanga and the Sakri Band in Patna and Gaya were maintained under the *takari* system, and the cost of their upkeep was recovered from the persons benefited by the apportionment of the expenditure incurred.

Bhagalpur Division.

102. There are three public embankments in this Division, namely (1) the Monghyr Embankment in the Begusarai subdivision, (2) the Chandan Embankment in the Banka subdivision of the Bhagalpur district, and (3) the Belwa Embankment in Purnea. Government maintains all these; but the cost is recovered from the proprietors of the estates benefited, with the exception of the share which Government itself contributes to the maintenance of the second project on account of the protection it affords to the Banka civil station. As reported last year, arrangements have been made to take the embankment known as the Gupta Bund near Begusarai under the Embankment Act, and notices under section 8 of the Act have been issued.

Orissa Division.

103. All the embankments which are under the charge of the Public Works Department are maintained at the cost of Government. No breaches of any importance are reported from any of the districts except Cuttack, where some damage was caused by flood to the stone-paved weir across the head of the Janardan *ghai* on the Brahmani which was completed during the year at a cost of Rs. 12,141. Besides the Janardan *ghai* two other *ghais*, Palasi and Simli, on the Kharsua right embankment have been provided with flood escapes. The work of closing three other *ghais* was in progress during the year. The Collector's report in regard to these *ghais* is quoted below:—

"The Subdivisional Officer of Jajpur, within whose jurisdiction the above *ghais* are situated, reported that the effect of closing the *ghais* had been very favourable to the crops in that part of the country which was hitherto seriously affected by floods on account of those *ghais*. The Collector recommended the extension of the system of closing the *ghais* to the other rivers in the district. But as the last rainy season was abnormally low and unfavourable for the observation of the effect of flood action on the *ghais*, the Commissioner has directed to watch the works until a more favourable opportunity of estimating the effects of the floods occurs. A further report has been called for by the Commissioner after the next rainy season."

The embankments in this Division are maintained in good order. A retired line is under construction at Sanktaras in the Sarnah right embankment and another at Balda on the Diab left embankment. Slope cutting has been done at Kachramad, on the 7th mile of the Kunkhai left embankment where the river had been cutting away the bank. The revetment on the left bank of the Chittratola at Kendupatna has been repaired and extended. In Balasore there were at the beginning of the year 26 embankments of 80 miles in length and at its close 24 embankments of 79 miles, two embankments having been abandoned. In Puri two escapes to discharge 10,000 cubic feet per second each were constructed on the right and left banks of the Khushbhadra river, and a retired line of embankment was constructed at Achootpur on the left bank of the Bhargavi river.

Chota Nagpur Division.

104. In Ranchi a sum of Rs. 3,026 was expended on account of embankments. No particulars have been furnished.

120. The reports indicate that the Act of 1897 continues to work smoothly. No case of enhancement of rents by landlords made immediately after a partition is mentioned. Mr. E. W. Collin, Commissioner of the Presidency Division, states that, as reported last year, the provision* in the new Act for the distribution among the tenants of *parchas* which contain particulars of the holdings and the existing rents serves to check any subsequent attempt on the part of zamindars to enhance the rents.

* * * * * * *

122. Proceedings for the acquisition of land required by Government or by local bodies, to the extent of 6,269 acres in all, were confirmed by the Board during the year at a total cost of Rs. 31,58,841 as compared with an area of 4,716* acres, costing Rs. 22,08,354* during the preceding year. Detailed particulars for each district will be found in Appendix XVI, which has been prepared in the revised form recently prescribed. The abatements of annual revenue allowed on account of land acquired for the purpose of Government, including those of State Railways, amounted to Rs. 834, and a sum of Rs. 28,496-11-11 was paid to Government as the capitalized value of the Government revenue, amounting to Rs. 1,139-13-11, abated on account of lands taken up for other purposes.

Land Acquisition.

Appendix XVI.

Of the total expenditure incurred, over 18½ lakhs were for acquisition of lands for Government purposes, including those of State Railways, and over 13 lakhs for all other purposes, viz., those of Municipalities, District Boards, Railway Companies, etc. The following projects, of which the cost exceeded Rs. 1,00,000, may be specially mentioned:—

		Rs.
(1)	Public offices in the town of Calcutta	8,02,868
(2)	Midnapore-Jharia Extension of the Bengal-Nagpur Railway in Bankura	3,50,601
(3)	Cossipore-Chitpur terminal improvements, Block No. II, Eastern Bengal State Railway, in the 24-Parganas	1,93,629
(4)	Midnapore-Jharia Extension of the Bengal-Nagpur Railway from miles 24 to 41 in Midnapore	1,41,063
(5)	Circuit House at Patna for the stay of the Lieutenant-Governor of Bengal when in Bihar	1,33,416
(6)	Extension of the Dufferin Victoria Hospital in Calcutta ...	1,15,314
(7)	Staff quarters of the Eastern Bengal State Railway in Calcutta ...	1,05,000
(8)	Staff quarters of the Bengal and North-Western Railway at Sonepur in Saran	1,02,204

The average cost per acre of the lands acquired, for which the proceedings were confirmed during the year, was Rs. 504 against Rs. 468* in the preceding year. Omitting lands of special value, the average cost per acre during the year under review was Rs. 256.

123. Lands for the large projects below named were also under acquisition during the year:—

The extension of the Bengal Veterinary College at Belgachia in the 24-Parganas; the new Nurses' quarters in connection with the Calcutta Medical College Hospital; the new Rifle-range at Jaffarpur in the 24-Parganas for the use of troops at Calcutta, Barrackpore and Dum-Dum; the Bairagnia-Shikarpur Extension of the Tirhut State Railway in Muzaffarpur and Champaran; Bhagalpur-Kachari Extension of the Hajipur-Katihar Branch of the Tirhut State Railway in Bhagalpur; the Purnea portion of the railway line from Katihar to Malda; and the Police School and quarters for Government officers at Ranchi.

124. The most important new projects for the acquisition of land, for which orders were received during the year, were the following:—

(1) Offices and officers' quarters, etc., for the proposed new district to be made out of part of Midnapore.
(2) Zone of safety for sanitary purposes at the Lillooah station of the East Indian Railway in Howrah.
(3) New jail, police-lines and official residences at Ramkrishnapur, Howrah.
(4) Extension of Sir Stuart Hogg Market in Calcutta.
(5) Provision of offices for Private and Military Secretaries and the extension of the stabling of the Government House in Calcutta.
(6) Sonthal Railways, Bhagalpur-Banka section, in Bhagalpur.
(7) Purulia-Ranchi Railway in Ranchi and Manbhum.
(8) Location of an Engineering College and a Model School and College and a Demonstration farm at Ranchi.
(9) Experimental Agricultural farm at Patna.
(10) Siwan-Gopalganj and Doronda-Maharajganj Extensions of the Bengal and North-Western Railway in Saran.

* * * * * * *

126. The number of current leases granted under the rules of 1853 in the 24-Parganas and Khulna Sundarbans was the same as in the previous year, viz., 115. The rent payable on account of these leases rose from Rs. 1,01,346 to Rs. 1,01,874. No new cultivation leases were

Waste Lands.

* Revised—excluding the figures for the districts transferred to the Province of Eastern Bengal and Assam.

granted during the year either to large or small capitalists. The number of leases granted to large capitalists at the close of the year was 193 as against 203 in the preceding year. The decrease is due to the determination of ten leases for failure on the part of the lessees to comply with the clearing conditions and to make protective works. The leases were resumed under Government orders. The area covered by the existing leases is 345,571 acres. The revenue payable during the year was Rs. 28,383. The number of leases granted to small capitalists remained nine as in the preceding year, covering an area of 11,842 acres. The present revenue payable for these leases is Rs. 14,729 which will eventually rise to Rs. 14,916.

* * * * * * *

128. The levy of illegal cesses in addition to rent continues to prevail to a considerable extent, though no suit was brought under section 76 of the Bengal Tenancy Act during the year. Long custom, traditional homage to landlords and a desire to live in amity with them explain the acquiescence of the tenants to these demands in some cases, while in others excess payments are made for small concessions received. The exactions are reported to be diminishing in areas for which a survey and record-of-rights have been made * * *

Zamindari cesses.

129. In Ranchi disputes between raiyats and petty landlords regarding rates of rent, predial services, etc., are still common. As in the previous year, five cases for commutation of services into their money value were instituted by the zamindars. Two of these were decided according to the prayer of the plaintiffs and one was struck off, as the case appertained to Karra thana where commutation of services had already been ordered to be undertaken by the Settlement Department. The remaining two cases were pending at the close of the year.

* * * * * *

135. The following statistics have been compiled in compliance with Government order No. 112, dated the 15th January 1903, to show the net financial results to the State of the loans granted under the Land Improvement Loans Act during the period 1899-1900 to 1905-06. Against a total sum of Rs. 7,31,346 advanced, Rs. 2,89,118 were realized and Rs. 1,286 remitted, leaving a balance of Rs. 4,37 587 at the close of 1905-06, excluding Rs. 3,355 on account of loans outstanding in the Chandrapur and Padampur taluks transferred from the Sambalpur district to Bilaspur in the Central Provinces. The interest that accrued on the total amount of the loans advanced during the period in question was Rs. 67,571, and of this sum Rs. 62,291 were realized and Rs 409 remitted, leaving a balance of Rs. 4,871. The interest that is demanded is 6¼ per cent, and assuming that the money was borrowed by Government at 3½ per cent, or that interest at the latter rate must be recovered unless Government is to lose by the transaction, then the difference between the interest at 6¼ and 3½ per cent., amounting to Rs. 24,451, may be set off against the loss already accepted of Rs. 1,695.

* * * * * * *

138. The following statistics have been compiled in compliance with Government order No 112, dated the 15th January 1903, to show the net financial results to the State of the loans granted under the Agriculturists' Loans Act during the period 1899 1900 to 1905-06. Out of a total sum of Rs. 12,55,065 advanced, Rs. 8 99,590 were realized (including Rs. 26 paid in excess) and Rs. 2,179 remitted, leaving a balance of Rs. 3,53,322 at the close of 1905-06. The interest that accrued on the total amount of the loans advanced during the period in question was Rs. 92,051, and of this sum Rs. 78,490 were realized (including Rs. 290 collected in advance), and Rs. 393 remitted, leaving a balance of Rs. 13,458. The interest that is demanded is 6¼ per cent., and assuming that the money was borrowed by Government at 3½ per cent., or that interest at the latter rate must be recovered unless Government is to lose by the transaction, then the difference between the interest at 6¼ and 3½ per cent., amounting to Rs. 26,942, may be set off against the loss already accepted of Rs. 2,572.

* * * * * *

140. In the greater part of the Lower Provinces the Bengal Tenancy Act governs the relations between landlord and tenant. It is generally reported that the Act worked smoothly throughout the year under report, and that there are signs that landlords and tenants are becoming more familiar with its provisions. The Collector of Nadia remarks that in several instances proceedings under Chapter X of the Act were instituted on the application of the raiyats, and that they often sought the protection of the Civil Courts when the landlords interfered with their rights. In some places, however, the object of the law is frustrated by powerful and unscrupulous zamindars who endeavour to exact illegal demands, such as marriage fees, periodical services, price of rent receipt forms, *nazar*, etc. It is reported that in the Orissa Division, though the beneficial effect of the Act is understood by all, yet the tenants, being poor, are not always able to preserve their rights in cases where they are violated by the landlords. It is hoped that the introduction of the system of payment of rent by money-order will operate as a salutary check on illegal exactions. In Birbhum also the District Judge has observed the existence of strained relations between landlord and tenant from the increase in the number of rent deposits in the Munsif's Court at Bolepur.

The Bengal Tenancy Act.

Maintenance of land records.

180. This subject is now dealt with in the Director's Settlement Report for the survey year ending 30th September. The orders of the Secretary of State on the question of the maintenance of settlement records in Orissa and Bihar have been received. It has been decided that in the temporarily-settled districts of Orissa the records should be kept up continuously, and a scheme for the purpose has been prepared and is under the consideration of the Government of India. With regard to Bihar, however, the decision of the question has been postponed until Government is in a position to frame proposals based on the experience gained of the working of the system in Orissa. An interesting experiment was initiated during the year by Mr. H. Savage, C.S.I., in a small area in the Balasore district with the object of associating the village panchayats with the work of the maintenance of the records. It was found that in the ten years which have elapsed since the record was finally published, there has been an increase of plots by 10 per cent. and that changes have affected about 80 per cent. of the original *khatians*, which have increased in number by 21 per cent. On the recommendations of the last Darjeeling Conference some additions have been made to the Tippera rules for the maintenance of records in Government estates, and the revised rules have been circulated in draft to local officers for remarks.

* * * * * *

Weather and crops.

183. Appendix XXVII shows the mean rainfall of each district for the last five years, and also the normal mean. The rainfall of the province was above the normal during the year in all districts except in the Orissa Division and part of the Chota Nagpur Division. There was abundant rain in the early part of the year in the Burdwan Division which facilitated the preparation of the ground for rice crops; during the sowing and transplanting season rain was plentiful and evenly distributed throughout the Division, so that most of the high lands were brought under cultivation and the crops promised well up to the month of September. A break in the rains in October caused the crops on the high lands to wither, and the outturn was below the normal. The heavy rainfall in Burdwan caused floods in the neighbourhood of the head-quarters town and other places, and was followed by an unprecedented amount of fever in the southern and eastern parts of the district. In Birbhum also, widely extended sickness, fever, small-pox and cholera, caused heavy mortality. In the Ghatal subdivision of the Midnapore district the heavy floods and breaches in the Panna, Ghatal, Sakhpur and Chetua circuit embankments and in the right and left Darkessur embankments destroyed the seedlings. The greater part of the flooded area was replanted when the flood subsided, and on the remainder *boro* paddy was sown later on. The heavy downpour in January and February last caused much damage to the *rabi* crops of the Division and the outturn was consequently low. In all the districts of the Presidency Division the mean rainfall in the year under report was much in excess of the normal. The rainfall was, however, not favourably distributed. It was heavy in April and May, scanty in June, and again excessive in July to September. The October rains were sufficient, but there was an entire cessation in November. The rainfall was again abnormally heavy in January and February. In the 24-Parganas there was, on the whole, a good harvest on the higher lands, but the low-lying areas, especially those in the Sundarbans tracts of the Diamond Harbour and Basirhat subdivisions were flooded at the time of planting and the yield of winter rice was below the normal in consequence. In some parts of the district the heavy rain in May induced the people to sow jute, but the drought in June injured the crop. The *rabi* crops were also damaged by excessive rain. In Nadia both the *bhadoi* and winter rice crops are said to have suffered greatly. The *rabi* crops also fared badly in consequence of the heavy rains in February. In Murshidabad the *bhadoi* rice gave an outturn of 75 per cent., and jute 115 per cent. The winter rice suffered from the cessation of rain in November, while the *rabi* crops were injured by the rain in February. In Jessore the heavy rain between July and September prevented a full crop of winter rice from being sown. The outturn of both autumn and winter rice however was fair, but the *rabi* crops were poor. In Khulna much injury was done to the winter rice in the Bagerhat subdivision by an insect pest. In the Patna Division the mean rainfall of the year was above the average in all the districts of the Division, especially in Darbhanga. The distribution was most uneven and therefore not favourable to the crops. There was delay in the commencement of the rains in June, and this was followed by very heavy rain from the middle of July till the end of September, which caused floods in almost all the districts of the Division with considerable damage to the *bhadoi* crops. This rainfall was to some extent favourable to the paddy crop, although in some districts the newly transplanted seedling were washed away, and the fields had to be replanted. The outturn of the winter rice was on the whole good. The season was favourable for the sowing of the *rabi* crops, and prospects were excellent at first, but the cloudy weather in January and the untimely rain in February and in the beginning of March, accompanied by hail in certain districts, did some harm to the crops. The yield was, however, not unsatisfactory on the whole. The rainfall in every district of the Bhagalpur Division was much in excess of the normal, but it was so unseasonably and unequally distributed that it practically benefited no kind of crop. May was unusually rainy everywhere, but in June the rains held off completely, and the monsoon did not set in until the beginning of July. From the middle of that month until towards the middle of September the fall was very heavy; but with the exception of some rain in the third week of October in certain localities, there was very little rain in that month and none fell in November. The weather continued fine

up to the third week of January when there was generally good rain in the Division, but in Monghyr, Bhagalpur and the Sonthal Parganas it was accompanied by a severe hailstorm which caused much damage to the standing crops. The rainfall in February was exceptionally heavy for the season and that of March was also unusual. The general result on the harvests of the year was that the *bhadoi*, after suffering from want of rain in June, was seriously damaged by the excessive fall in July and August: the winter rice except where rain fell in the middle of October, suffered generally from the early cessation of the rains; while the *rabi* crops suffered from want of moisture at sowing time and later on from the heavy rain in February, and in certain tracts also from the hailstorm of the 22nd January. In Monghyr the heavy rains in July and August seriously damaged the *bhadoi* and prolonged flooding of the northern part of the district destroyed not only the *bhadoi*, but also the winter rice crops in a large part of that area. The *rabi* crop was much damaged by unseasonable rain in February. The same causes, as in Monghyr, operated in Bhagalpur and there were floods in the Madhipura and Sapaul subdivisions. Owing however to rain in the third week of October, the winter rice was nearly an average crop. In Purnea the harvests were on the whole better than in Bhagalpur, but the *bhadoi* and *rabi* were considerably below the average, owing to the heavy rain of July and August in the former case, and rain and cold in February in the latter. Maize and other *bhadoi* crops in the Sonthal Parganas suffered seriously, as elsewhere, from the heavy rain of July and August. The yield of the winter rice was decidedly poor in a good part of the district. The *rabi* crops suffered serious damage from the heavy rain in the spring and also, in part of the district, from hail. In Darjeeling the maize crop was poor throughout the district, and particularly so in the Kalimpong subdivision The winter rice was up to the average, but the *rabi* crops were poor. The outturn of opium which is grown in Monghyr and Bhagalpur was 75 and 90 per cent., respectively, as against 70 and 100 in the previous year Tobacco was a better crop than in the previous year. The cultivation of jute is being greatly extended in Purnea at the expense of rice and the crop was estimated at 91 per cent. as against only 81 in the preceding year. The outturn of indigo, the cultivation of which is gradually dying out, was generally poor. The yield of sugarcane, which is grown principally in Bhagalpur and the Sonthal Parganas, was on the whole satisfactory, especially in the latter district where it was a bumper crop. In Orissa the rainfall during the year was below the normal in all the districts, and the lowest in the quinquennium excepting that of 1901-02. Except in Sambalpur the *bhadoi*, the winter rice, and the *rabi* crops throughout the Division suffered on account of the scanty rainfall. It was deficient both at the sowing time and during growth. Over a great part of the Division the rains stopped early in October before the winter rice was in ear, and the outturn was diminished accordingly. A considerable area near the coast, however, received heavy rain in the latter part of October and here the winter rice gave a good yield. The distribution of the rainfall was also uneven and resulted in the loss of crops on high lands. The *rabi* in the Cuttack district was damaged to some extent by the rain of February 1906, which in Angul, however, is reported to have somewhat improved the *rabi*. The total rainfall of the year in Sambalpur was only slightly below the normal. It was not, however, evenly distributed, and want of rain in October led to some shortage in the crops. The rainfall of the year was in excess of the normal in the districts of Ranchi, Palamau and Singhbhum, and slightly below it in Hazaribagh and Manbhum. Its distribution, however, was everywhere most irregular and the crops suffered in consequence. The heaviest downfall was in the month of July, while there was very little rain in October, November and December, when the winter rice was ripenning. The *rabi* crops were much damaged by excessive rain and cloudy weather in January and February.

* * * * *

Prices of food and labour.

184. Appendix XXIX shows the average prices of the principal food-grains—rice, wheat, barley, gram and maize—and of salt for the past three years.

It will be seen that the prices of food-grains everywhere ruled much higher than in the preceding year except in the Sonthal Parganas where the price of common rice remained practically the same as before; in Balasore and Singhbhum there was a slight fall in the price of wheat, while in Angul it was stationary; the price of barley fell in the districts of Hooghly and Nadia, and in Singhbhum it was the same as in the previous year; in Khulna, Puri and Sambalpur there was a decline in the price of gram, while in Cuttack it remained the same as in the previous year; the price of maize continued to rise except in Manbhum where there was a very slight fall. The cause of the high price of rice in the Burdwan Division is attributed to exports in large quantities in consequence of the failure of crops in other parts of the country; the rise in price of other food-crops was due to the poor outturn. The short harvest in the districts of Backergunge and Burdwan prevented the usual importation of rice into the Presidency Division, and the result was a rise in the price of common rice as well as other food-grains. In the Patna Division the rise is attributed to the export of grains to other provinces where there has been scarcity rather than to any decrease in the local outturn during the year. The chief cause of the high level of prices in the Bhagalpur Division is said to be the heavy exports to Eastern Bengal and elsewhere In Darjeeling and the eastern part of Purnea, however, prices rose high before this export set in, and there they are attributed to local deficiency in outturn, the failure of the maize crop having been serious in part of Darjeeling and jute cultivation having largely extended in the Kissenganj subdivision of Purnea at the expense of rice.

Circumstances generally have been such as to lead grain merchants to hold up stocks. Owing to the low outturn of the *bhadoi* and winter rice crops in the Orissa Division and to large exports to other places beyond the Division, the price of rice ruled high throughout the year. The price of common rice in Ranchi was abnormally high owing to successive bad harvests. Wheat, gram and barley are generally imported to Ranchi from the Gaya district and their prices depend on the prices ruling there. In Hazaribagh the high prices of the principal food-grains are ascribed partly to a large export trade owing to higher prices elsewhere; and many cultivators are said to have held on to their stocks in the hope of higher prices later on. The rise in the price of barley and gram in the Manbhum district was due to the damage done to these crops by heavy rains. There was a fall in the price of salt throughout the province except in Sambalpur, and this is due to the reduction of the duty on this commodity.

185. Wages show an upward tendency in several localities. In Bankura the rise as in the previous year was due to the opening of the Bengal-Nagpur Railway which has given extra employment in the district and facilities for obtaining employment elsewhere. In Hooghly and Howrah the continued rise was due to the great demand for labour in mills and factories, and the same cause produced a similar result in the Barrackpore subdivision of the 24-Parganas. In the Diamond Harbour subdivision there was a large demand for common labourers in connection with the Mograhat-Kamrapekur drainage scheme. In Jessore and Khulna there was a considerable rise in the prices of labour during the year. The Collector of Jessore ascribes it to the rise in the prices of food-grain as well as to the *Swadeshi* movement which, it is said, has led many artisans and weavers to resume their former occupations in preference to working for wages. The Collector of Khulna attributes it to the rise in the prices of food-grains, to the greater demand for masons and carpenters, to the improvement in the general condition of the people and to the demand for labourers in the jute season. In the Patna Division the difficulty of obtaining unskilled labour at the old customary rates is becoming more and more apparent. This is probably due to the increase in the number of people who emigrate to large towns, or mills, or to places where railway construction work is in progress and where they can secure perhaps double the wages offered to them at home. In the town of Deoghur the wages of common masons and superior blacksmiths showed a slight rise owing to the extension of building operations that is taking place there and elsewhere along the chord line. There was a slight rise in Puri owing to the high price of rice and the demand for labour in the town. In Ranchi the wages of ordinary labourers rose owing to the demand for labour for the construction of the Ranchi-Purulia Railway line, and of several public buildings. Unskilled labour now earns three annas a day while on railway work four annas are paid In Manbhum also there was an upward tendency owing to the development of Railways and the coal industry and to increased commercial activity in other directions.

Material condition of the people (including inter-district immigration and emigration).

186. There was no appreciable change in the material condition of the people in the district of Burdwan. In Birbhum the lower classes suffered somewhat, as owing to the failure of the *rabi* crops they could not get as much local labour as usual, and wages remained the same, while the prices of food-grains rose considerably. The condition of the middle classes was fairly satisfactory. In Bankura the people are generally poor, all the zamindars except the Burdwan Raj are encumbered and consequently give very little assistance to their tenants, who are compelled, when necessary, to borrow money from the local *mahajans* at an exorbitant rate of interest The Commissioner states that the establishment of Co-operative Credit Societies will benefit such people immensely; two such societies have been created in this district, and he hopes the Collector will be able to induce the cultivators to start others. The condition of the people of Midnapore was good, though prices were comparatively high throughout the district towards the latter part of the year owing to large exports. The condition of the people generally in the Hooghly district continued satisfactory, except in portions of Arambagh, where a large tract is subject to periodical inundations. Many of the raiyats are heavily indebted. The weavers in Arambagh and other places did very well during the year owing to the greater demand for India-made cloth due to the *Swadeshi* movement. Heavy floods in the Hooghly and the Damodar rivers in July caused damage to the crops in parts of the Hooghly and Howrah districts The produce of food-grains was below the average and prices ruled higher than usual.

187. The material condition of the agricultural classes was not as satisfactory as in the previous year in the districts of the 24-Parganas, Nadia and Jessore. The rise in the price of food-grains was met in Jessore and Khulna by a rise of wages. In the Sadar subdivision of Jessore the rate of unskilled labour is reported to have risen from 5 annas to 8 annas a day. In Murshidabad the harvests were on the whole better than in the previous year, and there was no deterioration in the condition of the agricultural population. The Collector of Khulna says that the harvests in his district, though not so good as in the preceding year, were average, and the high prices were actually advantageous to the agriculturists. The condition of the labouring classes in the manufacturing centres in the 24-Parganas continued to be prosperous. Mr. Bernard notices the general immunity from disease enjoyed by these people, which he attributes to the improved sanitary conditions under which they live. Artisans and skilled labourers are much in request in the 24-Parganas, and their condition is generally satisfactory. The Collector reports that the condition of the middle landless classes is deteriorating for want of sufficiently remunerative employment. This remark, the Commissioner states, is probably equally true for other districts. The Collector of Nadia states that in the Kushtia subdivision the weaving industry received an impetus from the *Swadeshi*

movement and the weavers have prospered in consequence. He remarks that the whole body of artisans in his district constitute only 4·84 per cent. of the population, and the material condition of the people generally has not been much affected. The Collector of Jessore (Mr. B. C. Sen) also notices the effects of the *Swadeshi* movement on the district industries. He says:—

"The native weavers, who had given up their calling owing to competition of foreign piece-goods, resumed their former avocation in view of the sudden demand for cloths made in the country. The hand looms are now in full swing in some places, but there is yet no sign of improvement in the quality of the cloths manufactured, and unless cloths of equally good quality can be offered as cheap as foreign cloths, the movement is doomed to ultimate failure. The sugar industry at Kotchandpur, which was almost in a moribund condition, also received an impetus from the *Swadeshi* movement. The new industry of curing tobacco, started by Mr. Macleod, was in a flourishing condition. Another industry, that of manufacturing safety matches, which found a ready market, was started in the Narail subdivision, and is making fair progress."

There was an outbreak of cholera in the Diamond Harbour subdivision and in parts of the Basirhat and Barrackpore subdivisions in the 24-Parganas. The last named subdivision was also visited by an epidemic of small-pox, but plague, from which it had suffered in the previous year, was happily almost entirely absent. Apart from these visitations the district was healthier than usual. As usual, Nadia and Jessore suffered much from malarial fever. Plague appeared in an epidemic form in the town of Santipur in the former district and the latter was visited by cholera which claimed many victims.

188. The majority of the people in the Patna Division are dependent on agriculture or agricultural labour, and their material condition is consequently directly dependent on the vicissitudes of the season. The poor outturn of the *bhadoi* crops caused some distress, but as the winter paddy and *rabi* yielded a fair outturn, the year was not, on the whole, unfavourable for the agricultural classes, although the landless labourers and people of small means have suffered considerably on account of the high prices of food-grains which have ruled generally. The public health has, generally speaking, been up to the normal standard. Plague was of less extent and intensity than in former years, though the actual cases have in many places taken a very severe and fatal form. This disease was worst in the districts of Patna, Gaya, Shahabad and Saran. In Muzaffarpur and Darbhanga it was not so widespread. In Champaran there were only 34 cases of plague, but fever and cholera were responsible for about 36,000 deaths. There were also outbreaks of cholera in Gaya, Shahabad and Muzaffarpur. There was no change in the standard of living among the different classes of the community.

189. The condition of the people in the Bhagalpur Division has everywhere been depressed, while there has been considerable stress in certain tracts, particularly in the northern half of the Santhal Parganas and the adjoining portion of Bhagalpur, in the areas in North Monghyr and North Bhagalpur where the crops were to a great extent lost by prolonged inundation from the hill rivers, and in the eastern portion of the Darjeeling district. Added to this, the prices of food-grains maintained an exceptionally high level in the latter part of the year, and this caused much distress among the labouring class and those whose income is fixed. The rise came too late to benefit the agriculturists who had surplus produce to sell, except in the east of Purnea where prices were forced up early owing to the extension of jute cultivation at the expense of rice. The people there were enriched by the jute crop, and so could afford to pay a high price for their food. The strain has been greatest in the Santhal Parganas, where the harvests have been unsatisfactory for the past two or three years, and the *mahua* crop, which was being looked forward to relieve the tension, turned out most disappointing. But, as in the preceding year, a good outturn of lac, coupled with high prices, proved a compensating feature in the eastern portion of the district, and the stone quarries there have provided a certain amount of employment. In the Jamtara subdivision the poorer classes find a good demand for their labour in the coal-fields of adjoining districts. In the tracts that suffered from inundation in North Monghyr and North Bhagalpur, timely relief was afforded by advances under the Agriculturists' Loans Act, and also by a grant from Babu Ramlal Mukerjee's Fund. In the Government estates known as Rajanpur in the Madhepura subdivision the suspension of one-fourth of the rent demand until October next has been sanctioned. As regards Darjeeling, the late Deputy Commissioner, Mr. J. H. E. Garrett, left on record the following remarks:—

"All classes have felt the high prices which have ruled during the year, though the cultivators have suffered most. In the newly-surveyed tract of the Kalimpong khas mahal far more of the raiyats than usual emigrated for the cold weather seeking work."

Relief was afforded by advances under the Agriculturists' Loans Act in the Kalimpong subdivision—an unusual occurrence in the district of Darjeeling. In the towns of Bhagalpur, Monghyr and Jamalpur, and also in the rural portion of the Monghyr district, plague appeared in epidemic form, though the visitation was not quite so severe or prolonged as in the previous year. It caused much dislocation of business of all kinds and serious inconvenience to the people who deserted the infected localities in large numbers. In the Purnea district there was a severe outbreak of cholera in the autumn, but malarial fever worked much less havoc than in the preceding year.

190. In the Orissa Division the condition of the people on the whole was not unsatisfactory, although the year was not a prosperous one from an agricultural point of view. The outturn of the *bhadoi* and winter crops, though below the average and partially depleted by exports, was sufficient to meet the consumption of the people. Substantial cultivators who had stocks of food-grains from previous years or who reaped more paddy than they

required for their own consumption gained considerably by disposing of their surplus stocks at high prices. Partial failure of the crops owing to deficient rainfall and its uneven distribution necessitated the grant of *takavi* advances in Balasore and Angul, to enable the tenants of the affected tracts to tide over the difficulty of growing crops for the next season. In the villages situated in the Government estate of Khurda, where the crops failed, the tenants will have to be granted remissions of rent, either wholly or in part, according to the circumstance of each villager. Several works of improvement in these villages were sanctioned in order to afford work to the poorer classes. The areas in which the failure was such as to leave the people nothing to sell were comparatively limited. The landless classes, however, were undoubtedly more than usually pinched, for the wages of labour do not readily respond to fluctuations in prices. There has been no material change in the people's standard of living. The material condition of the people of the Sambalpur district was, it appears, much better than that of other parts of the Division. The crops were fair, and though the better prices obtained for them stimulated exports, it is believed that a sufficient stock is maintained in the district for its own requirements.

191. On the whole the people of the Chota Nagpur Division were fairly prosperous. The passing of the amendment of the Chota Nagpur Tenancy Act which prohibits private sales of agricultural holdings, has had a considerable effect, not only directly, but also in reducing the borrowing power of the raiyats; and as this power was usually exercised by the aboriginal tribes in order to launch out into useless and unnecessary expenditure at marriages and other festivals, its restriction has done much good. High prices would have caused some distress in Hazaribagh but for a very abundant *mahua* crop and an ample demand for labour at the coal and mica mines and on the Gaya-Katras Railway line. Advances under the Agriculturists' Loans Act were given to relieve distress caused by frost during the winter of 1904-05. Mr. Lyall writes as follows regarding the Palamau district:—

"The material prosperity of the district as judged by that of the khas mahals has never been so high, for while prior to last year, the utmost we have been able to collect on account of rent was Rs. 78,572. this year no less than Rs. 1,11,615 was realized, and that without any very great difficulty * * * * There has been an undoubted improvement in general prosperity. Labour is more difficult to secure and more expensive. Bazars settle at higher rates."

In Manbhum and Ranchi the construction of the Ranchi-Purulia Railway afforded work to a large number of the labouring classes. The coal-mines of the former district gave employment to 27,703 labourers. The year was a prosperous one in Singhbhum owing to the good harvests. Plague prevailed sporadically over a considerable area in Palamau. There was also an outbreak in Jheria which, however, was promptly dealt with and suppressed.

192. The immigration of Sonthals and other aborigines into Hooghly and Burdwan for cultivation and work in the coal-mines and brick-fields continued. There was no immigration into Bankura, Birbhum and Midnapore. The number of registered emigrants with dependants who went from Bankura to the Assam tea-gardens was 27 as against 233 in the previous year. The closing of a depôt for the recruitment of coolies by garden sardars under class IV and the special facilities for free emigration under Chapter V of the Emigration Act, account for the decrease in the number of emigrants recruited under Chapter III. The Collector of Midnapore reports that recruitment of coolies to Assam was carried on entirely by free recruiters working under section 92 of Act VI of 1901. As in previous years, a number of emigrants from Chota Nagpur and the Sonthal Parganas came to the Sundarbans tracts and other parts of the 24-Parganas. Some of them settled permanently in the Sundarbans. Sonthals in large numbers went to Murshidabad for earthwork on the railway. There is practically no immigration in the Patna Division. In Champaran there was a fair influx of labourers from other districts for work on the Tribeni Canal and the railway lines. A large number of labourers go to Assam and Eastern Bengal from the North Gangetic districts and Shahabad, but they return home after a few months. Another important form of emigration from the district of Shahabad, is to two grants in Burma, held by Mr. Mylne of Bahea and Babu Hari Har Singh of Dumraon. A considerable number of families are sent yearly by these gentlemen to colonise their grants, and plenty of candidates are apparently available. The emigrants are said to be doing well there. In the Sonthal Parganas no less than 1,184 emigrant coolies were registered for employment in the tea districts as against 704 in the preceding year, the marked increase being due to hard times, while in Monghyr only 36 emigrants were registered as against 98, the falling-off being due to the outbreak of plague during the recruiting season. As usual, a large number of pilgrims visited Puri throughout the year, and more specially during the *Dol* and *Rathjatra* festivals. There was also a great rush of pilgrims on the occasion of the *Raghunath Besh* in April 1905. A few families came from the districts of Gaya and Monghyr and settled in the district of Hazaribagh. There is no immigration into other districts of the Chota Nagpur Division except of labourers who come to work in the mines or on the railways. Including dependants, 6,083 persons were registered as emigrants from the Chota Nagpur Division to Assam to labour in the tea-gardens there. This number does not include those sent from Palamau, for which district no figures have been received, nor does it include the larger number of residents of the district who were somehow or other induced to go to Asansol or Raniganj and were registered there. Cases of fraudulent recruitment are unfortunately not rare. The emigration to the Duars, Calcutta, etc., was on the usual scale.

WEATHER AND CROP REPORT.

For the week ending the 26th November 1906.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	BURDWAN ...	Nil	8	8	Weather seasonable. Sowing of *rabi* and harvesting of early winter rice going on. Condition of sugarcane good. No cattle-disease. Fodder and water sufficient.
2	BIRBHUM ...	Nil	9†	7½	Standing crops doing well. Old common rice selling at 7½ seers a rupee. No cattle-disease. Fodder and water sufficient.
3	BANKURA ...	Nil	9½†	9½†	Weather seasonable. Standing crops doing well. Old common rice selling at 8½ seers a rupee. No cattle-disease. Fodder and water sufficient.
4	MIDNAPORE ...	Nil	9	9	Weather seasonable. Sowing of *rabi* crops commenced. Prospects good. Fodder and water sufficient.
5	HOOGHLY ...	Nil	6½	6½	Weather seasonable. Prospects of winter paddy and sugarcane fair. Reaping of winter paddy commenced and sowing of *rabi* crops going on in Arambagh. No cattle-disease. Fodder and water sufficient.
6	HOWRAH ...	Nil	7	7	Harvesting of winter paddy commenced. Standing crops doing well. Common rice selling at 7¼ seers at Ulubaria. No cattle-disease. Fodder and water sufficient.
7	24-PARGANAS	Nil	8	8	Weather seasonable. Sowing of *rabi* crops going on and harvesting of early *aman* begun. State of standing crops good. Prospects of sugarcane and winter rice good. Total number of persons on relief during the week in different thanas—Tollygunge 158, Vishnupur 1,328, Behala 92, Canning 360, Baruipur 1,530, Falta 1,014, Sonarpur nil, Mahestala nil, Mograhat 1,859, Diamond Harbour 322, Mathurapur 77, Kulpi 223, Joynagar 2,407, Dum-Dum 70, Khardaha 89, Barrackpore 30. Condition of cattle good. Fodder and water sufficient.
8	NADIA ...	Nil	8	8	Prospects of standing crops good. Winter rice being harvested. Sowing of *rabi* crops still going on. No cattle-disease. Fodder and water sufficient.
9	MURSHIDABAD	Nil	7	7	Weather seasonable. Prospects of standing crops favourable. Sowing of *rabi* crops continuing. *Aman* paddy being reaped. No cattle-disease. Fodder and water sufficient.
10	JESSORE ...	Nil	7½	7⅝	Weather seasonable. Sowing of *rabi* crops going on. Harvesting of *aman* commenced. Condition fair. High prices and slight distress. Fodder and water sufficient. No cattle-disease.

† New rice.

		Inches.			
11	KHULNA ...	Nil	8½	8½	Weather seasonable. Transplantation of summer rice continuing. No cattle-disease. Fodder and water sufficient.
12	PATNA ...	Nil	7½ 11½*	7½ 11½*	Weather cold. Sowing of *rabi* crops approaching completion. Harvesting of paddy and pressing of sugarcane continuing. No cattle-disease. Fodder and water for cattle sufficient.
13	GAYA ...	Nil	9 3/16† 13 5/16*	9 3/16† 12 13/16*	Weather cold and clear. Harvesting of paddy and pressing of sugarcane going on. *Rabi* crops doing well. Prices stationary. No cattle-disease reported. Fodder and water for cattle sufficient.
14	SHAHABAD ...	Nil	9¾† 12½*	10† 12*	Harvesting of paddy in progress. Sugarcane-pressing continuing. *Rabi* crops germinating. Old common rice selling at 8 seers per rupee at Sadar, and makai selling 14½ seers a rupee at Sasaram. No cattle-disease. Fodder and water sufficient.
15	SARAN ...	Nil	9 11½*	8½ 12*	Weather seasonable. Paddy being harvested. Pressing of sugarcane and sowing of poppy going on. Rain wanted for *rabi* crops. 26 men, 121 women, and 142 children on average daily relieved at kitchens food from the District Board funds in the Siwan subdivision; 73 men, 142 women, 193 children gratuitously relieved by the Hathawa Raj. No person on the District Board test-relief works during the week owing to the rate of wages having been reduced. 48 men, 38 women, and 35 children on average daily on the Hathwa Raj relief-works. No cattle-disease. Fodder and water sufficient.
16	CHAMPARAN ...	Nil	8½ 11½*	8½ 11*	Weather slightly hot in the day, but cold at night. *Rabi* sowings in progress. Germination good. Rain wanted for *rabi* crops. Poppy sowings in full sowing. About balance in exports and imports of food-grains since 15th October. Ordinarily exports much in excess at this season. Small-pox among cattle reported in four villages of Dhanaha in the Bettiah subdivision. Fodder and water sufficient.
17	MUZAFFARPUR	Nil	7 12½*	7 11½*	Weather seasonable. Harvesting of paddy commenced. *Rabi*-sowings approaching completion. Common rice and maize selling at 7½ and 11½ seers a rupee, respectively, at Sitamarhi, and 7¾ and 11½ seers a rupee, respectively, at Hajipur. Test-works and kitchens going on; but numbers decreasing. Daily average for gratuitous relief 4,419. Number of persons on test-works on the 24th instant—Katra 8, Helsand 135, Sursand 33, and Ranisayedpur 58. Cholera practically died out in Sitamarhi and decreasing in the Sadar subdivision. No cattle-disease. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.
† New rice.

		Inches.			
18	DARBHANGA ...	Nil	6 12*	6 12*	Weather seasonable. Sowing of *rabi* crops still going on. Number of persons relieved at kitchens on the last day of the week—Sadar thana 2,100, Bahera thana 5,280, Roserha thana 10,069, Madhubani subdivision 1,461, Samastipur subdivision 231. Number of persons on test-works for the last day available—Manihas 65, Ojhoul 290, Dudhia 607, Pindaruch 1,127, Basaitha 666, Ratwara 344, Warisnagar 443, Hathourighat 168, Sakarlohra 805, Gangdah 491, Muzi Road 477, Larjaghat 109, Sakar 2, Lagna 776, Balha 3,718, Dasauth 873, Bagmati Bund 556, Ithor 1,821, Tolaparsa 1,137. Cholera reported from Madheypur in the Madhubani subdivision. One authenticated case of plague occurred in Rosera poor-house and no further cases reported. No cattle-disease. Fodder and water sufficient.
19	MONGHYR ...	Nil	7 11½*	7 11½*	Prospects of winter rice fair, but more rain wanted. Sowing of *rabi* crops continuing. High prices continuing unchanged. Cattle-disease reported from thanas Surajgarh and Berbigha. Fodder and water sufficient.
20	BHAGALPUR ...	Nil	8 11½*	8 11½*	Weather seasonable. *Aghani* paddy being harvested. Outturn fair. Sowing of *rabi* crops nearly finished. Rain reported to be badly needed for *rabi* crops in the Supaul subdivision. *Kurthi* doing excellently. Cholera reported from thanas Supaul and Pertabganj and cattle-disease reported from thanas Madhipura and Pertabganj. Fodder and water sufficient.
21	PURNEA ...	Nil	6½	6½	Weather seasonable. Harvesting of *aghani* paddy going on. Paddy on high lands damaged on account of drought. Prospects not favourable at places. *Rabi* sowings going on, but rain urgently required. Cattle-disease reported from Islampore thana. Fodder and water sufficient.
22	DARJEELING ...	Nil	6 12*	6 11*	Weather cold. Hills—Wheat, barley and mustard in fair state. Winter and *bhadoi* rice and *marua* being harvested. Terai—Cutting of winter rice commenced, sowing of mustard finished. Tobacco being transplanted.
23	SONTHAL PARGANAS.	Nil	11 16½*	12 8/16 16½*	Weather seasonable. Harvesting of early winter rice commenced. No cattle-disease. Fodder and water sufficient. Deoghur report not received.
24	CUTTACK ...	Nil	10½	10½	*Laghu saradh* ripening. *Guru saradh* in ear. Early cotton being plucked. Sugarcane growing well. No cattle-disease. Fodder and water sufficient
25	BALASORE ...	Nil	10	10	Weather cold. *Saradh* ripening. Sugarcane and vegetables doing well. *Rabi* sowings continuing. No cattle-disease. Fodder and water available.
26	ANGUL ...	Nil	11½	11½	Weather cold. Harvesting of winter rice in full swing. *Rabi*, sugarcane and other crops doing well. No cattle-disease. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.

		Inches.			
27	PURI ...	Nil	9 1/8	8½	Weather seasonable. Sugarcane and *rabi* crops getting on well. *Sarad* in ear. *Laghu* paddy being reaped. Miscellaneous crops doing well. Small-pox reported from Khurda and Bhubaneswar. Fodder and water sufficient. No cattle-disease.
28	SAMBALPUR ...	Nil	11½	11	Weather cool and occasionally cloudly. Threshing of autumn rice continuing. Reaping of winter rice and harvesting of cotton and *maghi til* in progress. Condition of standing crops good. Out-turn of *bahal* paddy estimated at 105 to 120 per cent. No cattle-disease. Fodder and water sufficient.
29	HAZARIBAGH ...	...	10	10	Prospects of standing crops good. Harvesting of paddy going on. Cattle-disease reported from two thanas. Fodder and water sufficient.
30	RANCHI ...	Nil	11⅓	11¼	Weather seasonable. Harvesting of paddy continuing. State of standing crops good. Cattle-disease reported from Lohardaga thana. Fodder and water sufficient.
31	PALAMAU ...	Nil	10 1/8*	11¼*	Weather seasonable. Harvesting of winter rice going on. Pressing of sugarcane commenced. *Rabi* crops doing well. A few cases of cattle-disease reported. Fodder and water abundant.
32	MANBHUM ...	Nil	9½	9½	Weather seasonable. Prospects of crops good. Cattle-disease not reported. Fodder and water sufficient.
33	SINGHBHUM ...	Nil	9	9	Harvesting of winter paddy continuing. Common rice selling at 12 seers a rupee at Seraikella and Kharsawan. Cattle-disease reported from thana Chakradharpur and outpost Bahragora. Fodder and water sufficient.
34	COOCH BEHAR	Nil	6 2/3	6 2/3	Weather seasonable. Transplantation of tobacco seedlings and sowing of mustard continuing. Prospects of *aman* paddy fair. Cattle-disease reported from thanas Mathabhanga and Meckliganj. Fodder and water sufficient.

* New rice.

GENERAL SUMMARY.—There was no rain in the Province during the week. Sowings of *rabi* crops still continue. Rain is reported to be needed for them in Saran, Champaran, Monghyr, Bhagalpur and Purnea. Harvesting of winter rice has commenced in places. Paddy on high lands has suffered from drought in Purnea. Sugarcane is being pressed in parts of Bihar. The number of persons receiving gratuitous relief is:—24-Parganas 9,559, Saran 697, Muzaffarpur 4,419, Darbhanga 19,141,—total 33,816. The number of persons attending test-works is—Saran 121, Muzaffarpur 234, Darbhanga 14,476—total 14,831. Cattle-disease is prevalent in nine districts. Fodder and water are sufficient. Cholera still continues in parts of Muzaffarpur and Bhagalpur, and is also reported from Darbhanga. Small-pox has made its appearance in Puri. The price of common rice has risen in four and fallen in six districts.

C. A. OLDHAM,

Director of Agriculture, Bengal.

The total fall of rain from 18th to 24th November 1906	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·01
The total fall from 1st January to 24th November 1906	57·19
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·27

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

O, overcast. ☁, dow.

C. W. PEAKE,
for *Director-General of Observatories.*

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 26th November 1906.

NOTIFICATION.

No. 4252A.—The 28th November 1906.—In exercise of the power conferred by clause B of Regulation II of the Regulations made under section 1, sub-section (4), of the Indian Councils Act, 1892, for Bengal, as amended by notification No. 2781, dated the 29th November 1899, the Lieutenant-Governor is pleased to prescribe the Municipalities of Cuttack, Jajpur, Kendrapara, Balasore, Puri and Sambalpur in the Orissa Division, and of Hazaribagh, Chatra, Giridih, Ranchi, Daltonganj, Purulia and Chaibassa in the Chota Nagpur Division, as the groups of Municipalities on whose recommendation he will, after the 18th January next, make a nomination to one seat in the Bengal Legislative Council.

Orissa and Chota Nagpur Divns.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT.

NOTIFICATIONS.

Singhbhum. *No. 3221For.—The 28th November 1906.*—Mr. Gokul Chandra Chatterjee, Officiating Extra Assistant Conservator of Forests, was attached to the Singhbhum Forest Division from the 3rd to the 14th November 1906.

Murshidabad. *No. 3219L.R.—The 27th November 1906.*—Whereas an application has been made by the Nawab Bahadur of Murshidabad, the proprietor of eight-annas share of estate Fatehsingh, bearing tauzi No. 254, so far as it is ijmali with tauzi No. 253 of the Murshidabad Collectorate, for a survey and preparation of a record-of-rights in respect of all lands situated in the undermentioned nine ijmali villages of that estate, and whereas the estimated cost of the operation is covered by the deposits already made by the Nawab Bahadur:

In exercise of the powers conferred by section 101 (2) (*a*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C) of 1898, the Lieutenant-Governor of Bengal is pleased to order that a survey shall be made and a record-of-rights prepared in respect of all lands included within the boundaries of the undermentioned villages in the district of Murshidabad appertaining to the said estate.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) the name of each tenant or occupant;

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(*c*) the situation, quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) the name of each tenant's landlord;

(*e*) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid and the customary terms according to which such rent is paid;

(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court or otherwise;

(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(*h*) the special conditions and incidents, if any, of the tenancy;

(*i*) if the land is claimed to be held rent-free, whether or not rent is actually paid and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(*j*) the name of each proprietor (including rent-free owner) with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act;

(*k*) the custom of the village regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

District Murshidabad.

(1) Araji Chandpara, (2) Jetpur Chak in Rajarampore, pargana Kaufanagor, (3) Chak Kalayanpur *alias* Gope Mahal in Khorsa, (4) Chak Hamidpur and Gangedda in Bithi Gangedda, (5) Bhobanandapur, (6) Hazipur, (7) Chak Hazipur in Palia, (8) Chak Santoshpur in Saiyad Koolata, (9) Kashipur.

Hazaribagh. *No. 3224L A.—The 28th November 1906.*—Declaration No. 143R., dated the 7th June 1904, published at page 865, Part I of the *Calcutta Gazette* of the 8th idem, regarding the acquisition of land for brick-fields at mile 73 of the Gaya-Katras Railway, in the village of Bara Seraiya, in the district of Hazaribagh, is hereby cancelled.

Midnapore. *No. 3225L.R.—The 29th November 1906.*—On a report submitted by the Board of Revenue under section 13 of the Bengal Embankment Act, II of 1882, the Lieutenant-Governor, under section 14 of the Act, was pleased to order, in Notification No. 3890T.R., dated the 5th October 1905, published at page 1769, Part I of the *Calcutta Gazette* of the 11th idem, that a sluice should be constructed and certain drainage channels excavated for the protection of the cultivable lands within the Argoal Circuit, in the district of Midnapore, at an estimated cost of Rs. 1,29,193. This

estimate having subsequently been considerably modified, fresh proceedings have been taken under sections 8 to 12, and a fresh report has been submitted under section 13, of the said Act. The following order is therefore issued in supersession of the notification of 5th October 1905, cited above under section 14 of the Bengal Embankment Act, II of 1882:—

Whereas it appears to the Collector of Midnapore that a sluice should be constructed and certain drainage channels excavated, under section 7 (4) of the Bengal Embankment Act, 1882 (Bengal Act II of 1882), for the protection of the cultivable lands within the Argoal Circuit, in the district of Midnapore, and the Collector, after holding an enquiry under section 10 of the said Act, has submitted a report in favour of the execution of the works; and whereas the Collector's report has received the support of the Commissioner of the Burdwan Division and of the Board of Revenue, by whom it has been submitted for the consideration of the Lieutenant-Governor: now, therefore, the Lieutenant-Governor having considered the said report and the Board's recommendation, is pleased to order, under section 14 of the said Act, that the said sluice shall be constructed and the drainage channel shall be excavated, at an estimated cost of Rs. 1,53,535, in accordance with the plans prepared by the Executive Engineer, Balasore Division, and approved by the Chief Engineer, Irrigation Department.

Midnapore.

No. 3227L.R.—The 30th November 1906.—Babu Prafulla Chandra Ghose, Sub-Deputy Collector, now employed as an Assistant Settlement Officer, Midnapore, is allowed leave for six weeks, under article 260 of the Civil Service Regulations, with effect from the 2nd November 1906, or any subsequent date on which he may avail himself of it.

Hooghly.

No. 3230L.R.—The 29th November 1906.—In exercise of the powers conferred by section 101 (2) (*a*) of the Bengal Tenancy Act (VIII of 1885), as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included in estate Bajoh Pattey, tauzi No. 684, in the district of, Hooghly.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) the name of each tenant or occupant;

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(*c*) the situation, quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) the name of each tenant's landlord;

(*e*) the money-rent payable at the time the record-of-rights is being prepared; or if a produce-rent, the fact that a produce-rent is paid, and the customary terms according to which such rent is paid;

(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;

(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(*h*) the special conditions and incidents, if any, of the tenancy;

(*i*) if the land is claimed to be held rent-free, whether or not rent is actually paid and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(*j*) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands as defined in Chapter XI of the Act;

(*k*) the custom of the village regarding the methods of irrigation and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

Hooghly.

No. 3231L.R.—The 29th November 1906.—In exercise of the powers conferred by section 101 (2) (*a*) of the Bengal Tenancy Act (VIII of 1885), as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included in estate Howrah Chur, tauzi Nos. $\frac{3993}{A}$, $\frac{3993}{C}$ and $\frac{3993}{D}$, in the district of Hooghly.

2. The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) the name of each tenant or occupant;

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(*c*) the situation, quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) the name of each tenant's landlord;

(*e*) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid and the customary terms according to which such rent is paid;

(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;

(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(*h*) the special conditions and incidents, if any, of the tenancy;

(*i*) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(*j*) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act;

(*k*) the custom of the village regarding the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

Hooghly.

No. 3232L.R.—The 20th November 1906.—In exercise of the powers conferred by section 101 (2) (*a*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included in estate Narendrapur, tauzi No. 2884, in the district of Hooghly.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) the name of each tenant or occupant;

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of the tenure;

(*c*) the situation, quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) the name of each tenant's landlord;

(*e*) the money-rent payable at the time the record-of-rights is being prepared, or, if a produce-rent, the fact that a produce-rent is paid, and the customary terms according to which such rent is paid;

(*f*) the mode in which that rent has been fixed, whether by contract, by order of a Court or otherwise;

(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(*h*) the special conditions and incidents, if any, of the tenancy;

(*i*) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(*j*) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act;

(*k*) the custom of the village regarding the methods of irrigation and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 3255L.R.—The 3rd December 1906.—In exercise of the powers conferred upon him by section 101 (1), Bengal Tenancy Act, VIII of 1885, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to direct that a survey shall be made and a record-of-rights be prepared in respect of all lands included in the undermentioned 52 villages in pargana Magura, in the district of the 24-Parganas.

24-Parganas.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

No. 7429, dated Calcutta, the 30th November 1906.—Babu Radha Raman Ghosh, 3rd-grade Assistant Surgeon, is appointed to do supernumerary duty in the Medical College Hospital, Calcutta, until further orders, with effect from the 26th November 1906.

A. M. CROFTS, COL., I.M.S.,
Offg. Inspector-General of Civil Hospitals, Bengal.

ECCLESIASTICAL.

The 3rd December 1906.

THE Reverend Basil Saunders Dyer, B.A., Chaplain of Saidpur, has been appointed by the Right Reverend the Lord Bishop of Calcutta a Surrogate for granting Episcopal Licenses of marriage within the Diocese of Calcutta.

H. G. PEARSON,
Registrar.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 27th November 1906.—Babu Srinibas Singh, Sub-Inspector of Schools, Angul (Class VI), is allowed leave of absence for three months, under article 260 of the Civil Service Regulations, with effect from the 3rd December 1906, or such subsequent date as he may avail himself of it.

Babu Ananta Misra, Education Clerk in the office of the Deputy Commissioner of Angul, is appointed to act as a Sub-Inspector of Schools, Angul, and in Class VIII of the Subordinate Educational Service, during the absence, on leave, of Babu Srinibas Singh, or until further orders.

The 28th November 1906.—Miss L. Slane, an Assistant Mistress in the Dow Hill Girls' School, Kurseong, on probation (substantively *pro tempore* in Class VII), is allowed leave of absence from 15th to 30th November 1906, under article 336 of the Civil Service Regulations.

The 20th November 1906.—Babu Bipin Behari Chatterjia, B.A., an Assistant Master in the Hare School (Class VIII), is allowed leave of absence for two months, under article 336 of the Civil Service Regulations, in extension of the leave granted to him under the orders of the 10th October 1906.

Miss E. Phillips, an Assistant Mistress in the Dow Hill Girls' School, Kurseong (Class VI), is allowed leave of absence from the 17th to 30th November 1906, under article 339 of the Civil Service Regulations.

Babu Harihar Charan, B A., Assistant Master (Science Teacher), Patna Collegiate School (substantively *pro tempore* in Class VIII), was absent on leave for six days, under article 272 of the Civil Service Regulations, with effect from the 12th November 1906.

Maulvi Abdul Latif, B A, Deputy Inspector of Schools, Jessore (Class IV), is allowed leave of absence for five months, viz, two months under article 260 of the Civil Service Regulations and three months under article 337 of the Civil Service Regulations, in extension of one month's leave under article 260 of the Civil Service Regulations, granted to him under the orders of the 31st October 1906.

Babu Hari Charan Mukerjee, Sadar Sub-Inspector of Schools, Nadia (Class V), is appointed to act as Deputy Inspector of Schools, Jessore, during the absence, on leave, of Maulvi Abdul Latif, or until further orders.

The 4th December 1906.—Babu Surendra Mohan Guha, a clerk in the office of the Inspector of Schools, Patna Division, on a salary of Rs. 25 a month, acted as Head Clerk of the same office and in Class VIII of the Subordinate Educational Service, during the absence, on privilege leave, of Babu Giris Chandra Nandi from the 6th to the 23rd April 1906, both days inclusive.

Babu Raj Krishna Basu, an assistant in the office of the Director of Public Instruction (Class III), is allowed leave of absence for three months, under article 260 of the Civil Service Regulations, with effect from the 2nd January 1907, or the date on which the office re-opens after the Christmas holidays.

He is also permitted to prefix the Christmas holidays to his leave under article 220 of the Civil Service Regulations.

A. EARLE,
Director of Public Instruction, Bengal.

Orders by the Hon'ble the Vice-Chancellor and Syndicate of the Calcutta University.

L. M. S. Examination—15th April 1907 and following days.
F. E. Examination 15th April 1907 and following days.
B. E. Examination—8th July 1907 and following days.

2. With effect from March 1907, Bankura has been appointed a centre for holding the Entrance Examination of this University.

SENATE HOUSE,
The 29th November 1906.

C. LITTLE,
Registrar.

NOTIFICATION.

Annual Examination of Pleaders in Surveying.

1. The next Survey Examination for Pleaders will be held in February 1907.

2. Applications for admission to appear at the examination should in the first place be submitted to the District Judge in whose Court or in Courts subordinate to whom the Pleader ordinarily practises. The District Judge will require evidence from all applicants that they have undergone some training in practical surveying. He will not countersign the application of a candidate who fails to satisfy him on this point; nor will such a candidate be permitted to appear at the examination.

3. Candidates whose applications have been countersigned by the District Judge must submit their applications to the Director of Public Instruction, and these must be received on or before the 15th December 1906. After this date no more applications will be received.

4. The application should state the centre at which the candidate intends to appear, and all particulars as to the length of time the applicant has practised in the Court, and the full address, etc, necessary to secure that letters will reach the applicant.

5. Each application should be accompanied by the prescribed fee of Rs. 30,* which will in no case be refunded.

6. Only pleaders practising in one of the Courts of the Province of Bengal will be eligible for the examination.

7. The examination will be held at three centres, viz., Patna, Cuttack and Sibpur.

8. The subjects for examination are noted below:—

(1) Paper on General Elementary Surveying, including the theodolite and levelling.
(2) Practical examination in the field in—

(*a*) Chain, and chain and compass surveying.
(*b*) Plane-tabling.
(*c*) Plotting.
(*d*) Levelling.
(*e*) The use of the theodolite and the permanent and temporary adjustment of instruments.

9. Candidates are required to secure 40 per cent. of the marks in the paper on surveying and 50 per cent. in the practical portion of the examination.

10. The rules regarding the Pleaders' Survey Examination were published in the *Calcutta Gazette* of the 28th September 1904.

11. The programme for the examination will be published in the *Calcutta Gazette*.

CALCUTTA,
The 14th November 1906.

A. EARLE,
Director of Public Instruction, Bengal.

* The fee must be deposited in the Bank or local Treasury, and the receipt for the same should accompany the application. On no account will cash or a money-order be received.

PRACTICAL SURVEYING EXAMINATION FOR PLEADERS.

FORM OF APPLICATION.*

To

THE DIRECTOR OF PUBLIC INSTRUCTION, BENGAL.

SIR,

I REQUEST permission to appear at the Survey Examination for Pleaders to be held in February 1907, under Government Order No. 2047J.—D., dated 9th October 1901.

The Treasury receipt for Rs. 30 paid as fee is sent herewith.

I wish to be examined at the centre.

I have the honour to be,

SIR,

Your most obedient servant,

Dated

Particulars to be filled up by the Candidate.

(1) Name.
(2) Father's name.
(3) Residence.
(4) Name of the district where the candidate is practising as a Pleader.
(5) Date of obtaining the B.L. Degree, or of passing the Pleadership examination.
(6) Where the candidate wishes to be examined.
(7) Caste or creed.

* The application is to be submitted through the District Judge in whose Court or in Court subordinate to whom the candidate ordinarily practises as a Pleader.

Programme of Practical Examination for Pleaders at the Sibpur, Patna and Cuttack Centres.

Day.	Date.	Hour.	Subject.	Full Marks.	Remarks.
Monday	18th Feb. 1907	10 A.M. to 1 P.M.	Question-papers .	100	In the Examination Hall.
			Chain and Compass Surveying.	100	
Tuesday	19th ,, ,, and subsequent days.	4-hour periods morning and afternoon.	Plane-table Surveying ...	100	In the Field.
			Levelling	100	
			The use of the theodolite and the adjustment of instruments.	100	
			Plotting	100	In the Examination Hall.

Each practical test should be suitable for a single uninterrupted period of four hours.

The order and times of the practical tests will depend on the number of candidates to be examined. They will be arranged for each centre by the officer conducting the examination as he thinks fit. They may be altered during the examination as occasion may arise. Candidates are therefore warned to find out on completing each test when their attendance will be next required.

Candidates must bring their own drawing instruments, scales, etc., each day with them. Paper, drawing-boards and field-books will be supplied.

Surveying instruments will be issued to candidates, who will be held responsible for any damage done to them. Tapes will not be supplied, but may be brought by the candidates, if they wish to use them.

CALCUTTA,
The 14th November 1906.

A. EARLE,
Director of Public Instruction, Bengal.

THE CIVIL ENGINEERING COLLEGE, SIBPUR.

THE following courses of instruction are provided at this College.—

On or about Tuesday, 5th February	1907 ...	2,200	2,200	4,400
On or about Tuesday, 5th March	„ ...	2,200	2,200	4,400
On or about Tuesday, 2nd April	„ ...	2,200	2,200	4,400
On or about Wednesday, 1st May	„ ...	2,200	2,200	4,400
On or about Tuesday, 4th June	„ ...	2,200	2,200	4,400
On or about Tuesday, 2nd July	„ ...	2,200	2,200	4,400
On or about Tuesday, 6th August	„ ...	2,200	2,200	4,400
On or about Wednesday 4th September	„ ...	2,200	2,200	4,400
On or about Thursday, 3rd October	„ ...	2,200	2,200	4,400
On or about Friday, 1st November	„ ...	2,200	2,200	4,400
On or about Tuesday, 3rd December	„ ...	2,200	2,200	4,400
Total	...	24,200	24,200	48,400

By order of the Board of Revenue, L. P.,
R. B. MISRA, *Offg. Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 1st December 1906.*

No. 7054B.

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1907, will consist of about 26,400 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 26,400 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1904-1905 and 1905-1906 in the proportion marginally noted.

OPIUM.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Opium manufactured at the Patna Factory.

		Chests.
Supply from 1904-1905	...	20,868
Ditto 1905-1906	...	5,532
Total	...	26,400

Opium manufactured at the Ghazipur Factory.

		Chests.
Supply from 1904-1905	...	15,895
Ditto 1905-1906	...	10,505
Total	...	26,400

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazipur Factories which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates, should circumstances render it expedient to do so. In accordance with the Notification of the Government of India, No. 3494A., dated 22nd June 1906, 2,200 chests of Patna and 2,200 chests of Benares opium will be sold monthly from January to December 1907:—

DATES.			Chests manufactured at the Patna Factory.	Chests manufactured at the Ghazipur Factory.	Total chests.
			2	3	4
On or about Thursday, 3rd January	1907	...	2,200	2,200	4,400

On or about Wednesday, 1st May	,,	...	2,200	2,200	4,400
On or about Tuesday, 4th June	,,	...	2,200	2,200	4,400
On or about Tuesday, 2nd July	,,	...	2,200	2,200	4,400
On or about Tuesday, 6th August	,,	...	2,200	2,200	4,400
On or about Wednesday, 4th September	,,	...	2,200	2,200	4,400
On or about Thursday, 3rd October	,,	...	2,200	2,200	4,400
On or about Friday, 1st November	,,	...	2,200	2,200	4,400
On or about Tuesday, 3rd December	,,	...	2,200	2,200	4,400
	Total	...	26,400	26,400	52,800

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which, provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money. Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is ... reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remains a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1905-1906, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

R. B. MISRA,
Offg. Secretary.

CALCUTTA,

IT is hereby notified for general information that under Rule 21 (*b*) of the Manual of Rules for the management of Charitable Hospitals and Dispensaries in Bengal, the following gentlemen are appointed to be members of the Committee for the management of the Charitable Dispensary at Nandigram, in the district of Midnapore:—

(1) The Civil Surgeon of Midnapore ...
(2) The Subdivisional Officer of Tamluk ... } *Ex-officio.*
(3) The Sub-Registrar of Nandigram ...
(4) The Sub-Inspector of Schools ...
(5) Naib, Maisadal Estate.
(6) Maulvi Mir Khandar Ali.
(7) Munshi Pahar Khan.
(8) Babu Bir Narain Jana.
(9) „ Jagannath Panda.
(10) „ Chandi Charan Jana.
(11) „ Monmatha Nath Kar.
(12) „ Giris Chandra Das.
(13) „ Fakir Chandra Das.

[*Reprinted from the "Gazette of India" of the 1st December 1906.*]

The following order, issued by the Government of India in the Home Department, is republished for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

POLICE.

Calcutta, the 27th November 1906.

No. 1126.—Mr. A. B. Barnard, Deputy Director, Criminal Intelligence, is appointed to officiate as Director, durint he absence, on leave, of Sir H. A. Stuart, K.C.V.O., C.S I., I.C.S. or until further orders.

G. B. H. FELL,
for *Secy. to the Govt. of India.*

The following orders, issued by the Government of India in the Department of Commerce and Industry, are republished for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

EXPLOSIVES.

RULES UNDER THE EXPLOSIVES ACT, 1884, FOR THE MANUFACTURE, POSSESSION AND SALE OF EXPLOSIVES.

Calcutta, the 29th November 1906.

No. 9045—8.—In exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), the Governor-General in Council is pleased to make the following rules to regulate the manufacture, possession and sale of explosives in British India.

All rules heretofore made by the Governor-General in Council or any Local Government under the said Act, for regulating the manufacture, possession or sale of explosives, are hereby cancelled, except rules of the kind referred to in clause (2) of rule 1 of the present rules.

Preliminary.

exemptions.* 1. These rules shall not apply to—

(1) the manufacture, possession or sale of gunpowder in any of the Agency tracts in the Ganjam, Vizagapatam and Godavari Districts of the Presidency of Madras, or

(2) the possession of any explosive in any port in which special rules made by the Local Government under the Explosives Act, 1884 (IV of 1884), for regulating the possession of explosives, are for the time being in force.

ation of ex- 2. (1) For the purposes of these rules, explosives shall be classified as follows, namely:—

Class 1	Gunpowder.
„ 2	Nitrate-mixture.
„ 3	Nitro-compound.
„ 4	Chlorate-mixture.
„ 5	Fulminate.
„ 6	Ammunition.
„ 7	Firework.

(2) When any explosive falls within more than one of the said classes, it shall be deemed to belong exclusively to the latest of such classes.

3. The expression "gunpowder," as used in these rules, means exclusively gunpowder ordinarily so-called.

4. The expression "nitrate mixture," as used in these rules, means any preparation, other than gunpowder, which is formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

---

* Further exemptions are made by section 14 of the Indian Explosives Act, 1884, which runs as follows:—

Saving for manufacture, possession, use, sale, transport or importation by Government.

"Nothing in this Act shall apply to the manufacture, possession, use, sale, transport or importation of any explosive—

(a) by order of the Government, or

(b) by any person employed under the Government in the execution of this Act, or as a keeper of a magazine, artizan, soldier, sailor, policeman or otherwise, or enrolled as a volunteer under the Indian Volunteers Act 1869, in the course of his employment or duty as such."

Nitrate-mixture includes among other explosives,—

Chilworth special powder,
Fortis explosive,
Ripp-Lene,
Safety blasting powder, and
Westfallite.

5. (*1*) The expression "nitro-compound," as used in these rules, means any chemical compound which is possessed of explosive properties or is capable of combining with metals to form an explosive compound, and is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid), or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not. Definition and sub-division of "nitro-compound" (class 3).

(*2*) Nitro-compound shall, for the purposes of these rules, be sub-divided as follows, namely:—

(*a*) Division 1, comprising—

(*i*) such explosives as—

Amberite No. 1,
Ballistite,
Blasting gelatine,
Carbonite,
Cordite,
Dynamite,
Gelatine dynamite,
Gelignite,
Lithofracteur,
Nitro-glycerine, and
Stonite, and

(*ii*) any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or some other liquid nitro-compound; and

(*b*) Division 2, comprising—

(*i*) such explosives as—

Amberite No. 2,
Ammonite,
Bellite,
Coopal's powder,
Cotton gunpowder,
E. C. powder,
Gun-cotton ordinarily so-called,
Nitrated gun-cotton,
Picrates,
Picric powder,
Roburite,
Sawdust and gun-cotton powder,
Schultz's powder, and
Tonite (or cotton powder), and

(*ii*) any nitro-compound, as hereinbefore defined, which is not comprised in Division 1.

6. (*1*) The expression "chlorate-mixture," as used in these rules, means any explosive containing a chlorate. Definition and sub-division of "chlorate-mixture" (class 4).

(*2*) Chlorate-mixture shall, for the purposes of these rules, be sub-divided as follows, namely:—

(*a*) Division 1, comprising—

(*i*) such explosives as—

Horsley's blasting powder, and
Brain's blasting powder, and

(*ii*) any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound; and

(*b*) Division 2, comprising—

(*i*) such explosives as—

Horsley's oirginal blasting powder,
Erhardt's powder,
Reveley's powder,
Hochstadter's blasting charges,
Reichen's blasting charges,
Teutonite, and
Chlorated gun-cotton, and

(*ii*) any chlorate-mixture, as hereinbefore defined, which is not comprised in Division 1.

efinition and sub-vision of "fulmi-ite" (class 5).

7. (*1*) The expression "fulminate," as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

(*2*) Fulminate shall, for the purposes of these rules, be sub-divided as follows namely :—

(*a*) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorous, or certain descriptions of phosphorous compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter ; and

(*b*) Division 2, comprising such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

efinition of ammuni-on," "percussion-p," "detonator," safety fuze" and safety cartridge," d sub-division of ammunition" lass 6).

8. (*1*) The expression "ammunition," as used in these rules, means any explosive included in any of the foregoing definitions, when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared, so as to form—

(*a*) a cartridge or charge for small-arms cannon or any other weapon, or for blasting, or

(*b*) a safety or other fuze for blasting or for shells, or

(*c*) a tube for firing explosives, or

(*d*) a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or any other contrivance other than a firework.

(*2*) The expression "percussion-cap," as used in these rules, does not include a detonator.

(*3*) The expression "detonator," as used in these rules, means a capsule or case which is of such strength and construction, and contains fulminate in such quantity, that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(*4*) The expression "safety fuze," as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes.

(*5*) The expression "safety cartridge", as used in these rules,—

(*i*) means a cartridge for small-arms, the case of which can be extracted from the small-arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges ; and

(*ii*) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (*i*), whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine-gun having special chambers ;

Provided that the diameter of the cartridge in either case (*i*) or case (*ii*) does not exceed one inch.

(*6*) Ammunition shall, for the purposes of these rules, be sub-divided as follows, namely :—

(*a*) Division 1, comprising exclusively—

Safety cartridges,

Safety fuzes for blasting,

Railway fog-signals, and

Percussion-caps ; and

(*b*) Division 2, comprising any ammunition, as hereinbefore defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, other than safety cartridges,

Cartridges and charges for cannon, shells, mines, blasting or other like purposes,

Shells and torpedoes containing any explosive,

Fuzes for blasting, other than safety fuzes,

Fuzes for shells,

Tubesfor firing explosives, and

War-rockets,

which do not contain their own means of ignition, and

(*c*) Division 3, comprising any ammunition, as hereinbefore defined which contains its own means of ignition and is not included in Division 1, such as—

Detonators,

Cartridges for small-arms which are not safety cartridges,

Fuzes for blasting, which are not safety fuzes.

Fuzes for shells, and

Tubes for firing explosives,

containing their own means of ignition.

Explanation.—The expression "ammunition containing its own means of ignition" means ammunition having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion.

Sub-division "firework" (c

9 Fireworks shall, for the purposes of these rules, be sub-divided as follows, namely :—

(*1*) Division 1, comprising firework compositions, that is to say,—

(*a*) any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in any of the foregoing definitions,

(*b*) any star, and

(*c*) (except as declared in the proviso to this rule) any coloured fire composition ; and

(*2*) Division 2, comprising manufactured fireworks, that is to say, any explosive of class 1, 2, 3, 4, 5 or 6 and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals :

Provided that a substantially constructed and hermetically closed metal case containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework" and not "firework composition."

Licenses when required.

Licens whe quired for ma ture.

10. (*1*) An explosive shall not be manufactured except under, and in accordance with he conditions of, a license granted under these rules for such manufacture.

(*2*) Provided that clause (*1*) of this rule shall not apply—

(*a*) to the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale ; or

(*b*) to the filling for private use, and not for sale, of any safety cartridges to the amount allowed by these rules to be possessed for private use; or

(*c*) in the case of any person who holds a license under these rules to possess an explosive, and who, duly observing the regulations prescribed in clause (1) of rule 30 in connection with his magazine or licensed premises, fills with the said explosive, for sale or otherwise, cartridges for small-arms; or

(*d*) in the case of any person who holds a license under these rules to possess an explosive, and who, duly observing the regulations prescribed in clause (2) of rule 30 in connection with his magazine or licensed premises, by filling cartridges, making charges, or drying, sifting, fitting or otherwise, adapts or prepares the said explosive for use exclusively in his mine or quarry or in some excavation or work carried on by him or under his control.

icense when re- ed for possession.

11. (*1*) An explosive shall not be possessed except under, and in accordance with the conditions of, a license granted under these rules for such possession.

(*2*) Provided that clause (*1*) of this rule shall not apply to the possession—

(*a*) of any explosive by a carrier or other person for the purpose of transport, when the same is being kept or transported in accordance with rules made under the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force for regulating the transport of such explosive; or

(*b*) of any explosive on board any ship in pursuance of the Merchant Shipping Acts for the time being in force, or of any order or regulation for the time being in force thereunder; or

(*c*) by any person who is lawfully entitled under the Indian Arms Act, 1878 (XI of 1878), or the rules for the time being in force thereunder, to possess any explosive coming under the head of ammunition as defined in that Act, of such explosives in such quantities as may be prescribed by the said Act, or rules, or, when no quantities are so prescribed, in reasonable quantities for his own private use; or

(*d*) by any person, of manufactured fireworks in any quantity not exceeding two hundred pounds when the same are obtained and intended for immediate use and not for sale, and are possessed by such person for a period not exceeding fourteen days, and

(*i*) not being in Burma, when they are kept in a substantial receptacle which is exclusively appropriated to the keeping of explosives and is closed and secured so as to prevent unauthorised persons from having access to the explosives; and (if such fireworks be kept in a municipality in any quantity exceeding fifty pounds) when they are covered by a permit issued by a Magistrate of the first class or a Police-officer not below the rank of Assistant District Superintendent of Police, and

(*ii*) being in Burma, when they are covered by a permit issued free of cost by a Magistrate of the first class or by a Police-officer not below the rank of a District Superintendent of Police requiring them to be kept in a separate closed receptacle in a building or excavation at a safe distance from any dwelling-house, shop or public way, and when they are kept in accordance with the terms of such permit.

(*3*) Provided also that clause (*1*) of this rule shall not aply to the possession by any person, for his private use and not for sale, of

(*i*) gunpowder in any quantity not exceeding thirty pounds; or

(*ii*) safety cartridges made with gunpowder and containing in all not more than one hundred and fifty pounds of gunpowder; or

(*iii*) cartridges (non-safety) for small-arms, made with gunpowder and containing in all not more than five pounds of gunpowder; or

(*iv*) cartridges for cannon or blasting, made with gunpowder and not containing their own means of ignition, and containing in all not more than thirty pounds of gunpowder; or

(*v*) cartridges for small-arms, made with small-arm nitro-compound and containing in all not more than ten pounds of small-arm nitro-compound; or

(*vi*) small-arm nitro-compound in any quantity not exceeding ten pounds; or

(*vii*) percussion-caps or safety fuzes for blasting; or

(*viii*) railway fog-signals, when kept by a railway company for use on their Railway; or

(*ix*) any other explosives in any quantity not exceeding ten pounds (whether or not contained in cartridges), or, in the case of detonators, in any quantity not exceeding one hundred in number; provided that the possession of the explosives is covered by a permit issued by a Magistrate of the first class or a Police-officer not below the rank of Assistant District Superintendent of Police.

(*4*) The quantity of any kind of explosive kept by any person for his private use under clause (*3*) without a license shall be in substitution for the like quantity of any other kind of explosive (whether gunpowder or not) which might otherwise be so kept by him; and the quantity of such other kind of explosive shall be reduced accordingly: provided that, if the explosive so kept is in any other form than that of cartridges for small-arms, the explosive of which the quantity is so reduced shall be some explosive other than safety cartridges made with gunpowder.

(*5*) Notwithstanding anything contained in clause (*3*) or clause (*4*) of this rule, clause (*1*) shall apply to the possession for private use of explosives of the 5th (fulminate) class in any quantity.

Saving of notifications under section 6 of the Explosives Act, 1884.

12. Nothing in these rules shall be deemed to authorise the manufacture or possession of any explosive in contravention of any prohibition notified under section 6 of the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force.

License when required for sale.

13. (*1*) An explosive shall not be sold except under, and in accordance with the conditions of, a license granted under these rules for such sale.

(*2*) Provided that clause (*1*) of this rule shall not apply to the sale by any person of an explosive, which he is lawfully entitled to possess for his own private use, to any person who is lawfully entitled to possess the same.

Grant of licenses.

Grant of licenses for manufacture, possession and sale in certain cases.

14. (*1*) Licenses to manufacture, possess and sell or to possess and sell, or to possess, or to sell from stock kept in a magazine in respect of which a license has been granted under rule 17—

(*a*) an explosive of the 1st (gunpowder) class, or

(*b*) small-arm nitro-compound belonging to the 3rd class, or

(*c*) an explosive of the 1st division of the 6th (ammunition) class, or

(*d*) an explosive of the 7th (firework) class,

may be granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.

(*2*) A license granted under this rule shall not entitle the licensee to possess at the same time more than—

(*i*) two hundred pounds of gunpowder or small-arm nitro-compound, together with any quantity of explosives contained in ammunition of the 1st division of the 6th (ammunition) class, or

(*ii*) two hundred pounds of manufactured fireworks, or

(*iii*) sixty pounds of explosives (including gunpowder, small-arm nitro-compound and manufactured fireworks), together with any quantity of explosives contained in ammunition of the 1st division of the 6th (ammunition) class, or

(*iv*) any such less quantity of any of the said explosives as the licensing officer may think fit to specify in the license:

Provided that a licensee in the Presidency of Madras, may, if he obtains a permit to this effect from a Magistrate of the 1st class or a Police-officer not below the rank of

Assistant District Superintendent of Police, possess subject to the conditions of his license, for a period of two days at the time of the Dipavali Festival, any quantity of manufactured fireworks not exceeding 1,000 lbs.

(3) Every such license shall specify the place in which alone the explosives referred to in it may be kept; and such place shall (except in the case of a license to sell from stock kept in a magazine in respect of which a license has been issued under rule 17) be approved by the licensing authority.

(4) Notwithstanding anything contained in the foregoing clauses of this rule, any Mamlatdar or Mahalkari in the Presidency of Bombay who is specially authorised by the District Magistrate in this behalf may grant licenses entitling *bonâ fide* agriculturists residing within the limits of the taluka under the charge of such Mamlatdar or Mahalkari to possess at the same time not more than one hundred pounds of gunpowder and not more than ten safety fuses for use with the same.

(5) Every license granted under this rule shall be in Form A, Form B, Form C, Form D, or Form E, in the Schedule hereto annexed, as the case may be, and shall contain the conditions prescribed therein.

(6) The expression "small-arm nitro-compound", as used in this rule, means a nitro-compound adapted and intended exclusively for use in cartridges for small-arms.

rant of licenses manufacture in s not provided for ule 14.

15. (1) Licenses to manufacture explosives in cases not provided for by rule 14 may be granted by the Governor General in Council.

(2) Every such license shall be in such form and shall contain such conditions as may be prescribed by the Governor General in Council:

Provided that the conditions so prescribed in the case of the manufacture of any explosive in any quantity shall comprise all the conditions prescribed in these rules and the Forms hereto annexed in the case of the possession of such explosive in such quantity.

ant of licenses for session in certain s not provided for ule 14.

16. (1) Licenses for the possession, at such places as may be approved by the licensing officer, of explosives other than those specified in rule 14 may, if the explosive is not one of the 5th (fulminate) class, and if the quantity to be possessed at the same time does not exceed sixty pounds, be granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.

(2) Every such license shall be in Form F in the Schedule hereto annexed and shall contain the conditions prescribed therein.

rant of licenses for session in, and e from, a magazine certain other cases.

17. (1) Licenses for the possession of explosives in, and the sale of explosives from, a magazine in cases not provided for by rules 14 and 16, may, if the explosive is not one of the 5th (fulminate) class, be granted by the Local Government, or by any officer authorised by the Local Government in this behalf.

(2) An applicant for such a license must submit to the District Magistrate, or, in a Presidency-town or any of its suburbs, or in Rangoon, to the Commissioner of Police, an application in Form G in the Schedule hereto annexed, and shall comply with the conditions embodied therein.

(3) Upon receipt of the said application, the District Magistrate or Commissioner of Police, as the case may be, shall forthwith cause notice to be published of the application and fix a day on which will be heard any persons who object to the establishment of a magazine on the proposed site and who have, not less than seven clear days before the day of hearing, sent to the said District Magistrate or Commissioner of Police, and to the applicant, notice of their intention to appear and object with their name, address and calling, and a short statement of the grounds of their objection.

(4) The day of hearing to be fixed under clause (3) shall be a day following soon after the expiration of a period of one month from the publication and service of the notices prescribed by this rule.

(5) Where the site of the proposed magazine lies within, or within one mile of the limits of the jurisdiction of any Municipal Authority or Port Authority, the applicant shall prepare, for service on such Authority, a notice of the application and of the said day of hearing.

(6) The notice by the District Magistrate or Commissioner of Police under clause (3) shall be published, and the notice under clause (5) shall be served, at the cost of the applicant, by the District Magistrate or Commissioner of Police, not less than one month before the said day of hearing.

(7) On consideration of the application, and on making such inquiry as he may deem neccessary, the District Magistrate or Commissioner of Police may dissent altogether from the establishment of the magazine on the proposed site, or may assent thereto, either absolutely, or on any conditions requiring additional restrictions or precautions.

(8) On the completion of the inquiry, the District Magistrate or Commissioner of Police shall forward the application and draft license with his recommendation to the Chief Inspector of Explosives, who shall forward to the applicant a statement in Form H in the Schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the

magazine. The table of distances which will ordinarily be followed is that annexed to these rules.

(9) The said Form H shall be returned, with the third column duly filled in, by the applicant to the Chief Inspector of Explosives, who shall submit it to the licensing authority constituted by clause (1) of this rule, with his recommendations, and with the draft license and a statement in Form I showing the distances which, after considering any representation made by the applicant when returning Form H to him, he considers should be kept clear round the magazine.

(10) The licensing authority may thereupon grant the license as applied for, or with such modifications or restrictions as may be deemed proper, or may reject the application.

(11) A copy of each license granted shall be forwarded to the Chief Inspector of Explosives, and the original license shall be forwarded to the District Magistrate or to the Commissioner of Police, as the case may be, if the license has not been granted by him.

(12) The District Magistrate or Commissioner of Police, when satisfied that the magazine is sufficiently completed according to the license to justify the use thereof, shall confirm the license; and unless and until so confirmed the license shall not come into force.

(13) If the District Magistrate or Commissioner of Police decides not to confirm any license, he shall forthwith inform the Chief Inspector of Explosives.

(14) Every license granted under this rule shall be in Form J in the Schedule hereto annexed, and shall contain the conditions prescribed therein.

Grant of licen for possession in floating magazine.

18. (1) With the previous sanction of the Governor General in Council, the Local Government may, in cases of urgency and for any period not exceeding six months, grant a license for the possession of explosives under rule 17 in a floating magazine.

(2) Notwithstanding anything contained in clause (14) of rule 17, such licenses shall be in Form K in the Schedule hereto annexed, and shall contain the conditions and restrictions prescribed therein and such further conditions and restrictions (if any) as the Local Government may in any case direct.

Grant of licen for possession of minates.

19. Licenses for the possession of explosives of the 5th (fulminate) class may be granted by the Governor General in Council in such form, and subject to such conditions, as he may in each case prescribe.

Grant of licen for sale in cases n provided for by ru 14 and 17.

20. (1) Licenses for the sale of explosives in cases not provided for by rules 14 and 17 may be granted, in a Presidency-town or its suburbs or in Rangoon, by the Commissioner of Police, and elsewhere by the District Magistrate, to any person licensed to possess the same.

(2) Every such license shall be in Form L in the Schedule hereto annexed, and shall contain the conditions prescribed therein.

Duration of licenses.

Duration of licens

21. All licenses granted under any of these rules except rule 18 shall expire on the 31st day of December of the year for which they are granted.

Renewal of licenses.

Renewal of licen granted under ru 15.

22. The Local Government may from time to time, renew, on the same or on altered conditions, any license granted by the Governor General in Council under rule 15 for the manufacture of explosives:

Provided as follows:—

(1) no such renewal shall admit of the manufacture of any explosive other than that specified in the original license;

(2) every such renewal shall first be approved by an Inspector of Explosives; and

(3) every such renewal shall be for a period not exceeding one year.

Renewal of licens granted under ru 17.

23. (1) Any licensee who desires the renewal of a license granted under rule 17 must, before the expiration of the license, submit the license to the Chief Inspector of Explosives with a written application stating the quantity and description of explosives for the storage of which he desires the license to be renewed.

(2) On receipt of such application the Chief Inspector of Explosives shall, if there is any variation in the particulars of the license, send to the applicant a statement in Form H in the schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine.

(3) The procedure prescribed in clauses (9) to (13) of rule 17 shall then be followed, so far as it is applicable.

Renewal of o'h licenses.

24. Any license granted under any of these rules other than rule 15 or rule 17 may, unless the circumstances have so changed that the grant of a new license either would not be authorised under the Indian Explosives Act, 1884 (IV of 1884), and these rules, or is deemed objectionable by the licensing authority, be renewed on application made previous to its expiration.

Duplicate licenses.

ant of dup'icate se.

25. When a license granted under these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee.

Temporary licenses.

sposal of stock grant of tempo- license on ex- ion or forfeiture cense.

26. (*1*) A person licensed to manufacture, possess or sell any explosives shall, on the expiration or forfeiture of his license, forthwith give notice to the District Magistrate or the Commissioner of Police, as the case may be, of the quantity of such explosives then in his possession, and shall comply with any directions which the said Magistrate or Commissioner may think fit to give in regard to the possession or transport of the same.

(*2*) On receiving a notice under clause (*1*) of this rule, the said Magistrate or Commissioner may grant, for a term not exceeding three months, a temporary license for the possession or sale of the actual stock of explosives which is held at the time of the issue of such license.

Fees for licenses.

mount of fees.

27. The following fees shall be charged for licenses granted under these rules, namely:—

A—Each license granted under rule 14—

(*1*) to manufacture, possess and sell the maximum quantity of explosives mentioned in the said rule, or any less quantity exceeding one-half .	Twenty rupees;
(*2*) to manufacture, possess and sell half the quantity of explosives mentioned in the said rule, or any less quantity exceeding one-fourth .	Ten rupees;
(*3*) to manufacture, possess and sell a fourth of the quantity of explosives mentioned in the said rule, or any less quantity	Five rupees;
(*4*) to possess and sell the maximum quantity of explosives mentioned in the said rule, or any less quantity exceeding one-half . . .	Ten rupees;
(*5*) to possess and sell half the quantity of explosives mentioned in the said rule, or any less quantity exceeding one-fourth	Five rupees;
(*6*) to possess and sell a fourth of the quantity of explosives mentioned in the said rule, or any less quantity	Two rupees and eight annas;
(*7*) to possess explosives	Eight annas;

Provided that only one-half of the fees prescribed above shall be charged in the case of licenses, in Form D, to manufacture, possess and sell or to possess and sell fireworks in villages or other rural areas.

B—Each license granted under—

rule 15 or rule 19	Such fee as the Governor-General in Council may in each case prescribe.
rule 16 or rule 20	Five rupees.
rule 17 or rule 18	Twenty rupees.
C—Each license on renewal	The same fee as that charged for the original license.
D—Each duplicate license granted under rule 25.	Eight annas.
E—Each temporary license granted under rule 26.	A fee bearing the same proportion to the fee charged for the annual license as the period covered by the temporary license bears to a full year.
F—Each new license granted under rule 37.	One rupee.

28. Notwithstanding anything contained in rule 27—

Exemptions from ayment of fees.

(*1*) the holder of a license duly granted in Form VI-B, or in Form VII-B, under rule 11 of the rules made under the Indian Arms Act, 1878 (XI of 1878), may on production of such license before the District Magistrate or in a Presidency-town or its suburbs or in Rangoon, before the Commissioner of Police, be granted a license under rule 14 of these rules without payment of any fee, and

(*2*) no fee shall be charged for licenses granted to contractors, cultivators or other persons to possess gunpowder, fuses or other explosives in reasonable quantities when the same are proved to the satisfaction of the officer granting the license to be required *bond fide* for blasting purposes.

Stamps for pay- ent of fees.

29. (*1*) The fees chargeable under these rules shall ordinarily be levied by means of impressed stamps. An application for the grant or the renewal of a license shall bear the proper stamp: provided that if the application is refused, the value of the separate stamp (if any) which may have been already provided by the applicant for the desired license

or renewed license, *minus* the deductions prescribed by section 54 of the Indian Stamp Act, 1899 (II of 1899), may be refunded to the applicant. An application should not be made on the stamped paper intended for the license or renewed license; but where this has been wrongly done, the value of the stamp may be refunded *minus*—

(*i*) the value of the stamp which should have been affixed to the application, and

(*ii*) the deductions prescribed as aforesaid.

(*2*) Where the fees leviable under these rules have been made over to any local body, the fees shall be paid in such manner as that local authority may from time to time direct.

Supplemental provisions.

Regulations to be observed by certain persons who are exempted from taking out a license for manufacture.

30. (*1*) When any person referred to in sub-clause (*c*) of clause (*2*) of rule 10 fills cartridges as indicated in that sub-clause he shall see to the observance of the following regulations, namely:—

(*a*) there shall not be in the room in which such filling is being carried on more than five pounds of gunpowder or small-arm nitro-compound or such quantity of any other explosive as is prescribed by the Local Government in this behalf, unless it is made up into safety cartridges;

(*b*) no work unconnected with the making of the cartridges shall be carried on in the said room while such filling is being carried on;

(*c*) there shall not be in the said room, while such filling is being carried on, any fire or any artificial light except a light of such construction, position and character as no to cause any danger of fire or explosion;

(*d*) if filling is done on magazine premises the said room shall be detached from the magazine, but sha be situated in the immediate neighbourhood thereof, and shall be situated at such distance therefrom as may be specified on the license by the authority granting the same; and

(*e*) the licensee shall give notice to the authority which granted his license that he intends to carry on such filling of cartridges as is allowed by this rule.

(*2*) When any person referred to in sub-clause (*d*) of clause (*2*) of rule 10 adapts or prepares explosives as indicated in that clause, he shall see to the observance of the following regulations, namely:—

(*i*) there shall not be in the workshop in which such adaptation or preparation is carried on more than one hundred pounds of gunpowder, or such quantity of any other explosive as is prescribed by the Local Government in this behalf;

(*ii*) no work unconnected with such adaptation or preparation shall be carried on in the said workshop while such adaptation or preparation is being carried on;

(*iii*) the said workshop shall be detached from the magazine or licensed premises, but shall be situated in the immediate neighbourhood thereof, and shall be situated at such distance therefrom as may be specified on the license by the authority granting the same;

(*iv*) an explosive of one description shall not be converted into an explosive of another description, and an explosive shall not be unmade or resolved into its ingredients; and

(*v*) the licensee shall give notice to the authority which granted his license that he intends to carry on such adaptation or preparation as is allowed by this rule.

Power to extend effect of license.

31. Any authority granting a license under these rules may, if such authority thinks fit, direct, by an order written on the license, that it shall have the effect of a like license granted by the like authority under the Indian Arms Act, 1878 (XI of 1878).

Powers of inspections, search, seizure, etc.

32. (*1*) Any of the officers mentioned in clause (*2*) of this rule may, within the areas respectively specified in that clause, but subject to the provisions of the Indian Arms Act, 1878 (XI of 1878), and of any ruels for the time being in force thereunder, in cases to which that Act applies—

(*a*) enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed or sold under a license granted under these rules or any prior rules made under the Indian Explosives Act, 1884 (IV of 1884), or in which he has reason to believe that an explosive has been or is being manufactured, possessed or sold in contravention of the said rules or Act;

(*b*) search for explosives therein;

(*c*) take samples of any explosives found therein, on payment of the value thereof; and

(*d*) seize, detain, remove and, if necessary, destroy or otherwise render harmless any explosive found therein in respect of which he has reason to believe that any of the provisions of the said rules or Act have been contravened.

(2) The officers and areas referred to in clause (1) of this rule are:—

Officers.	Areas.
The Chief Inspector and Inspector of Explosives.	In all parts of British India.
All District Magistrates.	Within their respective Districts.
All Magistrates subordinate to the District Magistrate.	Within the areas respectively subject to their jurisdiction.
The Commissioner of Police, and all Police-officers of rank not below that of Inspector, if specially deputed in this behalf by the Commissioner of Police.	In Presidency-towns and Rangoon.
All Police-officers of rank not below that of Inspector.	Within the respective areas over which their authority extends.

(3) Whenever the Chief Inspector or an Inspector of Explosives, or any Magistrate subordinate to the District Magistrate, or any Police-officer seizes, detains or removes any explosive under this rule, he shall report the fact to the District Magistrate or (in a Presidency-town or its suburbs or in Rangoon) the Commissioner of Police.

(4) Neither the Chief Inspector nor an Inspector of Explosives, nor any Magistrate subordinate to the District Magistrate, nor any Police-officer shall under these rules destroy or otherwise render harmless any explosive without the previous sanction of the District Magistrate or (in a Presidency-town or its suburbs or in Rangoon) the Commissioner of Police, unless the matter appears urgent and fraught with serious public danger.

(5) Whenever any officer destroys any explosive or otherwise renders it harmless, he shall take and keep a sample thereof, and shall, if required, give a portion of the sample to the person owning the explosive or having the same under his control at the time of seizure; and whenever any officer other than the District Magistrate or Commissioner of Police so deals with any explosive, he shall report the circumstances to the District Magistrate or (in a Presidency-town or its suburbs or in Rangoon) the Commissioner of Police.

Production of license or authenticated copy there of.

33. (1) Every person holding a license, or acting under a license, granted under these rules, shall be bound to produce the same, or an authenticated copy kept at the magazine or place to which the license applies, when called upon to do so by any Inspector of Explosives, any Magistrate, any Police-officer in charge of a police-station, or any Police-officer of higher rank.

(2) Copies of any such license may, for the purposes of this rule, be authenticated free of charge by any of the officers aforesaid or by the authority which granted the license.

Control over officers.

34. All Magistrates and other authorities shall, in the exercise of their functions under these rules, be subject to the control of their immediate executive superiors and of the Local Government.

Penalties.

Fines.

35. Whoever commits any offence mentioned in column 1 of the following table shall be punishable with fine which may extend to the amount mentioned in that behalf in column 2 of that table:—

1	2
Offences.	Fine which may be imposed.
Manufacturing an explosive in contravention of rule 10.	Three thousand rupees.
Possessing an explosive in contravention of rule 11	One thousand rupees.
Selling an explosive in contravention of rule 13	Five hundred rupees.
Committing a breach of any condition in a license granted under—	
rule 14 or rule 20	Five hundred rupees.
rule 16, rule 17, rule 18, or rule 19	One thousand rupees.
rule 15	Three thousand rupees.
Possessing or transporting an explosive in contravention of any direction given under rule 26, clause (1).	One thousand rupees.
Failing to produce a license or an authenticated copy thereof, when called upon to do so under rule 33, clause (1).	Two hundred rupees.

Forfeiture of licenses.

36. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions contained therein.

Exemption from penalties of persons carrying on business of deceased or disabled licensee.

37. If any person licensed to manufacture, possess or sell an explosive dies or becomes bankrupt, or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty under these rules for carrying on the business or acting under the license during such reasonable time as may be necessary to admit of his making an application to the authority which granted the license for a new license in his own name during the currency of the unexpired portion of the original license.

W. L. HARVEY,

Secretary to the Government of India.

SCHEDULE.

FORM A.

(*See rule 14.*)

[FEE RUPEES IN STAMPS.]

License to manufacture, possess and sell gunpowder, or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class, or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class.

[Granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.]

Name, etc., of licensee and place of residence.	Place of business, factory or shop.	Maximum quantity of explosive to be possessed at any one time.	Description and quantity of explosive to be manufactured during the year.	Description and quantity of explosive to be possessed and sold during the year.	Date on which license expires.
1	2		4	5	6
					The 31st December 190.

Town or District,
190 .

of

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives manufactured, of all stock in hand, and of all sales, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of manufacture and sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. (*1*) The explosive shall be manufactured in a tent or lightly constructed building exclusively appropriated for the purpose and, separated from any dwelling-house, highway, street, public thoroughfare or public place by the distance—

(*a*) in the case of gunpowder or small-arm nitro-compound, of one hundred yards, or

(*b*) in the case of an explosive of the 1st division of the 6th (ammunition) class, or of the 7th (firework) class, of fifty yards.

(*2*) In the case of filling cartridges for small arms the operation may, if preferred, be carried out in the upper room of a building to which the conditions in clause (1) as to distance shall not apply: Provided that no more than five pounds of explosive (except such as may be contained in safety cartridges) shall be in the room where the operation is being carried on.

(*3*) In all other cases the manufacture shall be carried on in a one-storeyed building.

5. The number of persons employed in manufacture in any one building or room shall not exceed six, and only persons actually manufacturing or superintending manufacture shall be allowed inside the place of manufacture.

6. No iron or steel implements shall be used in manufacture. Only copper, gun-metal or wooden tools are permissible.

7. All explosives, as manufactured, shall be removed without delay to a safe place of storage, and no explosives shall be allowed to accumulate in the place of manufacture.

8. Manufacture shall only be carried on between sunrise and sunset.

9. No smoking or lights shall be allowed in or near a room where explosives are being manufactured.

10. All sales of explosives under this license must be effected on the premises shown on the face of the license.

11. An explosive shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture.

12. (*f*) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the distances prescribed in condition No. 4* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

(*a*) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe; and

(*b*) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A.

(*g*) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition), class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

13. The maximum quantity of explosives allowed to be kept at the same time shall be the following:—

(1) if the only explosive kept be one or more of the following, namely:—

(*a*) gunpowder;

(*b*) small-arm nitro-compound; or

(*c*) ammunition of the first division of the 6th class,

the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small arm nitro-compound, in all . . .	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class .	Any quantity.	Any quantity.

(2) if the only explosive kept be manufactured fireworks the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
manufactured fireworks . . .	Two hundred.	Fifty.

(3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all . .	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Any quantity.	Any quantity:

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

14. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,—

the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean;

---

* These distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom;

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same;

and no person entering any such room or part of a building or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes:

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th (ammunition) class.

15. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding one pound in quantity, shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping;

and, when publicly exposed for sale or when sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark:

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

16. (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other:

(2) Provided as follows:—

(*a*) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space;

(*b*) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space;

(*c*) the various explosives of the 7th (firework) class may be kept with each other without any intervening partition or space.

17. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act, 1878 (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

18. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act, 1878 (XI of 1878), the following particulars, namely:—

(*a*) the name and address of the person who takes delivery of the articles sold;

(*b*) the nature and amount of articles sold; and

(*c*) the date of sale;

and shall append his signature to the endorsement.

19. A similar endorsement shall be made upon the license of every purchaser holding a license under the Explosives Act for the possession of explosives.

FORM B.

(*See rule 14.*)

[FEE RUPEES IN STAMPS.]

License to possess and sell gunpowder, or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class.

[Granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.]

Name, etc., of licensee and place of residence.	Place of business factory or shop.	Maximum quantity of explosive to be possessed at any one time.	Description and quantity of explosive to be possessed and sold during the year.	Date on which license expires.

*These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31, by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock and of all sales, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. All sales of explosives under this license must be effected upon the premises shown on the face of the license.

5. An explosive shall not be sold to any child apparently under the age of fourteen years.

6. (*1*) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances,* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

(*a*) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe; and

(*b*) such an excavation must be formed in solid rock or earth or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A.

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

7. The maximum quantity of explosives allowed to be kept at the same time shall be the following:

(1) if the only explosive kept be one or more of the following, namely:—

(*a*) gunpowder,

(*b*) small-arm nitro-compound, or

(*c*) ammunition of the 1st division of the 6th class,

the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound, in all	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class . . .	Any quantity.	Any quantity.

(2) if the only explosive kept be manufactured fireworks, the maximum shall be—

manufactured fire-works . . .	Two hundred.	Fifty.

(3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class . . .	Any quantity.	Any quantity

* In the case of gunpowder or small-arm nitro-compound, one hundred yards.
In the case of an explosive of the 1st division of the 6th (ammunition) class or of the 7th (firework) class, fifty yards:
Provided that these distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

8. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,—

the interior thereof, and the shelves and fittings therein, shall be so constructed or so lined and covered as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean;

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom;

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same;

and no person entering any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes:

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th class.

9. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class and all other explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping;

and, when publicly exposed for sale or sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark:

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this Condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

10. (*1*) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other:

(*2*) Provided as follows:—

(*a*) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of the 6th (ammunition) class, may be kept with each other without any intervening partition or space;

(*b*) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space;

(*c*) the various explosives of the 7th (firework) class may be kept with each other without any intervening partition or space.

11. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act, 1878 (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

12. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act, 1878 (XI of 1878), the following particulars:—

(*a*) the name and address of the person who takes delivery of the articles sold;

(*b*) the nature and amount of the articles sold; and

(*c*) the date of sale;

and shall append his signature to the endorsement.

13. A similar endorsement shall be made upon the license of every purchaser holding a license under the Explosives Act, for the possession of explosives.

*These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31 by an order written on the license, that this license shall have the effect of a like licens granted under the Indian Arms Act, 1878 (XI of 1878).

FORM C.

(See rule 14.)

[FEE—EIGHT ANNAS, IN STAMPS.]

License to possess gunpowder or small-arm nitro-compound, or an explosive of the 1st division of the 6th (Ammunition) class, or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) class.

[Granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.]

Name, etc., of licensee and place of residence.	Description and quantity of explosive to be possessed during the year.	Place with full details where explosive is to be possessed.	Maximum quantity of explosive to be kept at any one time.	Date on which license expires.

_____ *of* _____

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. (*1*) The explosives possessed by the licensee shall be kept in one or other or both of the following modes :—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives ; and

(*a*) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe :

(*b*) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place, which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A.

(*2*) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (Ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

5. The maximum quantity of explosives allowed to be kept at the same time shall be the following, namely—

(*1*) if the only explosive kept be one or more of the following, namely :—

(*a*) gunpowder,

* In the case of gunpowder or small-arm nitro-compound, one hundred yards.
In the case of an explosive of the 1st division of the 6th (Ammunition) class or of the 7th (Firework) class fifty yards :
Provided that these distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

(*b*) small-arm nitro-compound, or

(*c*) ammunition of the 1st division of the 6th class,

the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound, in all . . .	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class . .	Any quantity.	Any quantity.
(2) if the only explosive kept be manufactured fireworks, the maximum shall be—		
manufactured fireworks . .	Two hundred.	Fifty.
(3) in any other case the maximum shall be—		
mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class . .	Any quantity.	Any quantity.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

6. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,

the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron, or steel or similar substance, in such manner as to come into contact with the explosive ;

and such interior shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean ;

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom ;

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation, or receptacle containing the same ;

and no person entering any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes :

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th class.

7. All explosives exceeding five pounds in quantity of the 1st division of the 6th (Ammunition) class or of the 2nd division of the 7th (Firework) class, and all other explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping.

8. (*1*) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(*2*) Provided as follows :—

(*a*) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of the 6th (Ammunition) class may be kept with each other without any intervening partition or space ;

(*b*) the various explosives of the 1st division of the 6th (Ammunition) class may be kept with each other without any intervening partition or space ;

(*c*) the various explosives of the 7th (Firework) class may be kept with each other without any intervening partition or space.

9. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature namely :—

(*a*) the name and address of the person who takes delivery of the articles purchased :

(*b*) the nature and amount of the articles purchased, and

(*c*) the date of purchase.

_____ *of* _____

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all fireworks manufactured, of all stock in hand, and of all sales, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books of manufacture and sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. Fireworks shall be manufactured in such place only as may be approved by the District Magistrate, due regard being had to the public safety.

5. All sales of fireworks under this license must be effected upon the premises shown on the face of the license.

6. Fireworks shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture.

7. The manufactured fireworks possessed by the licensee must be kept in a building approved by the District Magistrate, due regard being had to the public safety :

Provided that any quantity not exceeding fifty pounds may be kept inside any other building, if placed in a receptacle exclusively appropriated to the keeping of fireworks.

8. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act, 1878 (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

* This condition is to be added only when the authority granting this license directs, in pursuance of rule 31, by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The explosive shall be kept in a substantially constructed uninflammable building approved by such officer as the Local Government may prescribe, or in a fireproof safe separated from any dwelling house, highway, street, public thoroughfare or public place by the prescribed distances,* and made and closed so as to prevent unauthorised persons from having access thereto, and to secure it from danger from without:

Provided that 50 lbs. of gunpowder and 10 safety fuzes may be kept inside a dwelling-house or in any building other than as last aforesaid in a receptacle exclusively appropriated to keeping explosive.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any room or part of a building, fireproof safe, or receptacle containing the same, and no person entering such room or part of any building or such safe or receptacle shall have any iron or steel in his possession or attached to or on his boots or shoes.

4. Neither the building exclusively appropriated for the purpose of keeping the explosive, nor the fireproof safe or receptacle referred to above, shall have any exposed iron or steel in the interior thereof:

Provided that this condition shall not be obligatory in a building, fireproof safe, or receptacle in which no explosive other than an explosive of the 1st division of the 6th (Ammunition) class is kept.

5. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases and under the vendor's signature:—

(*a*) The name and address of the person who takes delivery of the articles purchased;

(*b*) the nature and amount of the articles purchased; and

(*c*) the date of purchase.

* In the case of gunpowder, 50 yards.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. (*1*) The explosive shall be kept in a substantially constructed building which is exclusively appropriated for the purpose, and is detached from any dwelling-house, and is situated at a safe distance from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without:

(*2*) Provided that any quantity not exceeding fifteen pounds of any such explosive may be kept inside any building not conforming to clause (*1*) of this condition, if the explosive is placed in a receptacle exclusively appropriated to the keeping of explosives.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosives and from any building or receptacle containing the same.

4. No building exclusively appropriated for the purpose of keeping the explosives, and no receptacle in which the explosives are kept, shall have any exposed iron or steel in the interior thereof.

5. All explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosive from escaping.

6. Each description of explosive which may lawfully be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other.

7. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature, namely:—

(*a*) the name and address of the person who takes delivery of the articles purchased;

(*b*) the nature and amount of the articles purchased; and

(*c*) the date of purchase.

FORM G.

[*See Rule 17 (2).*]

THE INDIAN EXPLOSIVES ACT, 1884.

Form of application for a license for possession of explosives (other than fulminates) in, and sale from, a Magazine.

The replies to be written in this column.

1. Applicant's Name
   „ Calling
   „ Address . . .

NOTE.—In cases where the application is made on behalf of a company, the name, calling and address of the company, and the name of the manager or agents, should be given.

2. Situation of the proposed Magazine—
   Presidency or Province . .
   District . . . . .
   Village . . . . .

3. Explosive proposed to be stored—
   Class . . . . . .
   Division (if any) . . . .
   Name and description . . .

NOTE.—The class and division (if any) stated should be in accordance with the classification in the General Rules to regulate the manufacture, possession and sale of explosives.

4. Draft license containing the terms which the applicant proposes to have inserted, and specifying such of the matters stated below as are applicable.

NOTE.—A draft license must be attached to this application and must be accompanied by a plan of the proposed magazine and of the site, with the boundaries thereof drawn to scale.

The plan should also show the distance from the proposed magazine of the room (if any) to be used in connection therewith for the filling of cartridges for small arms with explosives, in pursuance of rule 30 (1) of the rules under the Indian Explosives Act, 1884, for the manufacture, possession and sale of explosives, and of the workshop (if any) to be used in connection therewith for the adaptation or preparation of explosives, in pursuance of rule 30(2) of the said rules; and, if both a room and workshop are to be used, the distance of the room from the workshop.

The matters referred to above, and required (so far as applicable) to be specified, are as follows:—

(*a*) the boundaries of the land forming the site of the magazine, and either any belt of land surrounding the site which is to be kept clear, and the buildings and works from which it is to be kept clear, or the distance to be maintained between the magazine or any part thereof and other buildings and works (for buildings and works here referred to, see 1st column of table of distances appended to these rules); and

(*b*) the situation, character and construction of all the mounds, buildings and works on or connected with the magazine, and the distances thereof from each other; and

(*c*) the nature of the work, if any, to be carried on in connection with the magazine and the place at which such work is to be carried on, and the places in the magazine at which explosives, and any articles liable to spontaneous ignition, or inflammable or otherwise dangerous, are to be kept; and

(*d*) the situation of each building forming part of the magazine in which the explosive is to be kept, and the maximum amount of explosive to be kept in each such building; and

(*e*) any special terms which the applicant may propose by reason of any special circumstances arising from the locality, the situation or construction of any buildings or works, or the nature of any process or otherwise.

Secretary or

Conditions.

This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock, and of all sales in such form as the Local Government may from time to time direct.

3. There shall not be at the same time in the magazine any quantity of explosives exceeding the quantity specified in the license.

4. The magazine shall be used only for the keeping of the explosives specified in the license, and of receptacles for, or tools of implements for work connected with, the keeping of such explosives.

5. The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, and the detaching of any grit, iron, steel or similar substances in such manner as to come into contact with the explosives; and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean; and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom:

Provided that so much of this condition as relates to precautions against the exposure of any iron or steel and the detaching of any grit, iron, steel or similar substances shall not be obligatory in a building in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

6. The magazine shall have attached thereto a sufficient lightning conductor, which shall be tested at least once during the currency of the license.

7. Before repairs are done to any room or magazine or part thereof, the same shall, as far as is practicable, be cleaned by the removal of all explosives or mixed ingredients thereof, and the thorough washing out of such room, magazine or part; and after such

cleaning these conditions shall cease to apply to such room or part of the magazine until any explosive is again taken into it :

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

8. Except after such cleaning, all tools and implements used in, or in making any repairs to, any part of the magazine shall be made only of wood, copper or brass or some soft metal or material, or shall be covered with some safe and suitable material :

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the 1st division of 6th (ammunition) class is kept.

9. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article likely to cause explosion or fire, or of any grit, iron or steel ; but this rule shall not prevent the introduction of an artificial light of such construction, position or character as not to cause any danger or fire or explosion :

Provided that so much of this condition as applies to the exclusion of grit, iron or steel shall not be obligatory in a building in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

10. No person shall smoke in any part of the magazine.

11. No person under the age of fourteen years shall be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person, and no explosive shall be sold to any such person.

12. (*1*) Two or more descriptions of explosives which may lawfully be possessed in a licensed magazine may be possesed in the same magazine if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other:

(*2*) Provided as follows:—

(*a*) the various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound) and 4 (chlorate-mixture), safety fuzes belonging to the 1st division of the 6th (ammunition) class and such of the various explosives of the 2nd division of the 6th (ammunition) class as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space ;

(*b*) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;

(*c*) such of the various explosives of the 2nd division of the 6th (ammunition) class as contain any exposed iron or steel may be kept with each other without any intervening partition or space ;

(*d*) the various explosives of the 3rd division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;

(*e*) the various explosives of the 7th (firework) class may be kept with each other without any intervening partition or space.

(*3*) Save as aforesaid, two or more descriptions of explosives shall not be kept in the same magazine.

13. The licensee, and every person employed in or about the magazine, shall take all due precaution for the prevention of accidents by fire or explosion in the magazine, and for preventing unauthorised persons from having access to the magazine or to the explosives therein, and shall abstain from any act whatever which tends to cause fire or explosion and is not reasonably necessary for the purpose of the work in such magazine.

14. (*1*) Blasting gelatine or any of its kindred gelatinous nitro-compounds shall not be kept in the magazine after the expiration of three years from the date of its or their importation into British India, except with the special sanction of an Inspector of Explosives.

(*2*) When such sanction has been given, a written certificate, showing the period covered by the sanction, must be obtained from an Inspector of Explosives at each inspection, and must be kept by the licensee at the magazine.

FORM K.

.190 . } Seal.

(Signature.)

Secretary.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The whole vessel, barge or craft in or on board which the explosives are stored shall be deemed to constitute the magazine.

3. The magazine shall be used only for the keeping of such explosives as may be specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives.

4. The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel in such manner, and the detaching of any grit, iron, steel or similar substance in such manner as to come into contact with the explosives in such magazine; and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean.

5. The magazine shall have attached thereto a sufficient lightning conductor which shall be tested previous to the storage of explosives.

6. No charcoal, whether ground or otherwise, oiled cotton, oiled rags or oiled waste and no article whatever which is liable to spontaneous ignition, shall be taken into the magazine.

7. Before repairs are done to or in any part of the magazine, it shall, so far as practicable, be cleaned by the removal of all explosives, and by a thorough washing out. After being so cleaned, it shall not be deemed to be a magazine until explosives are again taken into it.

8. There shall be constantly kept in the magazine, affixed in such manner as to be easily read, a copy of the license, and of any special rules that may be issued from time to time for the keeping of explosives in a floating magazine.

9. All tools and implements used in any repairs to or in any part of the magazine shall be made only of wood or copper or brass or some soft metal or material, or shall be covered with some safe and suitable material.

10. No fires, lights or lucifer matches, and no substance or article which is likely to cause explosion or fire, shall be permitted to be at any time in the magazine.

11. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article which is likely to cause explosion or fire; and for preventing the introduction of any grit, iron or steel, into any part of the magazine where it would be likely to come into contact with explosive; and in any part of the magazine in which any explosive is kept which is liable to be dangerously affected by water, due precautions shall be taken to exclude water from such part; but this condition shall not prevent the introduction of an artificial light of such construction, position, or character as not to cause any danger of fire or explosion; and so much of this condition as relates to the exclusion of grit, iron or steel shall not be obligatory in the case of a magazine in which no explosive other than explosives of the 1st division of the 6th (ammunition) class is kept.

12. No person shall smoke in any part of the magazine.

13. (1) The licensee shall not employ any vessel, barge or craft to carry an explosive to or from the magazine unless the cabin, hold or other part of the vessel, barge or craft to which the explosive is or is to be carried—

(a) is constructed without any exposed iron or steel in the interior thereof,

(b) contains only explosives, and

(c) is closed or otherwise properly covered over:

Provided that clause (a) shall not apply in the case of any vessel, barge or craft which carries no explosive other than explosives of the 1st division of the 6th (ammunition) class, or which is specially exempted by an order of the Chief Inspector of Explosives or by an order of the Local Government endorsed on this license.

(2) The licensee shall see that the explosives to be placed on any vessel, barge or craft so employed are loaded, carried and unloaded with all due diligence and with such precautions and in such manner as will sufficiently guard against any accidental ignition.

14. The licensee shall see—

(a) that no fire, unprotected light or smoking is allowed while any explosive [other than explosives of the 1st division of the 6th (ammunition) class] is being received or delivered, or while the hatches or door of the magazine, or the hatches or coverings of any vessel, barge or craft alongside containing any such explosive, are open; and

(b) that no receipt or delivery of explosive is carried on, and that the hatches or door of the magazine are or is kept closed, when any vessel, barge or craft having on board a fire (other than engine-fires properly banked up) or an unprotected light is alongside a magazine containing an explosive other than explosives of the 1st division of the 6th (ammunition) class, or in its immediate vicinity.

15. A person under the age of fourteen years shall not be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person.

16. In the case of the magazine being approachable at low water by carriages, the words "vessel, barge, or craft," in Nos. 13 and 14 of these conditions, shall be taken to include a carriage.

17. (1) Two or more descriptions of explosives, which may lawfully be possessed in a licensed magazine, may be possessed in the same magazine, if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in one compartment from extending to another compartment:

(2) Provided as follows:—

(a) the various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound) and 4 (chlorate mixture), safety fuzes belonging to the 1st division of the 6th (ammunition) class, and such of the various explosives of the 2nd division of the 6th (ammunition) class, as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space;

(b) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space;

(c) such of the various explosives of the 2nd division of the 6th (ammunition) class as contain any exposed iron or steel, may be kept with each other without any intervening partition or space;

(d) the various explosives of the 3rd division of the 6th (ammunition) class may be kept with each other without any intervening partition or space;

(e) the various explosives of the 7th (firework) class may be kept with each other without any intervening partition or space.

(3) Save as aforesaid, two or more descriptions of explosive shall not be kept in the same magazine.

3. Explosives shall not be sold to any child apparently under the age of fourteen years.

4. All explosives exceeding one pound in weight, when publicly exposed for sale or sold, shall be in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping; and the outermost receptacle containing such explosives shall have affixed the name of the explosives, with the word "[illegible]plosive" added thereto in conspicuous characters by means [illegible] a brand or securely attached label or other

KEPT CLEAR ROUND MAGAZINES.

e ground or by good and substantial artificial mounds of earth or mine refuse, of such height that a line drawn from any part of the magazine to any part of the item in question wi to afford a degree of protection which, in the opinion of an Inspector of Explosives, justifies a further reduction, the distance shown in the Table will be reduced to one-quarte

e thousand pounds of gunpowder, every half pound of such other explosive being reckoned as one pound of gunpowder.

The 30th November 1906.

No 9359.—32.—In accordance with the provisions of section 18 of the Indian Explosives Act, 1884 (IV of 1884), and of the notification of the Government of India in the Home Department, No. 1964, dated the 2nd September 1887, the Governor General in Council is pleased to publish for general information the following draft rules which His Excellency in Council proposes to make, in exercise of the powers conferred by sections 5 and 7 of the said Act. The draft will be taken into consideration by the Governor General in Council on the expiration of two months from the date of publication of this notification in the *Gazette of India*.

DRAFT RULES TO REGULATE THE TRANSPORT AND IMPORTATION OF EXPLOSIVES.

Preamble.

In supersession of the Notification of the Government of India in the Home Department, No. 5528 (Public), dated the 11th October 1901, and of all amending notifications, and in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), the Governor General in Council is pleased to make the following rules to regulate the transport and importation of explosives.

Extent of application.

These rules extend to the whole of British India, but the rules relating to the transport of explosives shall cease to apply to any port as defined in the Indian Ports Act, 1889 (X of 1889), for which special rules made by the Local Government are for the time being in force, in so far as they are expressly superseded by, or are inconsistent with, such special rules.

General exemptions.

Nothing in these rules shall apply to the packing, transport or importation of capped safety cartridge cases, if otherwise empty, when packed, transported or imported in the same consignment with arms covered by a licence granted under the Indian Arms Act, 1878 (XI of 1878).*

PRELIMINARY.

Classification of explosives.

1. (*1*) For the purposes of these rules, explosives shall be classified as follows, namely:—

Class	1	Gunpowder.
"	2	Nitrate-mixture.
"	3	Nitro-compound.
"	4	Chlorate mixture
"	5	Fulminate.
"	6	Ammunition.
"	7	Firework.

(*2*) When any explosive falls within more than one of the said classes, it shall be deemed to belong exclusively to the latest of such classes.

Definition of "gunpowder" (class 1).

2. The expression "gunpowder," as used in these rules, means exclusively gunpowder ordinarily so-called.

Definition of "nitrate-mixture" (class 2).

3. The expression "nitrate-mixture," as used in these rules, means any preparation, other than gunpowder, which is formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

Nitrate-mixture includes, among other explosives,—

Chilworth special powder,
Fortis explosive,
Ripp-Lene,
Safety blasting powder, and
Westfallite.

---

* Further exemptions are made by section 14 of the Indian Explosives Act, 1884, which runs as follows:—

Saving for manufacture, possession, use, sale, transport or importation by Government.

"Nothing in this Act shall apply to the manufacture, possession, use, sale, transport or importation of any explosive—

(*a*) by order of the Government, or

(*b*) by any person employed under the Government in the execution of this Act, or as a keeper of a magazine, artizan, soldier, sailor, policeman or otherwise, or enrolled as a volunteer, under the Indian Volunteers Act, 1869, in the course of his employment or duty as such." XX of 1869.

Definition and subdivision of "nitro-compound" (class 3).

4. (*1*) The expression "nitro-compound," as used in these rules, means any chemical compound which is possessed of explosive properties or is capable of combining with metals to form an explosive compound, and is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid), or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

(*2*) Nitro-compound shall, for the purposes of these rules, be sub-divided as follows, namely:—

(*a*) Division 1, comprising—

(i) such explosives as—

Amberite No. 1,	Dynamite,
Ballistite,	Gelatine dynamite,
Blasting gelatine,	Gelignite,
Carbonite,	Lithofracteur,
Cordite,	Nitro-glycerine, and

Stonite, and

(ii) any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or some other liquid nitro-compound; and

(*b*) Division 2, comprising—

(i) such explosives as—

Amberite No. 2,	Nitrated-gun-cotton,
Ammonite,	Picrates,
Bellite,	Picric powder,
Coopal's powder,	Roburite,
Cotton gunpowder,	Sawdust and gun-cotton powder,
E. C. powder,	Schultz's powder, and
Gun-cotton ordinarily so-called,	Tonite (or cotton powder), and

(ii) any nitro-compound, as hereinbefore defined, which is not comprised in Division 1.

Definition and sub-division of "chlorate-mixture" (class 4).

5. (*1*) The expression "chlorate-mixture," as used in these rules, means any explosive containing a chlorate.

(*2*) Chlorate-mixture shall, for the purposes of these rules, be sub-divided as follows, namely:—

(*a*) Division 1, comprising—

(*i*) such explosives as—

Horsley's blasting powder, and
Brain's blasting powder, and

(*ii*) any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound, and

(*b*) Division 2, comprising—

(*i*) such explosives as—

Horsley's original blasting powder,	Hochstadter's blasting charges,
Erhardt's powder,	Reichen's blasting charges,
Reveley's powder,	Teutonite, and

Chlorated gun-cotton, and

(*ii*) any chlorate-mixture, as hereinbefore defined, which is not comprised in Division 1.

Definition and sub-division of "fulminate" (class).

6. (*1*) The expression "fulminate," as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

(2) Fulminate shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter; and

(b) Division 2, comprising such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

Definition of "ammunition," "percussion-cap," "detonator," "safety fuze" and "safety cartridge," and sub-division of "ammunition" (class 6).

7. (1) The expression "ammunition," as used in these rules, means any explosive included in any of the foregoing definitions, when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared, so as to form—

(a) a cartridge or charge for small-arms, cannon or any other weapon, or for blasting or

(b) a safety or other fuze for blasting or for shells, or

(c) a tube for firing explosives, or

(d) a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or any other contrivance other than a firework.

(2) The expression "percussion-cap," as used in these rules, does not include a detonator.

(3) The expression "detonator," as used in these rules, means a capsule or case which is of such strength and construction, and contains fulminate in such quantity, that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(4) The expression "safety fuze," as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes.

(5) The expression "safety cartridge," as used in these rules,—

(i) means a cartridge for small arms, the case of which can be extracted from the small-arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and

(ii) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (i) whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine-gun having special chambers.

Provided that the diameter of the cartridge in either case (i) or case (ii) does not exceed one inch.

(6) Ammunition shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising exclusively—

Safety cartridges,
Safety fuzes for blasting,
Railway fog-signals, and
Percussion-caps; and

(b) Division 2, comprising any ammunition, as hereinbefore defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, other than safety cartridges,
Cartridges and charges for cannon, shells, mines, blasting or other like purposes,
Shells and torpedoes containing any explosive,
Fuzes for blasting, other than safety fuzes,
Fuzes for shells,
Tubes for firing explosives, and
War-rockets,

which do not contain their own means of ignition; and

(*c*) Division 3, comprising any ammunition, as hereinbefore defined, which contains its own means of ignition and is not included in Division 1, such as—

Detonators,
Cartridges for small-arms, which are not safety cartridges,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells, and
Tubes for firing explosives,

containing their own means of ignition.

Explanation.—The expression "ammunition containing its own means of ignition" means ammunition having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion.

Sub-Division of "firework" (class 7.

8. Fireworks shall, for the purposes of these rules, be sub-divided as follows, namely:—

(1) Division 1, comprising firework compositions, that is to say,—

(*a*) any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in any of the foregoing definitions,

(*b*) any star, and

(*c*) (except as declared in the proviso to this rule) any coloured fire composition; and

(2) Division 2, comprising manufactured fireworks, that is to say, any explosive of class 1, 2, 3, 4, 5 or 6 and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals:

Provided that a substantially constructed and hermetically closed metal case containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework" and not a "firework composition."

TRANSPORT.

Packing of Explosives for conveyance.

9. The following general rules shall be observed with respect to the packing of explosives for conveyance:—

(1) Unless the context otherwise requires,—

the expression "outer package" means a box, barrel, case or cylinder, of wood, metal or other solid material, of such strength, construction and character that it will not be broken or accidentally opened, nor become defective or insecure whilst being conveyed, and will not allow any explosive to escape;

the expression "inner package" means a substantial case, bag, canister or other receptacle, made and closed so as to prevent any explosive from escaping;

the expression "authorized explosive" means exclusively an explosive included in a List of Authorized Explosives prepared by the Chief Inspector of Explosives with the Government of India, and published annually in the *Gazette of India*, and in force for the time being;

the expression "propellant" means an authorized explosive of class 3 adapted and intended exclusively for use as a propelling charge in cannon or small arms; and the expression "special authority" means a written authority granted by the Chief Inspector of Explosives, to which may be attached such conditions as may, in the opinion of the Chief Inspector of Explosives, be necessary to meet the special requirements of the case.

(2) The interior of every package shall be free from grit and otherwise clean.

(3) Save as hereinafter provided, there shall not be any iron or steel in the construction of any package unless the same is covered with suitable material so as effectually to prevent the exposure of such iron or steel.

(4) Every package when actually used for the packing of one explosive shall not be used for the packing of any other explosive or any other article or substance.

Provided that this rule shall not prevent the packing of inner packages containing a propellant in an outer package with inner packages containing gunpowder or another propellant:

Provided also that this rule shall not prevent the packing of any article which is not of an inflammable or explosive nature, or liable to cause fire or explosion, in the same package as an explosive of the 1st Division of the 6th (Ammunition) Class.

(5) Subject to the foregoing provisions, the following shall be the method of packing authorized explosives of the various classes, respectively, and the maximum amounts which may be in any one package :—

Class.	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
Class 1 .	When the quantity in any one consignment does not exceed 5 lbs. in amount, a single outer package ; otherwise		
	A double package, the inner and outer packages being as above defined.	100 lbs. Provided that where gunpowder and propellant are packed together the amount shall not exceed— 50 lbs.	100 lbs. 25 lbs.
Class 2	As for Class 1	50 lbs.	50 lbs.
Class 3, Division 1, other than propellants.	As for Class 1, provided that either the outer or inner package shall be thoroughly waterproof, and both shall be without metal in the construction thereof.	50 lbs.	5 lbs.
Class 3, Division 1, propellants.	As for Class 1	50 lbs.	50 lbs.
Class 3, Division 2, other than Picric Acid and Wet Guncotton.	As for Class 1	50 lbs.	50 lbs.
Picric Acid . . .	As for Class 1	Unlimited.	Unlimited.
Guncotton so wetted with water as to be absolutely uninflammable.	As for Class 1, provided that the inner or outer package, or both of them, shall be of such a nature, and so closed, as to prevent any material loss of moisture during conveyance.	Unlimited.	Unlimited
Class 4 .	As for Class 1	50 lbs.	50 lbs.
Class 5 .	Packed in water. A treble package, the innermost package being a bag permeable to water, enclosed in a case containing sufficient water to ensure the explosive being kept constantly wet; and the outer package containing sufficient water constantly to surround the case. Both the case and the outer package shall be of such construction as will not allow water to escape.	200 lbs.	25 lbs.
	If the explosive is of such character that it cannot be packed in a thoroughly wet condition, it shall be packed in accordance with conditions set forth in a special authority.		
Class 6, Division 1, other than Pin-fire cartridges for pistols.	A single outer package : Provided that the above general rule (3) shall not apply to explosives of this Division.	Unlimited.	.....
	Provided also that bulleted cartridges of a calibre exceeding 0·5 inch and belonging to this Division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge.		
Pin-fire cartridges for pistols.	(a) Not exceeding 50 in number in any one consignment :—So packed in a single package that the bases lie alternately in opposite directions. The bases and pins shall be so fitted into perforations in millboard or other suitable material as to prevent the firing of any one of the said cartridges by an explosion in any other of the said cartridges.	50 in number.	.....

Class.	Method of packing.	Amount in any one outer package.	Amount in any one inner
	i) Exceeding 50 in number :—In an inner and outer package, the cartridges being packed in inner packages with millboard asab ove required.	2,500 in number.	50 in number.
Class 6, Division 2 .	:xplosives made up into cartridges or charges for cannon, shells, torpedoes, mines, blasting or other like purposes, shall be packed in such manner and in such quantity as is required for the same explosive when not so made up ; provided that, where a double package is required, the enclosing case of such cartridges or charges may, if it satisfies the conditions required for an inner package, be held to be such inner package.		
	Other ammunition of this Division :—A single outer package.	100 lbs.	
Class 6, Division 3, other than Detonators and Electric Detonators.	ıs for Class 1 . . . . 'rovided that bulleted cartridges of a calibre exceeding 0·5 inch and belonging to this Division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge.	50 lbs.	2 lbs. or 10 in number, whichever be the greater.
Detonators	(*a*) Not exceeding 1,000 in any one consignment :—As for Class 1, provided that the detonators and the spaces between the same and between the sides of the inner package and the said detonators shall all be filled, as far as practicable, with fine sawdust or other similar material ; a layer of felt or other soft yielding material shall be placed between both ends of all the detonators and the interior of the inner package in which the same are placed, in such manner, and so secured, that both ends of the detonators will rest upon the said cotton wool or other material ; every inner package, if of metal, to be lined throughout with paper or other soft material ; and	1,000 in number	100 in number.
	(*b*) Exceeding 1,000 detonators :—		
	The detonators shall be packed in inner packages, with sawdust and cotton wool as above described. Such inner packages shall be placed inside a substantial case of wood or metal, made and closed so as to prevent any of the inner packages escaping therefrom, and such case shall be placed inside an outer package in such manner and so secured as to leave a clear space of not less than three inches between the case and every part of the interior of the said outer package, notwithstanding that such clear space may, if preferred, be filled with sawdust, straw, or other similar material, or may contain a light framework or battens of wood to keep the case aforesaid in position in the outer package ; and	10,000 in number	100 in number.
	(*c*) where the number of detonators exceeds 5,000, such outer package shall be provided with handles or other contrivance by means of which it can be safely and conveniently carried.		

Class.	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
Electric Detonators .	As for Class 1, provided that where the number in any outer package exceeds 3,000, such outer package shall be provided with handles or other contrivance, by means of which it can be safely and conveniently carried.	5,000 in number.	100 in number.
Class 7, Division 1 . .	Double package, the inner package being hermetically closed, and contained in an outer package as above defined.	20 lbs.	1 lb.
Class 7, Division 2 . .	Single outer package, provided that the above general rule (3) shall not apply to explosives of this Division.	100 lbs.	.....

(6) Nothing in this rule shall be deemed to prohibit the use of an additional package whether inner or outer, provided that such additional package shall not be of such character as shall have been prohibited in writing by the Chief Inspector of Explosives.

(7) An explosive which is not an authorized explosive shall be packed in such manner as may be directed by a special authority with reference to such explosive.

(8) On the outermost package there shall be affixed in conspicuous characters, by means of a brand or securely attached label or other mark, the word "Explosive," the name of the explosive, the number of the class and division to which it belongs, and the name of the manufacturer or sender.

In the case of explosives of Classes 3 and 4, there shall be added the date of manufacture or issue from the factory, or such sign indicating such date as may be approved by the Chief Inspector of Explosives.

Provided, first, that in the case of cartridges or charges for cannon, shells, mines, blasting or other like purpose, which do not contain their own means of ignition, the marking shall be as for the explosive when not so made up.

Provided, secondly, that in the case of explosives of Class 6, Division I (Safety Fuzes excepted), there shall be added the words "Not liable to explode in bulk."

Provided, thirdly, that in the case of Pin-fire cartridges for pistols there shall be added the words "Pin-fire cartridges."

Provided, fourthly, that in the case of Safety Fuzes or Gunpowder the word "Explosive" and the number of the class and division may be omitted, and

Provided, fifthly, that, where an outer package contains more than one explosive, the marking above required shall be affixed separately in respect of each explosive so contained.

(9) To meet special cases exemption may be granted by special authority from the observance of any one or more of the condition imposed by this rule.

10. Whoever commits a breach of any of the foregoing rules relating to the packing of explosives for conveyance shall be punishable with fine which may extend to Rs. 1,000. Per

11. The following general rules shall be observed with respect to the conveyance of explosives: Mo con

I.—No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

II.—There shall not be conveyed in any carriage or vessel which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition, unless it is sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

III.—Except in the case of small consignments carried by railway which may be unloaded at any time, explosives shall be loaded or unloaded only between sunrise and sunset. For the purposes of this rule no consignment of more than half a wagon-load booked to one station shall be deemed to be a small consignment.

IV.—Whilst the explosive is being loaded on or unloaded out of any carriage or vessel, no fire or artificial light, or any article which is liable to cause or communicate fire or explosion [such as charcoal, lucifer matches, articles for striking a light, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit] shall be, or shall be allowed to be, brought, had or used dangerously near to such carriage, ship, or boat, and no smoking shall be allowed in, on, or dangerously near to, the same:

Provided that when the use of a light for the purposes of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used; and no person, while handling any explosive (except an explosive of Division 1, Class 6, if packed in accordance with the packing rules) shall wear boots or shoes with iron or steel nails, heels or tips.

V.—In the loading or unloading of any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

VI.—The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, or in the hold of a ship or boat having a close deck so closed, as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

VII.—There shall not be any iron or steel in the interior of the portion of the carriage or vessel with which the case containing the explosive is or may come in contact, unless the same is effectually covered with leather, wood, cloth, or other suitable material.

VIII.—In the stowing of the explosive, due precautions shall be taken by means of a partition or otherwise and by careful stowing to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such carriage or vessel which is liable to cause fire or explosion; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

IX.—The amount of the explosives conveyed in any one carriage or vessel at any one time shall not exceed 2,000 lbs. unless the carriage be so enclosed on all sides with wood or metal, or the vessel have a close deck so closed, as effectually to protect the explosive against accident by fire from without, in which case the amount of the explosives conveyed shall not exceed the following:*

	Tons.
In any one carriage on a railway	10
In any one other carriage	2
In any one vessel	20

* NOTE.—This rule shall, in the case of dynamite conveyed by railway, be read subject to paragraph XII of Rule 13.

X.—Nothing in the foregoing rules (except Rule 1) shall apply to any explosive of the 1st Division of the 6th (Ammunition) Class:

Provided that all due precautions are taken for the prevention of accidents.

yance other- n by railway.

12. The following rules shall be observed with respect to the conveyance of explosives otherwise than by railway:

I.—No explosive shall be conveyed in a carriage or boat whilst carrying or plying for public passengers, unless the quantity is less than 5 lbs. and notice has been given beforehand to the person in charge of such carriage or boat: and all due precautions are taken for the prevention of accidents by fire or explosion:

Provided that there shall not be conveyed in any such carriage or boat any explosive of the 5th (Fulminate) Class or any explosive of the 3rd Division of the 6th (Ammunition) Class or of the 1st Division of the 7th (Firework) Class, except detonators packed according to Rule 9 to the number of 200:

Provided that the amount of explosive of the 5th (Fulminate) class in the detonator shall in no case exceed in the aggregate 3 oz. (a certificate to this effect being given by the agent of the company by whom the detonators are tendered for transport):

Provided also that no other explosive is carried in the same compartment.

II.—With respect to the conveyance by carriage or vessel of explosives of the 5th (Fulminate) class, or of the 3rd Division of the 6th (Ammunition) Class or of the 1st Division of the 7th (Firework) Class, or of larger quantities than 5 lbs. of any other explosive, the following regulations shall be observed:

(1) The person in charge of the carriage or vessel shall not drive or conduct the same in a dangerous or reckless manner, and shall take all due precautions to avoid fire and explosion, and no person shall do any act or thing in relation to the explosive which tends to cause fire or explosion, and is not reasonably necessary for the conveyance of the explosive or for work immediately connected with such conveyance; and a person who is intoxicated shall not have charge of any carriage or vessel conveying explosive, and shall not be permitted to be in, or on, or attending the same.

(2) A person shall not forward to any warehouseman or carrier a consignment of explosive, unless he has given notice to such warehouseman or carrier beforehand, stating the name and quantity of the explosive proposed to be conveyed, and the name and address of the proposed consignee, and has had an intimation that the warehouseman or carrier is prepared to receive the

consignment, and a warehouseman or carrier shall not make such an intimation nor receive such consignment, unless he is prepared to receive it, and forthwith to despatch the same, or to deposit it in a magazine or at a place at which a person is licensed to possess the same.

(3) The carriage or vessel conveying the explosive shall be in charge of, and constantly attended by, some competent person, or by a sufficient number of competent persons, and such persons shall not, if the amount of the explosive conveyed exceed 100 lbs., stop or delay for a longer time than may be reasonably necessary or stop unnecessarily at any place where such stopping would be attended with special public danger.

III.—No explosive belonging to class 1 (gunpowder class), class 2 (nitrate-mixture class), class 3 (nitro-compound class), class 4 (chlorate-mixture class) or class 5 (fulminate class), shall be carried, otherwise than by rail, across any railway bridge over which reasonable facilities for the conveyance thereof by rail are afforded by the Railway Administration.

Provided that this prohibition shall not apply in respect of quantities of explosives of class 1 (gunpowder class) or class 3 (nitro-compound class) not exceeding 5 lbs. in weight.

Conveyance on public railway

13. The following rules shall be observed with respect to the conveyance of explosives by public railways :

I.—No person shall send for carriage upon any railway any consignment of an explosive, unless he has given to the officer in charge of the railway station previous notice in writing which, at the option of the Railway Administration, may extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity, and mode of packing of the explosive proposed to be conveyed, and his own name and address, and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorized officer of the railway that such consignment will be received.

II.—No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought, sent, or forwarded to or upon any railway of the said Railway Administration.

III.—Consignments of explosives shall be sent to the forwarding station and shall be received by the railway servants only at such times, between sunrise and sunset, as the Railway Administration may appoint; and every package containing any explosive proposed to be conveyed on any railway shall immediately on arrival at the station be unloaded and placed in a safe place under the special direction of the officer in charge of the station.

All gunpowder under despatch or receipt by a Government arsenal, depôt, or factory, shall be loaded or unloaded in the railway vans by Government servants employed in such arsenal, depôt, or factory. In each van used by the railway for the transport of gunpowder the packages of gunpowder shall be secured in such a way as to prevent concussion when the train is in motion.

IV.—An explosive shall be removed by the consignee from the receiving station during the twelve hours of daylight after arrival: if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and if necessary, shall be protected by a police guard.

V.—The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package, which the Railway Administration suspect, shall be upon any railway, the Railway Administration may open, or require to be opened, such package to ascertain the fact, at the risk and expense of the consignor, and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages, pending such return in the manner prescribed in the preceding rule.

VI.—Subject to the exception provided for in clause (*e*), no explosive shall be conveyed by passenger train except of the kinds and in the manner hereinafter specified in this rule :

(*a*) Safety-cartridges and percussion-caps and safety-fuze (for blasting), also fog signals for railway use which may be conveyed in ordinary wagons or carriages.

(*b*) Explosives of the 3rd (nitro-compound) class which may be carried in the form of cartridges up to the limit of 5 lbs. :

Provided that no detonators are carried in the same compartment.

(*c*) Detonators packed according to Rule 9 may be carried to the number of 200 :

Provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 2 oz. (a

certificate to this effect being given by the company, firm, or person tendering the detonators for transport or by its or his agent :

Provided also that no other explosive is carried in the same compartment.

(*d*) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Railway Administration. But no outer case shall contain more than 25 lbs. of gunpowder, and the total consignment of gunpowder or non safety cartridges by one train shall not exceed 80 lbs.

(*e*) Explosives may be carried by mixed trains on any line on which goods trains are not running, subject to the conditions that they are loaded in properly constructed powder vans; that not more than one powder van containing explosives is forwarded at any one time by a mixed train; that there are not less than three vehicles between the powder-van and either the engine or the passenger coaches; that the powder van is close coupled to the adjoining vehicles; and that directly a powder van containing explosives arrives at a section on which goods trains are running, it is detached from the mixed train.

VII.—Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriages shall be specially built and approved by the Railway Board for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of safety cartridges for small arms.

VIII.—There shall not be conveyed in the same carriage with any explosive any lucifer or other matches, fuzes, pipelights, acids, naptha, paraffine, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies or any other volatile spirit substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

IX.—The consignor shall attach to the consignment note a certificate or (provided the original is produced for verification) copy of a certificate, signed by an officer authorized by the Local Government in this behalf that the explosive if it is an explosive of class 3 or 4, is of the standard purity; and further in the case of dynamite, and all nitro-glycerine compounds, that there are no signs of exuded nitro-glycerine or of liquefaction. The consignor shall also certify that the explosive has been packed in accordance with the packing rules in force in England or in British India.

X.—In the case of explosives under classes 3 and 4, the outer packages shall be marked with the date of the manufacture of the explosives. The abovementioned certificate shall contain sufficient information to admit of all packages being easily recognized.

XI.—The certificate referred to in Rule 13 (IX) shall be valid for six months after date, if the examination has been made between the 15th October and 31st March, but any Railway Administration which accepts dynamite and other nitro-glycerine compounds for transport may demand a fresh certificate for these explosives, if presented for conveyance between 1st April and 15th October (both inclusive).

XII.—Packages containing dynamite and other blasting explosives of the 3rd (nitro-compound) class, or explosives of the 4th (chlorate-mixture), 5th (fulminate) classes or of the 1st division of the 7th (firework) class shall be stowed in one layer only and secured so as to prevent movement during transit, and the gross load in any one wagon shall not exceed 3 tons :

Provided that, if the packages of explosive are in rectangular form and are properly secured so as to prevent movement during transit, they may be stowed in any number of layers not exceeding five, and the gross load in any one wagon shall not exceed 5 tons.

XIII.—No explosive of the 5th (fulminate) class or of the 3rd division of the 6th (ammunition) class, or of the 7th (firework) class shall be carried in the same train with any explosive not of the class and division to which it belongs, unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

XIV.—Wagons used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Hair, cloth, hides, or other suitable materials shall be spread on the floor of the wagon and between each layer of packages, except when the packages are covered with gunny or felt, or contain safety cartridges for small arms packed in tin-lined service-pattern boxes.

XV.—Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings.

XVI.—Packages containing explosives other than those referred to in Rule 13 (XII) shall not be stored in more than three layers one above the other. But if the packages are in rectangular form and of uniform size (provided they are double packages, and are so secured as to prevent movement during transit) they may be packed in five layers one above the other. But in the case of safety cartridges, for small arms packed in tin-lined service-pattern boxes, there is no restriction. Subject to the provisions of Rule 11 (III), the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed.

XVII.—When the train is being marshalled, wagons loaded with explosive, may be shunted by a locomotive, if they are separated from the engine by not less than three wagons containing no explosive nor easily inflammable substance. This precaution is not necessary with wagons specially constructed for the carriage of explosives. The speed of these movements shall be restricted to five miles an hour; they shall be superintended by a duly authorized officer, who shall be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

XVIII.—Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close-coupled to one another as well as to the adjoining wagons, and shall be preceded and followed by three wagons not loaded with explosive or other traffic of an inflammable nature:

Provided as follows;—

(*a*) on the Darjeeling-Himalayan Railway, wagons containing explosives and adjoining wagons need not be close-coupled to one another; and

(*b*) on the Nilgiri Railway only one wagon need intervene between the locomotive and wagons containing explosives.

XIX.—If the wagons employed in the transport of explosives are provided with brakes other than iron brakes, the brakes thereon shall on no account be worked while the wagons are running with a train, nor shall brakes, other than iron brakes, on vehicles immediately adjoining such wagons, be worked while such wagons are so running.

XX.—Wagons shall in every case be locked when loaded with explosives.

XXI.—All operations connected with the transhipment of explosives at junction stations shall take place during daylight.

14. Whoever commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives shall be punishable with a fine which may extend to Rs. 100.

IMPORTATION.

15. Subject to the following provisos, an explosive shall not be imported by sea or land into British India, except under and in accordance with the conditions of a license to import the explosive.

Provided that explosives may be imported by sea, previous to the grant of an importation license, in accordance with rules I, II, III, and IV of this rule.

I.—Any explosive other than an explosive specified in rule 18 may, previously to the grant of license to import, if it is included in a list published under clause (1) of rule 9 and for the time being in force, and if it is certified to be of British manufacture or, if not of British manufacture, if it is imported from the United Kingdom and covered by the certificate granted by one of His Majesty's Inspector of Explosives in England, be landed in acordance with such regulations as the Local Government may prescribe in this behalf and be stored in a place set apart by the Local Government for this purpose, or in any private magazine declared by the Local Government to be suitable therefor.

II.—Any such explosive of British manufacture, may also be transported by rail to any such private magazines previously to the grant of a license to import.

III.—The Governor-General in Council may extend to any such explosive not of British manufacture regarding which he is satisfied that it has been manufactured under adequate official supervision the privilege of landing granted by rule I but such explosives may not be transported by rail until an importation license has been granted.

IV.—Before any explosive is landed under rules I and III, the consignee shall give to the Chief Customs officer of the port such undertaking, with or without security, as the said officer thinks sufficient, to obey, in the event of the explosive failing to satisfy the prescribed tests, such directions as to its disposal as the Local Government may see fit to prescribe.

If samples are taken, the procedure shall be that described in rule 23.

Provided, also, that explosives of British manufacture may be imported by land, previous to the grant of an importation license, in accordance with rules V and VI of this rule.

V.—Explosives (except those specified in rule 18) included in a list published under rule 9 (1); and certified to be of British manufacture, may, previously to the grant of a license, be imported and conveyed under such conditions as the Local Government may prescribe, to a magazine appointed in this behalf by the Local Government.

VI.—Before an explosive is imported under rule V, the consignee shall give to the Magistrate of the District in which the magazine appointed under rule V is situate, or to the Commissioner of Police if such magazine is situate in a Presidency town or Rangoon, such notice of his intention to import the explosive as the Local Government may prescribe; and shall give such undertaking, with or without security, as the said District Magistrate or Commissioner of Police may require, that he will, in the event of the explosive failing to satisfy the prescribed tests comply with such directions as to its disposal as the Local Government may issue.

If samples are taken, the procedure laid down in rule 24 shall be followed.

nalty.

16. Whoever imports an explosive in contravention of rule 15 shall be punishable with fine which may extend to three thousand rupees.

rts at which rtation is law-

17. An explosive shall not be imported by sea except at one of the ports of Calcutta (including Moyapur and Diamond Harbour), Madras, Bombay, Rangoon, Calicut, Karachi Aden and (in the case of crackers only) Negapatam and Moulmein. But a license to import an explosive by sea from Rangoon into the port of Akyab, Sandoway, Kyouk Phyoo, Tavoy, Mergui or Victoria Point as the case may be, may be granted by the Magistrate of the District in which such port is situated. The fee payable in respect of each such license shall be one rupee, and the license shall be in Form A in the schedule hereto annexed.

rant of licenses importation in in cases.

18. If the explosive is gunpowder or an explosive of the 1st division of the 6th (ammunition) class or of the 7th (firework) class, the license to import the same may be granted,—

(*a*) if the importation is by sea, by the Commissioner of Police of Calcutta, Madras, Bombay or Rangoon, or the District Magistrate of Calicut, Karachi, Aden, Negapatam or Moulmein as the case may be, and,

(*b*) if the importation is by land, by the officer appointed to grant licenses under rule 21.

es for licenses ted under 18.

19. The fee payable in respect of each such license shall be Rs. 10; but if any explosive imported under a license into a British port is exported thence to another British port named in Rule 17 the necessary license for such re-import may be granted on payment of a fee of one rupee instead of Rs. 10.

rant of licenses importation by in cases not pro- d for by rule

20. Licenses for the importation by sea of any explosives other than those specified in Rule 18 shall be granted by the Local Government or by some officer specially authorized by the Local Government in this behalf.

rant of licenses importation by and fees for licenses.

21. Licenses for the importation of explosives into British India by land shall be granted by the Magistrate of the District to which the explosives are consigned, or, if the explosives are consigned to a Presidency-town, or Rangoon by the Commissioner of Police. The fee payable in respect of each such license shall be Rs. 10.

nditions for ting licenses r Rule 2.

22. No license shall be granted for the importation of any explosives of the description referred to in Rule 20 unless—

(*a*) it is an explosive authorized for manufacture in, or importation into, the United Kingdom for general sale,

(*b*) its importation is recommended by the Chief Inspector of Explosives with the Government of India, and,

(*c*) if it is an explosive for which a test or examination has been prescribed by or under the orders of the Government of India, samples of it taken as hereinafter provided are certified by the Chemical Examiner or some other officer appointed by the Local Government in this behalf to have passed the test or examination from time to time prescribed.

ting of import- ns by sea in in cases.

23. On the arrival in any port at which the importation of explosives is lawful, of a ship having on board an explosive other than an explosive of the description referred to in Rule 18, such officer as the Chief Customs Officer authorizes in this behalf shall, as soon as may be, proceed on board and shall, if testing or examination is requisite under the last preceding rule, obtain samples of the explosive.

All explosives of which samples are taken for examination shall forthwith be deposited in a place or magazine set apart or notfied under rule 15 I., and shall not be distributed for use until the importer has received from the licensing authority notice that it may be so distributed.

The master of the ship shall give to the said officer, without charge, such samples as he may require. The said officer shall affix to each such sample the name of the ship and of the consignee and such other distinguishing marks as he may think necessary, and shall forward the same to the Chemical Examiner or officer, as aforesaid, for report.

The Chemical Examiner or officer as aforesaid, after testing the said samples, shall without delay forward to the licensing authority, through the Chief Customs Officer, a report under his signature certifying whether the explosive has satisfied the prescribed test.

24. When an explosive imported by land has been conveyed to, and deposited in, the magazine referred to in rule 15.V, the person owning or being in charge of such magazine shall forthwith, if the testing or examination of the explosive is required by Rule 22, deliver free of charge to such officer or person as may be appointed by the Local Government in this behalf such samples as he may require. No explosive of which a sample has been so taken, shall be removed to its destination or distributed for use until the Importer or the person in charge of the magazine has received from the licensing authority a notice that it may be so removed or distributed. *Testing of imports by land in certain cases.*

The officer or person appointed as aforesaid shall affix to the sample received by him the name of the consignee and such other distinguishing marks as he may think necessary, and shall forward the sample for report to the Chemical Examiner or other officer appointed by the Local Government in this behalf.

The Chemical Officer or such other officer as aforesaid shall, after testing the sample, without delay forward to the licensing authority, through the officer or person from whom he received the sample, a report under his signature certifying whether the prescribed test has been satisfied.

25. Explosives, other than those referred to in Rule 18, which have already undergone the test prescribed by Rules 22 and 23 at the ports of Calcutta (including Moyapur and Diamond Harbour), Madras, Bombay, Rangoon, Calicut, Karachi, or Aden, may be re-imported by sea into any other of those ports under a license granted under Rule 20 without re-testing, but subject, in the case of such explosives as are mentioned in Rule 13, Clause IX, to the production of the certificate prescribed in that clause. *Re-importation from one prescribed port into another.*

Such certificate shall be valid for six months after date, if the examination has been made between the 15th October and 31st March; but in the case of dynamite, a fresh certificate may be demanded if the consignment is imported between the 1st April and 15th October (both inclusive).

26. The period for which a license to import an explosive, granted under Rules 20 and 21 shall continue in force shall not exceed such period as may seem necessary to the authority granting the license. *Duration of license granted under Rules 20 and 21.*

27. The fee payable on a license granted under Rule 20 shall be Rs. 10, but if any explosive imported under a license into a British port is exported thence to another British port named in Rule 17, the necessary license for such re-import may be granted on payment of a fee of one rupee instead of Rs. 10. *Fees for licenses granted under Rule 20.*

28. Every license granted under Rules 18, 20 and 21, shall be in Form A in the Schedule hereto annexed, and shall be subject to the conditions therein prescribed, and also to such additional conditions with respect to the time and place of unloading, landing, delivery and conveyance of the explosive, and such other conditions as may in each case be thought by the licensing officer to be necessary for the public safety or in the interest of the State. *Form of licenses under Rules 18, 20 and 21.*

29. Whoever commits a breach of any condition, subject to which a license under Rules 18, 20 and 21 is granted, shall be punishable with fine which may extend to three thousand rupees. *Penalty.*

30. (1) Any of the officers mentioned in clause (2) of this rule may, within the areas respectively specified in that clause, but subject to the provisions of the Indian Arms Act, 1878 (XI of 1878), and of any rules for the time being in force thereunder, in cases to which that Act applies,— *Powers of inspection, search, seizure, etc.*

(a) enter, inspect and examine any carriage or vessel in which an explosive is being transported or imported under a license granted under these rules or any prior rules made under the Indian Explosives Act, 1884 (IV of 1884), or in which he has reason to believe that an explosive has been or is being transported or imported in contravention of the said rules or Act, and may enter, inspect and examine any magazine or place in which explosives are stored under the provisions of rule 15;

(b) search for explosives in any such carriage, vessel, magazine, or place;

(c) take samples of any explosives found therein, on payment of the value thereof, if payment can be made at the time the samples are taken; and

(d) seize, detain, remove and, if necessary, destroy or otherwise render harmless any explosive found therein in respect of which he has reason to believe that any of the provisions of the said rules or Act have been contravened.

(2) The officers and areas referred to in clause (1) of this rule are:—

Officers.	Areas.
The Chief Inspector and Inspector of Explosives.	In all parts of British India.
All District Magistrates.	Within their respective districts.
All Magistrates subordinate to the District Magistrate.	Within the areas respectively subject to their jurisdiction.
The Commissioner of Police, and all Police-officers of rank not below that of Inspector, if specially deputed in this behalf by the Commissioner of Police.	In Presidency towns and Rangoon.
All Police-officers of rank not below that of Inspector.	Within the respective areas over which their authority extends.

(3) Whenever the Chief Inspector or an Inspector of Explosives, or any Magistrate subordinate to the District Magistrate, or any Police-officer seizes, detains or removes any explosive under this rule, he shall report the fact to the District Magistrate or (in a Presidency town or its suburbs or in Rangoon) the Commissioner of Police.

(4) Neither the Chief Inspector nor an Inspector of Explosives, nor any Magistrate subordinate to the District Magistrate, nor any Police officer shall under these rules destroy or otherwise render harmless any explosive without the previous sanction of the District Magistrate or (in a Presidency-town or its suburbs or in Rangoon) the Commissioner of Police unless the matter appears urgent and fraught with serious public danger.

(5) Whenever any officer destroys any explosive or otherwise renders it harmless, he shall take and keep a sample thereof, and shall if required, give a portion of the sample to the person owning the explosives or having the same under his control at the time of seizure; and, whenever any officer other than the District Magistrate or Commissioner of Police so deals with any explosive, he shall report the circumstances to the District Magistrate or (in a Presidency-town or its suburbs or in Rangoon) the Commissioner of Police.

GENERAL.

feiture of s

31. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted.

mption from ties of persons ing on busi- f deceased or led licensee.

32. If a person licensed to import an explosive dies or becomes bankrupt or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Indian Explosives Act, 1884 (IV of 1884), or the rules thereunder for acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license. Such new license shall be granted on payment of one rupee.

hod of levying

33. All fees chargeable for licenses under these rules shall ordinarily be levied by means of impressed stamps. An application for the grant or the renewal of a license shall bear the proper stamp: provided that, if it is refused, the value of the separate stamp (if any) which may have been already provided by the applicant for the desired license or renewed license, *minus* the deductions prescribed by section 54 of the Indian Stamp Act, 1899 (II of 1899), may be refunded to the applicant. An application should not be made on the stamped paper intended for the license or renewed license; but, where this has been wrongly done, the value of the stamp may be refunded *minus*—

(i) the value of the stamp which should have been affixed to the application, and

(ii) the deductions prescribed as aforesaid.

Where the fees leviable under these rules have been made over to any local body, the fees shall be paid in such manner as that local authority may from time to time direct.

rant of dupli- licenses.

34. When a license granted in accordance with these rules is lost, or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of 8 annas.

roduction of ns.

35. Any person holding a license, or acting under a license granted in accordance with these rules, shall be bound to produce the same when called upon to do so by any Magistrate, or by any Police officer in charge of a Police station, or by any Police officer of higher rank.

ontrol over ers.

36. All Magistrates or other authorities acting under these rules shall perform their duties subject to the control of their executive superiors and of the Local Government.

Power to extend ct of license.

37. Any authority empowered to grant a license under the foregoing rules may, if he thinks fit, direct by an order written on the license that it shall have the effect of a like license under the Indian Arms Act, 1878 (XI of 1878).

portation with- license.

38. Any persons lawfully entitled under the Indian Arms Act, 1878 (XI of 1878), or the rules thereunder, to possess any explosive coming under the head of ammunition, as defined in that Act, may import without license under these rules any such explosive in such quantities as may be prescribed by that Act or the rules thereunder, or, when no quantities are prescribed, in reasonable quantities for his own private use; but, when an explosive is so imported, the Collector of Customs or any other officer empowered by the Local Government in this behalf by name or by virtue of his office may at any time detain such explosive until he receives the orders of the Local Government thereon.

of

CONDITIONS.

1. This license is given subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder. Certain general rules are quoted separately below.

2. This license shall become void after expiry of the period named thereon.

3. This license is valid for importation only; if the articles named herein are to be transported to any place outside the $\frac{\text{Presidency town}}{\text{*town of}}$, they must be protected by a transport license, to be issued in accordance with the rules under the Indian Arms Act, 1878 (XI of 1878), except in the case of explosives despatched to places or magazines set apart or notified under the proviso to rule 15.

4. On the outside of each package there shall be affixed in conspicuous characters by means of a brand or securely attached label or mark the word "Explosive," followed by the name of the explosives or other description of the contents and the name and address of the owners or senders.

GENERAL RULES.

* * *

Forfeiture of license.

31. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted.

Exemption of persons carrying on business of deceased disabled licensee from penalties.

32. If a person licensed to import an explosive dies or becomes bankrupt or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Indian Explosives Act, 1884 (IV of 1884) or the rules thereunder for acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license. Such new license shall be granted on the payment of one rupee.

* *Note.*—In the case of explosives imported into a town other than a Presidency town as defined in the General Clauses Act, 1897 (X of 1897), section 3, clause (41), the name of the town should be inserted.

33. All fees chargeable for licenses under these rules shall ordinarily be levied by means of impressed stamps. An application for the grant or the renewal of a license shall bear the proper stamp: provided that, if it is refused, the value of the separate stamp (if any) which may have been already provided by the applicant for the desired license or renewed license, *minus* the deductions prescribed by section 54 of the Indian Stamp Act, 1899 (II of 1899), may be refunded to the applicant. An application should not be made on the stamped paper intended for the license or renewed license; but where this has been wrongly done, the value of the stamp may be refunded *minus*—

(*i*) the value of the stamp which should have been affixed to the application, and

(*ii*) the deductions prescribed as aforesaid.

Where the fees leviable under these rules have been made over to any local body, the fees shall be paid in such manner as that local authority may from time to time direct.

34. When a license granted in accordance with these rules is lost, or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of 8 annas.

35. Any person holding a license, or acting under a license granted in accordance with these rules, shall be bound to produce the same when called upon to do so by any Magistrate, or by any Police officer in charge of a Police station, or by any Police officer of higher rank.

Draft Rule for Testing Explosives.

With reference to Rule 22 of the Rules to regulate the transport and importation of explosives published with this Notification and in supersession of the Notification of the Government of India in the Home Department, No 5529 (Public), dated the 11th October 1901, the Governor-General in Council is pleased to make the following rule on the subject of the tests which explosives should be required to pass before their importation is permitted:

RULE.

Class 1.—Gunpowder class. Gunpowder is not required to pass a test.

Class 2.—Nitrate-mixture class. Nitrate-mixture explosives are not ordinarily required to pass a test. The Local Government, however, or the authorized officer granting the import license under Rules 20 and 21 of the Rules to regulate the transport and importation of explosives published with this Notification may in any particular case or class of cases require that a sample of the explosive which is to be imported be sent first to the Chemical Examiner for an analysis of its constituent parts.

Class 3.—Nitro-compound class. It is for explosives of this class that testing is chiefly required, in respect to the purity of their composition and their liability to liquefaction or exudation. The tests prescribed for nitro-compound explosives are contained in Schedule A attached to this rule.

Class 4.—Chlorate-mixture class. See Schedule A for remarks regarding the testing of this class (*).

Class 5.—Fulminate class. No test has been laid down for explosives of the Fulminate class (*).

Class 6.—Ammunition class. No test is required for explosives of the 1st Division of this class. If the substances of which explosives of the 2nd and 3rd Divisions are composed have to be tested under the preceding rules, they will be equally liable to be tested when enclosed in any case or contrivance and thus falling under the Ammunition class.

Class 7.—Firework class. Explosives of this class are not required to pass a test.

SCHEDULE A.

Heat Test as applied to Explosives of the Nitro-compound Class.

GENERAL INSTRUCTIONS.

Apparatus required.

1. A water bath, consisting of a spherical glass or copper vessel [(*a*) Fig. 1] of about 8 inches diameter, and with an aperture of about 5 inches; the bath is filled with water to within a quarter of an inch of the edge. It has a loose cover of sheet copper about 6 inches in diameter (*b*), and rest on a tripod stand about 14 inches high (*c*), which is covered with coarse iron wire gauge (*e*), and is surrounded with a screen of thin sheet tin or copper (*d*). Within the latter is placed an Argand burner (*f*), with glass chimney. The cover (*b*) has

(*) Licenses are not at present given for the importation into British India of any explosives of these classes.

four holes arranged as seen in Fig. II, No. 4 to receive the regulator, No. 3 the thermometer, Nos. 1 and 2 the test-tubes containing the gun-cotton or other materials to be tested. Around holes 1 and 2 on the under side of the cover are soldered three pieces of brass wire with points slightly converging (Fig. III); these act as springs and allow the test-tubes to be easily placed in position and removed.

Fig. I.

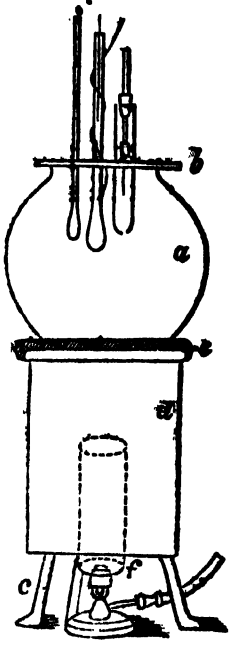

Fig. II.

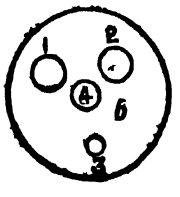

Fig. III.

Fig. IV.

* 2. Scheibler's or Page's temperature regulator.

* 3. Two cells of Le Clanche's battery No. 1 } if Scheibler's regulator is used.
* 4. A few yards of insulated copper wire }

5. Test-tubes from 5¼ to 5½ inches long, and of such diameter that they will hold from 20 to 22 cubic centimeters of water when filled to a height of 5 inches.

6. India-rubber stoppers, fitting the test-tubes and carrying an arrangement for holding the test-paper, *viz.*, a narrow glass tube passing through the centre of the stopper, drawn out so as to form a hook, or terminating in a platinum wire hook (Fig. IV).

7. A thermometer, with range not less than from 30° to 212° Fahrenheit.

8. A minute clock.

Materials required.

(*a*) *Test-paper.*—The test-paper is prepared as follows:—45 grains of white maize starch (cornflour), previously washed with cold water, are added to 8½ ounces of distilled water, the mixture is stirred, heated to boiling, and kept gently boiling for 10 minutes; 15 grains of pure potassium iodide (*i.e.*, which has been recrystallized from alcohol) are dissolved in 8½ ounces of distilled water. The two solutions are thoroughly mixed and allowed to get cold. Strips, or sheets, of best white English filter paper, weighing, air dry, from 4·1 to 4·6 grains per 100 square inches, previously washed with water and redried, are dipped into the solution thus prepared, weighing, air dry, about 6·5 grains per 100 square inches, and allowed to remain in it for not less than 10 seconds; they are then allowed to drain and dry in a place free from laboratory fumes and dust. The upper and lower margins of the strips, or sheets, are cut off, and the paper is preserved in well-stoppered or cork bottles *and in the dark.*† The dimensions of the pieces of test-paper used are about $\frac{1}{10}$ inch by $\frac{8}{10}$ inch (10 mm. by 20 mm.).

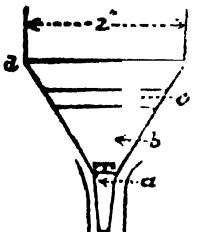
---

* This is not absolutely required, as the temperature of the bath can be kept constant by proper attention to the heating flame.

† When a paper is freshly prepared, and as long as it remains in good condition, a drop of dilute acetic acid, put on the paper with a glass rod, produces no coloration. In process of time, however, the stronger the light to which the paper is exposed, the sooner a drop of acid produces a brown or bluish coloration (a single hour of direct sunlight produces a marked effect), and whenever this is the case the paper should be rejected. After preparation the paper should be kept in the dark for a month before being taken into use. After that, if carefully kept in the dark, it will remain good for six months or more, but should be tested from time to time as above.

(*b*) *Standard tint paper.*—A solution of caramel in water is made of such concentration that when diluted one hundred times (10 cc. made up to 1 litre) the tint of this diluted solution equals the tint produced by the Nesser test in 100 cc. water containing 0·000075 grm. of ammonia or 0·00023505 grm. of chloride of ammonium. With this caramel solution lines are drawn on strips of white filter paper* by means of a clean quill pen. When the marks thus produced are dry the paper is cut into pieces of the same size as the test-paper previously described, in such a way that each piece has a brown line across it near the middle of its length, and only such strips are preserved in which the brown line has a breadth varying from $\frac{1}{2}$ mm. to 1 mm. ($\frac{1}{50}$ of an inch to $\frac{1}{25}$ of an inch).

I.—Testing Dynamite, Blasting Gelatine, and other Eplosives of the First Division of the Nitro-compound class.



A. DYNAMITE, ETC., ETC.

Nitro-Glycerine preparations, from which the nitro-glycerine can be extracted in the manner described below, *must* satisfy the following test.

This test, however, though at present looked upon as the most important, as far as testing the purity of the nitro-glycerine is concerned, is in England only one of several which any given sample of nitro-glycerine preparation has to satisfy in order to establish its compliance with the definition in the Authorised List.

Apparatus required.

A funnel 2 inches across (*d*), a cylindrical measure divided into grains (*e*). (See sketch.)

Mode of operation.

About 300 to 400 grains of dynamite (*b*) finely divided are placed into the funnel which has previously been loosely plugged by some freshly-ignited asbestos (*a*).

The surface is smoothed by means of a flat-headed glass rod or stopper, and some clean washed and dried Kieselguhr (*c*) is spread over it to the depth of about $\frac{1}{8}$ inch.

Water is next carefully dropped from a wash bottle upon this Kieselguhr, and when the first portion has been soaked up more is added; this is repeated until sufficient nitro-glycerine has been collected in the graduated measure (*e*) below.

If any water should have passed through with the nitro-glycerine, it should be removed with a piece of blotting paper, and the nitro-glycerine, if necessary, filtered through a dry paper filter

Application of the Test.

The thermometer is fixed so as to be inserted through the lid of the water bath described under I, into the water (which is to be steadily maintained at a temperature of 160° Fahr.†) to a depth of 2$\frac{3}{4}$ inches. Fifty grains of nitro-glycerine, to be tested are weighed into a test-tube in such a way as not to soil the sides of the tube. A test-paper

* This paper must be carefully washed with distilled water, in the first instance, to remove any traces of bleaching matter, and dried.

† For explosives supplied for His Majesty's Military and Naval Services the temperature is fixed by the War Office at 180°.

is fixed on the hook of the glass rod, so that when inserted into the tube it will be in a vertical position. A sufficient amount of a mixture of half distilled water and half glycerine to moisten the upper half of the paper is now applied to the upper edge of the test-paper, by means of a camel's-hair pencil, the cork carrying the rod and paper is fixed into the test-tube and the position of the paper adjusted so that its lower edge is about half-way down the tube; the latter is then inserted through one of the perforations of the cover to such a depth that the lower margin of the moistened part of the paper is about five-eighths of an inch above the surface of the cover. The test is complete when the faint brown line which after a time makes its appearance at the line of boundary between the dry and moist part of the paper equals in tint the brown line of the standard tint paper.

The nitro-glycerine under examination will not be considered to have satisfied the test unless the time necessary to produce the standard tint as above described is at *least* 15 minutes.

B.—Blasting Gelatine, Gelatine Dynamite, and analogous Preparations.

Fifty (50) grains of blasting gelatine are to be intimately incorporated with one hundred (100) grains of French chalk.* The mixture is to be gradually introduced into a test-tube of the dimensions prescribed above for the dynamite heat test, with the aid of gentle tapping upon the table, between the introduction of successive portions of the mixture into the tube, so that when the tube contains all the mixture it shall be filled to the extent of 1¾ inches (one inch and three-quarters) of its height. The test-paper is then to be inserted and the heat is to be applied in the manner prescribed above for the dynamite heat test, and the sample tested is to withstand exposure to 160° Fahr. for a period of ten (10) minutes, before producing a discoloration of the test-papers corresponding in tint to the standard colour test which is employed for governing the results of the dynamite heat test.

(For Exudation and Liquefaction tests for Blasting Gelatine, etc., etc., *see* Appendix).

N. B.—Non-gelatinized nitro-glycerine preparations, from which the nitro-glycerine cannot be expelled by water, are tested without any previous separation of the ingredients, the temperature being as above (160° Fahr.) and the time being seven (7) minutes.

C.—Cordite and Ballistite.

1. Apparatus required.

The apparatus necessary for the application of the heat test to cordite is identical with that described above for explosive of the nitro-compound class generally† with the addition of a mill and a nest of sieves‡ similar to those used at Waltham Abbey for preparing the cordite for testing (*see* instructions below).

2. Preparation of the sample to be tested.

Pieces half an inch long are cut from one end of every stick selected for the test; in the case of the thicker cordites, each piece so cut is further sub-divided into about four portions. These cut pieces are then passed once through the mill, the first portion of material which passes through being rejected on account of the possible presence of foreign matter from the mill. The ground material is put on the top sieve of the nest of sieves and sifted. That portion which has passed through the top sieve and been stopped by the second is taken for the test. If the mill is properly set, the greater portion of the ground material will be of the proper size.

If the volatile matter in the explosive exceeds 0·5 per cent. the sifted material should be dried at a temperature not exceeding 140° Fahr. until the proportion does not exceed 0·5 per cent.

---

* This can be readily effected by carefully working the two materials together with a wooden pestle in a wooden Mortar.

The French chalk should be of good commercial quality, and, after being carefully washed with distilled water and dried in a water oven, it should be exposed under a bell jar to moist air until it has taken up about 0·5 per cent. of moisture. It should then be bottled for use; and with ordinary care the limits of 0·5 per cent. can be maintained in keeping.

† In the Waltham Abbey apparatus the cover (Fig. II) has all the holes around the circumference instead of having one in the centre and three around the circumference.

‡ A nest of two sieves with holes drilled in sheet copper. The holes in the top sieve have a diameter = 14 B. W. G.; those in the second = 21 B. W. G.

If too hard for the mill, it may be softened by exposure to the vapour of acetone, or reduced to the necessary degree of sub-division by means of a sharp moderately coarse rasp. Should it have become too soft in the acetone vapour for the mill, it should be cut up into small pieces which may be brought to any desired degree of hardness by simple exposure to air.

Explosives which consist partly of gelatinized collodion cotton and partly of ungelatinized gun-cotton are best reduced to powder by a rasp, or softened by exposure to mixed ether and alcohol vapour at a temperature of 90° to 100° Fahr

After each sample has been ground, the mill must be taken to pieces and carefully cleaned.

3. Application of the Test.

The thermometer is fixed so as to be inserted through the lid of the water bath described under I, so as to be immersed in the water to a depth of 2½ inches. The water is maintained at a constant temperature of 180° Fahr. When this temperature is reached, 25 grains of the sifted cordite are put into one of the test-tubes, and collected at the bottom by gentle tapping. A test-paper is fixed on to the hook of the glass rod, so that when inserted into the tube it will be in a vertical position. A mixture of equal parts of distilled water and pure glycerine (Price's) is now applied to the upper edge of the test-paper by means of a camel's-hair pencil, in sufficient amount to moisten the upper half; the stopper carrying the rod and paper is fixed into the test-tube and the position of the paper adjusted, so that its lower edge is about half-way down the tube; the latter is then inserted through one of the perforations of the cover to the same depth as the thermometer. The lower margin of the moistened part of the paper should then be about five-eighths of an inch above the surface of the cover. The test is completed when the faint brown line, which after a time makes its appearance at the margin between the wet and dry portions of the test-paper, equals in depth of tint the brown line drawn on the standard tint paper.

4. The time which elapses between the insertion of the test-tube and the completion of the test must not be less than 15 minutes.

N. B.—In the case of ballistite the treatment is the same, except that when it is in a very finely granulated condition it need not be cut up.

II.—Testing Gun-cotton, Schultz's Gunpowder, E. C. Powder, and other explosives of the 2nd Division of the Nitro-compound class.

A.—COMPRESSED NITRO CELLULOSE, TONITE, ETC., ETC.

Sufficient material to serve for two or more tests is removed from the centre of the cartridge by gentle scraping, and if necessary, further reduced by rubbing through a sieve with a clean hard brush.

The fine powder thus produced is spread out in a thin layer upon a paper tray 6 inches by 4½ inches which is then placed inside a water oven, kept, as nearly as possible, at 120° Fahr.

The wire gauze shelves in the oven should be about 3 inches apart. The sample is allowed to remain at rest for 15 minutes in the oven, the door of which is left wide open.

After the lapse of 15 minutes the tray is removed and exposed to the air of the room for two hours, the sample being at some point within that time rubbed upon the tray with a brush, in order to reduce it to a fine and uniform state of division.

Application of the Test.

The cover of the water bath is fitted with the gas regulator which is inserted through the centre hole (No. 4). The thermometer is fixed into hole No. 3. The water in the bath is then heated to 170° Fahr., and the regulator set to maintain that temperature. Twenty grains of the sample to be tested are weighed out, placed in the test-tube, and gently pressed down until the specimen occupies a space of not more than 1⅛ inches in a test-tube of the dimensions specified. A test-paper is affixed to the hook of the glass rod or tube, and moistened by touching the upper edge with a drop of distilled water containing 50 per cent. of Price's glycerine. The quantity of liquid used must be only sufficient to moisten about half of the paper. The cork carrying the rod and test-paper is then fixed into the test-tube, and the latter inserted into the bath to a depth of 2½ inches, measured from the cover, the regulator and thermometer being inserted to the same depth. The test-paper is to be kept near the top of the test-tube but clear of the cork until the tube has been immersed for about five minutes. A ring of moisture will about this time be deposited upon the sides of the test-tube a little above the cover of the bath; the glass rod must then be lowered until the lower margin of the moistened part of the paper is on a level with the bottom of the ring of moisture in the tube; the paper is now closely watched. The test is complete when the faint brown line which makes its appearance at the line of boundary between the dry and moist parts of the paper equals in tint the brown line of the standard tint paper.

The interval of time between the first insertion of the tube containing the sample of gun-cotton in the water at 170° and the production of the standard tint constitutes the test and this interval of time must be *not less* than 10 minutes, or the sample will not be considered to have satisfied the test.

B.—GELATINIZED AND SEMI-GELATINIZED NITRO-CELLULOSE PREPARATIONS.*

Twenty-five grains introduced into the test-tube* of the dimensions prescribed for the dynamite heat test, then proceed as for Blasting Gelatine, etc., taking the temperature at 180° Fahr., and the time as 15 minutes.

C.—NITRO-CELLULOSE NOT INCLUDED IN A. OR B., SCHULTZ'S POWDER, E. C. POWDER, ETC., ETC.

Sufficient of the sample, without further mechanical division, is dried in the oven as above, and then exposed for two hours to the air. The test as directed above for Compressed Nitro-Cellulose, etc., is then applied, the minimum duration of test being the same, *viz.*, 10 minutes.

D.—PICRIC ACID.

(1) The material shall contain not more than 0·3 part of mineral or non-combustible matter in 100 parts by weight of the material dried at 160° Fahr.

(2) It should not contain more than a minute trace of lead.

(3) One hundred parts of the dry material shall not contain more than 0·3 part of *total* (free and combined) sulphuric acid, of which not more than 0·1 part shall be *free* sulphuric acid.

(4) Its melting point should be between 248° and 253° Fahr.

E.—AMMONITE, BELLITE, ROBURITE, AND EXPLOSIVES OF SIMILAR COMPOSITION.

These are required to stand the same heat test as Compressed Nitro-Cellulose.

III.—Testing Chlorate Mixtures:

The material must not be too sensitive † and must show no tendency to increase in sensitiveness on keeping.

The material must contain nothing liable to reduce the chlorate.

Chlorides calculated as Potassium Chloride must not exceed 0·25 per cent.

The material must contain no free acid, or substance liable to produce free acid.

Explosives of this class containing nitro-compounds will be subject to the Heat Test as if they belong to Class III.

APPENDIX.

Exudation and Liquefaction Test for Blasting Gelatine, Gelatine Dynamite and analogous Preparations.

TEST FOR LIQUEFACTION.

A cylinder of blasting gelatine is to be cut from the cartridge to be tested, the length of the cylinder to be about equal to its diameter and the ends being cut flat.

The cylinder is to be placed on end on a flat surface without any wrapper, and secured by a pin passing vertically through its centre.

In this condition the cylinder is to be exposed for one hundred and forty-four (144) consecutive hours (six days and nights) to a temperature ranging from 85° to 90° Fahr. (inclusive), and during such exposure the cylinder shall not diminish in height by more than one-fourth of its original height, and the upper cut surface shall retain its flatness and the sharpness of its edge.

Note.—If the blasting gelatine and the gelatine dynamite to be tested be not made up in a cylindrical form, the above test is to be applied with the necessary modifications.

TEST FOR LIABILITY TO EXUDATION.

There shall be no separation from the general mass of the blasting gelatine or gelatine dynamite of a substance of less consistency than the bulk of the remaining portion of the

---

* If in a compressed form it should be broken up in the same manner as cordite and ballistite.

† They will be considered too sensitive if they can be exploded however partially by means of a glancing blow with a broomstick on soft wood (such as deal).

materials under any conditions of storage, transport, or use, or when the material is subjected three times in succession to alternate freezing and thawing, or when subjected to the liquefaction test hereinbefore described.

CUSTOMS.

The 29th November 1906.

No. 9227—75.—In exercise of the power conferred by section 19 of the Sea Customs Act, 1878. (VIII of 1878), the Governor-General in Council is pleased to prohibit the bringing by sea or by land into British India of cocaine by means of the post; and to restrict its importation by any other means to cases in which it is imported by persons, or by their authorised agents, who have been specially permitted to import the drug by a Local Government or Administration.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 2229L.S.-G.—The 29th November 1906.—It is hereby notified that the District Road Committee of the Sonthal Parganas have determined to levy road cess for the cess year commencing from the 1st April 1907 at the maximum rate of six pies or two pice on each rupee of the annual value of lands and of the annual net profits from mines, etc., in the tracts in the district of the Sonthal Parganas to which the provisions of the Cess Act were extended under Government Notification No. 4782 R. P., dated the 21st November 1903, and the said rate having been approved by the Commissioner of the Division, the fact is hereby published for general information.

Sonthal Parganas.

No. 2237L.S.-G.—The 29th November 1906.—It is hereby notified that the Lieutenant-Governor is pleased to approve the election by the members of the Krishnagar Local Board in the district of Nadia, under section 29 of the Bengal Local Self-Government Act, III of 1885, of Babu Hemadri Nath Mukharji to be their Chairman, *vice* Mr. F. J. Smith, resigned.

Nadia.

No. 2239M.—The 29th November 1906.—In accordance with the provisions of clause (a) of section 9 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), as amended by the Bengal Municipal (Amendment) Act, 1894 (Ben. Act IV of 1894), and on the recommendation of the Commissioners of the Uluberia Municipality, in the district of Howrah, made at a meeting, the Lieutenant-Governor is pleased to declare his intention to withdraw the said Municipality from the operation of the Bengal Municipal Act, 1884 (Ben. Act III of 1884).

Howrah.

2. Any ratepayer of the said Municipality who objects to such proposed withdrawal should submit his objections in writing, through the District Magistrate, to the undersigned within six weeks from the publication of this notification in the *Calcutta Gazette*.

No. 2241L.S.-G.—The 27th November 1906.—Under Rule 9 of the rules framed under section 5 of the Local Authorities Loan Act, 1879, it is hereby notified, for general information, that the Lieutenant-Governor intends to sanction the following application from the District Board of Champaran for a loan of Rs. 50,000 from Government, bearing interest at the rate of 4 per cent. per annum, and repayable in thirty equal half-yearly instalments of Rs. 2,232-7-8 each, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality:—

Champaran.

Application from the District Board of Champaran for a loan of Rs. 50,000.

| Inspector or some other officer to certify that, in his opinion, the estimate is reasonable and sufficient. | Rs. 50,000. | District Fund. | The Bengal Local Self-Government Act, III of 1885. | 15 years. | 4 per cent. per annum. | One instalment. | Rs. 50,000. | 16th January 1907. | Thirty equal half-yearly instalments payable on the 15th January and 15th July each year, commencing from 15th July 1907, till the loan is paid off. | Rs. 2,533-7-8. | | |

No. 2244M.—The 29th November 1906.—It is hereby notified that, under sections 14 and 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint the Executive Engineer, Darjeeling Division, to be a Commissioner, *ex-officio* of the Darjeeling Municipality, in the district of Darjeeling, *vice* Mr. R. C. Hodgson, resigned.

Advertisements.

B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plot of land, no longer required by the East Indian Railway Company, situated along the East Indian Railway, chord line, in the subdivision of Jamtara, district Sonthal Parganas, will be put up to sale at 12 A.M on the 10th day of January 1907, corresponding with the 26th Pous 1313, Bengali, in the Court compound, Jamtara.

The purchaser of the plot of land will be subject to the following conditions:—

1st.—The purchaser will have no power to make any excavations on the land nearer than 15 feet from the railway boundary or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the plot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidder.

5th.—The purchaser shall be put in possession on receipt by the Subdivisonal Officer of the orders of the Board confirming the sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary rights of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly will be put up to sale at the Hooghly Collectorate on the 21st December 1906, corresponding with 6th Pous 1313 (B.S.).

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale is to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 21st December 1906, corresponding with 6th of Paus 1313 B.S.

The purchasers will be subject to the following conditions of sale:—

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in each estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and the purchaser to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Alipore, the 26th November 1906.

BANGSIDHAR BANERJEE, *for* Collector.

Notification.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Darbhanga will be put up for sale at the office of the Collector of that district on the 17th December 1906 at 11 A.M. for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

Touzi No.	Name of mahal and pargana.	Sadar jama of the whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares. Lahoria Sarai, the 21st November 1906. S. N. GHOSE, Deputy Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on Friday, the 4th January 1907, corresponding to 1313 (B.S.).

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estates and the entire proprietary right of Government in such estates will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	Remarks.
			Rs. A. P.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER 5, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 30th November 1906.*

INDIA, WEST—BOMBAY COAST.

Bankot buoys relaid.

No. 459 (first publication).—With reference to Notice to Mariners No. 269, dated the 3rd August last, issued by this office, the Bombay Government has given further notice (No. 121 of 1906) that the Bankot buoys have been relaid on the 5th November 1906.

ARABIA, NORTH-EAST—PERSIAN GULF.

Shoal outside Koweit Harbour.

No. 460 (first publication).—With reference to Notice to Mariners No. 361, dated 21st September 1906, issued by this office, the following further notice issued by the Bombay Government (No. 122 of 1906) is republished:—

On examination of the soundings to the southward of Ras al Arz two shoal patches are situated as follows—

'Kola' Patch with a least depth of 7 feet rocky bottom bearing from Ras al Arz Beacon S. 3° E., distant 3·6 miles, and from N. E. corner of Sirra Hill Fort N. 82 3/4° E, distant 3·5 miles.

Another Patch with a least depth of 2 fathoms hard sandy bottom bearing from Ras al Arz Beacon S. 0 3/4° W., distant 2·0 miles, and from N. E. corner of Sirra Hill Fort N. 57 3/4° E, distant 3·8 miles.

The bearings are true.

These shoals are close to the coast, and the neighbourhood should be avoided. No buoy was seen on the Kola Patch as reported.

This Notice affects the following Admiralty Charts:—Persian Gulf, Western Sheet, No. 2837B., Koweit Harbour, No. 22; and Persian Gulf Pilot, 4th edition, pages 155 and 160.

CEYLON—Trincomali Harbour.

Back bay—Shoal.

No. 461 (first publication).—The British Admiralty has given notice (No. 1249 of 1906) of the existence of a rock with a depth of 3¼ fathoms over it in Back bay, Trincomali approach, situated in a position from which Elizabeth point bears S. 55° W., distant 1¼ miles, and Flagstaff point S. 1° E. This danger, named Flat rock, about 30 feet in diameter, has a depth of 5 fathoms close around, outside which the water deepens suddenly to 10 fathoms.

Approximate position, lat. 8° 38¾′ N., long. 81° 14½′ E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Ceylon, No. 2031; Trincomali, No. 815: Also Bay of Bengal Pilot, 1901, page 117.

CHINA SEA—Natuna islands.

Midai (Low) island and Elphinstone rock—Dangers between.

No. 462 (first publication).—The British Admiralty has given notice (No. 1250 of 1906) that a line of dangers, more or less connected together, extends for a distance of about 11 miles to the northward of Low island, which is now known as Midai island. The eastern limit of these dangers is fairly well defined by a line joining the east point of Midai island to Elphinstone or Pöstillon rocks.

The 3-fathom shoal given in the above notice is detached from this line of dangers.

Approximate position, north point of Midai island, lat. 3° 1′ N., long. 107° 48′ E.

This Notice affects the following Admiralty Charts:—China sea, No. 2660a; Natuna islands, No. 1548: Also China Sea Directory, vol. II, 1906, page 92.

EASTERN ARCHIPELAGO—Lombok strait.

Ampenan light—Character altered.

No. 463 (first publication).—With reference to Notice to Mariners No. 385, dated 12th October 1906, issued by this office, the British Admiralty has given further notice (No. 1255 of 1906) that the character of Ampenan light has been altered from a white fixed to a *white group occulting* light *every thirty seconds*, thus:—light, *three seconds*; eclipse, *three seconds*; light, *twelve seconds*; eclipse, *twelve seconds*; the new light being of the 4th order.

Approximate position, lat. 8° 34½′ S., long. 116° 4′ E.

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941b; island of Java, No. 1654; Ampenan road on chart No. 895: Also List of Lights, part VI, 1906, No. 512; and Eastern Archipelago, part II, 1904, page 201.

The 30th November 1906.

INDIAN OCEAN.

Seychelles—Mauritius—And Chagos Archipelago—Standard time adopted.

No. 464 (first publication).—The British Admiralty has given notice (No. 1264 of 1906) that on 1st January 1907, the standard time of the 60th meridian of East longitude, or 4 hrs. fast on Greenwich Mean time, will be adopted in the Seychelles and Mauritius, and that of 75th meridian of East longitude, or 5hrs. fast on Greenwich Mean Time, in the Chagos Archipelago.

The time-ball at port Louis, Mauritius, will in consequence be dropped at 1h 0m 0s P.M. Standard Time or 0h 50m 12·4s P.M. Local Mean Time, corresponding to 21h 0m 0s Greenwich Mean Time, instead of 1h 0m 0s Local Mean Time as at present.

Approximate position, port Louis signal station, lat 20° 10′ 5″ S., long. 57° 29′ 0″ E.

This Notice affects the following Admiralty Chart:—Port Louis, No. 713: Also List of Time Signals, 1904, No. 43; and Islands in the Southern Indian Ocean, 1904, pages 24, 309, 363, 343.

AUSTRALIA, SOUTH—Spencer gulf.

Tiparq light-house—A Gong to be sounded during the prevalence of Fog or Mist.

No. 465 (first publication).—The President of the Marine Board, Port Adelaide, has given notice (No. 21 of 1906) that during the prevalence of Fog or Mist a Gong will be sounded at the above-mentioned light-house for a period of thirty seconds in duration and at intervals of five minutes.

The sound will be audible in ordinary weather for a distance of three miles.

This affects Admiralty Chart No. 2389B.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide, outer harbour—Black buoy removed—No. 16 Beacon light temporarily exhibited.

No. 466 (first publication).—The President, Marine Board, Port Adelaide, has given notice (No. 22 of 1906) informing Masters of Vessels, Pilots and others that, owing to the progress of deepening operations at the North Bank, Port Adelaide River, the Black Buoy thereon has been removed and its position is now occupied by the dredger.

No. 16 Beacon Light will be temporarily exhibited from the Reflecting Beacon until it can be shown from the position it is to occupy permanently, as to which a further notice will be issued.

This affects Admiralty Charts 2389A and B, 1750, and 1752.

The 30th November 1906.

AUSTRALIA—Sandy strait.

Woody island—Alteration in marks.

No. 467 (first publication).—The Port Master, Brisbane, has given notice (No. 6 of 1906) that, on and after the 7th proximo, the red buoy on the Long Middle Bank off Woody Island will be shifted two (2) cables' length to the northward, and the red sector of Woody Island lower light altered to cut outside the buoy on a bearing of S. 46° W. The course from the Nun buoy will now be E. $\frac{3}{8}$ S instead of E. $\frac{3}{4}$ S., as shown on Admiralty Chart.

Chart affected—No. 3110; Australia Directory, vol. 2.

The 3rd December 1906.

BAY OF BENGAL—Chittagong Coast.

South Patches—Light vessel to be temporarily removed from her station.

No. 448 (second publication).—With reference to Notice to Mariners No. 295, dated the 17th August last, issued by this office, the Port Officer, Chittagong, has given further notice that the South Patches light-vessel will be removed from her station on the 3rd January 1907, and replaced on the 5th March 1907. A red barrel buoy with staff will mark the position during her absence.

Approximate position, lat. 21° 29′ N., long. 91° 36′ E.

The 22nd November 190.

AUSTRALIA—Victoria—Hobson bay.

Gellibrand point light-house—Fog signal established.

No. 449 (second publication).—With reference to Notice to Mariners No. 289, dated 10th August 1906, issued by this office, the British Admiralty has given further Notice (No. 1210 of 1906) that a fog-horn and a fog rocket have been established at the pile light-house of Gellibrand point, Hobson bay. During thick or foggy weather the horn will be sounded and the rocket fired, alternately, *every five minutes.*

Approximate position, lat. 37° 52$\frac{3}{4}$′ S., long. 144° 55′ E.

This Notice affects the following Admiralty Charts:—Port Philip, No. 1171b; Hobson bay, No. 624: Also, List of Lights, part VI, 1906, No. 1320; Australia Directory, vol. I, 1897, page 459; and Supplement, 1900, page 17.

The 23rd November 1906.

AUSTRALIA, SOUTH—Spencer gulf.

Corny point light—Intended red sector.

No. 450 (second publication).—The British Admiralty has given Notice (No. 1211 of 1906), that it is intended, on 1st January 1907, to alter Corny point light, Spencer gulf, to show *red* over Webb rock between the bearings of N. 50° E. and N. 25° E. in place of the present obscured arc. The red light will be visible in clear weather from a distance of 14 miles.

Approximate position, lat. 34° 54′ S., long 137° 1′ E.

(*Variation 4° Easterly in 1906.*)

This Notice affects the following Admiralty Chart :—Gulf of St. Vincent, &c., No. 2389a; Also, List of Lights, part VI, 1906, No. 1218; Australia Directory, vol. I, 1897, page 219: and Supplement, 1900, page 14.

KOREA—EAST COAST.

Goshkevitch bay—Rock.

No. 451 (second publication).—The British Admiralty has given Notice (No. 1222 of 1906) of the existence of a rock, with a depth of 2 fathoms over it, in Goshkevitch bay, situated in a position from which the southern extremity of Red island bears N. 64° E., distant 8½ cables, and West point N. 75° W.

Approximate position, lat 42° 18¼′ N., long. 130° 32¼′ E.

This rock, named Gyokugan, is steep-to, having depths of 14 to 15 fathoms around it.

(*Variation 7° Westerly in 1906.*)

This Notice affects the following Admiralty Charts :—Tumen Ula to Strelok bay, No. 2432; Goshkevitch bay on chart No. 1186 : Also, Sailing Directions for Japan and Korea, 1904, page 155.

CHINA, NORTH—Manchuria—Liau tung gulf.

Kwang tung peninsula, north coast—Mines removed.

No. 452 (second publication).—With reference to Notice to Mariners No. 420, dated 20th October 1906, issued by this office, the British Admiralty has given further Notice (No. 1223 of 1906) that sweeping operations for mines over an area to the northward of a line joining cape Collinson and Iron island in a north-east direction to Kiu Chau bay were completed on August 26th last.

The cautionary note respecting mines has therefore been removed from the undermentioned charts.

Approximate position, Iron island, lat. 38° 56¾′ N., long. 120° 59E.

This Notice affects the following Admiralty Charts :—Gulf of Pechili and Liau tung, No. 1256; Kwang tung peninsula, No. 1798; Pechili strait, No. 1392 : Also, China Sea Directory, vol. III, 1904, pages 634, 635.

PERSIAN GULF—Mouths of the Euphrates.

Shatt-al-Arab—Regulations regarding speed of vessels.

No. 453 (second publication).—The British Admiralty has given notice (No. 1226 of 1906) that, in consequence of the damage caused by vessels proceeding at a high rate of speed in the Shatt-al-Arab and the adjacent rivers and tributaries, the Turkish Government has notified, through the Vali of Basra, that the speed of all vessels after passing Fao must not exceed five knots. Legal proceedings for damages will be taken against Mariners who contravene this regulation.

Approximate position, Fao, lat. 29° 58½′ N., long. 48° 29½′ E.

This notice affects the following Admiralty Chart :—Shatt-al-Arab, No. 1235; Also Persian Gulf Pilot, 1898, page 239; and Supplement, 1905, page 28.

EASTERN ARCHIPELAGO—Malacca strait.

One Fathom Bank light—Alteration postponed.

No. 454 (second publication).—With reference to Notice to Mariners No. 2, dated 8th January 1906, issued by this office, the British Admiralty has given further Notice (No. 1227 of 1906) that the alteration in the light exhibited from the One Fathom Bank light-house, Malacca strait, from revolving to a *white group flashing* light, showing groups of four flashes *every fifteen seconds*, will not be completed before the close of 1907.

Approximate position, lat. 2° 53′ N., long. 101° 0′ E.

Further notice will be given when this alteration has been made.

This Notice affects the following Admiralty Charts:—Malacca strait, Nos. 13 5 and 794; Cape Rachado to Singapore, No. 795; Also List of Lights, Part VI, 1906, No. 423; and China Sea Directory, vol. I, 1896, page 182.

CHINA, NORTH—Manchuria, south coast.

Ta lien hwan—Regulations relative to, cancelled.

No. 455 (second publication).—With reference to Notice to Mariners No. 312, dated the 3rd September 1906, issued by this office, the British Admiralty has given further notice (No 1228 of 1906) that the regulations respecting Ta lien hwan contained in the above-mentioned notice have been cancelled and are no longer in force. The pecked lines from San shan tau light-house, indicating the limits of the districts, have therefore been erased from the charts, and also the note that inside those pecked lines Japanese harbour regulations are to be followed.

Approximate position of San shan tau light, lat. 38° 51½′ N., long. 121° 50½′ E.

This Notice affects the following Admiralty Chart:—Kwantung peninsula, No. 1798; Also China Sea Directory, vol. III, 1904, page 586.

JAPAN, NAIKAI (INLAND) SEA—Simonoseki strait.

Moji ko—Wreck.

No. 456 (second publication).—The British Admiralty has given notice (No. 1241 of 1906) that the wreck of the S.S. *Naka Maru* lies sunk, with masts and funnel above water, in Moji ko, in a position from which Moji machi harbour office flagstaff bears S. 56° E., distant 3$\frac{4}{10}$ cables, and Kojo yama (Moji hill) N. 52° E.

Approximate position, lat. 33° 57′ N., long. 130° 57½′ E.

(*Variation 4° Westerly in 1906.*)

This Notice affects the following Admiralty Charts:—Simonoseki strait, No. 1578; Moji ko, No. 3114: Also Sailing Directions for Japan, 1904, page 502.

BAY OF BENGAL—Burma coast.

Krishna shoal light-vessel will shortly resume her station.

No. 457 (second publication).—With reference to Notice to Mariners No. 408, dated 23rd October 1906, issued by this office, a further telegraphic communication has been received from the Principal Port Officer, Rangoon, stating that the Krishna shoal light-vessel will resume her station on or about the 29th November 1906, exhibiting original light. The temporary light-vessel will be withdrawn.

BAY OF BENGAL—Chittagong coast.

Kurnafuli river—Depth of water in the channels.

No. 458 (second publication).—The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 22nd November 1906.

	Ft.	in.
Track No. 1.—Outer bar—		
Disc on diamond	11	0
Marks open to the north	14	0
Track No. 2.—Inner bar—		
Batten beacon on pillar	12	0
Track No. 3.—		
Triangle on cross and ball	16	6
Track No. 4.—Guptakhally crossing—		
Tripod on diamond	18	0

The 26th November 1906.

JAPAN—HONSHU (NIPON), NORTH-WEST COAST.

Caution—Floating mines.

No. 436 (third publication).—The British Admiralty has given notice (No. 1168 of 1906) that floating mines are still occasionally seen near the north-west coast of Honshu (Nipon), between the Oki islands and Tsugaru strait; vessels are therefore recommended not to navigate along this coast at night. The Japan sea, also, cannot yet be considered entirely free from danger from these mines.

A cautionary note to the above effect has been placed on the chart.

This notice affects the following Admiralty Chart:—Nipon, Kiusiu, and Shikoku, No. 2347: Also Sailing Directions for Japan, &c., 1904, pages 636—682.

NEW ZEALAND—NORTH ISLAND—PORT NICHOLSON.

Lambton harbour—Lights established on wharf.

No. 437 (third publication).—The British Admiralty has given notice (No. 1175 of 1906) that two *green fixed* lights, placed vertically 8 feet apart, the upper light being elevated 37 feet above high water, have been established near the outer end of Taranaki Street wharf.

These lights are visible from all points of approach for a distance of 3 miles in clear weather.

Approximate position, lat. 41° 17¼′ S., long. 174° 46¾′ E.

This notice affects the following Admiralty Charts:—Port Nicholson, No. 1423; Lambton harbour, &c., No. 803: Also List of Lights, part VI, 1906, page 273; and New Zealand Pilot, 1901, page 172.

AUSTRALIA—NEW SOUTH WALES.

Newcastle harbour—Additional beacon light and leading mark established.

No. 438 (third publication).—The British Admiralty has given notice (No. 1180 of 1906) that, on and after 1st September 1906, a *green fixed* light, elevated 30 feet above high water, would be exhibited from a pile-beacon recently erected on the northern side of the entrance to Newcastle harbour, at a distance of 300 yards, S. 58° W., from the existing red pile-beacon with *green fixed* light.

Approximate position, lat. 32° 55¼′ S., long. 151° 47⅛′ E.

Vessels entering the harbour should keep the above *green fixed* lights in line, bearing S. 58° W., which will lead in least depth of 22 feet at low-water springs, until the lights on the fairway leading towers (*fixed white* and *fixed red*) come into line, bearing S. 42° W.

(*Variation 10° Easterly in 1906*)

This notice affects the following Admiralty Charts:—Port Jackson to port Stephens, No. 1021; Newcastle harbour, No. 2119: Also List of Lights, part VI, 1906, page 231; and Australian Directory, vol. II, 1898, page 81.

CHINA SEA—SINGAPORE STRAIT.

Raffles light.—Limits of obscured sector uncertain.

No. 439 (third publication).—With reference to notice to Mariners No. 367, dated 29th September 1906, issued by this office, the British Admiralty has given further notice (No. 1182 of 1906) that the limits of the sector within which Raffles light is obscured are at present uncertain.

Further notice will be given.

Approximate position, lat. 1° 10′ N., long. 103° 44½′ E.

This notice affects the following Admiralty Charts:—Singapore strait, Nos. 2403, 2404: Also List of Lights, part VI, 1906, No. 437; and China Sea Directory, vol. I, 1896, page 201.

CHINA SEA—Gulf of Siam—Chentabun River.

Lemsing—Light established.

No 440 (third publication).—The British Admiralty has given notice (No. 1183 of 1906) that, on the 1st September 1906, a *white occulting* light *every thirty seconds* thus:—light, *twenty-five seconds;* eclipse, *five seconds*, elevated about 280 feet above high water, and visible in clear weather from a distance of 12 miles, would be established on Lemsing, at the entrance to Chentabun river.

The exact position of this light is not stated.

Approximate position, lat. 12° 28′ N., long. 102° 2½′ E.

This Notice affects the following Admiralty Charts:—Gulf of Siam, No. 2414; cape Liant to Koh kut with plan of Chentabun river, No. 2721: Also List of Lights, part VI, 1906, page 113; and China Sea Directory, vol. II, 1906, page 381.

AFRICA SOUTH COAST—Cape Colony—Algoa bay

Cape Recife light.—Description given.

No. 441 (third publication).—With reference to Notice to Mariners No. 423, dated the 1st November 1906, issued by this Office, the British Admiralty has given further notice (No. 1197 of 1906) of the following description of the light on cape Recife, Algoa bay:—It is a *white fixed* and *flashing* light *every minute*, showing *red* between the bearings of S. 39° W. and S. 11° W., and *white* in other directions; the light-power of the fixed light being 9,000 candles, and of the flash 115,000 candles. The power of the light in the red sector is considerably reduced. Under certain atmospheric conditions the fixed light may become invisible, the flash only appearing.

Approximate position, lat. 34° 1¾′ S., long. 25° 42′ E.

This Notice affects the following Admiralty Charts:—Indian ocean, No. 748a; Hondeklip bay to port Natal, No. 2095; cape St. Francis to Waterloo bay, No. 2085; Algoa bay, No. 642: Also, List of Lights, part VI, 1906, No. 15; and Africa Pilot part, III, 1905, page 125.

CHINA SEA—Philippine Islands—Luzon east coast—Lamon bay Approach.

Makulabo island—Shoal to the South-Westward.

No. 442 (third publication).—The British Admiralty has given notice (No. 1199 of 1906) that a shoal of coral and rock of large extent exists south-westward of Makulabo island. A depth of 3 fathoms was found on it situated in a position from which the southern extremity of Makulabo island bears N. 65° E., distant 2¾ miles, and the northern extreme of the same island N. 32° E.

There appeared to be less water on this shoal; an examination of it is in progress.

Approximate position, lat. 14° 24½′ N., long. 122° 39′ E.

(*Variation Nil in 1906.*)

This Notice affects the following Admiralty Charts:—The Philippine islands, No. 943; Philippine islands between St. Bernardino and Mindoro straits, No. 2577: Also, Eastern Archipelago, part I, 1902, page 374; and Supplement, 1906, page 30.

EASTERN ASCHIPELAGO—Sumatra West coast—Benkulen.

Pulo Tikus light—Intended alteration.

No. 443 (third publication).—The British Admiralty has given notice (No 1201 of 1906) that it is intended to alter pulo Tikus light from white fixed to a *white flashing* light *every five seconds*, the flashes being of very short duration; it will be visible in clear weather from a

distance of 16 miles, and exhibited from a white open iron framework support, 98 feet high, erected near the position of the present light.

The light will be of the 5th order.

Approximate position, lat. 3° 50½′ S., long. 102° 11′ E.

Further Notice will be given when received.

This Notice affects the following Admiralty Chart:—Sumatra with plan of Benkulen, No. 2761: Also, List of Lights, part VI, 1906, No. 463; and China Sea Directory, vol. I, 1896, page 312.

EASTERN ARCHIPELAGO—Sumatra, east coast—Malacca strait.

Langsar bay—Light intended.

No. 444 (third publication).—The British Admiralty has given Notice (No. 1202 of 1906) that it is intended to establish a *white flashing* light *every three seconds* on a white open iron framework support, 65 feet high, erected on Pasir Puti, Langsar bay, the duration of each flash being one second. The light will be of the 4th order.

Approximate position, lat. 4° 32½′ N., long. 97° 59′ E.

Further Notice will be given when received.

This Notice affects the following Admiralty Charts:—Acheh head to Tyinykok bay, No. 2760; Diamond point to Pulo Berhala, No. 1353; and Langsar bay, No. 3574: Also, List of Lights, part VI, 1906, page 63; and China Sea Directory, vol. I, 1896, page 71.

NEW ZEALAND—North island, east coast.

Little Barrier island—Rock.

No. 445 (third publication).—The British Admiralty has given Notice (No. 1203 of 1906) of the existence of a rock, awash at low-water springs off the north-west coast of Little Barrier island, situated in a position from which White cliffs (600 feet) bear S. 75° E., distant about 2 cables, and the northern point of Little Barrier island N. 55° E, distant 2 miles.

This rock is about 60 feet long in a north-easterly and south-westerly direction and 5 feet broad.

Approximate position, lat. 36° 10¾′ S., long. 175° 3¼′ E.

(Variation 14° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Tutukaka harbour to Mayor island, No. 2543; Bream head to Tepaki point, No. 3565: Also, New Zealand Pilot, 1901, page 47; Supplement, 1906, page 4.

COMPASS—*Variation of, on certain charts.*

No. 446 (third publication).—The British Admiralty has given notice (No. 1205 of 1906) that observations obtained during recent years show that the secular change in the variation of the compass is in some cases greatly different from what was anticipated.

The results have been embodied in the variation chart for the Epoch 1907, and this chart should be consulted on all occasions before deciding on the variation to be allowed in shaping course, &c.

The compasses on the charts may be in some cases as much as 2° in error.

INDIA, WEST—Bombay coast.

Caution—Wreck of a Pattimar off Vingorla.

No. 447 (third publication)—With reference to Notice to Mariners No. 428, dated the 1st November 1906, issued by this Office, the Bombay Government has given further notice (No. 119 of 1906) that the Master of S.S. *Loodiana* reports that he passed a wrecked Pattimar in lat. 15° 41′ N., long. 73° 26′ E., Vingorla Rock Light-house, bearing N. 5° E. (True), distant 12 miles. The vessel is lying on her side and is laden with logs of timber; she bears the following mark on her port quarter :—240·5· C.

The derelict is a great danger to navigation.

This Notice affects the following Admiralty Charts :—Karáchi to Vengorla, No. 826; Vengorla to Cape Comorin, No. 827; Gulf of Kutch to Viziadrug No. 2736; Viziadrug to Cochin, No. 2737; and Achra River to Cape Ramas, No. 740 : Also, West Coast of Hindustan Pilot, 1898, page 168.

The 17th November 1906.

NOMINATION OF A MEMBER TO THE BENGAL LEGISLATIVE COUNCIL ON THE RECOMMENDATION OF THE MUNICIPALITIES IN THE ORISSA AND CHOTA NAGPUR DIVISIONS.

APPOINTMENT DEPARTMENT—APPOINTMENT.

Calcutta, the 28th November 1906.

RESOLUTION—No. 4249A.

THE seat in the Bengal Legislative Council of the Hon'ble Mr. Jogesl Chandra Chaudhuri, who was nominated as the representative of the Municipalities in the Rajshahi Division on the 19th January 1905, will be vacant on the 18th January 1907.

2. In paragraph 5 of the Resolution of this Government, No. 1553J., dated the 25th March 1893, it was prescribed that Municipalities should be grouped together, Division by Division, and that Municipalities within each Divisional area should take it in turns to exercise the privilege bestowed upon them of recommending a person for nomination to the Council. In the same paragraph a sketch was given of the form which the rotation would probably

assume; but it was mentioned that the Lieutenant-Governor could not bind himself or his successor as to the exact order in which the privilege would in future be exercised.

3. In paragraph 4 of this Government Resolution No. 1747A.D., dated the 30th June 1906, it was stated that the formation of the new Province of Eastern Bengal and Assam, and the transfer thereto of the Divisions of Dacca, Rajshahi and Chittagong, necessitated the drawing up of a new roster both with regard to the rotation of groups of District Boards and groups of Municipalities, but that no such new roster should be prescribed until the question of reconstituting the Divisions of Bihar had been finally settled.

4. Meanwhile, as during the ensuing or following sessions important legislation affecting the Orissa and Chota Nagpur Divisions is likely to be introduced, namely, Bills to amend the Chota Nagpur Landlord and Tenant Procedure Act, the Chota Nagpur Encumbered Estates Act, and the Chota Nagpur Rural Police Act and a Bill to regulate the maintenance of Land Records in Orissa, and another to amend the Puri Lodging House Act, the Lieutenant-Governor has decided that the recommendation on the present occasion should be made by the Municipalities of the Orissa and Chota Nagpur Divisions. The necessary notification will now be published in the *Calcutta Gazette*, specifying the Municipalities in these two Divisions as the groups of Municipalities on whose recommendation the Lieutenant-Governor will make a nomination to the vacant seat. Only those Municipalities, which enjoy a clear income from Municipal resources proper of Rs. 5,000 and over, will exercise the right of voting for the selection of a candidate for nomination to the Council. The voting power of each Municipality is calculated on the basis of its ordinary income, according to the following scale as laid down in paragraph 6 of the Resolution of this Government, No. 2307 A., dated the 31st March 1897:—

	Rs.		Rs.	Votes.
Municipalities with an income of	5,000	and less than	10,000 ...	1
Ditto ditto	10,000	ditto	20,000 ...	2
Ditto ditto	20,000	ditto	50,000 ...	3
Ditto ditto	50,000	ditto	1,00,000 ...	4
Ditto ditto	1,00,000	ditto	1,50,000 ...	5
Ditto ditto	1,50,000	and over	... ...	6

5. The following statement shows the Municipalities in the Orissa and Chota Nagpur Divisions, which will send delegates to vote for a person to be recommended for the vacant seat, and the number of votes assigned to each according to the above scale. Each Municipality will elect one representative only, and he will be entitled to exercise all the votes of the body which he represents. The ordinary income taken is that for 1905 06:—

District.	Name of Municipality.	Ordinary income.	Number of votes to be recorded by the representative.
	Municipalities in the Orissa Division.	Rs.	
Cuttack ...	Cuttack	40,155	3
	Jajpur	5,107	1
	Kendrapara	9,298	1
Balasore ..	Balasore	15,155	2
Puri ...	Puri	28,479	3
Sambalpur ...	Sambalpur	53,924	4
	Municipalities in the Chota Nagpur Division.	Rs.	
Hazaribagh ...	Hazaribagh	12,504	2
	Chatra	5,422	1
	Giridih	6,253	1
Ranchi ...	Ranchi	23,504	3
Palamau ...	Daltonganj	8,798	1
Manbhum ...	Purulia	20,645	3
Singhbhum ...	Chaibassa	7,795	1

6. Under Rule IV of the Regulations framed by the Governor-General in Council with the approval of the Secretary of State under section 1 (4) of the Indian Councils Act, 1892, for Bengal, the Lieutenant-Governor now desires the Commissioners of the Orissa and Chota Nagpur Divisions at once to address the Chairmen of the Municipalities in their own Divisions as enumerated in the above list, requesting them to convene a special meeting of their Municipalities at which one member of the Municipality should be selected to represent them for the purpose of making the recommendation for the seat in Council and expressing a desire to receive the names of any candidates for the Council who may offer themselves for recommendation.

7. The period of three months laid down in Rule VII of the Regulations as that within which a recommendation shall be made to the Lieutenant-Governor will run from the date on which the Commissioners concerned (whichever is latest) issue their request to the Chairmen of the Municipalities.

8. All candidates for the Council should be proposed and seconded by two members of one of the Municipalities included in the groups; and their names, addresses and qualifications with those of their proposers and seconders, should be reported to the Commissioner of the Division concerned by the Chairman of the Municipality to which the proposer and seconder in each case belong, so as to reach the Commissioner not latter than a month before the date fixed for the appointment of a representative under Regulation V (*c*) which date should at the same time be notified to the Commissioner. It will be the business of each Chairman to see that this is done.

9. Each Commissioner should enter the names of candidates who have been duly proposed and seconded, with those of their proposers and seconders, and the other particulars above noted as they reach him, in a list to be kept for the purpose; and he should circulate this list to all the Municipalities concerned in his own Division, and send it to the other Commissioner for circulation to all the Municipalities concerned in the latter's Division, so as to reach them before the date fixed for the appointment of a representative. On the date on which the meeting for the purpose of appointing a representative is held, the list of candidates mentioned above should be circulated to each member present at the meeting. It will rest with the Municipalities, if they see fit, to give clear and definite instructions to their representatives as to the way in which they should vote, that is, as to the candidate for whom they should vote, declaring the name of the candidate to whom all their votes should be given or, if to be given to more than one candidate, the order and manner in which such votes should be given.

10. As soon as the representatives have been selected, they will be called upon by the Commissioners (who will act in concert in making the necessary arrangements) to meet together on an early and convenient date, with special reference to the limit imposed by Rule VII of the Regulations, for the purpose of electing, by a majority of votes, a person whom they will recommend to the Lieutenant-Governor to be nominated as a Member of the Council. The place of meeting will be in the Bengal Secretariat, Writers' Buildings, Calcutta.

11. The electoral representatives present at this meeting shall elect one of themselves to be Chairman, and he shall preside and be responsible for the fair and proper conduct of the voting.

12. The names of all candidates entered on the list mentioned above, together with those of their proposers and seconders, shall be read out by the Chairman, and the representatives shall then proceed to vote. The person elected must obtain a majority of the votes of the representatives present. If on the occasion of the first vote an absolute majority is not obtained, the name of the candidate who obtains the least number of votes shall be withdrawn from the election, and another vote shall then be held for the remaining candidates, and so on, until an absolute majority is obtained.

13. The Chairman of the meeting shall without delay report to the Chief Secretary to the Government of Bengal the name of the person elected, with the number of votes obtained, and any other information which it may appear desirable to communicate; and he shall on behalf of the meeting recommend to the Lieutenant-Governor the nomination to the Council of the person

so elected. The recommendation will then be submitted to the Lieutenant-Governor by the Chief Secretary.

14. Attention is drawn to the following Rule VI of the Regulations which have been framed by the Governor-General in Council with the approval of the Secretary of State:—

VI.—It shall be a condition in the case of any person to be recommended by a Municipal Corporation or group of Municipal Corporations that he shall be a person resident within the Municipality or the district in which it is situated or in some one of the Municipalities constituting the group of the districts in which they are situated.

A similar condition shall also apply to persons to be recommended by District Boards.

Explanation.—A person is not "resident" within the meaning of this Rule unless he has a place of residence in the locality concerned, and such practical connection with that locality as qualifies him to represent the inhabitants thereof.

If at any time the question is raised whether a person proposed for election is "resident" within the meaning of this rule, the question shall be referred to, and decided by, the Local Government, whose decision shall be final.

Under this rule it is not necessary that the person recommended should be a member of any Municipality concerned, but he must be resident within the Division from which the recommendation is made. Subject to this condition, the rules declare no limit of qualification, and it is left to the representatives to recommend a person under Rule V (*c*) according to the majority of their votes.

15. It is desirable that the subsidiary arrangements now sanctioned shall, as far as possible, be given effect to by the Municipalities concerned with the minimum amount of official interference. The Divisional Commissioners and the District Magistrates will, of course, afford any assistance which may be required, and will do their utmost to facilitate the smooth working of the elections; but Government officers are forbidden to take part, directly or indirectly, in the election by canvassing, influencing votes, or otherwise interfering with the free choice of the Municipalities. No indication should be given by any official member of any of the Municipalities concerned as to the manner in which he himself intends to vote.

ORDERED that a copy of this Resolution be furnished to the Commissioners of the Orissa and Chota Nagpur Divisions, for information and guidance, and for communication to the Municipalities in their Divisions.

ORDERED also that a copy be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

R. W. CARLYLE,

Chief Secy. to the Govt. of Bengal.

REPORT ON THE ADMINISTRATION OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1905-06.

NOTIFICATION.

No. 3248 Mis.—The 3rd December 1906.—The following extracts from the Annual Administration Report of the Zoological Garden, Calcutta, for the year 1905-06, and Government letter No. 3249Mis., dated the 3rd December 1906, acknowledging the receipt of the report, are published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

THE Honorary Committee have the honour to submit their report for the year ending 31st March 1906.

THE COMMITTEE.

1. Lieutenant-Colonel A. Alcock, C.I.E., F.R.S., resigned the office of President on the 24th March 1906, and was succeeded by the Hon'ble Mr. R. W. Carlyle, C.I.E. During his connection with the Garden as a member, and latterly as President, Lieutenant-Colonel Alcock had always taken a keen interest in its welfare and development. The following gentlemen resigned their membership prior to their departure from India :—

Mr. J. C. R. Johnston.
Sir Patrick Playfair, KT.
Mr. G. O. Ranger.

The following new members were appointed during the year :—

Mr. W. K. Dods.
Dr. Nelson Annandale.
Colonel G. M. Porter, R.E.

THE GARDEN.

2. The most important event of the year was the visit of Her Royal Highness the Princess of Wales on the 1st January 1906. Her Excellency the Countess of Minto accompanied Her Royal Highness.

ESTABLISHMENT.

3. Rai R. B. Sanyal Bahadur, C.M.Z.S., was in charge of the Garden and Menagerie throughout the year.

BUILDINGS.

4. No permanent improvement of a costly nature was undertaken during the year, but the following additions and alterations to existing structures were made :—

(1) The open air aviary outside the new Sarnomoyi House, which was designed to afford greater freedom and comfort to the birds, has justified the Committee's expectation in every way.

(2) To afford greater facilities of grazing and movement to the gradually increasing number of Sambur deer in the collection, the enclosure containing them was enlarged at a cost of Rs. 1,029.

(3) The covered enclosure for the temporary reception of aquatic birds was enlarged, advantage being taken of the operation to adapt the new portion in such a way as to render it suitable for exhibiting various species of Kingfishers also.

(4) Teak-wood flooring was provided for the remaining eight dens of the larger carnivorous animals at a cost of Rs. 2,600.

(5) Further progress towards the completion of the boundary wall was made during the year by erecting 360 r.ft. of wall on the north of the Garden.

The following is a list of annual repairs:—

"Reptile House" and its cages white-washed and repainted

"Burdwan House" repaired, dens white-washed and iron-work repainted.

"Ezra House" repaired and white-washed.

"Gubbay House" white-washed and doors repainted.

"Murshidabad House" and "Schwendler House" for birds repaired and repainted.

"Boundary Wall"—portion already existing color-washed after petty repairs.

Petty repairs of smaller houses, sheds and enclosure were attended to.

Attention was, as usual, devoted to the condition of the roads and footpaths which were maintained in a fair state of repair.

FINANCE.

5. The financial condition of the Garden was exceptionally good, the receipts from visitors having amounted to Rs. 31,224-4, which was better than the preceding year by no less than Rs. 7,056-4.

The accounts of income and expenditure are summarized in Appendix B.

THE PUBLIC.

6. The attendance of visitors was the greatest yet recorded, the turnstile records showing a total for the year of 422,282 persons admitted, a daily average of 1,157, as exhibited in Appendix C. In addition, a large number of children under 4 years of age, and school children attended by their teachers, were admitted free. On the day of the Fancy Fair about 10,000 people, including complimentary ticket-holders, entered the Garden.

E. HAROLD BROWN,
Honorary Secretary.

R. W. CARLYLE,
President.

SUPERINTENDENT'S REPORT.

I HAVE the honour to submit the following report on the state of the Menagerie of the Garden.

The following comparative tables show how the various collections of animals in the Garden stood during the last four years:—

YEAR.	Mammals.	Birds.	Reptile
1902-03 ...	504	810	246
1903-04 ...	464	842	238
1904-05 ...	450	855	266
1905-06 ...	432	772	281

HIS ROYAL HIGHNESS THE PRINCE OF WALES'S COLLECTION.

The leading event of the year was the transportation and reception of the following animals belonging to His Royal Highness the Prince of Wales:—

1 Young rhinoceros.
1 Do. elephant.
1 Tiger.
2 Tiger cubs.
1 Cream coloured barking deer.
2 Musk deer.
3 Burbel sheep.
2 Tahrs.
2 Leopards.
2 Himalayan bears.
3 Sambur deer.
2 Swamp deer.
2 Nilgais.
2 Uryals.
2 White barking deer.
1 Tibetan dog.
1 Four-horned antelope.
3 Spotted deer.
2 Hog deer.
4 Slender weasels.
5 Indian antelope.
Pheasants, partridges and thrushes.

Special arrangements had to be made for their lodgment in the Garden prior to their departure to the Zoological Society's Garden, London. The task of conveying such a large number of animals from Raxaul on the Nepal Frontier to Calcutta, especially as some of them were extremely susceptible to unfavourable weather conditions then prevailing, was by no means easy; but, owing to the facilities kindly afforded by the Bengal and North-Western and East Indian Railway Companies, it was satisfactorily performed.

ACQUISITIONS.

The Government of Egypt having made a present of three young African lions to the Government of India, the latter in their turn presented them to this Garden. Writing about these lions, Captain S. S. Flower, Director, Zoological Garden, Ghizeh, said that they were all wild bred, young and very good tempered, and were of the celebrated Kordofan race which attains to a larger size than most races of African lions.

When sending the lions, at Lord Cromer's request, to the Government of India, Captain Flower took the opportunity of including in the consignment the following African animals for exhibition in this Garden :—

1 Grivet monkey.	1 Pair Macaco lemurs.
1 Hamadryad monkey.	1 Do. Ring-tailed lemurs.

4 Ibera tortoises.

Of the animals acquired by purchase, the following deserve notice :—

1 Hybrid kiang
2 Brown bears from Syria.
2 African lions.
3 Arabian gazelles, obtained through the good offices of Messrs. Mackinnon, Mackenzie & Co., Calcutta.
1 Malayan Tapir.
2 Chapman's zebras.
2 Jaguars
2 Pallas's cats.

The following animals were bred in the Menagerie :—

4 Rhesus monkeys.	2 Banting.
1 Common marmoset.	1 Great kangaroo.
1 Mongoose lemur.	9 Spotted-bill ducks.
1 Leopard.	3 Large-billed parrakeets.
5 Spotted deer.	3 Button quails.
4 Sambur deer.	3 Common mynas.
1 Sika deer.	2 Crested pigeons.
3 Indian Antelopes.	6 Red munias.

Exchanges.

In acknowledgment of Captain Flower's courtesy and good offices, the following animals were sent to him for exhibition in the Ghizeh Garden :—

2 Entellus monkeys.	1 Scarlet ibis.
1 Adjutant.	2 Mandarin ducks.
2 Nicobar pigeons.	1 Gold pheasant.
2 Crowned pigeons.	2 Burmese peafowls.
2 Black and white ibises	2 Saras cranes.

At the request of the Government of India a full-grown tiger was sent to the Zoological Garden at Pretoria.

A list of donors and their donations during the year 1905-06 is given in Appendix D.

Losses.

Of the losses by death, the following require special mention:—

One Lioness, one Waterbuck, one Bornean ape, two Clouded leopards, one Puma, one Swamp deer, one Brow-antlered deer, and one Argus pheasant, which was an old inhabitant of the garden. Unfortunately, however, the list is not exhaustive. There were other losses by death, during the year, but most of them were due to causes for which the management of the garden could not be responsible.

Provisions.

The commissariat of the Garden, as its importance required, was carefully looked after. The new ranges of godowns and sheds, with their annexes, largely contributed towards the more efficient management of the department.

Minor structural improvements are still necessary, and it is hoped that they will be carried out before long.

A great deal of vigilance is always required to be exercised in respect to the quality of food supplied for the animals, but to obtain them according to the requisite standard is not so easy as may be supposed. Considerable difficulty has for some time past been experienced in procuring wholesome beef and mutton at prices fixed many years ago. As, however, the difficulty is of complex origin, caused largely by the state of meat-supply in the local market, mere revision of prices will not remedy the evil. In the circumstances, it may be necessary before long to consider whether a well-equipped slaughter-house connected with the Garden will not be a desirable adjunct to its commissariat department.

The same difficulty has been experienced with respect to the milk-supply of the Garden. Trouble, worry, and failure in obtaining pure and fresh milk led the management to have recourse to the use of preserved milk, which, however, does not meet the requirements in every case.

GENERAL CONDITION OF THE ANIMALS.

The results of the few improvements introduced of late have been, on the whole, encouraging. With the exception of a few suspected cases of anthrax among the bovidæ there has been no outbreak of epidemics of any kind, and it is hoped that, with the gradual introduction of improved hygienic measures, their frequency and virulence will be greatly diminished. Of improvements affecting the health and comfort of animals, the construction of the open-air aviary connected with the Sarnomoyi house for birds has been the most important. In its large, lofty, and airy cages ornamented with green lawn and vegetation, birds of various species fly about as if in their wild state—pleasing to the visitors to look at, and enjoyable to the birds themselves. From what some of the species have already attempted in respect to their domestic economy, it is evident that they cannot but be comfortable in their new home.

Most of the older inhabitants of the garden, with a few exceptions, maintained excellent health That improved housing has much to do with the health of the animals was abundantly proved by the fact that the condition of the smaller carnivorous animals markedly improved on their removal from the dark and ill-ventilated smaller carnivora house to an open shed, by no means an ideal place, except in respect to light and ventilation.

COLLECTION OF ANIMALS.

It is time to consider whether the collection of animals in the Garden cannot be further increased and made more representative of the Indian fauna. Southern India remains practically unexploited. None of the Semnopetheci from that sub-region have ever been exhibited in the Garden. No attempt has been made to obtain a specimen of the Slender Loris or a Spotted Cat. Such is also the case with respect

to the rich Sub-Himalayan regions. Of Himalayan birds, the Garden has hitherto been satisfied with the occasional acquisitions of such specimens as casually find their way into the Calcutta market. Of ducks and geese, large numbers are, from time to time, obtained by presentation and purchase, but no serious attempts have yet been made to exhibit a representative collection of various kinds of smaller waders which are so plentiful in India during the cold weather. While the present state of the collection can be well maintained as it has hitherto been done by the generosity of Government officials and private individuals, who have always helped the institution, and by occasional purchases in the local market, to expand it in the direction indicated above, employment of agencies at selected centres, such as, Darjeeling, Mussoorie, Trivandrum and other likely places, is absolutely necessary. As enquiries are from time to time received from the management of other Zoological Gardens in India, such as Lahore, Trivandrum, and Jaipur, about animals they wish to acquire, it may be suggested in this connection that the formation of an "Interprovincial Committee" with a view to furthering the common object of acquiring animals may be formed.

Respectfully submitted.

RAMBRAMHA SANYAL,

Supdt., Zoological Garden, Calcutta.

No. 3249Mis., dated Calcutta, the 3rd December 1906.

From—R. W. CARLYLE, Esq., C.I.E., Chief Secretary to the Government of Bengal, Revenue Department,

To—The Honorary Secretary, Zoological Garden, Calcutta.

I AM directed to acknowledge the receipt of the report of the Honorary Committee for the management of the Zoological Garden, Calcutta, for the year 1905-06, which was submitted with your letter No. 119, dated the 13th November 1906, and to convey the thanks of the Lieutenant-Governor to the Committee for their management of the Garden during the year.

2. The acknowledgments of the Lieutenant-Governor are due to the gentlemen named in appendix D to the report who presented the Garden with various animals during the year.

1	2	3	4	5	6
		Inches.			
27	PURI ...	Nil	10½	9⅘	Weather seasonable. Sugarcane and *rabi* getting on well. *Sarad* paddy ripening. *Laghu* paddy being reaped. Miscellaneous crops doing well. No cattle-disease. Fodder and water sufficient. Small-pox reported from Khurda and Bhubaneswar.
28	SAMBALPUR ...	Nil	12	11½	Weather cool and cloudy. Threshing of autumn and winter rice in progress. Harvesting of *maghi til*, cotton, *mung* and *kurthi* in progress. Reaping of winter rice continuing. Prospects of standing crops good. Outturn of *bahal dhan* 105 to 120 per cent. Cattle-disease in three villages in Sadar tahsil. Fodder sufficient.
29	HAZARIBAGH	Nil	10½	10	Prospects of standing crops good. Harvesting of paddy going on. Fodder and water sufficient.
30	RANCHI ...	Nil	11½	11½	Weather seasonable. Harvesting of paddy continuing. Standing crops doing well. Cattle-disease reported from two thanas. Fodder and water sufficient.
31	PALAMAU ...	Nil	10¼	10⅕	Weather seasonable. Harvesting of paddy and *til* in full sowing. Standing crops doing well. A few cases of cattle-disease reported. Fodder and water sufficient.
32	MANBHUM ...	Nil	10	9½	Weather seasonable. Prospects of crops good. Cattle-disease not reported. Fodder and water sufficient.
33	SINGHBHUM ...	Nil	9	9	Harvesting of winter paddy continuing. Common rice selling at 12 seers a rupee in Seraikella and Kharsawan. Cattle-disease reported from Bahargora outpost. Fodder and water sufficient.
34	COOCH BEHAR	Nil	$6\frac{5}{13}$	$6\frac{3}{15}$	Weather seasonable. Transplantation of tobacco seedlings and sowing of mustard nearly finished. Harvesting of *aman* paddy going on. Cattle-disease reported from thana Mekliganj. Fodder and water sufficient.

GENERAL SUMMARY.—No rain has fallen during the week in the Province. Harvesting of paddy continues. Sowings of *rabi* crops are reported to be approaching completion in Bihar. Rain is needed for these crops in parts of Champaran and Purnea. Damage is being done to the young poppy crop by caterpillars in some places in Muzaffarpur. The number of persons now receiving gratuitous relief as given in district returns is:—24-Parganas 1,251, Saran 112, Muzaffarpur 3,263, Darbhanga 18,719—total 23,345. The number of persons attending test-works is—Muzaffarpur 55, and Darbhanga 15,343. Cattle-disease prevails in eight districts. Cholera continues in parts of Muzaffarpur and Bhagalpur, and is also reported now from Burdwan and Jessore. Small-pox is reported from Khurda and Bhubaneswar in Puri. The price of common rice has risen in one district only and has fallen in fourteen districts.

N. N. BANERJEI,

	Inches.
The mean pressure of the seven days	30·030
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	30·006
	Hours.
The total number of hours of bright sunshine	55·4
The maximum possible number of hours of sunshine	76 0
The mean temperature of the seven days	69 6
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	71·3
The extreme variation of temperature	20·7
The maximum temperature	80·2
	Miles.
The highest velocity of the wind in one hour	8
	%
The mean relative humidity.	73
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	71
	Inches.
The total fall of rain from 25th November to 1st December 1906	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	Nil
The total fall from 1st January to 1st December 1906	57·19
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·27

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

☁, dew.

C. W. PEAKE,
for *Director-General of Observatories.*

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 3332L.R.—The 6th December 1906.—In exercise of the powers conferred by section 101 (2) (*c*) and section 101 (2) (*d*) of the Bengal Tenancy Act (VIII of 1885), the Lieutenant-Governor of Bengal is pleased to order that a survey shall be made and a record-of-rights prepared in respect of all lands comprised in the Government estate Khiraibuni, tauzi No. 455, pargana Vishnupur, in the district of Bankura.

Bankura.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) the name of each tenant or occupant;

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(*c*) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) the name of each tenant's landlord;

(*e*) the money-rent payable at the time the record-of-rights is being prepared; or if a produce-rent, the fact that a produce-rent is paid;

(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;

(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(*h*) the special conditions and incidents, if any, of the tenancy;

(*i*) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(*j*) the custom of the village regulating the methods of irrigation and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 3355L.R.—The 6th December 1906.—Under section 3 of the Bengal Survey, Act, V (B.C.) of 1875, the Lieutenant-Governor is pleased to order that a survey shall be made of all the lands comprised in thanas Mokameh, Barh and Bihar, in the district of Patna, and that the boundaries of estates, tenures, mauzas and fields be demarcated on the lands so to be surveyed.

Patna.

No. 3376L.R.—The 8th December 1906.—Under section 4 of the Bengal Survey Act, V (B.C.) of 1875, Mr. C. S. Kraal and Mr. C. H. G. Johnson, Extra Assistant Superintendents, Survey of India, are appointed to be Assistant Superintendents of Survey in the district of Puri for carrying out the survey of the lands comprised within the boundaries of parganas Parikud, Malud, Bajarkot, Andhari and, Manikpatna, appertaining to the estate known as Jagir Mahals in that district ordered in Notification No. 2883, dated the 12th November 1906.

Puri.

No. 3398L.R.—The 6th December 1906.—Mr. A. H. Vernède, Joint-Magistrate and Deputy Collector, Darbhanga, is vested with special appellate powers under section 87 of the Land Registration Act, VII (B.C.) of 1876.

Darbhanga.

No. 3400L.R.—The 8th December 1906.—In exercise of the power conferred by section 109A of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to appoint the District Judge of Darbhanga to be a Special Judge for the purpose of hearing appeals from the decisions of Revenue Officers under sections 105 to 108 of the Bengal Tenancy Act.

Darbhanga.

No. 3420L.R.—The 11th December 1906.—Under section 3 (16) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, Mr. A. H. Vernède, Joint-Magistrate and Deputy Collector, is authorised to discharge the functions of a Collector under sections 12, 13, 15 and 69 to 71 of the Act in the district of Darbhanga.

Darbhanga.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 3392L.A.—The 5th December 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the East Indian Railway Company, viz., for a borrow-pit, in the village of Ratobara, pargana Maher, zilla Gaya, it is hereby declared that for the above purpose a piece of land measuring, more or less, 0·81 acre of standard measurement, bounded on the—

Gaya.

North—By the G.-B. Railway, main line,
West—By the rice-land of Harsahai Sing,
South—By the rice-lands of Parmeswar Sing, Udan Sing and Harsahai Sing,
East—By the rice-land of Parmeswar Sing—

is required within the aforesaid village of Ratobara.

Mines of coal, iron-stone, slate, or other minerals lying under the land or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894, and section 3, clause (*i*), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the Engineer in charge, G.-B. Railway, Manpur.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 3408L.A.—The 8th December 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Bengal Nagpur Railway Company for the construction of a siding to Lawrence Jute Mill, in the village of Bauria, pargana Muzafferpur, zilla Hooghly, it is hereby declared that for the above purpose a piece of land measuring, more or less, 12 acres 17·92 poles, being equivalent to 36 bighas 12 cottahs and 12·44 chitaks of standard measurement, is required within the aforesaid village of Bauria.

Hooghly.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

The plan of the land may be seen in the office of the District Engineer, Calcutta District, Bengal Nagpur Railway, Garden Reach.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 3414L.A.—The 11th December 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Maniktala Municipality for a public purpose, viz., for the extension of the Parsee Tower of Silence in the village of Baliaghata, pargana Dihi Punchannagram, zilla 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 12 bighas and 18 cottahs of standard measurement bounded on the north partly by Baliaghata road and partly by the Parsee Tower of Silence; on the east partly by the Parsee Tower of Silence and partly by holding No. 20, division 3, subdivision 10; on the south partly by the Parsee Tower of Silence and partly by holding No. 20 and a portion of holding No. 25, division 3, subdivision 10, and on the west partly by holding Nos. 26 and 27, and partly by portion of holding No. 25, division 3, subdivision 10, is required within the aforesaid village of Baliaghata.

24-Parganas.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Municipal Commissioners of Maniktala.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 3415L.A.—The 11th December 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Commissioners of the Port of Calcutta for a public purpose, viz., for works to be constructed and carried out by the Commissioners for the Port of Calcutta under the provisions of Act III (B. C.) of 1890, in the villages of Nangi and Mirpur, pargana Ballia, zilla 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 446 bighas of standard measurement,

Calcutta.

bounded on the north by the river Hooghly, on the south by Mirpur Khal, on the east by the villages of Bangla and Hyjapur and on the west by Mirpur Khal, is required within the aforesaid villages of Nangi and Mirpur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Chief Engineer of the Calcutta Port Commissioners.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 2952.—The 6th December 1906.—In exercise of the powers conferred by section 3 of the Assam Labour and Emigration Act, 1901 (VI of 1901), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct that, with effect from the date of the publication of this notification in the *Calcutta Gazette*, the following amendments shall be made in the Notifications Nos. 2281-2285, dated the 9th July 1901, namely:—

IRRIGATION DEPARTMENT.

The 6th November 1906.

No. 8.—Notification.—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B. C.) of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to make the following additions and alterations in rule 5 of the Water-rate Rules for the Orissa Canals and in items 2 and 5 of the Schedule of rates to be charged for water supplied from the said canals.

W. A INGLIS,
Secy. to the Govt. of Bengal.

Existing rule and rate.

Rule 5 (1st portion only).—The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented at any time; but, if

Existing rule and rate.

presented after the 31st March in the year during which the lease is to commence, an additional charge of one pice per *goont* of local measure, equivalent to 6 annas 3 pies per *mán*, will be made for the year following that in which the lease has been applied for.

Item 2 of the Schedule (portion only).—Provided that in all cases in which the preliminary application for the lease has been presented on any date subsequent to the 31st of March of the year during which the lease is to commence, an additional charge of 1 pice per *goont*, equivalent to 6 annas 3 pies per *mán*, shall be made on all lands in the lease for the year subsequent to that from which the lease commences.

Item 5 of the Schedule.—For the irrigation of sugarcane between 1st April and 16th June—Rs. 3 8 per *mán*.

Proposed rule and rate.

Rule 5 (1st portion only).—The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented at any time; but, if presented

Proposed rule and rate.

after the 31st March in the year during which the lease is to commence, an additional charge of 1 pice per *goont* of local measure, equivalent to 6 annas 3 pies per *mán*, will be made *on all lands leased at Rs. 1 12 per mán, and an additional charge of 1 pie per goont of local measure, equivalent to 2 annas and 1 pie per mán, will be made on all lands leased at 8 annas per mán* for the year following that in which the lease has been applied for.

Item 2 of the Schedule (portion only).—Provided that in all cases in which the preliminary application for the lease has been presented on any date subsequent to the 31st of March of the year during which the lease is to commence, an additional charge of one pice per *goont*, equivalent to 6 annas 3 pies per *mán*, shall be made *on all lands leased at Rs. 1-12 per mán, and an additional charge of 1 pie per goont of local measure, equivalent to 2 annas and 1 pie per mán, will be made on all lands leased at 8 annas per mán*, for the year subsequent to that from which the lease commences.

Item 5 of the Schedule.—*(a)* For the irrigation of sugarcane between 1st April and 16th June *on lands leased for a term of years at Rs. 1-8 per mán—Rs. 3-8 per mán.*

(b) For the irrigation of sugarcane between 1st April and 16th June on lands leased for a term of years at Rs. 1-12 per mán—Rs. 3-4 per mán.

MARINE DEPARTMENT.

NOTIFICATION.

The 8th December 1906.

No 133 Marine.—Mr. J. Sherman, Branch Pilot, is granted privilege leave for two months and six days under article 676 (*a*) of the Civil Service Regulations, combined with special leave for three months and 24 days under article 673 of the Civil Service Regulations, with effect from the 13th December 1906.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

The 11th December 1906.

No. 134 Marine.—Under the powers conferred by section 36 of the Indian Steam-ships Act, 1884, the Lieutenant-Governor is pleased, with the sanction of the Governor-General in Council, to make the alterations indicated below in the rules for regulating the grant of Certificates of Competency to Engineers of sea-going steam-ships, which were sanctioned under notification No. 46 Marine, dated the 7th April 1905.

Rule 20(a).

The following is to be inserted after the first paragraph of sub-rule (*a*) of rule 20 :—

Time spent in a technical school cannot be accepted as equivalent to more than two years' artisan service, and time spent in foreign technical schools can in no circumstances be recognised.

The following is to be added as rule 24A after rule 24 :—

Foreign Engineer.

24A. Foreign Engineers cannot be examined for a First Class Certificate unless they have performed the sea-service stated in rule 21, with the requisite British Certificate. The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British Certificate of Competency of the rank required by the Regulations [*See rule 9*].

Rule 33.

The words "fishing boats" are to be substituted for "trawlers"

Rule 36.

The following is to be substituted for rule 36 :—

Certificates of service.

36. An officer who has attained the rank of Engineer Lieutenant or Engineer Sub-Lieutenant in his Majesty's Navy or the rank of Engineer or Assistant Engineer in the Indian Marine Service, is entitled without examination, if an Engineer Lieutenant or Engineer, to a Certificate of Service as First-Class Engineer, and if an Engineer Sub-Lieutenant or Assistant Engineer, to a Certificate of Service as Second-Class Engineer. These officers may be examined for a Certificate of Competency on the same conditions as Engineers of the Mercantile Marine.

An officer who has attained the rank of Artificer Engineer in His Majesty's Navy or Indian Marine Service is also entitled without examination to a Certificate of Service as Second-Class Engineer.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

The 11th December 1906.

No. 135 Marine.—Mr. H. E. Mackenzie, Senior Master Pilot, is appointed to act as a Branch Pilot, with effect from the 13th December 1906.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

The 11th December 1906.

No. 136 Marine.—Mr. A. Marshall, Licensed Branch Pilot, is granted extraordinary leave without allowance, for 25 days, under article 339 of the Civil Service Regulations, with effect from the 11th November 1906.

W. A. INGLIS,
Secy to the Govt. of Bengal.

Babu Narayan Das Ghosn, B.A., an Assistant Master in the Murshidabad Nawab's High School (class VII), is appointed to be an Assistant Master in the Khulna Zilla School, *vice* Babu Kisori Lal Roy, transferred.

A. EARLE,
Director of Public Instruction, Bengal.

THE FINAL EXAMINATION FOR B AND C CLASSES, 1907.

I

ROUTINE FOR FINAL EXAMINATION OF THE B CLASSES, 1907.

THE examination will be held at the following centres and on the following dates:—

BENGAL ... ... Bankipore, Midnapore and Ranchi.
EASTERN BENGAL AND ASSAM Rampur Boalia, Rangpur, Pabna, Barisal, Dacca and Mymensingh.

DATES.	8 to 11 A.M.	1 to 4 P.M.
Friday, the 1st February 1907	Manual Training ...	Manual Training.
Saturday, the 2nd February 1907	Ditto ...	Ditto.
Monday, the 4th February 1907	Arithmetic and Algebra.	Geometry and Mensuration.
Tuesday, the 5th February 1907	Drawing and Practical Geometry.	Engineering.
Wednesday, the 6th February 1907	Surveying ...	Modern English, I.
Thursday, the 7th February 1907	Modern English, II	Elementary Science.

2. The exact periods allotted to the Manual Training test will be indicated on the examination paper. The examination will begin on Friday, the 1st February 1907, at 8 A.M., and continue, morning and afternoon, until the time allotted has expired. The Manual Training test is on no account to be conducted during any hours other than those prescribed on the examination paper.

3. After each period the candidate's test work together with his question-paper will be taken from him and locked up by the Superintendent and securely sealed. It will remain in his custody until the hour set apart for resuming the examination. Before re-distributing the work to the candidates the Superintendent should assure himself that the seal has not been tampered with.

4. The examination at each centre will be in charge of the Superintendent of the local Technical School. Each Superintendent will be informed by the Examiner, not later than the first week in January, as to the scantlings and length of wood necessary for the practical test. It will be the duty of the Superintendent to see that a sufficient quantity of wood of the required size is available.

5. No extra wood may be given to any candidate.

6. No mistry will be allowed in the shops during the examination.

7. When the time allotted to the practical test has expired, the Superintendent is immediately to pack carefully the materials which have been worked on by the candidates and despatch the packages under seal to the Head Master, Ahsanullah School of Engineering, Dacca, together with a certificate that in each case these examination rules have been rigidly complied with. He will inform the Head Master by telegraph of the despatch of the tests.

II.

ROUTINE FOR THE FINAL EXAMINATION OF THE C CLASSES, 1907, BENGAL CENTRES.

1. The examination will be conducted at the following centres and on the following dates:—

The Hare School, Calcutta (for all Calcutta candidates) Ranchi, Uttarpara, Hooghly and Barasat.

DATES.	8 to 11 A.M.	1 to 4 P.M.
Monday, the 4th February 1907	Arithmetic and Algebra	Geometry and Mensuration.
Tuesday, the 5th February 1907	Drawing and Practical Geometry.	History.
Wednesday, the 6th February 1907	Geography ...	Modern English, I.
Thursday, the 7th February 1907	Modern English, II.	

2. Arrangements for conducting the final examination of the C classes in Eastern Bengal and Assam will be published by the Director of Public Instruction, Eastern Bengal and Assam.

III.

General Instructions.

1. The following regulations are to be observed for the final examination both of the B and C classes:—

Each Head Master of a school sending up candidates for these examinations must send to the Director of Public Instruction, Bengal, a list of candidates appearing from his school before the 20th December 1906. This list is to be accompanied by—

(*a*) a certificate of the age of each candidate on January 1st, 1907;
(*b*) a declaration of the candidate's vernacular;
(*c*) a fee of Rs. 10 from each candidate. This fee will in no case be refunded.

Duplicate copies of (*a*) and (*b*) are to be sent at the same time to the Principal of the Civil Engineering College, Sibpur.

2. The following Examiners have been appointed:—

CLASSES	Subjects.	Examiner.	Address.
B and *C* ...	Arithmetic and Algebra.	Babu Kalipada Basu, M.A.	Professor, Dacca College.

3. All question-papers, except those for the practical tests, are to be such as can be answered in three-hour periods. Modern English (I) and Modern English (II) are divided into two sections; the questions on each section should be such as can be answered in 1½ hours. The answer-papers on each section of Modern English are to be collected at the end of the 1½-hour period assigned to it.

CALCUTTA,
The 11th December 1906.

A. EARLE,
Director of Public Instruction, Bengal.

NOTIFICATION.

Post-graduate Research Scholarships, 1907.

1. Two post-graduate Research Scholarships of the monthly value of Rs. 100 each, and tenable for a maximum period of three years, but in the first instance for one year only will be awarded early in the year 1907.

2. No candidate will be considered who has not passed the M.A., the M.D. the D.L. or the Master in Engineering Examination of the Calcutta University in 1904, 1905, or 1906. No candidate will be considered who is not possessed of high qualifications and who cannot show that he has a capacity for original research.

3. One of the scholarships will be awarded to a candidate who proposes to carry on original research in some Scientific subjects, such as Natural and Physical Science, Chemistry, Mathematical Science, etc. The other may be awarded to a candidate who undertakes research in some literary subject, such as a Language, Comparative Philology, Palæography, Epigraphy, Philosophy, History, Archæology, Anthropology, etc; but no application for a scholarship for researches in a literary subject will be considered unless a candidate presents himself who not only shows that he has the capacity for undertaking the research proposed, but also makes it clear by the programme which he submits that he has thought out a definite course of inquiry. In the event of no suitable candidate for a literary research scholarship being forthcoming, this office may recommend that both the scholarships may be awarded for scientific research.

4. All applications must be submitted, through the head of the institution in which the candidate read last, so as to reach the undersigned on or before the 31st January 1907.

5. Application forms may be had from the Personal Assistant, Office of the Director of Public Instruction, Writers' Buildings, Calcutta.

CALCUTTA,
The 10th December 1906.

A. EARLE,
Director of Public Instruction, Bengal.

NOTIFICATION.

Dated Calcutta, the 11th December 1906.

THE price of "Sachitra Bharat Barser Itihas" by Babu Jajneswar Banerji has been incorrectly stated as four annas on page 1902 of the *Calcutta Gazette* of 31st October 1906. The price of the book is three annas only.

A. EARLE,
Director of Public Instruction, Bengal.

NOTIFICATION.

Annual Examination of Pleaders in Surveying.

1. The next Survey Examination for Pleaders will be held in February 1907.

2. Applications for admission to appear at the examination should in the first place be submitted to the District Judge in whose Court or in Courts subordinate to whom the Pleader ordinarily practises. The District Judge will require evidence from all applicants that they have undergone some training in practical surveying. He will not countersign the application of a candidate who fails to satisfy him on this point; nor will such a candidate be permitted to appear at the examination.

3. Candidates whose applications have been countersigned by the District Judge must submit their applications to the Director of Public Instruction, and these must be received on or before the 15th December 1906. After this date no more applications will be received.

4. The application should state the centre at which the candidate intends to appear, and all particulars as to the length of time the applicant has practised in the Court, and the full address, etc, necessary to secure that letters will reach the applicant.

5. Each application should be accompanied by the prescribed fee of Rs. 30,* which will in no case be refunded.

6. Only pleaders practising in one of the Courts of the Province of Bengal will be eligible for the examination.

7. The examination will be held at three centres, viz., Patna, Cuttack and Sibpur.

8. The subjects for examination are noted below:—

(1) Paper on General Elementary Surveying, including the theodolite and levelling.
(2) Practical examination in the field in—

(*a*) Chain, and chain and compass surveying.
(*b*) Plane-tabling.
(*c*) Plotting.
(*d*) Levelling.
(*e*) The use of the theodolite and the permanent and temporary adjustment of instruments.

9. Candidates are required to secure 40 per cent. of the marks in the paper on surveying and 50 per cent. in the practical portion of the examination.

10. The rules regarding the Pleaders' Survey Examination were published in the *Calcutta Gazette* of the 28th September 1904.

11. The programme for the examination will be published in the *Calcutta Gazette*.

CALCUTTA,
The 14th November 1906.

A. EARLE,
Director of Public Instruction, Bengal.

* The fee must be deposited in the Bank or local Treasury, and the receipt for the same should accompany the application. On no account will cash or a money-order be received.

PRACTICAL SURVEYING EXAMINATION FOR PLEADERS.

FORM OF APPLICATION.*

To

THE DIRECTOR OF PUBLIC INSTRUCTION, BENGAL.

SIR,

I REQUEST permission to appear at the Survey Examination for Pleaders to be held in February 1907, under Government Order No. 2047J.—D., dated 9th October 1901.

The Treasury receipt for Rs. 30 paid as fee is sent herewith.

I wish to be examined at the centre.

I have the honour to be,

SIR,

Your most obedient servant,

Dated

Particulars to be filled up by the Candidate.

(1) Name.
(2) Father's name.
(3) Residence.
(4) Name of the district where the candidate is practising as a Pleader.
(5) Date of obtaining the B.L. Degree, or of passing the Pleadership examination.
(6) Where the candidate wishes to be examined.
(7) Caste or creed.

* The application is to be submitted through the District Judge in whose Court or in Court subordinate to whom the candidate ordinarily practises as a Pleader.

Programme of Practical Examination for Pleaders at the Sibpur, Patna and Cuttack Centres.

Day.	Date.	Hour.	Subject.	Full Marks.	Remarks.
Monday ...	18th Feb. 1907	10 A.M. to 1 P.M.	Question-papers ...	100	In the Examination Hall.
Tuesday ...	19th ,, ,, and subsequent days.	4-hour periods morning and afternoon.	Chain and Compass Surveying.	100	In the Field.
			Plane-table Surveying ...	100	
			Levelling	100	
			The use of the theodolite and the adjustment of instruments.	100	
			Plotting	100	In the Examination Hall.

Each practical test should be suitable for a single uninterrupted period of four hours.

The order and times of the practical tests will depend on the number of candidates to be examined. They will be arranged for each centre by the officer conducting the examination as he thinks fit. They may be altered during the examination as occasion may arise. Candidates are therefore warned to find out on completing each test when their attendance will be next required.

Candidates must bring their own drawing instruments, scales, etc., each day with them. Paper, drawing-boards and field-books will be supplied.

Surveying instruments will be issued to candidates, who will be held responsible for any damage done to them. Tapes will not be supplied, but may be brought by the candidates, if they wish to use them.

CALCUTTA,
The 14th November 1906.

A. EARLE,
Director of Public Instruction, Bengal.

THE CIVIL ENGINEERING COLLEGE, SIBPUR.

THE following courses of instruction are provided at this College.—

I.—Engineer Department.

A four-year course leading to the Engineering Degrees of the Calcutta University. Admissions made yearly in June. Admission qualification, the First Arts examination of the Calcutta University or its equivalent.

II.—Apprentice Department.

The full course of study covers five years. There are special classes in Mining and in Electrical Engineering.

After 1½ years the Sub-Overseer examination is held.

After 3½ years the Final or Overseer examination is held with special modification for Mining students.

On or about Tuesday, 6th August	,, ...	2,200	2,200	4,400
On or about Wednesday, 4th September	,, ...	2,200	2,200	4,400
On or about Thursday, 3rd October	,, ...	2,200	2,200	4,400
On or about Friday, 1st November	,, ...	2,200	2,200	4,400
On or about Tuesday, 3rd December	,, ...	2,200	2,200	4,400
	Total ...	26,400	26,400	52,800

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which, provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Ben receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remains a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1905-1906, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

R. B. MISRA,
Offg. Secretary.

CALCUTTA,

Arrah, the 20th November 1906. ANIS UZ-ZAMAN KHAN, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary rights of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly will be put up to sale at the Hooghly Collectorate on the 21st December 1906, corresponding with 6th Pous 1313 (B S.).

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale is to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Chinsurah, the 21st November 1906. CHANDRA S. KAR, *for* Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 21st December 1906, corresponding with 6th of Paus 1313 B.S.

The purchasers will be subject to the following conditions of sale:—

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in each estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and the purchaser to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Chinsura, the 21st November 1906.

CHANDRA S. KAR, for Collector.

Notice of Sale.

NOTICE is hereby given, under sections 6 and 13 of Act XI of 1859, that the undermentioned estates and shares of estates in the district of 24-Parganas will be put up for sale at the office of the Collector of that district on the 7th day of January 1907 at 12 o'clock noon for arrears of revenue and other demands, which by law are realisable as arrears of land revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share and that the share or shares are excluded from sale.

Alipore, the 26th November 1906.

BANGSIDHAR BANERJEE, *for* Collector

Notification.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Darbhanga will be put up for sale at the office of the Collector of that district on the 17th December 1906 at 11 A.M. for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

Touzi No.	Name of mahal and pargana.	Sadar jama of the whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

Laheria Sarai, the 21st November 1906. S. N. GHOSE, Deputy Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on Friday, the 4th January 1907, corresponding to 1313 (B.S.).

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estates and the entire proprietary right of Government in such estates will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
COMPLETE SERIES—	Rs. A. P.	Rs. A. P.	Rs. A. P.

Secy. to the Govt. of Bengal.

CALCUTTA, *the 5th December 1906.*

BAY OF BENGAL—CHITTAGONG COAST.

Kurnafuli river—Depth of water in the channels.

No. 468 (first publication).—The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 29th and 30th November 1906—

	Ft.	In.
Track No. 1—Outer bar—		
Disc on diamond	14	0
Track No. 2—Inner bar—		
Disc on diamond	11	6
Batten beacon on pillar	11	6
Track No. 3—		
Triangle on cross and ball	16	6
Track No. 4—Guptakhally crossing—		
Tripod on cross and ball and diamond	20	0

INDIA, WEST—SIND COAST.

Karachi harbour—Removal of Deep Water Point mooring buoy.

No. 469 (first publication).—The Bombay Government has given notice (No. 125, dated 28th November), that the Deep Water Point Mooring Buoy, Karachi Harbour, has been removed and will not be replaced until further notice.

This notice affects the following Admiralty Chart :—Karachi Harbour, No. 40; also West Coast of Hindustan Pilot, 1898, page 304, and Supplement 1903, page 19.

EASTERN ARCHIPELAGO—Borneo, south-east coast.

Pulo Laut strait—Light-buoy established.

No. 470 (first publication).—With reference to Notice to Mariners No. 226, dated 26th June 1906, issued by this office, the British Admiralty has given further notice (No. 1271 of 1906) that a light-buoy exhibiting a *white occulting* light, *every twenty seconds*, thus:—light, *ten seconds;* eclipse, *ten seconds*, has been established in a position situated about one mile S. 75° E. from Petang point, in the southern entrance to Pulo Laut strait.

Approximate position, lat. 3° 37′ S., long. 115° 57¾′ E.

(*Variation 2° Easterly in 1906.*)

This Notice affects the following Admiralty Charts:—Makassar strait, No. 2637; plan of Pulo Laut strait on chart No. 2662; Also Eastern Archipelago, part II, 1904, page 277.

CHINA, NORTH—Manchuria, south coast.

Cambrian or Lakhutan cove.—Non-existence of shoal.

No. 471 (first publication).—With reference to notice to Mariners No. 498, dated 12th December 1905, issued by this Office, the British Admiralty has given further notice (No. 1272 of 1906) that the rock reported by the S.S. *Ishibashi Maru* off Cambrian cove, as situated in a position 12 cables S. 73° W. from the rock off the south-eastern extremity of South Entry point, in the approach to Talien hwan bay, has been repeatedly and carefully searched for at a distance of 2 cables in all directions around the assigned position without any indication being found of its existence, the general depths in the locality being 17 fathoms over mud, sand, and shells bottom. This rock has therefore been erased from the charts.

Approximate position, lat. 38° 51′ N., long. 121° 40¾′ E.

Note.—The Japanese name for the Talien islands to the westward of Cambrian cove is Dairen, and this has now been adopted on chart No. 1798.

(*Variation 4° Westerly in 1906.*)

This Notice affects the following Admiralty Chart:—Kwang tung peninsula, No. 1798: Also, China Sea Directory, vol. III, 1904, page 590.

EASTERN ARCHIPELAGO—Malay peninsula, west coast—Siam, Puket or Tongka harbour.

Goh Tapaunoi light—Temporary alterations.

No. 472 (first publication).—The British Admiralty has given notice (No. 1273 of 1906) that Goh Tapaunoi white flashing light, Tongka harbour, will be temporarily replaced by a *white fixed* light whilst undergoing repairs.

Approximate position, lat. 7° 59¾′ N., long. 98° 25½′ E.

Further Notice will be given as necessary.

This notice temporarily affects the following Admiralty Chart:—Puket or Tongka harbour, No. 843: Also, List of Lights, part VI, 1906, No. 383; Bay of Bengal Pilot, 1901, page 434; and China Sea Directory, vol. I, 1896, page 117.

PACIFIC OCEAN—Sulu sea—The Philippine islands.

Basilan strait—Shoal inserted on Charts.

No. 473 (first publication).—The British Admiralty has given notice (No. 1274 of 1906) that as a shoal with a depth of 3¼ fathoms over it appears on the United States Government chart of Basilan strait, situated on chart No. 961 in approximately lat. 6° 46′ 0″ N., long. 122° 4′ 20″ E., it has been inserted on the Admiralty charts in this position.

Note.—The authority for this danger is a Spanish chart corrected to 1895.

This Notice affects the following Admiralty Charts:—Sulu Archipelago, Nos. 2576, 928; Basilan strait, No. 961: Also, Eastern Archipelago, part I, 1890, page 99.

EASTERN ARCHIPELAGO—JAVA, NORTH COAST.

Pamanakan rock—Buoy replaced by light-buoy.

No. 474 (first publication).—With refsrence to Notice to Mariners No. 226, dated 26th June 1906, issued by this office, the British Admiralty has given further notice (No. 1275 of 1906) that the black-bell buoy surmounted by a ball marking Pamanukan rock, has been replaced by a light-buoy, painted black, exhibiting a *white occulting* light *every twenty seconds*, thus:—light, *ten seconds;* eclipse, *ten seconds.*

Approximate position, lat. 6° 1′ S., long. 107° 52½′ E.

This Notice affects the following Admiralty Chart:—Java, No. 1653: Also Eastern Archipelago, part II, 1904, page 97.

EASTERN ARCHIPELAGO—JAVA ISLAND, EAST COAST—SURABAYA STRAIT

Kleta reef.—Beacon erected.

No. 475 (first publication).—The British Admiralty has given notice (No. 1292 of 1906) that an iron screwpile beacon, painted in black and red horizontal bands, with a truncated cone as a topmark, has been erected in a depth of 2 feet on Kleta reef, in the eastern entrance to Surabaya strait, in a position situated at a distance of 6 $\frac{6}{10}$ miles S. 42° E. from Larangan mosque.

Approximate position on chart No. 934, lat. 7° 19½′ S., long 112° 52′ E.

Variation 2° Easterly in 1906.

This notice affects the following Admiralty Charts:—Java, No. 1654, Surabaya strait on chart No. 934: Also, Eastern Archipelago, Part II 1904, page 127; and Supplement, 1906, page 11.

JAPAN SEA—PETER THE GREAT BAY—VLADIVOSTOK APPROACH.

Cape Camova light—Further particulars given, Askold island—Pilot station.

No. 476 (first publication).—With reference to Notice to Mariners No. 402, dated 20th October, issued by this office, the British Admiralty has given further notice (No. 1293 of 1906) that a *white group flashing* light showing groups of *two* flashes, each group being of about *two seconds'* duration, *every ten seconds*, elevated 210 feet above high water, and visible from a distance of 16 miles, has been established on cape Gamova, Vladivostok approach. The light, which is of the 2nd order, is shown from a lighthouse 48 feet high.

A siren worked by compressed air and a bell have been established on the southern end of the cape; during thick or foggy weather the siren will give one blast of four seconds' duration *every minute*, and the bell probably worked in accordance with the Russian uniform system.

Approximate position, lat. 42° 33½′ N., long. 131° 12¼′ E.

Also, that it is no longer now requisite to make cape Gamova when approaching Vladivostok, but it is equally safe to make Askold island, and, obtaining a pilot from thence, to approach Vladivostok by the eastern entrance to the Eastern Bosporus strait.

Approximate position, Askold light. lat. 42° 44′ N., long. 132° 22′ E.

This Notice affects the following Admiralty Charts:—Kuril islands, No. 2405; Tumen Ula to Strelok bay, No. 2432; Trinity bay to the Eastern Bosporus, No. 511: Also List of Lights, part VI, 1906, page 189, No. 1156; and Sailing Directions for Japan, &c., 1904, page 162, 191.

AUSTRALIA, SOUTH—GULF OF ST. VINCENT—BACKSTAIRS PASSAGE.

Yatala shoal—Buoy established.

No. 477 (first publication).—The British Admiralty has given notice (No. 1298 of 1906) that, on or about the 24th of that month, a spherical buoy, painted in red and white horizontal bands, and surmounted by a half globe, base downwards, would be moored in a

depth of 5 fathoms on the north-western side of Yatala shoal, Backstairs passage. The exact position of this buoy is not given, but it has been placed on the chart at a distance of $4\frac{1}{10}$ miles N. 19° E. from cape St. Alban.

Approximate position, lat. 35° 44½′ S., long. 138° 9¾′ E.

(*Variation 5° Easterly in 1906.*)

This Notice affects the following Admiralty Charts:—Gulf of St. Vincent, &c., No. 2389a; Backstairs passage, No. 25: Also Australia Directory, vol. I, 1897, page 308.

AUSTRALIA—New South Wales.

Port Jackson—Fog Signals altered.

No. 478 (first publication).—With reference to Notice to Mariners No. 286, dated 29th July 1905, issued by this office, the British Admiralty has given further notice (No. 1299 of 1906) that the fog bells at Bradley head, fort Denison, and Dawes point, in port Jackson, will in future be sounded continuously during thick or foggy weather, and not as described in the above-mentioned Notice.

Approximate position, fort Denison, lat. 33° 51½′ S., long. 151° 13½′ E.

This Notice affects the following Admiralty Charts:—Port Jackson, No. 1069; Wooloomooloo, &c., No 1890: Also List of Lights, part VI, 1906, Nos. 1364a, 1365, 1365a; Australia Directory, vol. I, 1897, pages 824, 829; vol. II, 1898, pages 59, 62, 63.

The 10th December 1906.

INDIA, WEST—Bombay coast.

Bankot buoys relaid.

No. 459 (second publication).—With reference to Notice to Mariners No. 269, dated the 3rd August last, issued by this office, the Bombay Government has given further notice (No. 121 of 1906) that the Bankot buoys have been relaid on the 5th November 1906.

ARABIA, NORTH-EAST—Persian Gulf.

Shoal outside Kowcit Harbour.

No. 460 (second publication).—With reference to Notice to Mariners No. 361, dated 21st September 1906, issued by this office, the following further notice issued by the Bombay Government (No. 122 of 1906) is republished:—

On examination of the soundings to the southward of Ras al Arz two shoal patches are situated as follows—

'Kola' Patch with a least depth of 7 feet rocky bottom bearing from Ras al Arz Beacon S. 3° E., distant 3·6 miles, and from N. E. corner of Sirra Hill Fort N. 82 3/4° E, distant 3·5 miles.

Another Patch with a least depth of 2 fathoms hard sandy bottom bearing from Ras al Arz Beacon S. 0 3/4° W., distant 2·0 miles, and from N. E. corner of Sirra Hill Fort N. 57 3/4° E., distant 3·8 miles.

The bearings are true.

These shoals are close to the coast, and the neighbourhood should be avoided. No buoy was seen on the Kola Patch as reported.

This Notice affects the following Admiralty Charts:—Persian Gulf, Western Sheet, No. 2837B., Kowcit Harbour, No. 22; and Persian Gulf Pilot, 4th edition, pages 155 and 160.

CEYLON—Trincomali Harbour.

Back bay—Shoal.

No. 461 (second publication).—The British Admiralty has given notice (No. 1249 of 1906) of the existence of a rock with a depth of 3½ fathoms over it in Back bay, Trincomali approach, situated in a position from which Elizabeth point bears S. 55° W., distant 1¼ miles, and Flagstaff point S. 1° E. This danger, named Flat rock, about 30 feet in diameter, has a depth of 5 fathoms close around, outside which the water deepens suddenly to 10 fathoms.

Approximate position, lat. 8° 38¾′ N., long. 81° 14½′ E.

(*Variation Nil in 1906.*)

This Notice affects the following Admiralty Charts:—Ceylon, No. 2031; Trincomali, No. 815: Also Bay of Bengal Pilot, 1901, page 117.

CHINA SEA—NATUNA ISLANDS.

Midai (Low) island and Elphinstone rock—Dangers between.

No. 462 (second publication).—The British Admiralty has given notice (No. 1250 of 1906) that a line of dangers, more or less connected together, extends for a distance of about 11 miles to the northward of Low island, which is now known as Midai island. The eastern limit of these dangers is fairly well defined by a line joining the east point of Midai island to Elphinstone or Postillon rocks.

The 3-fathom shoal given in the above notice is detached from this line of dangers.

Approximate position, north point of Midai island, lat. 3° 1′ N., long. 107° 48′ E.

This Notice affects the following Admiralty Charts:—China sea, No. 2660a; Natuna islands, No. 1348: Also China Sea Directory, vol. II, 1906, page 92.

EASTERN ARCHIPELAGO—LOMBOK STRAIT.

Ampenan light—Character altered.

No. 463 (second publication).—With reference to Notice to Mariners No. 385, dated 12th October 1906, issued by this office, the British Admiralty has given further notice (No. 1255 of 1906) that the character of Ampenan light has been altered from a white fixed to a *white group occulting* light *every thirty seconds*, thus:—light, *three seconds*; eclipse, *three seconds*; light, *twelve seconds*; eclipse, *twelve seconds*; the new light being of the 4th order.

Approximate position, lat. 8° 34½′ S., long. 116° 4′ E.

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941b; island of Java, No. 1654; Ampenan road on chart No. 895: Also List of Lights, part VI, 1906, No. 512; and Eastern Archipelago, part II, 1904, page 201.

INDIAN OCEAN.

Seychelles—Mauritius—And Chagos Archipelago—Standard time adopted.

No. 464 (second publication).—The British Admiralty has given notice (No. 1264 of 1906) that on 1st January 1907, the standard time of the 60th meridian of East longitude, or 4 hrs. fast on Greenwich Mean time, will be adopted in the Seychelles and Mauritius, and that of 75th meridian of East longitude, or 5hrs. fast on Greenwich Mean Time, in the Chagos Archipelago.

The time-ball at port Louis, Mauritius, will in consequence be dropped at 1h 0m 0s P.M. Standard Time or 0h 50m 12·4s P.M. Local Mean Time, corresponding to 21h 0m 0s Greenwich Mean Time, instead of 1h 0m 0s Local Mean Time as at present.

Approximate position, port Louis signal station, lat 20° 10′ 5″ S., long. 57° 29′ 0″ E.

This Notice affects the following Admiralty Chart:—Port Louis, No. 713: Also List of Time Signals, 1904, No. 48; and Islands in the Southern Indian Ocean, 1904, pages 24, 309, 363, 343.

AUSTRALIA, SOUTH—SPENCER GULF.

Tipara light-house—A Gong to be sounded during the prevalence of Fog or Mist.

No. 465 (second publication).—The President of the Marine Board, Port Adelaide, has given notice (No. 21 of 1906) that during the prevalence of Fog or Mist a Gong will be sounded at the above-mentioned light-house for a period of thirty seconds in duration and at intervals of five minutes.

The sound will be audible in ordinary weather for a distance of three miles.

This affects Admiralty Chart No. 2389B.

AUSTRALIA, SOUTH—GULF OF ST. VINCENT.

Port Adelaide, outer harbour—Black buoy removed—No. 1G Beacon light temporarily exhibited.

No. 466 (second publication).—The President, Marine Board, Port Adelaide, has given notice (No. 22 of 1906) informing Masters of Vessels, Pilots and others that, owing to the

progress of deepening operations at the North Bank, Port Adelaide River, the Black Buoy thereon has been removed and its position is now occupied by the dredger.

No. 1G Beacon Light will be temporarily exhibited from the Reflecting Beacon until it can be shown from the position it is to occupy permanently, as to which a further notice will be issued.

This affects Admiralty Charts 2389A and B, 1750, and 1752.

The 30th November 1906.

AUSTRALIA—Sandy strait.

Woody island—Alteration in marks.

No. 467 (second publication).—The Port Master, Brisbane, has given notice (No. 6 of 1906) that, on and after the 7th proximo, the red buoy on the Long Middle Bank off Woody Island will be shifted two (2) cables' length to the northward, and the red sector of Woody Island lower light altered to cut outside the buoy on a bearing of S. 46° W. The course from the Nun buoy will now be E. § S. instead of E. ¾ S., as shown on Admiralty Chart.

Chart affected—No. 3110; Australia Directory, vol. 2.

The 3rd December 1906.

BAY OF BENGAL—Chittagong Coast.

South Patches—Light vessel to be temporarily removed from her station.

No. 448 (third publication).—With reference to Notice to Mariners No. 295, dated the 17th August last, issued by this office, the Port Officer, Chittagong, has given further notice that the South Patches light-vessel will be removed from her station on the 3rd January 1907, and replaced on the 5th March 1907. A red barrel buoy with staff will mark the position during her absence.

Approximate position, lat. 21° 29′ N., long. 91° 36′ E.

The 22nd November 1906.

AUSTRALIA—Victoria—Hobson bay.

Gellibrand point light-house—Fog signal established.

No. 449 (third publication).—With reference to Notice to Mariners No. 289, dated 10th August 1906, issued by this office, the British Admiralty has given further Notice (No. 1210 of 1906) that a fog-horn and a fog rocket have been established at the pile light-house of Gellibrand point, Hobson bay. During thick or foggy weather the horn will be sounded and the rocket fired, alternately, *every five minutes.*

Approximate position, lat. 37° 52¾′ S., long. 144° 55′ E.

This Notice affects the following Admiralty Charts :—Port Philip, No. 1171b; Hobson bay No. 624: Also, List of Lights, part VI, 1906, No. 1320; Australia Directory, vol. I, 1897 page 459; and Supplement, 1900, page 17.

The 23rd November 1906.

AUSTRALIA, SOUTH—Spencer gulf.

Corny point light—Intended red sector.

No. 450 (third publication).—The British Admiralty has given Notice (No. 1211 of 1906), that it is intended, on 1st January 1907, to alter Corny point light, Spencer gulf, to show *red* over Webb rock between the bearings of N. 50° E. and N. 25° E. in place of the present obscured arc. The red light will be visible in clear weather from a distance of 14 miles.

Approximate position, lat. 34° 54′ S., long 137° 1′ E.

(*Variation 4° Easterly in 1906.*)

This Notice affects the following Admiralty Chart :—Gulf of St. Vincent, &c., No. 2389a; Also, List of Lights, part VI, 1906, No. 1218; Australia Directory, vol. I, 1897, page 219 : and Supplement, 1900, page 14.

KOREA—EAST COAST.

Goshkevitch bay—Rock.

No. 451 (third publication).—The British Admiralty has given Notice (No. 1222 of 1906) of the existence of a rock, with a depth of 2 fathoms over it, in Goshkevitch bay, situated in a position from which the southern extremity of Red island bears N. 64° E., distant 8½ cables, and West point N. 75° W.

Approximate position, lat 42° 18½′ N., long. 130° 32½′ E.

This rock, named Gyokugan, is steep-to, having depths of 14 to 15 fathoms around it.

(Variation 7° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Tumen Ula to Strelok bay, No. 2432; Goshkevitch bay on chart No. 1186: Also, Sailing Directions for Japan and Korea, 1904, page 155.

CHINA, NORTH—MANCHURIA—LIAU TUNG GULF.

Kwang tung peninsula, north coast—Mines removed.

No. 452 (third publication).—With reference to Notice to Mariners No. 420, dated 20th October 1906, issued by this office, the British Admiralty has given further Notice (No. 1223 of 1906) that sweeping operations for mines over an area to the northward of a line joining cape Collinson and Iron island in a north-east direction to Kiu Chau bay were completed on August 26th last.

The cautionary note respecting mines has therefore been removed from the undermentioned charts.

Approximate position, Iron island, lat. 38° 56¾′ N., long. 120° 59E.

This Notice affects the following Admiralty Charts:—Gulf of Pechili and Liau tung, No. 1256; Kwang tung peninsula, No. 1798; Pechili strait, No. 1392: Also, China Sea Directory, vol. III, 1904, pages 634, 635.

PERSIAN GULF—MOUTHS OF THE EUPHRATES.

Shatt-al-Arab—Regulations regarding speed of vessels.

No. 453 (third publication).—The British Admiralty has given notice (No. 1226 of 1906) that, in consequence of the damage caused by vessels proceeding at a high rate of speed in the Shatt-al-Arab and the adjacent rivers and tributaries, the Turkish Government has notified, through the Vali of Basra, that the speed of all vessels after passing Fao must not exceed five knots. Legal proceedings for damages will be taken against Mariners who contravene this regulation.

Approximate position, Fao, lat. 29° 58½′ N., long. 48° 29½′ E.

This notice affects the following Admiralty Chart:—Shatt-al-Arab, No. 1235; Also Persian Gulf Pilot, 1898, page 239; and Supplement, 1905, page 28.

EASTERN ARCHIPELAGO—MALACCA STRAIT.

One Fathom Bank light—Alteration postponed.

No. 454 (third publication).—With reference to Notice to Mariners No. 2, dated 8th January 1906, issued by this office, the British Admiralty has given further Notice (No. 1227 of 1906) that the alteration in the light exhibited from the One Fathom Bank light-house, Malacca strait, from revolving to a *white group flashing* light, showing groups of four flashes *every fifteen seconds*, will not be completed before the close of 1907.

Approximate position, lat. 2° 53′ N, long. 101° 0′ E.

Further notice will be given when this alteration has been made.

This Notice affects the following Admiralty Charts:—Malacca strait, Nos. 1355 and 794; cape Rachado to Singapore, No. 795; Also List of Lights, Part VI, 1906, No. 423; and China Sea Directory, vol. I, 1896, page 182.

CHINA, NORTH—MANCHURIA, SOUTH COAST.

Ta lien hwan—Regulations relative to, cancelled.

No. 455 (third publication).—With reference to Notice to Mariners No. 312, dated the 3rd September 1906, issued by this office, the British Admiralty has given further notice (No. 1228 of 1906) that the regulations respecting Ta lien hwan contained in the above-mentioned notice have been cancelled and are no longer in force. The pecked lines from San shan tau light-house, indicating the limits of the districts, have therefore been erased from the charts, and also the note that inside those pecked lines Japanese harbour regulations are to be followed.

Approximate position of San shan tau light, lat. 38° 51½′ N., long. 121° 50¼′ E.

This Notice affects the following Admiralty Chart:—Kwantung peninsula, No. 1798; Also China Sea Directory, vol. III, 1904, page 586.

JAPAN, NAIKAI (INLAND) SEA—SIMONOSEKI STRAIT.

Moji ko—Wreck.

No. 456 (third publication).—The British Admiralty has given notice (No. 1244 of 1906) that the wreck of the S.S. *Naka Maru* lies sunk, with masts and funnel above water, in Moji ko, in a position from which Moji machi harbour office flagstaff bears S. 56° E., distant 3$\frac{1}{10}$ cables, and Kojo yama (Moji hill) N. 52° E.

Approximate position, lat. 33° 57′ N., long. 130° 57½′ E.

(*Variation 4° Westerly in 1906.*)

This Notice affects the following Admiralty Charts:—Simonoseki strait, No. 1578; Moji ko, No. 3114: Also Sailing Directions for Japan, 1904, page 502.

BAY OF BENGAL—BURMA COAST.

Krishna shoal light-vessel will shortly resume her station.

No. 457 (third publication).—With reference to Notice to Mariners No. 408, dated 23rd October 1906, issued by this office, a further telegraphic communication has been received from the Principal Port Officer, Rangoon, stating that the Krishna shoal light-vessel will resume her station on or about the 29th November 1906, exhibiting original light. The temporary light-vessel will be withdrawn.

BAY OF BENGAL—CHITTAGONG COAST.

Kurnafuli river—Depth of water in the channels.

No. 458 (third publication).—The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 22nd November 1906.

	Ft.	in.
Track No. 1.—Outer bar—

RESOLUTION ON THE REPORTS ON INLAND EMIGRATION FOR THE YEAR ENDING THE 30TH OF JUNE 1906.

GENERAL DEPARTMENT—EMIGRATION.

Calcutta, the 10th December 1906.

RESOLUTION—No. 8021.

READ—

The reports on Inland Emigration for the year ending the 30th of June 1906 submitted by the Superintendents of Emigration, Calcutta, the Sonthal Parganas, Hazaribagh, Ranchi, Palamau, Manbhum and Singhbhum and Sambalpur.

Read also—

The remarks of the Commissioners of the Bhagalpur, Chota Nagpur and Orissa Divisions on the reports submitted by the Superintendents of Emigration in their respective Divisions.

1. During the year the district of Sambalpur was transferred from the Central Provinces to the jurisdiction of this Government, while the port of embarkation for emigrants at Goalundo and the landing station at Chandpur passed to the control of the Government of Eastern Bengal and Assam.

2. The question of the supply of labour for the tea gardens of Assam having for some time past engaged attention and the special enquiries instituted having demonstrated that the situation in Assam compared unfavourably with that obtaining in other tea-producing tracts of India, both in respect of the relations between employer and employed, and as regards the system of obtaining labour, the Government of India, in a Resolution dated the 20th February 1906, decided that the Assam Labour and Emigration Act (VI of 1901) should be withdrawn from the Surma valley and the districts of Kamrup and Goalpara, but at the same time considered it undesirable that the withdrawal of the Act should take effect until the questions connected with emigration to the districts of the Upper Assam valley had been examined and reported on by a Committee. The Government of India appointed a Committee known as the Assam Labour Enquiry Committee for this purpose, indicating the points which required investigation. The Committee's report has been received and is now under the consideration of the Government.

3. It had been brought to the notice of the Government that the inland steam companies were losing money in carrying emigrants from Cachar and Sylhet by reason of the operation of Rule 165 of the rules framed by the Government of Bengal under Act VI of 1901, which required that every steamer authorised to convey emigrants to the labour districts should carry a medical officer. The question having been carefully examined by Government, in consultation with the Government of Eastern Bengal and Assam, the Inspector-General of Civil Hospitals and the Superintendent of Emigration, Calcutta, it was decided to amend the Rule. Provided that certain conditions are complied with, the most important being to the effect that the principal river-side dispensaries should be subsidised by the steamer companies for rendering assistance in case of need, the employment of a medical officer on board steamers proceeding to Cachar and Sylhet is no longer obligatory when the number of emigrants is less than 50.

4. In the Resolution recorded on last year's reports a reference was made to the practice of taking persons from notified districts to depôts situated in places outside those areas for despatch as free emigrants. It was stated that a rule had been framed prescribing that details descriptive of all persons recruited under section 92 should be entered in a register and laying down that no emigrant should be despatched from places of accommodation until an officer of Government had inspected the register. Complaints were received during the year under review that the observance of this rule caused great delays and much inconvenience. The question was referred to the Assam Labour Enquiry Committee, and will be considered in connection with the Committee's report.

5. The Inland Labour Transport Fund still continues to be in an unsatisfactory condition although the actual deficit was less than in previous years owing largely to the transfer of the emigration establishments at Goalundo and Chandpur to the Government of Eastern Bengal and Assam. The Government of India in September, 1905, sanctioned the temporary abolition, and have recently consented to the permanent abolition, of the post of Travelling Superintendent of Emigration for Bengal and the Central Provinces.

6. During the past year 37,115 emigrants of all classes recruited from Bengal, Madras and the Central Provinces, embarked at Goalundo and Dhubri as against 22,322 in the previous year. Of this number, 4,765 or 12·84 per cent. were recruited by licensed contractors under Chapter III of the Act, 10,934 or 29·46 per cent. by garden sardars working under Chapter IV of the Act, 1,039 or 2·80 per cent. by specially employed sardars working under sections 90 and 91, and 20,377 or 54·90 per cent. under the system of free recruitment permissible under section 92 in all areas except Chota Nagpur and the Sonthal Parganas. There has been an increase in the number of all classes of emigrants, the increase being most marked in the number of emigrants recruited under the free system. In Bengal, excluding Chota Nagpur and the Sonthal Parganas, which are closed to free recruitment, the number of emigrants despatched under section 92 during the year is nearly double what it was in the year 1904-05, while the number recruited under Chapters III and IV is considerably less, the variation being apparently due to the fact that recruiters find it easier and more profitable to carry on business under the free system. In the

newly transferred district of Sambalpur also there has been a falling off in the number of emigrants registered under Chapters III and IV, the decline being attributed to the extraordinary growth of free recruitment in the adjoining Native States which offer better inducements as recruiting grounds. In Chota Nagpur and the Sonthal Parganas, however, inspite of the number who are believed to be taken outside those areas and recruited under the free system by a fraud upon the law, to which they themselves may or may not be parties, there has been an increase in the number of emigrants recruited under the provisions of Chapters III and IV and sections 90 and 91 of the Act. This result is attributed to bad crops and the exceptionally high price of food grains.

7. The reports under review indicate that abuses in connection with recruitment still continue. The number of criminal cases connected with emigration during the year was 181 as compared with 157 in 1905, but it is satisfactory to observe that the proportion of criminal cases to the number of emigrants actually decreased. The hope is, therefore, entertained that the proportion of emigrants who are induced to go to the labour districts by fraud, deceit or coercion is steadily diminishing.

8. The practice of taking persons from prohibited areas to the free depôts at Asansol, Raniganj, Midnapore and Kharagpur, is referred to in the following extracts from the reports received from local officers :—

* * * * * * * *

Commissioner of Chota Nagpur.

The amendments of the law effected in 1901 have greatly reduced the abuses that formerly prevailed, and complaints of abduction are far fewer than they were formerly. There are still, however, cases of this kind. The provisions of the law prohibiting recruitment by contractors in certain areas are constantly being evaded. These malpractices are rendered comparatively easy by the fact that there are free depôts at Asansol and Raniganj on the borders of this division, and that the business is so profitable that persons implicated can afford to disburse large sums in order to spoil cases. The Ranchi and Manbhum reports show that in those districts active steps were taken to check malpractices as much as possible, and that a number of offenders were caught and punished.

* * * * * * * * *

Deputy Commissioner of Ranchi.

17. Recruitment of coolies by persons other than the garden sardars, whose certificates were duly countersigned for this district, and recruiters duly licensed on applications of the contractors, was also frequent during the year under report. I am of opinion that there was no increase in the actual amount of illegal recruitment—it was indeed probably slightly less—but every effort was this year put forth to check it, and special police officers were deputed to investigate as soon as information was received. There were 9 such cases brought to trial in which 16 such recruiters were involved, of whom 1 was sentenced to pay a fine of Rs. 150, 1 to suffer rigorous imprisonment for 9 months, including solitary confinement for two months and to pay a fine of Rs. 100, 4 to 6 months' rigorous imprisonment each including one month's solitary confinement in each case, 3 to six months' rigorous imprisonment each, 4 to three months' rigorous imprisonment each, including one month's solitary confinement each; in respect of 2 of them, 1 was acquitted and 2 awaited their trial at the close of the year, 1 of whom has since been sentenced to three months' rigorous imprisonment with one month's solitary confinement. In all these cases the coolies were not registered in this district, although they were recruited in it, but smuggled and registered elsewhere, some at Chaibassa, some sold at Asansol and some at Calcutta and other places.

*

Deputy Commissioner of Manbhum.

11. Thirty-three cases were instituted during the year under report of which 15 were under section 164 of the Emigration Act, 5 under 170, 4 under 184, 1 under 167 and 169, 5 under 168, 1 under 363 and 417 of the Indian Penal Code, and section 164 of Act VI of 1901, 1 under section 341 of the Indian Penal Code, and 1 under 341 of the Indian Penal Code and 168 of the Emigration Act. Of the cases instituted under section 164 of Act VI of 1901, 6 cases ended in the conviction of the accused persons. In the remaining 9 cases the accused were either acquitted or discharged for want of sufficient evidence, as the witnesses, and, in some cases the complainants themselves were gained over. The fact that once a cooly, however illegally recruited, is traced and restored to his relatives, no one has any very strong motive for securing a conviction, is a standing difficulty in the way of bringing even the most flagrant offenders to justice. As in previous years, frequent complaints were received regarding the enticing away of coolies to the free depôts at Asansol, Raniganj or Midnapore. Enquiries in such cases have nearly always proved abortive, and it is certain that such coolies are almost always registered under false names and descriptions. The number of prosecutions for fraudulent recruitment rose from 12 to 15 in this district.

* * * * * * *

Deputy Commissioner of Hazaribagh.

17. No cases of unauthorized recruitment were discovered during the period from 1st July 1905 to 30th June 1906. One case, which was pending on the 30th June 1905, was disposed of during the period under report. Of the five accused three were acquitted and two sentenced each to undergo three months' simple imprisonment. Indications were not wanting that large numbers of inhabitants of this district were placed under contract under false names and addresses at places outside the notified area. This traffic is most pernicious and it shows that many unauthorized persons are constantly recruiting illegally within the notified area. There were during the year several cases of complaints of the disappearance of individuals. In all these the missing persons could not be traced. The system of pass-ports and verifications of emigrants' home addresses advocated by me in last year's report should be introduced without further delay.

* * * * * * * *

Deputy Commissioner of the Sonthal Parganas.

6. There were 36 prosecutions for fraudulent and illegal recruitment during the year against 24 of the preceding year and seven sardars were prosecuted against nil the year before for not returning to their gardens on the expiry of the term of their licenses. Sixteen out of the 36 cases of illicit recruiting were at Deoghar for smuggling recruits into Raniganj and there were similar prosecutions at Sadar for taking unregistered recruits to Rampur Hat or Raniganj. The rest of the cases were for unlicensed recruiting.

* * * * * * * *

By order of the Lieutenant-Governor of Bengal,

T. W. RICHARDSON,

Offg. Secretary to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 10th December 1906.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee. This week.	Previous week.	Character of the weather and state and prospects of the crops, etc.
1					
		Inches.			
1	Burdwan	Nil			Sowing of *rabi* crops completed. Sugarcane doing well. Winter paddy being harvested. Outturn estimated to be about 12 annas. Cholera and small-pox reported from Khetugram and thana Mongalkot. Fodder and water sufficient.
	Birbhum	Nil			Harvesting of paddy continuing. Standing crops doing well. Old common rice selling at 7½ seers a rupee. No cattle-disease. Fodder and water sufficient.
	Bankura	Nil		9¾	Weather seasonable. Harvesting of *aman* paddy commenced. *Rabi* crops doing well. No cattle-disease. Fodder and water sufficient.
	Midnapore ...	Nil			Weather seasonable. Outturn of sugarcane in Contai and Tamluk estimated at 75 per cent. Winter rice being harvested. Fodder and water sufficient.
5	Hooghly	Nil	8*	6½	Weather seasonable. Prospects of *aman* paddy and sugarcane fair. Reaping of winter paddy continuing. Sowing of *rabi* crops almost finished. Old common rice selling at 6½ seers a rupee. No cattle-disease. Fodder and water sufficient.
	Howrah	Nil			Winter rice crop still being harvested. Standing crops doing well. Outturn expected to be normal. No cattle-disease. No deficiency in the supply of fodder and water.
	24-Parganas	Nil			Weather seasonable. Sowing of *rabi* crops finished. Harvesting of *aman* in progress. State of standing crops good. Prospects of sugarcane and *aman* paddy good. Condition of cattle good. Fodder and water sufficient. Number of persons on relief nil.
	Nadia	Nil			Prospects of standing crops good. Sowing of *rabi* crops finished. No cattle-disease. Fodder and water sufficient.
	Murshidabad	Nil	7½		Weather seasonable. Paddy crop being reaped. Condition of standing crops good. Sowing of *rabi* crops still continuing. No cattle-disease. Fodder and water sufficient.
10	Jessore	Nil	7⅝	7½	Weather seasonable. Sowing of *rabi* crops going on. Harvesting of *aman* paddy continuing. Condition of crops fair. High prices and slight distress. No cattle disease. Fodder and waters ufficient. Cholera at Sadar and in the interior.

* New rice.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	
		Inches.			
11	KHULNA ...	Nil	8½	8½	Weather seasonable. Condition of *til* fair. No cattle-disease. Fodder and water sufficient.
12	PATNA ...	Nil	7½ 12½*	7½ 12½*	Weather cold. Harvesting of paddy and pressing of sugarcane in progress. Standing crops doing well. No cattle-disease. Fodder and water for cattle sufficient.
13	GAYA ...	Nil	9 6/16† 13 1/16*	9 6/16† 13 6/16*	Weather cool and clear. Harvesting of paddy and pressing of sugarcane continuing. *Rabi* crops doing well. Rain wanted for these crops in the Aurangabad subdivision. Prices stationary. No cattle-disease reported. Fodder and water for cattle sufficient.
14	SHAHABAD ...	Nil	10† 13*	10† 13*	Harvesting of paddy going on. Sugarcane-pressing continuing. Prospects of *rabi* crops good. Old common rice selling at 8½ seers a rupee. No cattle-disease. Fodder and water sufficient.
15	SARAN ...	Nil	9¼ 12½*	9 12*	Weather seasonable. Threshing of paddy and pressing of sugarcane going on. Standing crops doing well. Test-relief works and kitchens closed. No cattle-disease. Fodder and water sufficient.
16	CHAMPARAN ...	Nil	9¼ 12*	9 12*	Weather bright and clear. *Rabi* crops being sown and weeded. Germination good, but rain urgently wanted. Poppy sowings nearing completion. Plants coming up well. No cattle-disease. Fodder and water sufficient.
17	MUZAFFARPUR	Nil	8 12½*	8 12½*	Weather seasonable at Sadar and Hajipur, but still hot at Sitamarhi for the time of the year. Harvesting of winter rice going on. *Rabi* sowings approaching completion. Common rice and maize selling at 7¾ and 12¼ seers a rupee respectively at Hajipur and at 7½ and 12½ seers a rupee respectively at Sitamarhi. Average daily attendance at kitchens 2,411. No cattle-disease. Fodder and water sufficient.
18	DARBHANGA ...	Nil	6 12*	6 12*	Weather seasonable. Sowing of *rabi* crops almost over. Their prospects not favourable for want of rain. Number of persons on relief works for the last day available—18,408, as against 15,343 for last week. Number on test-works in Madhubani subdivision for the last day available 6; this low number being due to the employment of people on paddy-cutting in Nepal and elsewhere. Number of persons gratuitously relieved at kitchens on the last day of the week—Sadar thana 1,873, Bahera thana 5,103, Roserha thana 9,901, Samastipur subdivision 224, Madhubani subdivision 1,066,—total 18,167, as against 18,719, for last week. Number on works increasing, number on gratuitous relief nearly stationary. This was anticipated. No cattle-disease. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.
† Newarice.

		Inches.			
19	Monghyr ..	Nil	8½ 11½*	8½ 11½*	Weather seasonable. Harvesting of paddy going on. *Rabi* crops doing well. Cattle-disease reported from Khargpur. Fodder and water sufficient.
20	Bhagalpur ...	Nil	9½ 12*	8⅞ 12*	Weather seasonable. *Rabi* crops being sown Harvesting of *aghani* paddy still going on. Outturn good. Pressing of sugarcane continuing. Cholera reported from Supaul and Daparkha. Cattle-disease reported from a *mauza* in thana Madhipura. Fodder and water sufficient.
1	Purnea ...	Nil	6½	6½	Weather seasonable. *Aghani* paddy being harvested Prospects fair. *Rabi* sowings now over. Rain badly wanted. No cattle-disease. Fodder and water plentiful.
22	Darjeeling ...	Nil	7 12*	6 12*	Weather cold. Hills—Wheat, barley and mustard in fair state. Winter rice, *bhadoi* paddy and *marua* being harvested. Terai—Cutting of winter rice going on. Transplantation of tobacco finished.
23	Sonthal Parganas.	Nil	11 16*	11 16½*	Weather seasonable. Harvesting of winter rice continuing. Sowing of wheat over. No cattle-disease. Fodder and water sufficient. Report from Godda not received.
24	Cuttack ...	Nil	10½	10½	*Laghu sarad* and sugarcane being harvested. *Guru sarad* ripening. *Arhar* growing well. No cattle-disease. Fodder and water sufficient.
5	Balasore ...	Nil	9	10	Weather seasonable. Harvesting of *sarad* going on. Sugarcane, *rabi* crops and vegetables thriving. Prospects fair. No cattle-disease. Fodder and water sufficient.
26	Angul ...	Nil	11½	11½	Weather seasonable. Harvesting of winter paddy in progress. *Rabi* crops, sugarcane and other miscellaneous crops doing well. No cattle-disease. Fodder and water sufficient.
27	Puri ...	Nil	10½	10½	Weather seasonable. *Sarad* and *laghu* paddy being harvested. Sugarcane being pressed. *Rabi* and other miscellaneous crops getting on well. Fodder and water sufficient. Small-pox reported from Khurda and Bhubaneswar.
28	Sambalpur ...	Nil	12	12	Weather cool and cloudy. Reaping of winter rice continuing. Threshing and harvesting of autumn and winter rice, of *maghi til*, and of *mung* and *kurthi* in progress. Pressing of sugarcane commenced in Sambalpur tahsil. Outturn of *bahal* and *berna* paddy estimated at 105 and 120 per cent. respectively. In Bargarh tahsil outturn of cotton estimated at 12 annas. Condition of standing crops good. Cattle-disease reported from three villages in Sadar tahsil. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
29	HAZARIBAGH	Nil	9½	10½	Prospects of standing crops good. Harvesting of paddy going on. Cattle-disease reported from three thanas. Fodder and water sufficient.
30	RANCHI ...	Nil	11	11½	Weather seasonable. Harvesting of paddy and *sirguja* continuing. *Rabi* crops doing well. Cattle-disease reported from one thana. Fodder and water sufficient.
31	PALAMAU ...	Nil	9 9/16	10¼	Weather seasonable. Harvesting of paddy going on. Prospects fair. Cattle-disease reported from some places. Fodder and water sufficient.
32	MANBHUM ...	Nil	10	10	Weather seasonable. Prospects of crops good. *Bajra* ripe. Cattle-disease reported from thana Gobindpur. Fodder and water sufficient.
33	SINGHBHUM ...	Nil	10	9	Harvesting of winter paddy continuing. Common rice selling at 12 seers a rupee in Seraikella and Kharsawan. Cattle-disease reported from thana Ghatsila and outpost Bahargora. Fodder and water sufficient.
34	COOCH BEHAR	Nil	6½	6 5/13	Weather seasonable. Transplantation of tobacco seedlings and sowing of mustard nearly over. Harvesting of *aman* paddy going on. Fodder and water sufficient.

GENERAL SUMMARY.—There was no rain during the week. Harvesting of winter paddy is still in progress. *Rabi* sowings are almost all over in the Bihar districts; they are still going on in some places in Lower Bengal. Rain is needed for the *rabi* crops in Gaya, Champaran and Purnea. Prospects of these crops are unfavourable in Darbhanga for want of rain. Sugarcane-pressing continues in Bihar. It has also commenced in Orissa. The number of persons on gratuitous relief is 2,411 in Muzaffarpur and 18,167 in Darbhanga. Only six persons are reported to be on test-works, in the Madhubani subdivision of district Darbhanga. The number on relief works in Darbhanga is 18,408. Cattle-disease exists in eight districts. Fodder and water are sufficient. Cholera continues in parts of Burdwan, Jessore and Bhagalpur. Small-pox is reported from Burdwan and Puri. The price of common rice has risen in six and fallen in ten districts.

SUMMARY OF THE RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE MONTH OF NOVEMBER 1906.

The rainfall of November was confined to the first four days of the month throughout the Province, with the exception of a few districts in Bihar, where it was rainless throughout the month. It was in excess in the districts of Midnapore, Howrah, Murshidabad, Jessore and Khulna in South-West Bengal, in Bhagalpur and the Sonthal Parganas in Bihar, and in defect in all the districts of Orissa and Chota Nagpur, except the district of Singhbhum.

In South-West Bengal the rainfall was almost normal; while in Bihar and Orissa it was in defect and in Chota Nagpur in excess.

From the abstract table it will be seen that South-West Bengal received 97 per cent. Bihar 39 per cent., Orissa 26 per cent. and Chota Nagpur 117 per cent. of the normal.

The total rainfall from January to the end of Novemher 1906 was 95 per cent. of the normal in South-West Bengal, 96 per cent. in Bihar, 81 per cent. in Orissa and 92 per cent. in Chota Nagpur.

Full details of the rainfall registered at each rainfall station in all the districts of Bengal are given in the accompanying table, day by day, for the month.

The following table compares the rainfall in the four divisions during November with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year, expressed in the same notation, and the last column of the table shows the total rainfall of the past eleven months of the year :—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	Actual rainfall of first eleven months expressed as a percentage of the normal rainfall for the period.
South West Bengal ...	467	489	177	3	71	62	94	95	83	139	97	95
Bihar	81	424	113	6	73	88	104	129	49	85	39	96
Orissa	321	378	73	11	65	86	91	64	78	88	26	81
Chota Nagpur ...	376	693	192	3	58	68	105	73	83	110	117	92

The following table gives a summary of the rainfall data of each of the four Meterological divisions of the Province of Bengal for the month of November 1906:—

Meteorological Divisions.	Rainfall of month.			Rainy days.			Rainfall since 16th October 1906.	
	Average for the Division.	Normal average.	Variation.	Average number in month.	Normal average number in month.	Variation.	Average for the Division.	Normal average.
South-West Bengal ...	0·62	0·64	−0·02	1·01	0·81	+0·23	3·92	2·12

Director of Agriculture, Bengal.

The 11th December 1906.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of November 1906.

	Inches.	Date.	Hour.
The mean pressure of the month	29·978		
The average pressure of November from 44 years' registers ...	29·961		
The highest pressure in the month	30·133	21st and 27th	10
The lowest pressure in the month	29·786	1st	16
The range of pressure	0·347		
	Hours		
The total number of hours of bright sunshine during the month	240·3		
The maximum possible number of hours of sunshine ...	350·8		
	°		
The mean temperature of the month	73·5		
The average temperature of November from 20 years' registers...	72·4		
The highest temperature in the month	86·4	3rd	
The lowest temperature in the month	59·5	26th	
The range of temperature during the month	26·9		
The mean daily range of temperature	17·3		
The greatest range of temperature in one day	22·6	11th	
	Per cent.		
The mean humidity of the month	74		
The average humidity of November from 20 years' registers ...	73		
	Inches.		
The mean vapour tension of the month	0·616		
The average vapour tension of November from 20 years' registers	0·584		
The mean cloud proportion of the month	1·87		
The average cloud proportion of November from 29 years' registers	2·33		
	Inches.		
The total rainfall of the month	0·35		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 8 feet above the ground)	0·30		
The average fall of November from 24 years' registers ...	0·62		
The greatest fall in 24 hours	0·23	3rd	
	Days.		
The number of rainy days in the month	2		
The average number of rainy days in November from 24 years' registers	1		
The mean maximum equilibrium temperature of solar radiation during the month	133·7		
The mean difference of sun and air temperatures	50·9		
The greatest sun temperature	145·7	3rd	
The greatest excess of sun over air temperature	59·3	3rd	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	60·4		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	4·9		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	5·9	27th	
	Miles.		
The mean movement of the wind per day	42·8		
The greatest movement of the wind in one day	83·0	23rd	
The greatest movement of the wind in one hour	10	24th	2 to 3 P.M.

The number of hours with winds from each of the eight points—
N. 257, N.E. 21, E. 19, S.E. 24, S. 0, S.W. 35, W. 28, N.W. 93, Calm 243.

C. W. PEAKE,
for *Director-General of Observatories.*

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 10th December 1906.

	Inches.
The mean pressure of the seven days	30·013
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	30·018
	Hours.
The total number of hours of bright sunshine	49·7
The maximum possible number of hours of sunshine	75·5
The mean temperature of the seven days	67·9
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	69·7
The extreme variation of temperature	25·7
The maximum temperature	80·3
	Miles.
The highest velocity of the wind in one hour	10
	%
The mean relative humidity	70
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	71
	Inches.
The total fall of rain from 2nd to 8th December 1906	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·04
The total fall from 1st January to 8th December 1906	57·19
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·31

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

☁, dew.

MARINE DEPARTMENT.

The 18th December 1906

No. 18 Marine.—The following Order in Council, dated the 22nd October 1906, published in pages 895 and 896, Part I of the *Gazette of India* of the 8th December 1906, is republished for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

AT THE COURT AT BUCKINGHAM PALACE.

The 22nd day of October 1906.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY.

PRIME MINISTER. LORD CHAMBERLAIN.
LORD PRESIDENT. LORD SUFFIELD.
LORD PRIVY SEAL.

WHEREAS by "The Merchant Shipping Act, 1894," it is (amongst other things) enacted that where the Legislature of any British Possession provides for the examination of and grant of Certificates of Competency to persons intending to act as Masters, Mates or Engineers on board British ships, and the Board of Trade report to His Majesty that they are satisfied that the examinations are so conducted as to be equally efficient with the examinations for the same purpose in the United Kingdom under the Merchant Shipping Act, 1894, and that the Certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Act and are liable to be forfeited for the like reasons and in the like manner, His Majesty may, by Order in Council—

(1) declare that the said Certificates shall be of the same force as if they had been granted under the said Act;

(2) declare that all or any of the provisions of the said Act which relate to Certificates of Competency granted under that Act shall apply to the Certificates referred to in the said Order;

(3) impose such conditions and make such regulations with respect to the said Certificates and to the use, issue, delivery, cancellation and suspension thereof as

His Majesty may think fit, and impose penalties not exceeding fifty pounds for the breach of those conditions and regulations:

And that upon the publication in the *London Gazette* of any such Order in Council as last aforesaid, the Order shall, as from the date of the publication or any later date mentioned in the Order, take effect as if it were enacted by Parliament:

And whereas at the coming into operation of the said Merchant Shipping Act, 1894, there were in force the Orders in Council of the 9th day of May 1891 and the 23rd day of November 1893 hereinafter mentioned, being Orders in Council made under enactments repealed by the said Merchant Shipping Act, 1894, and it was provided by the said Merchant Shipping Act, 1894, that Orders in Council so made should remain in force as if made or granted under the said Merchant Shipping Act, 1894:

And whereas by the Merchant Shipping Act, 1894, it is further provided that His Majesty may, by Order in Council, revoke, alter or add to any Order in Council made under the Merchant Shipping Acts:

And whereas by the said Order in Council of the 9th day of May 1891, it was declared *inter alia* that Colonial Certificates of Competency granted by certain Authorities therein named and described in the case of the several British Possessions therein mentioned to persons intending to act as therein mentioned on board British ships should be of the same force as if they had been granted under the Acts relating to merchant shipping:

And whereas by the said Order last mentioned the regulations set out in the Schedule A thereto with respect to the said Colonial Certificates of Competency were imposed and made, and it was declared that the regulations set out in the said Schedule A thereto should apply to all Colonial Certificates of Competency that might theretofore have been or should thereafter be granted:

And whereas by the said Order in Council of the 23rd day of November 1893, it was declared that Colonial Certificates of Competency granted by the Marine Board of Victoria from and after the 21st day of December 1888 as therein mentioned should be of the same force as if they had been granted under the Acts relating to merchant shipping, and should be subject to the same conditions and regulations as are set out in Schedule A to the said Order in Council of the 9th day of May 1891:

And whereas by the provisions of the Navigation (Amendment) Act, 1899, passed by the Legislature of New South Wales and by the provisions of the Shipping and Seamen Act, 1903, passed by the Legislature of New Zealand, certain changes were made in the Authorities authorised by the said Legislatures respectively to grant Colonial Certificates of Competency in those Possessions respectively, and other similar changes may be made by the Legislature of the British Possessions referred to in the said Orders in Council with regard to the Authorities authorised to grant such Certificates in such several Possessions:

And whereas it has been made to appear to His Majesty that it is expedient that the said Orders in Council should be so altered as to apply to Certificates of Competency granted by the proper Authority for the time being in the British Possessions mentioned in the said Orders in Council:

Now, therefore, His Majesty, by and with the advice and consent of His Privy Council, is hereby pleased—

To declare that the Colonial Certificates of Competency granted or to be hereafter granted by the Governor, Lieutenant-Governor, Administrator, Head of the Government, Minister, Board, Body or Corporation of or in any British Possession mentioned in the said Orders in Council for the time being authorised by the Legislature or Legislative Authority of such Possession to grant Colonial Certificates of Competency (hereinafter called "the proper Authority") from and after the respective dates in the case of the several Possessions with reference to the several kinds of Certificate in the said Orders in Council mentioned shall be of the same force as if they had been granted under the Merchant Shipping Act, 1894, and shall be subject to the same conditions and regulations as are set out in Schedule A to the said Order in Council of the 9th day of May 1891, and the said Orders in Council shall be read and construed as if the proper Authority had been originally mentioned therein in the case of each such Possession in lieu of the Authority in each case actually named and described therein.

A. W. FITZROY.

The 18th December 1906.

No. 138 Marine.—In accordance with the provisions of section 50A, clause (2) of the Indian Ports Act, 1899, the following revised account of the receipts and expenditure of the Hospital Port Dues Fund of the Port of Calcutta for the year 1905-06 is published for general information. It should be read as a supplement to the abstract account of receipts and expenditure of the Port of Calcutta for the year 1905-06 published in the Appendix to the *Calcutta Gazette* of 17th October 1906. This Notification is issued in supplement of Notification No 121 Marine, dated the 13th November 1906, which was published in Part I, page 1996, of the *Calcutta Gazette* of the 14th November 1906.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

HIGH COURT ORIGINAL SIDE.

The 18th December 1906.

The Honorable the Chief Justice has, with the approval of His Excellency the Viceroy and Governor-General of India in Council and with effect from the afternoon of the 17th December 1906, appointed Mr. John Evelyn Godfrey, Barrister-at-law, to officiate as Master and Official Referee on the Original Side of the High Court, Calcutta, during the absence, on leave, of Mr. J. H. Hechle, or until further order.

By order,
W. R. FINK,
Register.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 11th December 1906.—Mr. Ellis Samuel, an Assistant in the office of the Director of Public Instruction (class VII), is allowed leave of absence for one month under article 260 of the Civil Service Regulations, with effect from the 2nd January 1907, or the date on which the office re-opens after the Christmas holidays.

He is also permitted to prefix the Christmas holidays to his leave under article 220 of the Civil Service Regulations.

The 16th December 1906.—Pandit Lalji Misra, an Assistant Master (Head Pandit) in the Northbrook School, Darbhanga (class VII), was absent on leave for twelve days under article 339 of the Civil Service Regulations, with effect from the 27th August 1906.

A. EARLE,
Director of Public Instruction, Bengal.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION, UNITED PROVINCES.

NOTICE.

Dated Allahabad, the 2nd October 1906.

THE Local Government having approved of an application made by Raja Tasadduq Rasul Khan, C.S.I., of Jahangirabad in the Bara Banki district, that a sum of Rs. 20,200 be vested under the designation of the "Tasadduq Rasul Arabic Scholarship Endowment Trust, Aligarh," in the Treasurer of Charitable Endowments for the territories subject to the said Local Government, to be applied in Trust upon the terms that the interest accruing thereon be expended in the payment of scholarships for the higher study of Arabic at the Muhammadan Anglo-Oriental College, Aligarh, on certain conditions, the following is published for general information:—

(1) that the scholarships shall be awarded in each year to Muhammadan students of Arabic who, after having passed the examination for the time being prescribed for the B. A. degree of any University to which the Indian Universities Act, 1904 (VIII of 1904), applies purpose to study in the Muhammadan Anglo-Oriental College, Aligarh, for two years for the examination for the time being prescribed for the M. A. degree in Arabic of the Allahabad University;

(2) that there shall be one or more scholarships of the value of Rs. 20 per mensem, tenable for two years; and the Secretary and the Principal of the Muhammadan Anglo-Oriental College, Aligarh, shall decide, with reference to the funds available for the purpose, the number of the scholarships to be granted in any year;

(3) that the nomination for the said scholarship or scholarships shall rest with the Principal of the said College who shall in making the nomination give preference to candidates who are inhabitants of the United Provinces of Agra and Oudh;

(4) that the holder of a scholarship shall in all matters carry out the instructions of the Principal, who shall have power to suspend and withdraw the scholarship in the event of the misconduct of the holder;

(5) that the income accruing on the Trust shall be expended in the payment of these Arabic scholarships and no other object;

(6) that all savings, from whatever cause arising, shall, if the said Local Government deem the amount to be sufficient for the purpose, be added to and form part of the funds hereby vested in the said Treasurer of Charitable Endowments; and the income accruing on the amounts so added shall also be expended in the manner prescribed for the income accruing on the said funds;

(7) that in the event of the Arabic classes of the said College being abolished and in the event of its ceasing to teach Arabic the income accruing from the Trust shall be expended in scholarships for some other branch of higher education at the same College in the name of the donor, and in the event of the Muhammadan Anglo-Oriental College, Aligarh, ceasing to exist the amount of the Trust shall be returned to the said Raja Tasadduq Rasul Khan, C.S.I., of Jahangirabad, or his heir or representative.

2. Applications for these scholarships should be made in writing to the Principal, Muhammadan Anglo-Oriental College, Aligarh.

T. C. LEWIS, M.A.,

Director of Public Instruction, United Provinces.

THE FINAL EXAMINATION FOR B AND C CLASSES, 1907.

I

ROUTINE FOR FINAL EXAMINATION OF THE B CLASSES, 1907.

THE examination will be held at the following centres and on the following dates:—

BENGAL ... ... Bankipore, Midnapore and Ranchi.
EASTERN BENGAL AND ASSAM Rampur Boalia, Rangpur, Pabna, Barisal, Dacca and Mymensingh.

DATES.	8 to 11 A.M.	1 to 4 P.M.
Friday, the 1st February 1907	Manual Training ...	Manual Training.
Saturday, the 2nd February 1907	Ditto ...	Ditto.
Monday, the 4th February 1907	Arithmetic and Algebra.	Geometry and Mensuration.
Tuesday, the 5th February 1907	Drawing and Practical Geometry.	Engineering.
Wednesday, the 6th February 1907	Surveying ...	Modern English, I.
Thursday, the 7th February 1907	Modern English, II	Elementary Science.

2. The exact periods allotted to the Manual Training test will be indicated on the examination paper. The examination will begin on Friday, the 1st February 1907, at 8 A.M., and continue, morning and afternoon, until the time allotted has expired. The Manual Training test is on no account to be conducted during any hours other than those prescribed on the examination paper.

3. After each period the candidate's test work together with his question-paper will be taken from him and locked up by the Superintendent and securely sealed. It will remain in his custody until the hour set apart for resuming the examination. Before re-distributing the work to the candidates the Superintendent should assure himself that the seal has not been tampered with.

4. The examination at each centre will be in charge of the Superintendent of the local Technical School. Each Superintendent will be informed by the Examiner, not later than the first week in January, as to the scantlings and length of wood necessary for the practical test. It will be the duty of the Superintendent to see that a sufficient quantity of wood of the required size is available.

5. No extra wood may be given to any candidate.

6. No mistry will be allowed in the shops during the examination.

7. When the time allotted to the practical test has expired, the Superintendent is immediately to pack carefully the materials which have been worked on by the candidates and despatch the packages under seal to the Head Master, Ahsanullah School of Engineering, Dacca, together with a certificate that in each case these examination rules have been rigidly complied with. He will inform the Head Master by telegraph of the despatch of the tests.

II.

ROUTINE FOR THE FINAL EXAMINATION OF THE C CLASSES, 1907, BENGAL CENTRES.

1. The examination will be conducted at the following centres and on the following dates:—

The Hare School, Calcutta (for all Calcutta candidates) Ranchi, Uttarpara, Hooghly and Barasat.

DATES.	8 to 11 A.M.	1 to 4 P.M.
Monday, the 4th February 1907	Arithmetic and Algebra	Geometry and Mensuration.
Tuesday, the 5th February 1907	Drawing and Practical Geometry.	History.
Wednesday, the 6th February 1907	Geography ...	Modern English, I.
Thursday, the 7th February 1907	Modern English, II.	

2. Arrangements for conducting the final examination of the C classes in Eastern Bengal and Assam will be published by the Director of Public Instruction, Eastern Bengal and Assam.

III.

General Instructions.

1. The following regulations are to be observed for the final examination both of the B and C classes:—

Each Head Master of a school sending up candidates for these examinations must send to the Director of Public Instruction, Bengal, a list of candidates appearing from his school before the 20th December 1906. This list is to be accompanied by:—

(*a*) a certificate of the age of each candidate on January 1st, 1907;
(*b*) a declaration of the candidate's vernacular;
(*c*) a fee of Rs. 10 from each candidate. This fee will in no case be refunded.

Duplicate copies of (*a*) and (*b*) are to be sent at the same time to the Principal of the Civil Engineering College, Sibpur.

2. The following Examiners have been appointed:—

Classes	Subjects.	Examiner.	Address.
B and *C*	Arithmetic and Algebra.	Babu Kalipada Basu, M.A.	Professor, Dacca College.

	Examiner (Bengali)	Mr. D. N. Mallik ...	Professor, Patna College.
	Do. (Hindi) ...	Babu Bhagabati Sahai.	Assistant Inspector of Schools, Patna Division.
	Do. (Urdu) ...	Maulvi Amjadali ...	Head Master, Calcutta Madrassa.
B	Engineering ...	Mr. F. W. Arnold ...	Head Master, Dacca School of Engineering.
B	Surveying ...	„ P. W. Byers ...	Teacher, C. E. College, Sibpur.
B	Elementary Science...	„ P. Brühl ...	Professor, C. E. College, Sibpur.
B	Manual Training ...	„ B. Kenneth Evans.	Foreman-Instructor, Dacca Ahsanulla School of Engineering.
C	History ...	Mr. J. N. Das Gupta	Professor, Presidency College, Calcutta.
C	Geography ...	„ J. V. Francis ..	Superintendent, Apprentice Department, Civil Engineering College, Sibpur.
C	Modern English, III	„ J. A. Chapman	Professor, Presidency College, Calcutta.
C	Elementary Practical Mechanics.	„ F. W. Arnold ...	Head Master, Dacca School of Engineering.

3. All question-papers, except those for the practical tests, are to be such as can be answered in three-hour periods. Modern English (I) and Modern English (II) are divided into two sections; the questions on each section should be such as can be answered in 1½ hours. The answer-papers on each section of Modern English are to be collected at the end of the 1½-hour period assigned to it.

CALCUTTA,
The 11th December 1906.

A. EARLE,
Director of Public Instruction, Bengal.

NOTIFICATION.

Post-graduate Research Scholarships, 1907.

1. Two post-graduate Research Scholarships of the monthly value of Rs. 100 each, and tenable for a maximum period of three years, but in the first instance for one year only will be awarded early in the year 1907.

2. No candidate will be considered who has not passed the M.A., the M.D., the D.L. or the Master in Engineering Examination of the Calcutta University in 1904, 1905, or 1906. No candidate will be considered who is not possessed of high qualifications and who cannot show that he has a capacity for original research.

3. One of the scholarships will be awarded to a candidate who proposes to carry on original research in some Scientific subjects, such as Natural and Physical Science, Chemistry, Mathemetical Science, etc. The other may be awarded to a candidate who undertakes research in some literary subject, such as a Language, Comparative Philology, Palæography, Epigraphy, Philosophy, History, Archæology, Anthropology, etc.; but no application for a scholarship for researches in a literary subject will be considered unless a candidate presents himself who not only shows that he has the capacity for undertaking the research proposed, but also makes it clear by the programme which he submits that he has thought out a definite course of inquiry. In the event of no suitable candidate for a literary research scholarship being forthcoming, this office may recommend thatboth the scholarships may be awarded for scientific research.

4. All applications must be submitted, through the head of the institution in which the candidate read last, so as to reach the undersigned on or before the 31st January 1907.

5. Application forms may be had from the Personal Assistant, Office of the Director of Public Instruction, Writers' Buildings, Calcutta.

CALCUTTA,
The 10th December 1906.

A. EARLE,
Director of Public Instruction, Bengal.

THE CIVIL ENGINEERING COLLEGE, SIBPUR.

THE following courses of instruction are provided at this College.—

I.—Engineer Department.

A four-year course leading to the Engineering Degrees of the Calcutta University. Admissions made yearly in June. Admission qualification, the First Arts examination of the Calcutta University or its equivalent.

II.—Apprentice Department.

The full course of study covers five years. There are special classes in Mining and in Electrical Engineering.

After 1½ years the Sub-Overseer examination is held.

After 3½ years the Final or Overseer examination is held with special modification for Mining students.

After a further 1½ years' practical training the certificate of Foreman Mechanic or Upper Subordinate is given.

Admissions are made yearly in June to 1st year and in March to 2nd and 3rd years. Admission qualifications—

To 1st-year class, Entrance examination of Calcutta University or equivalent, to the Middle School.

To 2nd-year class, the Final examination of B Course of zilla schools.

To 3rd-year class, the Sub-Overseer examination of affiliated Technical schools.

III.—Workshops.

Artisan classes in the following shops :—

Carpenters';	Fitters';	Machine,
Blacksmiths';	Turners;	and Foundry.

IV.—Agricultural Department.

Admission made by nomination of His Honour the Lieutenant-Governor. Application to be sent to the Principal. A two-year course leading to the Agricultural Diploma of the College. Admission made yearly in November.

Admission qualifications—

As general student, B. A., B Course, of Calcutta University or equivalent.

As special student, satisfactory evidence that the candidate can benefit by the instruction.

For further information apply to the Office Superintendent and Bursar, Civil Engineering College, Sibpur.

SIBPUR,
The 7th June 1906.

B. HEATON,
Principal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTICE.

THE HON'BLE MR. F. A. SLACKE, I.C.S.,
Member in charge.

WHEREAS the Court of Wards has assumed charge of the estate of Babu Bhikambar Singh, zamindar of pargana Jaypur, in the district of Manbhum, in pursuance of the orders of Government, No. 3048L.R., dated the 28th November 1906, declaring him to be a disqualified proprietor, on his own application, under section 6 (*e*) of Act IX (B.C.) of 1879, notice is hereby given, under sub-section (1), section 10A of the same Act, as amended by Act I (B.C.) of 1906, that all creditors having claims against the said disqualified proprietor or his immovable property shall submit the same in writing to the Deputy Commissioner of Manbhum at Purulia, within six months from the date of the publication of this notice.

By order of the Board of Revenue, L. P.,
S. L. MADDOX,
Secretary.

LAND REVENUE DEPT., WARDS' BRANCH, CALCUTTA,
The 12th December 1906.

No. 5998A.

NOTIFICATION.

THE HON'BLE MR. F. A. SLACKE, I.C.S.

Dated Calcutta, the 8th December 1906.

THE price lists of staple food-crops in the local areas, prepared under section 39 (1) of the Bengal Tenancy Act, VIII of 1885, for the period from the 1st of April 1906 to 30th of June 1906 having been approved by the Board of Revenue, L. P., are published for general information under sub-section 4 of that section.

By order of the Board of Revenue, L. P.,

S. L. MADDOX,

Secretary.

Total ...	4,400

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the notification issued on the 27th November 1906, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 21st January 1907, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Tuesday, the 8th January 1907, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Monday, the 21st January 1907.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

On or about Wednesday, 4th September	,,	2,200	2,200	4,400
On or about Thursday, 3rd October	,,	2,200	2,200	4,400
On or about Friday, 1st November	,,	2,200	2,200	4,400
On or about Tuesday, 3rd December	,,	2,200	2,200	4,400
	Total	26,400	26,400	52,800

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which, provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remains a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1905-1906, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

R. B. MISRA,
Offg. Secretary.

CALCUTTA,
The 27th November 1906.

ANIS-UZ-ZAMAN KHAN, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary rights of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly will be put up to sale at the Hooghly Collectorate on the 21st December 1906, corresponding with 6th Pous 1313 (B.S.).

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale is to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Number on the district roll.	Name of estate, pargana or thana.	Approximate area in acres.	Government revenue assessed.	REMARKS.

Gaya Collectorate, the 7th December 1906. B. FOLEY, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on Friday, the 4th January 1907, corresponding to 1313 (B.S.).

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estates and the entire proprietary right of Government in such estates will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	Remarks.

Bruce Institution.

ANNUAL ELECTION, 1907

THE Governors of the Bruce Institution will proceed on Friday, the 18th January 1907, to the election of not less than 24 Eurasian girls on the Bruce Foundation, if so many are eligible. Candidates must not, on the day of the election, be under five or over ten years of age. Perference will be given to orphans and to destitute children.

A statement of the case should be drawn up by the Minister or Clergyman signing the application form and sent by him to the Secretary of the Bruce Institution along with the application. No application will be considered which is not accompanied by such a statement.

Forms of application may be obtained from Mr F. D'Silva, Assistant in charge, Office of the Bruce Institution, Room No. 29, top floor, Writers' Buildings, Calcutta; and applications on this form *only* must reach the office of the Secretary not later than Thursday, the 10th January 1907.

A. EARLE,

Honorary Secretary to the Governors.

Calcutta, the 7th December 1906. (1291—4)

Statutory Notice.

In the Goods of James Wyburd Furrell, deceased.

PURSUANT to the Trustees' and Mortgagees' Powers Act, 1866 (being Act XXVIII of 1866), and to section 320 of the Indian Succession Act, 1865 (being Act X of 1865), both of the Governor-General of India in Council, notice is hereby given that all creditors and other persons having any claims or demands upon or against the estate of James Wyburd Furrell, deceased, formerly of Yercaud in the Presidency of Madras, and who died at Hove in the County of Sussex, in England, on or about the 5th day of October 1905, and Letters of Administration of whose property and credits were duly granted to me, William James Simmons of Calcutta, Solicitor, the Constituted Attorney of Jane Phipps Furrell (the Sole Executrix appointed by the Will of the said deceased), by the High Court of Judicature at Fort William in Bengal in its Testamentary and Intestate Jurisdiction on the 20th day of June last, and which are dated the 30th day of June last, are hereby required to submit in writing the full particulars of their claims, or demands, to me (with their names, addresses and descriptions and the nature of the securities, if any) held by them at my office, No. 6, Hastings Street in the City of Calcutta, on or before the 20th day of December 1906. And notice is hereby also given that at the expiration of the last-mentioned day, I shall be at liberty to distribute the assets of the said James Wyburd Furrell, deceased, or any part thereof, amongst the parties entitled thereto, having regard to the claims of which I shall then have had notice, and that I shall not be liable for the assets, or any part thereof so distributed, to any person of whose claim I have not had notice at the time of such distribution. Dated this 15th day of November 1906.

W. J. SIMMONS, Administrator, Estate J. W. FURRELL, deceased. (1270—2—1108)

Estate Deputy Surgeon-General Theobald Ringer, deceased.

NOTICE is hereby given that all creditors and other persons having any claims against the estate of the deceased above named are hereby required to send in writing the particulars thereof to Messrs. King, Hamilton & Co., 4 and 5 Koilaghat Street, Calcutta, on or before the 28th day of January 1907, after which date the undersigned will distribute the assets of the estate of the said deceased among the parties entitled thereto, having regard to the claims of which he has then had notice

And notice is hereby further given that the undersigned will not be liable for the assets or any part thereof so distributed to any person of whose claim he shall not have had notice at the time of such distribution.

Dated this 11th day of December 1906

W. H. TAYLOR,

Administrator with Will annexed of the Property and Credits of the deceased.

4 and 5 Koilaghat Street, Calcutta. (1326—3—1170)

Notice.

SEALED TENDERS for the supply of Indian steam coal by contract as specified below will be received by the Director of the Royal Indian Marine at his Office in the R. I. M. Dockyard, Bombay, up to 2 P.M. gun-fire, on the date fixed, after which hour no tender will be received:—

On 18th February 1907.	For the supply of Indian steam coal at	Akyab	From 1st April 1907 to 31st March 1908.
	Ditto	Bombay	
	Ditto	Calcutta	
	Ditto	Madras	
	Ditto	Rangoon	
	Ditto	Colombo	
	Ditto	Karachi	

2. Tenders must be accompanied by a Bank of Bengal receipt for the amount to be deposited or by Government Loan Paper, which is not to be endorsed to any Government officer but to stand in the name of the owner and be sent by registered post. Tenders forwarded in any other way will not be received. Informal tenders will be rejected, and no reason will be assigned for the rejection of any tender The Director of the Royal Indian Marine does not bind himself to accept the lowest or any tender.

3. Any tender containing a conditional clause contrary to these requirements, or making stipulations not provided for either in this notice or the printed tender and schedule forms, will be summarily rejected.

4. Printed tender forms, and any information in connection with this contract, can be obtained at this office and can also be had from the Deputy Director of the Royal Indian Marine, Calcutta, and from the Principal Port Officer, Burma, Rangoon.

5. Tender is to be superscribed, "Tender for the supply of Indian steam coal to the Royal Indian Marine."

W. CHANDLER,

Offg. Director of the Royal Indian Marine.

Royal Indian Marine Dockyard, Bombay, 2nd November 1906.

Notice.

IT is hereby notified that claims for refund under the Sea Customs Act for goods shortlanded from an importing vessel should be submitted to the Collector of Customs within three months from the date of payment of duty, in default of which a refund is not permissible in view of the provisions of section 40 of the Sea Customs Act.

L. F. MORSHEAD, Collector of Customs.

Custom House, Calcutta, the 5th December 1906.

(1289—2)

Notice.

NOTICE is hereby given that the Transfer Books of the Bank will be closed from Wednesday, the 2nd proximo, till Wednesday, the 16th proximo, both days inclusive.

By order of the Directors,

W. D. CRUICKSHANK,
Secretary and Treasurer.

Bank of Bengal, Calcutta, the 13th December 1906. (1331—1)

Notice

IS hereby given for the information of the public that the Faridpur Agricultural Industrial and Horticultural Exhibition and *mela* will be held as usual at this station from the 7th January to the 7th February next, and the bazar will be removed to the *mela* grounds from the 1st January 1907. Dealers, merchants, and traders, etc., of all quarters are invited to buy and sell at the *mela* during that time.

A. MAEE, Magistrate-President.

Faridpur, the 7th December 906. (1324—3)

Notice.

THE Suri Cattle and Produce Exhibition will be held (for the 11th year) at Barabagan, Suri, East Indian Railway, in the district of Birbhum, 11 miles from East Indian Railway station Sainthia, on the 28th January and the two following days. The grounds will be open for the sale of articles from the 25th January for a week. Cattle, agricultural produce, and indigenous manufactures will be received as exhibits on the 27th and 28th January 1906. Competition for India Government prizes for bulls, cows and heifers will be allowed within the four districts of Birbhum, Bankura, Burdwan and Sonthal Pa ganas. Prizes in money, medals, certificates and selected seeds amounting to the value of Rs. 700 will be awarded for other exhibits of this district as well as for those of good quality from other districts. Intending exhibitors should prepare their exhibits and begin to make collections of indigenous articles from now, for which rewards will be amply given. Dealers and performers of music and sports may come and open their stalls in the exhibition ground two or three days beforehand. They should communicate with the Secretary about sites and other particulars at least a week before. The Railway Company has agreed to make some concessions in the rates for luggage, etc., of the exhibits coming to and going from the show.

HIRA LAL BANARJI,
for Collector.

Dated Suri, the 11th December 1906. (1333—3)

Notice.

THE annual *mela* at Daltonganj, in the district of Palamau, commences from the 18th January 1907 corresponding with 4th Magh 1313 B.S., and will last for about a month. An agriculture and cattle show will also be held in connection with it during the first week of February.

Traders and dealers in plough and milk cattle, horses and ponies, and other traders and merchants excepting those from plague-infected areas are invited to attend. No tax is levied. The comfort of strangers is looked after. The *mela* is held on the bank of the River Koel, so there is no difficulty for drinking water for men and cattle. Fodder will be available at reasonable rates. Bamboos and posts are supplied to traders free of cost for making booths. Police and conservancy arrangements are made.

S. R. HIGNELL,
Deputy Commissioner.

Daltonganj, the 13th December 1906. (1339—4)

Port Blair	22	,, 7-30	*Vid* Rangoon.

* Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Tuticorin, so that they may proceed by any steamer from Colombo that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

† On other days correspondence for China and Japan is despatched daily to Tuticorin, so that it may proceed by the first steamer from Colombo.

1. The letter-box for Inland articles will be cleared for the forenoon Mails at the following hours:—
   For Goalundo, Arakan and Chittagong, at 6 A.M.
   For Khulna and Jessore districts, at 7-15 A.M.
   For the Eastern districts, as far as Dacca and Mymensingh, at 6-15 A.M.
   For Midnapore and Orissa districts, at 4-15 P.M.
   For Bombay, Central Provinces and Midnapore *vid* Bengal-Nagpur Railway, at 1-15 P.M., and with a late fee of ½ anna up to 1-35 P.M.

2. The letter-box will be cleared for the evening Mails at the following hours, viz.—
   For the East Indian Railway Loop Mail, at 2-30 P.M., and with a late fee of ½ anna up to 2-55 P.M.
   For the Northern Bengal, Darjeeling and Assam Mails, at 3-55 P.M., and with a late fee of ½ anna up to 4-15 P.M.
   For the Bombay Mail *vid* Jubbulpore, at 6 P.M., and with a late fee of ½ anna up to 6-30 P.M.
   For the Punjab Mail, at 7-30 P.M.
   For Midnapore, Orissa, Madras Presidency and Ceylon, at 7-30 P.M.
   For the Khulna Mail, at 7-30 P.M.
   For the Eastern Bengal Mail, and places on the Himalayan Railway, at 7-30 P.M.
   } and with a late fee of ½ anna up to 8 P.M. and with a late fee of 1 anna up to 8-45 P.M.

3. Late registered letters will be received between the following hours:—
   For the Bombay Mail *vid* Jubbulpore, from 5 P.M. to 6-15 P.M.
   For the Punjab Mail, from 6 P.M. to 7 P.M.
   For the Eastern Bengal Mail, from 6 P.M. to 7 P.M.
   For the Khulna Mail, from 6 P.M. to 7 P.M.
   For Midnapore, Orissa, Madras Presidency and Ceylon, from 6 P.M. to 7 P.M.

NOTE.—The late fee on each registered letter will be 2 annas, which must be prepaid in stamps on the letter.

4. Articles for Burma and for Port Blair by sea are received without late fee up to 7-30 P.M., and with a late fee of ½ anna up to 8 P.M., and late registered letters on the days on which direct mails are closed will be received from 6 P.M. to 7 P.M. with a late fee of 2 annas, which must be prepaid in stamps affixed to the letters.

5. On the latest safe day of despatch of Mails for the Australasian Colonies, or any other Foreign Countries, *vid* Madras or Tuticorin, the letter-box for Foreign articles will be cleared for the last time at 7-30 P.M., and late letters and papers fully prepaid will be received up to 8-45 P.M. and late registered letters will be received from 6 P.M. to 7 P.M.

6. On the day of despatch of the Mail for Europe (Thursday) the letter-box for Foreign articles will be cleared for the last time for articles, without the late fee, at 6-30 P.M., and late letters and papers fully prepaid will be received up to 8-45 P.M. Late registered articles will be received from 5 to 6 P.M. On the day of despatch of any Foreign Mail by sea, the letter will be cleared for the last time, without the late fee, up to 7 P.M., and late letters and papers up to 9 P.M. and late registered letters will be received from 6 P.M. to 7 P.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

Berhampore, the 17th December 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.

* Agents for sale of the Legislative Department publications.

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments, to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agent of the particular Government under whose orders they were originally issued.

(The amounts within parentheses are for packing and postage.)

List of New Books published during the Current Quarter.

The Calcutta Gazette.

WEDNESDAY, DECEMBER 19, 1906.

PART IVA.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

The Council met in the Council Chamber on Saturday, the 15th December, 1906, at 11 A.M.

Present:

The Hon'ble SIR ANDREW FRASER, K.C.S.I., Lieutenant-Governor of Bengal, *presiding*.
The Hon'ble MR. F. A. SLACKE.
The Hon'ble MR. W. C. MACPHERSON, C.S.I.
The Hon'ble MR. E. W. COLLIN.
The Hon'ble MR. R. W. CARLYLE, C.I.E.
The Hon'ble MR. H. J. MCINTOSH.
The Hon'ble MR. T. W. RICHARDSON.
The Hon'ble MR. G. GORDON.
The Hon'ble MR. C. G. H. ALLEN.
The Hon'ble MR. J. CHAUDHURI, M.A.
The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad.
The Hon'ble RAJA BAN BEHARI KAPUR, C.S.I.
The Hon'ble BABU JOGENDRA NATH MUKHERJEE, M.A., B.L.
The Hon'ble BABU BHUPENDRA NATH BASU, M.A., B.L.
The Hon'ble MR. SYED SHURFUDDIN.
The Hon'ble MR. W. T. SPINK.
The Hon'ble MR. J. R. BERTRAM.
The Hon'ble BABU RADHA CHARAN PAL.
The Hon'ble BABU JOGENDRA CHANDRA GHOSE, M.A., B.L.

NEW MEMBER.

The Hon'ble MR. CARLYLE took his seat in Council.

QUESTIONS AND ANSWERS.

ZOOLOGICAL GARDEN.

The Hon'ble MR. BERTRAM asked:—

Will the Government be pleased to arrange for the Zoological Garden to be open free to the public for one day in each month? If not, why not?

The Hon'ble MR. CARLYLE replied:—

"There is a Committee appointed to the charge of the Zoological Garden. This Government does not think that it should express any opinion on such a proposal until it has been formally submitted by its advocates to, and fully considered by, that Committee."

ARTICLES OF EUROPEAN MANUFACTURE.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE asked:—

(*a*) Has the attention of the Government been drawn to the fact that the District Boards of Bengal are required to obtain articles of European manufacture of the value of more than fifty rupees from England direct by indent upon the Secretary of State for India, even when such articles are readily obtainable in India?

(*b*) Will the Government be pleased to state if there is any provision in the Bengal Local Self-Government Act of 1885, or any rule made consistently with the said Act, under which the District Board can be required to purchase articles of European manufacture of the value of more than fifty rupees by indent upon the Secretary of State for India?

The Hon'ble MR. McINTOSH replied:—

"The rules regarding the purchase of European Stores are contained in Article 1103 of the Public Works Department Code and the Appendix thereto. These rules are framed by the Government of India.

"The District Fund is an Incorporated Local Fund, the revenues and expenditure of which are under the control of Government; and there is no provision in the Local Self-Government Act empowering a District Board to disregard these rules."

JAMALPUR SHOOTING CASE.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE asked:—

(*a*) Has the attention of Government been drawn to an article in the *Bengalee* newspaper of the 25th November, 1906 (*dâk* edition), relating to a case described in the said newspaper as the "Jamalpur Shooting Case"?

Is the story of the investigation into, and trial of, the case given therein substantially correct?

(*b*) Has the Government received any official report regarding this case? If so, will the Government be pleased to lay it on the table? If no report on the said case has yet been received, will the Government be pleased to call for one, containing an authentic account of the steps taken by the authorities to discover the persons who had shot down some of the men employed in the East Indian Railway workshop at Jamalpur, and the circumstances under which the shooting was resorted to?

(*c*) Will the Government be pleased to state how many workmen were killed and how many were wounded during the incident referred to in the said article?

The Hon'ble MR CARLYLE replied:—

"(*a*) The attention of Government has been drawn by the Hon'ble Member to the article in the *Bengalee*.

"The story therein given of the investigation into, and the trial of, the case is not substantially correct.

"Notably the statement that ten European Assistants stated before the Assistant Inspector-General of the Government Railway Police that they had seen Macmillan fire is absolutely incorrect. No European Assistant whatever made any such statement.

"(*b*) Government has received official reports regarding the case. These are still under consideration.

"The official reports show that a shot gun was used; that three shots in all were fired; that a youth named Finlayson admitted having fired all the shots into the air with a view to frightening away the attacking mob; and that the last of these, though fired over the heads of the mob, did take effect at a considerable distance.

"(*c*) No one was killed; but five workmen were wounded. In the opinion of the Civil Surgeon, by whom they were examined, the wounds on four of them (one man had two wounds) were probably caused by stray shot, but not the scratches found on the person of the fifth. The wounds were of a petty nature. The full charge appears to have passed over the heads of the mob; but owing to the distance at which the shot was fired, the pellets would scatter a great deal and five of them caught the wounded men."

ELECTION OF CALCUTTA MUNICIPAL COMMISSIONERS.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Is the Government aware that during the last two elections of the Calcutta Municipal Commissioners, there was absolutely no interest shown in them by the rate-payers and that in wards where in previous elections fifteen hundred to two thousand votes were recorded, either the elections were uncontested or there were not more than two to three hundred votes at the highest recorded?

(*a*) Is the Government aware that the Hon'ble Mr. Allen, Chairman of the Corporation of Calcutta, declared, at the meeting of the Corporation of the 8th of November last, that, so far as the Calcutta Municipality was concerned, "the whole system of election was absolutely a farce"?

(*b*) Will the Government be graciously pleased to institute an inquiry, by appointing a Committee or otherwise, into the causes of this lamentable lack of interest of the rate-payers and the failure of the system of election in the second city of the British Empire and take steps to remedy them?

The Hon'ble MR. MCINTOSH replied:—

"Questions I and II are answered together.

"The Hon'ble Member is referred to paragraphs 1 and 8 of the Report on the Municipal Administration of Calcutta for the year 1905-06 where the subject of his questions is dealt with. The proposals referred to therein for revising the election rules are, it is understood, now under the consideration of the Corporation."

ESTABLISHMENT CHARGES OF THE CALCUTTA MUNICIPALITY.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

'(*a*) Is the Government aware that there has been a great increase in the establishment charges of the Calcutta Municipality since the new Act came into force?

(*b*) Will the Government be pleased to ask for a return from the Calcutta Municipality showing the amount of the establishment charges of the Corporation before the passing of the new Act and at present, the amount paid to Commissioners as their fees for attending Committee meetings and the amount spent by the Corporation on opening out new roads and improving bustees since the new Act came into force?

(*c*) Is it a fact, as was mentioned by Mr. Braunfield, a Municipal Commissioner, at the meeting of the Corporation of the 14th November last, that 22 lakhs were annually spent by the Corporation for establishment out of an available income of 42 lakhs after paying the interest for Corporation loans?

The Hon'ble MR. MCINTOSH replied:—

"The information asked for by the Hon'ble Member can be gathered from the accounts of the Corporation which are published annually."

HURRISH CHUNDER MUKHERJI'S ROAD AND WOODBURN PARK.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Is the Government aware that many improvements, such as the Hurrish Chunder Mukherji's Road extension and the Woodburn Park to mention two out of many such passed by the Corporation before or shortly after the new Act came into force, have not yet been carried out?

The Hon'ble MR. MCINTOSH replied:—

"Government has no particular information about the progress made with the extension of the Hurrish Chunder Mukherji's Road. The Hon'ble Member's attention is invited to paragraph 12 of the Report on the Municipal Administration of Calcutta for the year 1905-06, where it is said that 'in view of the impending demands on account of the Improvement Trust, great caution is necessary in undertaking capital works other than those of an immediately reproductive character, and the bulk of the available funds must be devoted at present to financing the all-important water and drainage schemes to which the Corporation stands committed.'

"Some information regarding the progress made with the Woodburn Park is given in paragraph 25 of the same Report."

SUBURBAN DRAINAGE PROJECT.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to require the Corporation to submit a statement showing the causes of the great delay in carrying out the Suburban Drainage Project and to mention a limit of time within which the Corporation should carry it out?

Will the Government be pleased to consider whether, in the face of the inability of the Corporation to carry out the drainage and other projects passed many years ago, it is advisable to ask it to take up the gigantic improvements contemplated by the City Improvement Scheme?

The Hon'ble MR. MCINTOSH replied:—

"The Hon'ble Member is referred to paragraphs 11 to 13 of the Government Resolution on the Report of the Municipal Administration of Calcutta for the year 1904-05 and to paragraph 24 of the Calcutta Municipal Administration Report for the year 1905-06. Government sees no need to take action in the manner suggested by the question.

"The Calcutta Improvement Scheme is still under the consideration of the Governments of India and Bengal."

BHAIRAB RIVER.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to state whether it will be pleased to spend this year Rs. 75,000, provided for in the current financial year for the improvement of the river *Bhairab*, in the district of Jessore, from Singhia up to the town of Jessore under the Canals Act?

The Hon'ble MR. MCINTOSH, in the absence of the Hon'ble MR. INGLIS, replied:—

"It is not probable that there will be any expenditure on this scheme in the current year. It has been ascertained that the cost of making a cut from Singhia to Roopchie, and of dredging the bed of the Bhairab from Roopchie to Jessore would be considerably greater than was at first thought: while the work would be of small value as a means of communication. The possible value of the scheme as a sanitary measure will be considered by the Committee which is at present holding an inquiry into the general conditions of the drainage and of the river channels of the districts in the Presidency Division."

JESSORE DRAINAGE SCHEME.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to state how far the drainage scheme under the Sanitary Drainage Act, taken up by the District Board of Jessore for the improvement of the river *Bhairab* from the town of Jessore up to its source, has progressed, and whether, considering the importance of the matter, the largeness of the expenditure and the poverty of the raiyats of the district, who will have to contribute the major portion of it, the Government will be pleased to contribute towards the cost of the scheme?

The Hon'ble MR. MCINTOSH replied:—

"The Hon'ble Member is referred to Notification No. 62 S, dated the 6th August, 1906, published at page 1582 of the Calcutta Gazette, Part I, of the 15th August, 1906. The District Board have been asked to elect their representatives to the Board of Drainage Commissioners, and when these have been elected and the Government nominees have been appointed, the Board will proceed under section 6 (i) of the Sanitary Drainage Act to prepare a preliminary scheme and survey. When this has been drawn up and the cost of the project has been ascertained, Government will be prepared to consider the question of making a contribution from provincial revenues."

JESSORE WATER-WORKS SCHEME.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to state how long the Jessore Water-Works Scheme, approved by His Honour the Lieutenant-Governor, has been under the consideration of the Government, and whether the Municipality of Jessore can shortly expect to receive the sanction of the Government to the scheme?

The Hon'ble MR. MCINTOSH replied:—

"The Municipal Commissioners of Jessore have not yet submitted to Government for final sanction their water-works scheme. The Municipal Commissioners have experienced difficulty in carrying out the experimental borings in the bed of the *Bhairab* river which are required in order to see whether a reliable source of supply is available, and they have applied to Government for help. Government is now arranging to lend the Municipal Commissioners a set of boring instruments and the services of a subordinate who has experience in working them. Government will be glad to sanction a suitable scheme as soon as it is got ready by the Municipal Commissioners."

JURY CASES.

The Hon'ble MR. SYED SHUEFUDDIN asked:—

Will the Government be pleased to state, district by district, the number of cases tried by jury during the 10 years ending 31st March, 1905, the number of cases in respect of which the Sessions Judge concurred with the verdict of the jury, the number of cases in which the Sessions Judge, not agreeing with the jury, made a reference to the High Court, under section 307, Criminal Procedure Code, and the result of each such reference?

The Hon'ble MR. RICHARDSON replied:—

"The statistics required by the Hon'ble Member are not available for the period mentioned by him nor in respect of each jury district.

"The information to be found in the Annual Reports of the High Court on the Administration of Criminal Justice is contained in two statements laid on the table, in one of which the figures denote persons and in the other cases. All the figures relate to the calendar year."

Statements referred to in the above answer.

I.—PERSON.

		Number of persons tried by Jury.	Number of persons in whose cases Sessions Judge approved verdict.	Number of persons in whose cases Sessions Judge did no approve verdict.	Number of persons in whose cases a reference was made to the High Court.

SUBORDINATE EDUCATIONAL SERVICE.

The Hon'ble MR. SYED SHURFUDDIN asked:—

Will the Government be pleased to state if it is a fact that, since September, 1905, no promotion has been granted to the members of the Subordinate Educational Service, on the ground that the new scheme for the re-organization of the service sanctioned by the Secretary of State for India would soon be promulgated? If this be a fact, will the Government be pleased to state when is the new scheme going to be promulgated?

The Hon'ble MR. RICHARDSON replied:—

"The answer to the first part of the Hon'ble Member's question is in the affirmative. As to the second part, a Resolution giving effect to the scheme of re-organization has been drawn up and will be published immediately. It has been decided that the promotions admissible under the scheme will take effect from the 10th September, 1905. The arrangements for bringing the scheme into operation had to be made in consultation with the Government of Eastern Bengal and Assam and this has caused some delay."

SENIOR DEPUTY MAGISTRATES AND THEIR POWERS.

The Hon'ble MR. SYED SHURFUDDIN asked:—

Will the Government be pleased to state if the Senior Deputy Magistrates enjoying first-class powers in every district head-quarters town is vested with the power to hear appeals under section 407, Criminal Procedure Code?

If the officers mentioned above have not the power to hear appeals under section 407, Criminal Procedure Code, will the Government be pleased to invest them with such powers to be exercised at least during the absence, on tour, of the District Magistrates when a great hardship is felt in the matter of bail and admission of appeals by persons convicted by Magistrates of the second or third class?

The Hon'ble MR. CARLYLE replied:—

"Senior Deputy Magistrates enjoying first class powers in every district head-quarters town are not vested with the power to hear appeals under section 407, Criminal Procedure Code.

"Government does not consider it necessary to invest such officers generally with powers to hear such appeals, as it holds that the hearing of appeals is an important part of a District Magistrate's duties. In special cases, this general rule of confining appellate powers to the District Magistrate has been and will be relaxed."

SUBORDINATE EXECUTIVE SERVICE.

The Hon'ble MR. SYED SHURFUDDIN asked:—

Will the Government be pleased to give a statement showing the names and qualifications of the applicants, during the year 1906, from Bihar and Chota Nagpur, for appointments in the Provincial and Subordinate Branches of the Executive Service?

Will the Government be pleased to state also which of the applicants were successful, and which not; and the grounds on which the applications of the unsuccessful candidates were rejected?

And, in the case of Bengalee candidates, will the Government be further pleased to mention against their names whether they are domiciled in Bihar or Chota Nagpur, as the case may be, or otherwise?

The Hon'ble MR. CARLYLE replied:—

"Government regrets that it cannot fully comply with the request of the Hon'ble Member to lay on the table a statement showing the names and qualifications of the applicants, during the year 1906, from Bihar and Chota Nagpur for appointments in the Provincial and Subordinate branches of the

Executive Service, and to state which of them were successful and which not, and the grounds on which the applications of the unsuccessful candidates were rejected. It is most undesirable to publish the names of unsuccessful candidates; and still more (from their own point of view) to explain why they were unsuccessful.

"A statement showing the number of candidates in 1906 from Bihar and Chota Nagpur, with the number of Bengalis domiciled in Bihar or Chota Nagpur, is laid on the table.

"A statement containing the names of the successful candidates from Bihar and Chota Nagpur is also laid on the table. In the case of Bengalis domiciled in these places, the fact has been noted (as far as is known).

"Another statement showing the distribution of the new appointments amongst the different communities in the Province is also laid on the table.

"The last two statements refer to candidates appointed by Government direct and not by promotion from other services."

Statement showing the number of candidates from Bihar and Chota Nagpur during 1906.

From		No.	
Bihar	...	82	of these 10 are domiciled Bengalis.
Chota Nagpur	...	17	of these 5 are domiciled Bengalis.

Statement showing the names of successful candidates from Bihar and Chota Nagpur.

PAUPER WARDS.

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked

Will the Government be pleased to state whether the proposals of Gove ment made in its Resolution No. 4146Medl., dated the 9th November, 18 regarding the opening of separate pauper wards in the large dispensaries Bengal, and the Circular of the Inspector-General of Civil Hospitals, da the 8th March, 1898, regarding the establishment of separate wards for accommodation of both moribund and pauper patients, have been ac upon?

If not, will the Government be pleased to draw the attention of l bodies and managing committees of dispensaries to give effect to the proposals?

The Hon'ble MR. MCINTOSH replied:—

"The orders in question have not been lost sight of. They are gradu being acted upon as funds permit. It has been ascertained that since they v issued, pauper and moribund wards have been provided in 48 dispensa Government attaches much importance to the provision of such wards, a Circular will be issued to local bodies again drawing their attention to matter."

COTTON CULTIVATION.

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked:-

Will the Government be pleased to state what, if any, steps are being taken by it for the development of cotton growing in this Province, in accordance with any scheme that might have been suggested by any experts?

The Hon'ble MR. CARLYLE replied:—

"In this connection the Hon'ble Member is referred to the answers given to the Hon'ble Babu Ambika Charan Mazumdar at the Council Meeting of the 2nd December, 1905, and to the Hon'ble Babu Jogendra Nath Mukherjee at the Council Meeting of the 17th February, 1906.

"No scheme for the development of cotton cultivation in this Province has yet been drawn up by an expert.

"During the current season the Director of Agriculture has arranged for the cultivation of about 100 acres in the Sonthal Parganas and Singhbhum districts with *Buri* cotton, a variety which has given considerable promise, with a view to making it known among cultivators who understand how to grow cotton, and with a view to the production of a quantity of reliable seed for distribution next year. Plant selection is now being carried out at both centres with a view to ultimate improvement.

"Brief instructions for the cultivation of cotton have also been circulated by the Agricultural Department, and seed distributed from the Departmental seed-store."

VILLAGE ROADS.

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked:-

Has the Government received any complaints regarding the condition of village roads in Bengal? If so, will the Government be pleased to draw the attention of District and Local Boards to the need of keeping them in proper repairs?

The Hon'ble MR. MCINTOSH replied:—

"No complaints of a general nature have been received by Government. District Boards are only responsible for the up-keep of such 'village roads' as are vested in them or have been placed under their administration and control. Their obligations in this respect are well known to the District Boards, and the issue of special instructions to them is not considered necessary."

CHARITABLE DISPENSARIES.

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked:-

Is it a fact that in some Charitable Dispensaries under the management of Government or Local Bodies, during hospital hours and in the absence of the Medical Officer in charge, prescriptions are prepared and medicines dispensed by compounders, and the cases subsequently entered in the dispensary Attendance Register by the Medical Officer from memoranda kept by the compounder? If so, will the Government be pleased to take necessary steps to prevent such practice?

The Hon'ble MR. MCINTOSH replied:—

"No instance of patients being treated or prescribed for by a compounder otherwise than as laid down by the rules has been brought to the notice of Government or the Inspector-General of Civil Hospitals. Compounders are forbidden to prescribe for patients on their own responsibility. The only exception to this rule is, when the Medical Officer in charge is unavoidably absent for a brief period owing to sickness or other cause, and on such occasions a compounder is only permitted to render first aid for the immediate relief of a patient, or to dispense stock medicines, or to repeat medicines previously prescribed by the Medical Officer in charge."

INCREASE OF INTOXICANTS.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

Will the Government state what steps are being taken to check the alarming increase in the consumption of intoxicants in Bengal, as shown in the Report of the Commissioner of Excise for 1905-1906?

The Hon'ble MR. MCINTOSH replied:—

"The Committee appointed by the Government of India to examine the systems of Excise administration in the different provinces has recently submitted its report to the Government of India. When the Local Government receives the Committee's report, it will consider what changes are required in the system in force in this province."

EXCISE INQUIRY COMMITTEE.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

Can any information be furnished regarding the recommendations of the Excise Inquiry Committee of the Government of India alluded to in the Report of the Commissioner of Excise, so far as they apply to Bengal?

The Hon'ble MR. MCINTOSH replied:—

"The report of the Excise Committee has not been published yet, and Government is unable to give any information about it at present."

DRAINAGE OF THE CALCUTTA FRINGE AREA.

The Hon'ble BABU RADHA CHARAN PAL asked:—

(*a*) Is the Government aware of the insanitary and water-logged condition of the area, between the Circular Road and the canal on the east of Calcutta, known as the fringe area, and of the repeated complaints, since its amalgamation with Calcutta proper in 1888, of the rate-payers residing in that area, who pay the same rates with their fellow-rate-payers of the Town proper, without receiving the same advantages?

(*b*) In view of the urgency of effective drainage of the above area, has the Government come to any decision as to whether it should permit the storm-water from that area to flow into the canal, as it used to do before canalization by Government of the channel?

(*c*) If no decision has yet been arrived at, will the Government be pleased to state when it is likely to come to a decision on the subject?

(*d*) Considering that considerable difficulties have arisen in draining the area in question owing to the stoppage of the flow of storm-water into the canal and the present unsuitability of the intercepting sewer, which was built at the instance of the Government, will the Government be pleased to make a substantial contribution to the funds of the Corporation to enable that body to relieve the aggrieved rate-payers by constructing suitable drainage works?

The Hon'ble MR. MCINTOSH replied:—

"Government is aware of the unsatisfactory state of the drainage of the area referred to. The proposal to permit the discharge of the surface water of this area into the Circular Canal was referred to a Committee, of which the Hon'ble Mr. Collin was the President, and the Sanitary Commissioner, Bengal, and the Health Officer of the Corporation were the members. The Report of the Committee has lately been received and is adverse to the proposal on sanitary grounds. The surface storm water cannot be permitted to enter the canal, as Government is advised that this would be dangerous to health.

"It is not proposed that Government should contribute towards the cost of the drainage operations."

INFANT MORTALITY IN BENGAL.

The Hon'ble BABU RADHA CHARAN PAL asked:—

(*a*) As a means to prevent the yearly increasing waste of infant life in Bengal, it is said in the Report of the Sanitary Commissioner for Bengal, for 1905, that Government caused two leaflets, containing simple instructions about the feeding and the rearing up of children and prescribing the diet of Indian mothers after child-birth, to be prepared and distributed broadcast for the education of the general public in these matters.

Have similar leaflets been circulated in the present year, and is the Government in a position to say how far these leaflets have produced the desired effect?

(*b*) May I ask what other measures the Government have taken or intend to take for the reduction of the percentage of infant mortality in Bengal?

The Hon'ble MR. MCINTOSH replied:—

"The leaflets were distributed towards the close of last year and in the earlier part of this year. Government is not in a position to say what effect, if any, they have had, but the subject will again doubtless be dealt with by the Sanitary Commissioner in his next Annual Report. It cannot be expected that they will have an immediate effect, though in time they may do some good by helping to remove old prejudices."

CHOLERA AND SEPTIC TANKS.

The Hon'ble BABU RADHA CHARAN PAL asked:—

Considering that there has been an abnormal rise in cholera mortality, has the Government ascertained how far this is due to the rapidly increasing number of septic tanks in Bengal?

The Hon'ble MR. MCINTOSH replied:—

"The Hon'ble Member has not mentioned the localities in which he believes there has been an abnormal rise in cholera mortality. Government is not aware that there has been any rise in the mortality from cholera which could in any way be due to septic tank installations."

LOWIS JUBILEE SANITARIUM.

The Hon'ble BABU RADHA CHARAN PAL asked:—

(*a*) Has the attention of the Government been drawn to the paragraphs published in the "Bengalee" of the 27th ultimo, on the proposed Phthisical Ward at the Lowis Jubilee Sanitarium?

(*b*) Is it not a fact that three eminent medical authorities and two experienced Divisional Commissioners, consulted by Government, were in favour of the construction of this ward?

(*c*) Did not the Government also approve of the construction of this ward on its present site?

(*d*) Now that the ward has neared its completion, and as the abandonment of the design at the present juncture will mean the throwing away of so much money and labour, will the Government be pleased to state what final decision it has arrived at in regard to this matter?

The Hon'ble MR. MCINTOSH replied:—

"The attention of the Government has been drawn by the Hon'ble Member to the article in the *Bengalee* to which he refers. That article contains a very misleading statement of the history of the case regarding this proposal to have a phthisical ward at the Lowis Jubilee Sanitarium at Darjeeling.

"The question is one of very great importance to the patients themselves and to the public. An endeavour is being made, in consultation with the Committee of the Sanitarium and with medical officers, to arrive at a decision which will be in the interests of the patients and of the public. But the Government has not arrived at a final decision in regard to it; and the matter is still under consideration."

PRESIDENCY COLLEGE.

The Hon'ble BABU RADHA CHARAN PAL asked:—

Will the Government be pleased to state whether it is in its contemplation to remove the Presidency College from its present site to a place outside Calcutta?

The Hon'ble MR. RICHARDSON replied:—

"The Government has no intention whatever of removing the Presidency College from Calcutta. That was decided long ago; and the Government has since been considering, in consultation with Educational Officers and others interested in the Presidency College, the question of improving that institution. It has been strongly urged by some, that the college should be removed from its present site to one of the suburbs of Calcutta. The main object of this proposal is to obtain more room for extension of the college buildings and for hostels. The Government, however, as at present advised, is in favour of retaining the present site, and gradually acquiring land, as funds permit, for the improvement of the college. At the same time the Lieutenant-Governor has thought it right to hear any arguments that might be advanced in favour of a change of site within Calcutta or its suburbs. He has invited opinions, and will decide the question when these opinions have been considered."

THE BENGAL TENANCY (AMENDMENT) BILL, 1906.

The Hon'ble MR. CARLYLE moved that the Bill to amend and supplement the Bengal Tenancy Act, 1885, be referred to a Select Committee consisting of the Hon'ble Mr. Slacke, the Hon'ble Mr. Gordon, the Hon'ble Asif Kadr Saiyid Wasif Ali Mirza, the Hon'ble Raja Ban Behari Kapur, the Hon'ble Babu Bhupendra Nath Basu and the Mover.

The Motion was put and agreed to.

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1906.

The Hon'ble MR. McINTOSH moved that the Bill to amend the Bengal Local Self-Government Act of 1885 be referred to a Select Committee consisting of the Hon'ble Mr. Slacke, the Hon'ble Mr. Inglis, the Hon'ble Babu Jogendra Nath Mukherjee, the Hon'ble Babu Jogendra Chandra Ghose and the Mover.

The Motion was put and agreed to.

The Council was then adjourned to Saturday the 12th January, 1907.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th December, 1906 :—

No. 7 of 1906.

A Bill to repeal and amend certain Enactments relating to abolished rates and cesses.

WHEREAS certain rates and cesses leviable in the territories specified in the Schedule have been abolished and it is therefore expedient to repeal or amend the enactments specified in the said Schedule; It is hereby enacted as follows :—

1. This Act may be called the Repealing and Amending (Rates and Cesses) Act, 190 .

Short title.

2. The enactments specified in the Schedule shall be repealed or modified to the extent and in the manner mentioned in the third column thereof.

Enactments in Schedule repealed or modified.

THE SCHEDULE.

Number, year and short title.	Sections.	Extent of repeal or modification.
		A.—The Presidency of Madras.
Madras Act IV of 1893 (The Madras Village Cess Act, 1893).		The whole Act to be repealed.
Madras Act III of 1895 (The Madras Hereditary Village-offices Act, 1895).		For clause (1) the following to be substituted :— "(1) hereditary village offices existing in ryotwari villages or inam villages which for the purpose of village administration are grouped with ryotwari villages and belonging to the following six classes, by whatever designation they may be locally known, namely :— (i) village-munsifs, (ii) potels, monigars and peddakapus, (iii) karnams, (iv) nirgantis, (v) vettis, totis and fandalgars, (vi) talayaris. The Local Government shall have power to decide what officers come under any of the above classes."

THE SCHEDULE—*contd.*

Number, year and short title.	Sections.	Extent of repeal or modification.
Madras Act III of 1895—*contd.*	6	In sub-section (*1*), for the words "In any local area in which the Madras Village-cess Act, 1893, is in force" the words "In any local area in which this Act is in force" to be substituted; and for the words "to which the said Act applies" the words "of the classes defined in section clause (*1*), of this Act" to be substituted. In sub-section (*2*), for the words "in any village in which the Madras Village-cess Act, 1893, is in force" the words "in any ryotwari village or in any inam village which for the purpose of village administration is grouped with a ryotwari village," to be substituted.
	20	In clause (ix) the words "the Madras Village-cess Act, 1893," to be omitted.
B.—The Presidency of Bombay.		
Bombay Act IV of 1881 (The Sindh Village-officers Act, 1881).	6	The whole section to be repealed.
Bombay Act II of 1888 (*An Act to amend the Sindh Village-officers Act, 1881*).	3	The whole section to be repealed.
Bombay Act II of 1898 (*An Act to amend the Sindh Village-officers Act, 1881, as amended by Bombay Act II of 1888*).	2 and 3	The whole of both sections to be repealed.
C.—The Lieutenant-Governorship of Bengal.		
Bengal Act VIII of 1862 (The Bengal Zamindari Dák Act, 1862).	...	The whole Act to be repealed.
Bengal Act I of 1895 (The Public Demands Recovery Act, 1895).	7	In clause (*d*) of sub-section (*1*) the words, figures and brackets "section 9 of Bengal Act 8 of 1862 (*An Act to improve the system of Zamindari Dáks in the Provinces subject to the Government of Bengal*) or" to be omitted.
Regulation III of 1872 (The Sonthal Parganas Settlement Regulation).	The Schedule.	The third entry in Part III to be omitted.
D.—The Lieutenant-Governorship of the Punjab and the Chief Commissionership of the North-West Frontier Province.		
Act XVII of 1887 (The Punjab Land-revenue Act, 1887).	29	In sub-section (*1*) for the words "one anna" the words "half an anna" shall be substituted, and for the words "village-officers" where they occur after the word "remunerating" the words "headmen and chief headmen" to be substituted.
E.—The Chief Commissionership of the Central Provinces.		
Act X of 1878 (The Central Provinces Additional Rates Act, 1878).	...	The whole Act to be repealed.
Act XVIII of 1881 (The Central Provinces Land-revenue Act, 1881).	77	In clause (*a*) the word "patwari" to be omitted.
	138	In clause (*b*) the word "patwaris" to be omitted.
	141	In clause (*a*) the words "village-patwari and" to be omitted.
	143A	In clause (*c*) the words "village-patwari and" to be omitted.
	146A	The whole section to be repealed.
F.—The Chief Commissionership of Coorg.		
Regulation I of 1899 (The Coorg Land and Revenue Regulation).	24	The whole of sub-section (*2*) to be repealed.
	25 and 26	The whole of both sections to be repealed.
	115	The words "including the village-officers' cess" to be omitted.
	119	The words "or paid out of the proceeds of the village officers' cess" to be omitted.

THE SCHEDULE—*concld.*

Number, year and short title.	Sections.	Extent of repeal or modification.
Regulation I of 1899—*contd.*	145	In clause (xvi) the words "or arising out of the liability of an assignee to pay out of assigned land-revenue or of a person who would be liable for land-revenue, if it had not been realised, compounded for or redeemed, to pay on the land-revenue for which he would but for such release, composition or redemption be liable, such a percentage for the remuneration of a village-officer as may be prescribed by rules for the time being in force under this Regulation" to be omitted.
G.—The Chief Commissionership of Ajmere-Merwara.		
Regulation III of 1895 (The Ajmere Patwari Regulation).		The whole Regulation to be repealed.

STATEMENT OF OBJECTS AND REASONS.

THE levy of certain provincial rates and cesses, such as the patwari-cess, the village-service-cess, the famine-cess, and the like, has been already abolished by executive orders in accordance with the announcements made in the Financial Statements for 1905-1906 and for 1906-1907, but the enactments under which these rates and cesses were imposed are still on the Statute-book, and the object of this Bill is simply to repeal these enactments and carry out certain consequential amendments in other enactments referring to the same.

The 12th December, 1906. DENZIL IBBETSON.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th December 1906.

No. 8 OF 1906.

A Bill further to amend the Local Authorities Loan Act, 1879.

WHEREAS it is expedient further to amend the Local Authorities Loan Act, 1879; It is hereby enacted as follows:— XI of 1879.

1. This Act may be called the Local Authorities Loan (Amendment) Act, 1906. Short title.

2. In section 4 of the said Act, for the words "for the carrying out of any works which it is legally authorised to carry out" the words "for any purpose to which its funds can legally be applied" shall be substituted. Amendment of section 4, Act XI, 1879.

3. In section 5, sub-section (*2*), of the same Act, for the word "works" the word "purposes" shall be substituted. Amendment of section 5.

4. In section 7 of the same Act, for the word "work", in both places where it occurs, the word "purpose" shall be substituted. Amendment of section 7.

5. In section 8, clause (*b*), of the same Act, the words "other than the carrying out of works" shall be omitted. Amendment of section 8.

STATEMENT OF OBJECTS AND REASONS.

THE Local Authorities Loan Act, 1879 (XI of 1879), provides for local authorities borrowing money for the carrying out of works. It has been held that the provision in question limits the powers of these authorities to borrowing for objects which can be strictly described as works, and does not empower them to contract loans for the purposes of carrying out other objects of public utility. The Bill accordingly proposes to legalise the borrowing of money by local authorities for any purpose to which their funds can legally be applied; subject always, under section 5 (*2*) of the Act, to the definition by rule of the purposes for which loans may be raised.

E. N. BAKER.

The 30th November, 1906.

J. M. MACPHERSON,
Secretary to the Government of India.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER 19, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 11th December 1906.*

BAY OF BENGAL—BURMA COAST.

Caution.—Position of a submerged Country craft.

No. 479 (first publication).—A telegraphic communication has been received from the Principal Port Officer, Rangoon, intimating that a report has been received that a small country craft, submerged, was passed bearing east, distance 9 miles from Alguada light-house. Length of boat about 80 feet.

Mariners are hereby warned.

The 11th December 1906.

AUSTRALIA—QUEENSLAND.

Brisbane river—Minimum available depth.

No. 480 (first publication).—The Port Master, Brisbane, has given notice (No. 7 of 1906) that the minimum available depth in the Brisbane River from Moreton Bay to the Custom House, Town Reach, is 22 feet at low-water springs.

Charts affected—Nos. 1674, 1670b and 1039; Australia Directory, vol. 2.

INDIA, WEST—SIND COAST.

Karachi harbour—Lights on Military works at Manora.

No. 481 (first publication).—The Bombay Government have given notice (No. 126 of 1906) that from 1st December 1906, repairs will be taken in hand on the seaward side of the Manora Point Fort and Breakwater, and powerful lights may be used at times for the purpose. Ships approaching Karachi Harbour should therefore be careful not to mistake these lights with leading and harbour lights.

This Notice affects the following Admiralty Charts:—Karachi Harbour, No. 40; also West Coast of Hindustan Pilot, 1898, page 304.

AFRICA, NORTH-EAST—Red Sea.

The Brothers—Experimental exhibition of light

No. 482 (first publication).—With reference to Notice to Mariners No. 54, dated the 3rd February 1906, issued by this office, the British Admiralty has given further notice No 1304 of 1906) that, during the latter end of November and the beginning of December, a *white flashing* light will be experimentally exhibited from the tower now in course of construction on the Brothers.

Approximate position, lat. 26° 19′ N., long. 34° 51′ E.

Further Notice will be given when the above light is permanently established, which will be about 1st January 1907.

This Notice affects the following Admiralty Chart :—Red Sea with plan of the Brothers, No. 8b : Also List of Lights, 1906, Part V, No. 1441; Part VI, No. 161; Red Sea, &c., Pilot, 1900, page 71; and Supplement, 1904, page 10.

AFRICA, NORTH-EAST—Red Sea, western shore—Sheik el Barghut approach

Sanganeb reef—Experimental exhibition of light.

No. 483 (first publication).—With reference to notice to Mariners No. 207, dated 7th June 1906, issued by this office, the British Admiralty has given further notice (No. 1305 of 1906) that during the latter half of November and the early part of December, a *white flashing* light will be exhibited experimentally from a tower now in course of erection on Sanganeb reef in the approach to Sheik el Barghut (port Sudan).

Approximate, position, lat. 19° 43½′ N., long. 37° 26′ E.

Further Notice will be given when this light has been permanently established, which will be about 1st January 1907.

This Notice affects the following Admiralty Charts :—Red Sea, No. 8c Mersa Durur to Trinkitat, No. 81 : Also List of Lights, 1906, Part V, No. 1443; Part VI, No. 158; Red Sea, etc., Pilot, 1900, page 155; and Supplement, 1904, page 17.

BAY OF BENGAL—Orissa coast.

Balasore river—Elfin channel—Depth of water on the bars and at the buoys.

No. 484 (first publication).—The Port Officer, Cuttack and Balasore ports, has given notice that the following depth of water was found on the bars and at the buoys, in the Elfin channel, Balasore river, on the 10th December 1906—

Bars.

	Ft.	in.
Elfin bar	2	6
Nolcool	1	6
Jimkana	2	6

Buoys.

	Ft.
Anchoring buoy.	22
Fairway „	12
Centre Elfin	4
Inner „	5

The course in from the Fairway buoy. to the Barabulong river is N. 33° W. *magnetic.*

Vessels drawing 9 feet should not attempt to cross the Elfin bar with less than 16 feet rise at Saugor.

The 14th December 1906.

INDIA, WEST—Malabar coast.

Ponani—Particulars of present boundary pillars.

No. 485 (first publication).—The Presidency Port Officer, Madras, has given notice (No. 31 of 1906) of the following particulars of boundary pillars at Ponani, in supersession of previous Notice :—

North boundary pillar, situated on the Sand ridge north of the river entrance, 120 yards from H. W. mark in Lat. 10° 48′ 11″ N.

South boundary pillar, situated on the foreshore south of the river entrance, 450 yards from H. W. mark in Lat. 10° 46′ 57″ N.

The pillars are 2,860 yards apart in a straight line bearing approximately No. 29° W.

The 17th December 1906.

BAY OF BENGAL—Chittagong coast.

Kurnafuli river—Depth of water in the channels.

No 468 (second publication).—The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 29th and 30th November 1906—

	Ft.	In.
Track No. 1—Outer bar—		
Disc on diamond	14	0
Track No. 2—Inner bar—		
Disc on diamond	11	6
Batten beacon on pillar	11	6
Track No. 3—		
Triangle on cross and ball	16	6
Track No. 4—Guptakhally crossing—		
Tripod on cross and ball and diamond	20	0

INDIA, WEST—Sind coast

Karachi harbour—Removal of Deep Water Point mooring buoy.

No. 469 (second publication).—The Bombay Government has given notice (No. 125, dated 28th November), that the Deep Water Point Mooring Buoy, Karachi Harbour, has been removed and will not be replaced until further notice.

This notice affects the following Admiralty Chart :—Karachi Harbour, No. 40; also West Coast of Hindustan Pilot, 1898, page 304, and Supplement 1903, page 19.

EASTERN ARCHIPELAGO—Borneo, south-east coast.

Pulo Laut strait—Light-buoy established.

No. 470 (second publication).—With reference to Notice to Mariners No. 226, dated 26th June 1906, issued by this office, the British Admiralty has given further notice (No. 1271 of 1906) that a light-buoy exhibiting a *white occulting* light, *every twenty seconds*, thus:—light, *ten seconds;* eclipse, *ten seconds*, has been established in a position situated about one mile S. 75° E. from Petang point, in the southern entrance to Pulo Laut strait.

Approximate position, lat. 3° 37′ S., long. 115° 57½′ E.

(*Variation 2° Easterly in 1906.*)

This Notice affects the following Admiralty Charts :—Makassar strait, No. 2637; plan of Pulo Laut strait on chart No. 2662; Also Eastern Archipelago, part II, 1904, page 277.

CHINA, NORTH—Manchuria, south coast.

Cambrian or Lakhutan cove.—Non-existence of shoal.

No. 471 (second publication).—With reference to notice to Mariners No. 498, dated 12th December 1905, issued by this Office, the British Admiralty has given further notice (No. 1272 of 1906) that the rock reported by the S.S. *Ishibashi Maru* off Cambrian cove, as situated in a position 12 cables S. 73° W. from the rock off the south-eastern extremity of South Entry point, in the approach to Talien hwan bay, has been repeatedly and carefully searched for at a distance of 2 cables in all directions around the assigned position without any indication being found of its existence, the general depths in the locality being 17 fathoms over mud, sand, and shells bottom. This rock has therefore been erased from the charts.

Approximate position, lat. 38° 51′ N., long. 121° 40½′ E.

Note.—The Japanese name for the Talien islands to the westward of Cambrian cove is Dairen, and this has now been adopted on chart No. 1798.

(*Variation 4° Westerly in 1906.*)

This Notice affects the following Admiralty Chart :—Kwang tung peninsula, No. 1798: Also, China Sea Directory, vol. III, 1904, page 590.

EASTERN ARCHIPELAGO—MALAY PENINSULA, WEST COAST—SIAM, PUKET OR TONGKA HARBOUR.

Goh Tapaunoi light—Temporary alterations.

No. 472 (second publication).—The British Admiralty has given notice (No. 1273 of 1906) that Goh Tapaunoi white flashing light, Tongka harbour, will be temporarily replaced by a *white fixed* light whilst undergoing repairs.

Approximate position, lat. 7° 52½′ N., long. 98° 25½′ E.

Further Notice will be given as necessary.

This notice temporarily affects the following Admiralty Chart:—Puket or Tongka harbour, No. 843: Also, List of Lights, part VI, 1906, No. 383; Bay of Bengal Pilot, 1901, page 434; and China Sea Directory, vol. I, 1896, page 117.

PACIFIC OCEAN—SULU SEA—THE PHILIPPINE ISLANDS.

Basilan strait—Shoal inserted on Charts.

No. 473 (second publication).—The British Admiralty has given notice (No. 1274 of 1906) that as a shoal with a depth of 3½ fathoms over it appears on the United States Government chart of Basilan strait, situated on chart No 961 in approximately lat. 6° 46′ 0″ N., long. 122° 4′ 20″ E., it has been inserted on the Admiralty charts in this position.

NOTE.—The authority for this danger is a Spanish chart corrected to 1895.

This Notice affects the following Admiralty Charts:—Sulu Archipelago, Nos. 2576, 928; Basilan strait, No. 961: Also, Eastern Archipelago, part I, 1890, page 99.

EASTERN ARCHIPELAGO—JAVA, NORTH COAST.

Pamanukan rock—Buoy replaced by light-buoy.

No. 474 (second publication).—With reference to Notice to Mariners No. 226, dated 26th June 1906, issued by this office, the British Admiralty has given further notice (No. 1275 of 1906) that the black bell buoy surmounted by a ball marking Pamanukan rock, has been replaced by a light-buoy, painted black, exhibiting a *white occulting* light *every twenty seconds*, thus:—light, *ten seconds;* eclipse, *ten seconds.*

Approximate position, lat. 6° 1′ S., long. 107° 52½′ E.

This Notice affects the following Admiralty Chart:—Java, No. 1653: Also Eastern Archipelago, part II, 1904, page 97.

EASTERN ARCHIPELAGO—JAVA ISLAND, EAST COAST—SURABAYA STRAIT

Kleta reef.—Beacon erected.

No. 475 (second publication).—The British Admiralty has given notice (No. 1292 of 1906) that an iron screwpile beacon, painted in black and red horizontal bands, with a truncated cone as a topmark, has been erected in a depth of 2 feet on Kleta reef, in the eastern entrance to Surabaya strait, in a position situated at a distance of 6 $\frac{6}{10}$ miles S. 43° E. from Lerangan mosque.

Approximate position on chart No. 934, lat. 7° 19½′ S., long 112° 52′ E.

Variation 3° Easterly in 1906.

This notice affects the following Admiralty Charts:—Java, No. 1654, Surabaya strait on chart No. 934: Also, Eastern Archipelago, Part II 1904, page 127; and Supplement, 1906, page 11.

JAPAN SEA—Peter the Great Bay—Vladivostok approach.

Cape Gamova light—Further particulars given, Askold island—Pilot station.

No. 476 (second publication).—With reference to Notice to Mariners No. 402, dated 20th October, issued by this office, the British Admiralty has given further notice (No. 1293 of 1906) that a *white group flashing* light showing groups of *two* flashes, each group being of about *two seconds'* duration, *every ten seconds*, elevated 210 feet above high water, and visible from a distance of 16 miles, has been established on cape Gamova, Vladivostok approach. The light, which is of the 2nd order, is shown from a lighthouse 48 feet high.

A siren worked by compressed air and a bell have been established on the southern end of the cape; during thick or foggy weather the siren will give one blast of four seconds' duration *every minute*, and the bell probably worked in accordance with the Russian uniform system.

Approximate position, lat. 42° 33½′ N., long. 131° 12½′ E.

Also, that it is no longer now requisite to make cape Gamova when approaching Vladivostok, but it is equally safe to make Askold island, and, obtaining a pilot from thence, to approach Vladivostok by the eastern entrance to the Eastern Bosporus strait.

Approximate position, Askold light. lat. 42° 44′ N., long. 132° 22′ E.

This Notice affects the following Admiralty Charts:—Kuril islands, No. 2405; Tumen Ula to Strelok bay, No. 2432; Trinity bay to the Eastern Bosporus, No. 511: Also List of Lights, part VI, 1906, page 189, No. 1156; and Sailing Directions for Japan, &c., 1904, page 169, 191.

AUSTRALIA, SOUTH—Gulf of St. Vincent—Backstairs passage.

Yatala shoal—Buoy established.

No. 477 (second publication).—The British Admiralty has given notice (No. 1298 of 1906) that, on or about the 24th of that month, a spherical buoy, painted in red and white horizontal bands, and surmounted by a half globe, base downwards, would be moored in a depth of 5 fathoms on the north-western side of Yatala shoal, Backstairs passage. The exact position of this buoy is not given, but it has been placed on the chart at a distance of 4$\frac{1}{10}$ miles N. 19° E. from cape St. Alban.

Approximate position, lat. 35° 44½′ S., long. 138° 9¾′ E.

(*Variation 5° Easterly in 1906.*)

This Notice affects the following Admiralty Charts:—Gulf of St. Vincent, &c., No. 2389a; Backstairs passage, No. 25: Also Australia Directory, vol. I, 1897, page 308.

AUSTRALIA—New South Wales.

Port Jackson—Fog Signals altered.

No. 478 (second publication).—With reference to Notice to Mariners No. 286, dated 29th July 1905, issued by this office, the British Admiralty has given further notice (No. 1299 of 1906) that the fog bells at Bradley head, fort Denison, and Dawes point, in port Jackson, will in future be sounded continuously during thick or foggy weather, and not as described in the above-mentioned Notice.

Approximate position, fort Denison, lat. 33° 51½′ S., long. 151° 13½′ E.

This Notice affects the following Admiralty Charts:—Port Jackson, No. 1069; Woolloomooloo, &c., No 1890: Also List of Lights, part VI, 1906, Nos. 1364a, 1365, 1365a; Australia Directory, vol. I, 1897, pages 824, 829; vol. II, 1898, pages 59, 62, 63.

INDIA, WEST—Bombay coast.

Bankot buoys relaid.

No. 459 (third publication).—With reference to Notice to Mariners No. 269, dated the 3rd August last, issued by this office, the Bombay Government has given further notice (No. 121 of 1906) that the Bankot buoys have been relaid on the 5th November 1906.

The 10th December 1906.

ARABIA, NORTH-EAST—Persian Gulf.

Shoal outside Koweit Harbour.

No. 460 (third publication).—With reference to Notice to Mariners No. 361, dated 21st September 1906, issued by this office, the following further notice issued by the Bombay Government (No. 122 of 1906) is republished:—

On examination of the soundings to the southward of Ras al Arz two shoal patches are situated as follows—

'Kola' Patch with a least depth of 7 feet rocky bottom bearing from Ras al Arz Beacon S. 3° E., distant 3·6 miles, and from N. E. corner of Sirra Hill Fort N. 82 3/4° E., distant 3·5 miles.

Another Patch with a least depth of 2 fathoms hard sandy bottom bearing from Ras al Arz Beacon S. 0 3/4° W., distant 2·0 miles, and from N. E. corner of Sirra Hill Fort N. 57 3/4° E, distant 3·8 miles.

The bearings are true.

These shoals are close to the coast, and the neighbourhood should be avoided. No buoy was seen on the Kola Patch as reported.

This Notice affects the following Admiralty Charts:—Persian Gulf, Western Sheet, No. 2837B., Koweit Harbour, No. 22; and Persian Gulf Pilot, 4th edition, pages 155 and 160.

CEYLON—Trincomali Harbour.

Back bay—Shoal.

No. 461 (third publication).—The British Admiralty has given notice (No. 1249 of 1906) of the existence of a rock with a depth of 3½ fathoms over it in Back bay, Trincomali approach, situated in a position from which Elizabeth point bears S. 55° W., distant 1¼ miles, and Flagstaff point S. 1° E. This danger, named Flat rock, about 30 feet in diameter, has a depth of 5 fathoms close around, outside which the water deepens suddenly to 10 fathoms.

Approximate position, lat. 8° 38¾′ N., long. 81° 14½′ E.

(*Variation Nil in 1906.*)

This Notice affects the following Admiralty Charts:—Ceylon, No. 2031; Trincomali, No. 815: Also Bay of Bengal Pilot, 1901, page 117.

CHINA SEA—Natuna islands.

Midai (Low) island and Elphinstone rock—Dangers between.

No. 462 (third publication).—The British Admiralty has given notice (No. 1250 of 1906) that a line of dangers, more or less connected together, extends for a distance of about 11 miles to the northward of Low island, which is now known as Midai island. The eastern limit of these dangers is fairly well defined by a line joining the east point of Midai island to Elphinstone or Postillon rocks.

The 3-fathom shoal given in the above notice is detached from this line of dangers.

Approximate position, north point of Midai island, lat. 3° 1′ N., long. 107° 48′ E.

This Notice affects the following Admiralty Charts:—China sea, No. 2660a; Natuna islands, No. 1848: Also China Sea Directory, vol. II, 1906, page 92.

EASTERN ARCHIPELAGO—Lombok strait.

Ampenan light—Character altered.

No. 463 (third publication).—With reference to Notice to Mariners No. 385, dated 12th October 1906, issued by this office, the British Admiralty has given further notice (No. 1255 of 1906) that the character of Ampenan light has been altered from a white fixed to a *white group occulting* light *every thirty seconds*, thus:—light, *three seconds;* eclipse, *three seconds;* light, *twelve seconds;* eclipse, *twelve seconds;* the new light being of the 4th order.

Approximate position, lat. 8° 34¼′ S., long. 116° 4′ E.

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941b; island of Java, No. 1654; Ampenan road on chart No. 895: Also List of Lights, part VI, 1906, No. 512; and Eastern Archipelago, part II, 1904, page 201.

INDIAN OCEAN.

Seychelles—Mauritius—And Chagos Archipelago—Standard time adopted.

No. 464 (third publication).—The British Admiralty has given notice (No. 1264 of 1906) that on 1st January 1907, the standard time of the 60th meridian of East longitude, or 4 hrs. fast on Greenwich Mean time, will be adopted in the Seychelles and Mauritius, and that of 75th meridian of East longitude, or 5hrs. fast on Greenwich Mean Time, in the Chagos Archipelago.

The time-ball at port Louis, Mauritius, will in consequence be dropped at $1^h\ 0^m\ 0^s$ P.M. Standard Time or $0^h\ 50^m\ 12{\cdot}4^s$ P.M. Local Mean Time, corresponding to $21^h\ 0^m\ 0^s$ Greenwich Mean Time, instead of $1^h\ 0^m\ 0^s$ Local Mean Time as at present.

Approximate position, port Louis signal station, lat 20° 10′ 5″ S., long. 57° 29′ 0″ E.

This Notice affects the following Admiralty Chart:—Port Louis, No. 713: Also List of Time Signals, 1904, No. 48; and Islands in the Southern Indian Ocean, 1904, pages 24, 309, 363, 343.

AUSTRALIA, SOUTH—SPENCER GULF.

Tipara light-house—A Gong to be sounded during the prevalence of Fog or Mist.

No. 465 (third publication).—The President of the Marine Board, Port Adelaide, has given notice (No. 21 of 1906) that during the prevalence of Fog or Mist a Gong will be sounded at the above-mentioned light-house for a period of thirty seconds in duration and at intervals of five minutes.

The sound will be audible in ordinary weather for a distance of three miles.

This affects Admiralty Chart No. 2389B.

AUSTRALIA, SOUTH—GULF OF ST. VINCENT.

Port Adelaide, outer harbour—Black buoy removed—No. 1G Beacon light temporarily exhibited.

No. 466 (third publication).—The President, Marine Board, Port Adelaide, has given notice (No. 22 of 1906) informing Masters of Vessels, Pilots and others that, owing to the progress of deepening operations at the North Bank, Port Adelaide River, the Black Buoy thereon has been removed and its position is now occupied by the dredger.

No. 1G Beacon Light will be temporarily exhibited from the Reflecting Beacon until it can be shown from the position it is to occupy permanently, as to which a further notice will be issued.

This affects Admiralty Charts 2389A and B, 1750, and 1752.

The 30th November 1906.

AUSTRALIA—SANDY STRAIT.

Woody island—Alteration in marks.

No. 467 (third publication).—The Port Master, Brisbane, has given notice (No. 6 of 1906) that, on and after the 7th proximo, the red buoy on the Long Middle Bank off Woody Island will be shifted two (2) cables' length to the northward, and the red sector of Woody Island lower light altered to cut outside the buoy on a bearing of S. 46° W. The course from the Nun buoy will now be E. $\frac{5}{8}$ S. instead of E. $\frac{3}{4}$ S., as shown on Admiralty Chart.

Chart affected—No. 3110; Australia Directory, vol. 2.

The 3rd December 1906.

DONATIONS AND ENDOWMENTS MADE BY PRIVATE INDIVIDUALS FOR PUBLIC PURPOSES DURING THE YEAR 1905.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVT.

Calcutta, the 15th December 1906.

RESOLUTION No. 2849M.

THE Lieutenant-Governor has much pleasure in publishing for general information the customary statement showing the donations made by private individuals for public purposes during the year 1905. The sums contributed are shown against the names of the donors, and His Honour avails himself of this opportunity to express his appreciation of the liberality and public spirit which they have displayed.

2. The following gifts received during the year deserve special mention. A munificent donation of Rs. 1,00,000 for famine-relief in Bengal was made by the late Babu Jay Gobinda Laha, C.I.E., of Calcutta. Raja Narendra Lal Khan

of Narajole contributed Rs. 35,000 towards the creation of an endowment fund for the maintenance of the "Raja Mohendra Lall Khan's Zenana Hospital" in the town of Midnapore; and Babu Harakh Chand Nahatta gave Rs. 11,500 for a High English School building at Kishenganj in the district of Purnea. Babu Nanda Lal Gossain and his brothers jointly contributed Rs. 11,000 for the construction and maintenance of an out-door dispensary attached to the Serampore Hospital in the Hooghly district, which has been named after their deceased mother, Gobinda Sundari Debi; small contributions aggregating Rs. 7,000 for the dispensary building were also collected from other subscribers in the locality.

3. The Lieutenant-Governor is also pleased to notice the following instances of liberality:—

Babu Ram Chandra Thirani made a gift of Rs. 9,000 for a hospital building at Kishenganj. Maharaja Manindra Chandra Nandi of Cossimbazar spent Rs. 8,000 on the construction of an embankment extending from Mohota Bazar to Katiakeria at Saktipur in the Kandi subdivision of the Murshidabad district. A sum of Rs. 7,000 was contributed by Rai Sitab Chand Nahar Bahadur for the Azimganj Protective Works on the river bank. Raja Jogendra Narain Ray of Lalgola gave Rs. 6,000 for an operation ward in the Berhampore Hospital to be named after his late wife, Rani Manindra Mohini Debi. The Burdwan Vidyasagar Datavya Samiti contributed Rs. 6,000 for the creation of a Trust Fund to relieve the distressed in that town. The late Babu Bolye Chand Datta made a gift of Rs. 5,000 for the creation of a monthly scholarship to be called the "Dutt Scholarship" tenable for one year by the student who may secure the highest number of marks in literature at the Calcutta University Entrance Examination. Babu Rajaram, a banker of Patna, gave Rs. 5,000 for the provision of accommodation for witnesses and others attending the Civil Courts in that station.

Other donations are mentioned in detail in the statement; and while space prevents him from reviewing them individually, the Lieutenant-Governor desires to express no less his appreciation of the liberality displayed by the donors.

ORDER.—Ordered that a copy of this Resolution and of the statement be forwarded to the Revenue Political, Appointment, Judicial, General, Financial, Legislative, Marine and Public Works Departments of this Government, for information.

Ordered—Also that a copy of the Resolution and of the statement be forwarded to the Board of Revenue, the Inspector-General of Civil Hospitals, the Sanitary Commissioner and the Sanitary Board, and to all Commissioners of Divisions, for information.

Ordered—Also that the Resolution and the statement be published in the Supplement to the *Calcutta Gazette*, and also in the Government Vernacular Gazettes, for general information.

H. J. McINTOSH,

Offg. Secretary to the Government of Bengal.

FINAL FORECAST OF THE BHADOI CROP OF BENGAL, 1906.

THE following note is published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

The 17th December 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE BHADOI CROPS OF BENGAL, 1906.

(On an average of the five years ending 1904-05, the area under autumn rice in the territory to which this forecast relates has represented some 6·4 per cent. of the total area under this crop in British India.)

Character of the season.—The month of April was dry, and so was the first portion of May. Sowings in consequence were delayed in the Presidency and Burdwan Divisions, where the sowing season commences earlier than in other parts of the Province. In June, the rainfall was again generally deficient. In July and August, rain was general, but it was not equally distributed. In September, it was deficient in most districts, the only exceptions being Nadia, Jessore, Gaya, Balasore and Singhbhum where it was in slight excess. In Bihar, the crops were seriously damaged by floods. Midnapore, Hooghly, Nadia, Murshidabad and Jessore also suffered from floods. Insect pests injured the crops to some extent in Khulna and the 24-Parganas. On the whole, the season has been unfavourable for the *bhadoi* crops.

Area sown.—The total area sown this year with the various *bhadoi* crops of the Province, exclusive of cotton, jute, and *bhadoi til*, for which separate forecasts are prepared, amounts to 8,869,800 acres against 9,054,800 acres of last year, and a normal area of 9,731,200 acres. Since the publication of the preliminary report, this year's areas have been revised in the 24-Parganas, Murshidabad, Champaran, Darbhanga and the Sonthal Parganas.

Outturn.—Only three districts, namely, Gaya, Ranchi and Manbhum now return a normal crop. Five districts show crops from 90 to 99 per cent.; three from 80 to 89 per cent.; 9 from 70 to 79, and 5 from 60 to 69 per cent.; Nadia, Champaran and Purnea return 51 to 59 per cent. crops, while Murshidabad Saran, Muzaffarpur, Darbhanga and Monghyr return crops under 50 per cent. After the issue of the last forecast, prospects have become better in 7 districts and worse in 14 districts.

According to the estimates received in this office, the average outturn of the different *bhadoi* crops dealt with in this report works out to 68 per cent. of a normal crop, or in round numbers 70 percent. From what I have seen of the *bhadoi* crops in the Province when on tour, I think this is most probably an under estimate. The outturn last year was estimated at 72 per cent. Accepting a 70 per cent. crop for *bhadoi* paddy also, the outturn of cleaned autumn rice may be estimated at 22,160,600 cwts., against 27,013,000 cwts. of last year.

C. A. OLDHAM,
Director of Agriculture, Bengal.

CALCUTTA;
The 7th December 1906.

APPENDIX 1.

Final forecast of the Bhadoi Crops of Bengal, 1906.

District.	Total area of district in acres.	Total area of district estimated to be under cultivation in acres.	Names of *bhadoi* crops.	Approximate normal area under each specified *bhadoi* crop in acres.	Approximate area last year (1905) under each specified *bhadoi* crop in acres.	Estimated area this year (1906) under each specified *bhadoi* crop in acres.	Taking 100 to represent the normal outturn, how much represented the outturn last year (1905)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1906)?	Figures from the Cadastral Survey.			Remarks by District Officers.	Remarks by the Department of Agriculture, Bengal.
									Total area of the district which has been cadastrally surveyed.	Years during which the cadastral survey took place.	Area found under each specified *bhadoi* crop during the cadastral survey.		
1	2	3	4	5	6	7	8	9	10	11	12	13	14
									Acres.		Acres.		
Burdwan ...	1,721,984	1,284,800	*Autumn* rice	173,700	142,100	136,900	88	59	51,370	1889 to 1893 and 1903-1906.	Not ascertainable.	Want of seasonable rainfall at the beginning of the season and high winds with rain which recently prevailed in this district account for the poor outturn.	
			Indian-corn (maize)	3,000	3,000	3,000	86	100	...	...	...

District.	Total area of district in acres.	Total area of district estimated to be under cultivation in acres.	Names of *bhadoi* crops.	Approximate normal area under each specified *bhadoi* crop in acres.	Approximate area last year (1905) under each specified *bhadoi* crop in acres.	Estimated area this year (1906) under each specified *bhadoi* crop in acres.	Taking 100 to represent the normal outturn, how much represented the outturn last year (1905) ?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1906) ?	Figures from the Cadastral Survey.			Remarks by District Officers.	Remarks by the Department of Agriculture, Bengal.
									Total area of the district which has been cadastrally surveyed.	Years during which the cadastral survey took place.	Area found under each specified *bhadoi* crop during the cadastral survey.		
1	2	3	4	5	6	7	8	9	10	11	12	13	14
24-Parganas ...	3,100,160	1,079,700	*Autumn* rice	74,600	62,500	50,100	87	77	...	...	...	The figures in column 7 have been further revised after the submission of the preliminary forecast. The slight decrease in the estimated areas under the different *bhadoi* crops is attributed to the fact of more lands having been cultivated with jute. The weather was on the whole unfavourable this year. The recent rains have, however, done some good to the crops and a better outturn is now expected than that shewn in the preliminary forecast.	
			Other *bhadoi* cereals and *bhadoi* pulses.	4,100	3,100	1,700	90	87					
			Other *bhadoi* food-crops (*e.g.*, vegetables).	7,000	6,400	4,800	91	93					
			Other *bhadoi* non-food-crops ...	1,800	100	1,800	75	98					
			Total ...	87,500	72,100	58,400	87	79	...	...	...		
Nadia ...	1,787,520	1,043,800	*Autumn* rice	328,900	403,900	444,000	80	60					
			Mandua, *marua* or *ragi* ...	300	...	...	...	...					
			Indian-corn (maize)	900	100	600	62	50	Not cadastrally surveyed ...			The decrease in the outturn is due to floods.	
			Other *bhadoi* cereals and *bhadoi* pulses.	11,700	4,800	4,200	68	50					
			Other *bhadoi* food-crops (*e.g.*, vegetables).	17,700	6,900	8,400	65	50					
			Other *bhadoi* non-food-crops ...	25,000	24,000	18,500	70	60					
			Total ...	384,400	439,700	475,700	79	59	...	...	...		

Murshidabad	1,871,529	965,500	*Aus* or autumn rice	229,700	250,400	164,700	74	40	Not cadastrally surveyed			Weather and general conditions have been favourable, but high floods injuriously affected the crops this year; hence the decrease in the outturn. The decrease in the area sown is due to the fact that jute being much more profitable than paddy, a very large portion of autumn paddy lands was absorbed in the cultivation of jute. The decrease in the area in column 7 under other *bhadoi* nonfood crops is due to the revision of figures by the thana officers of the Sadar subdivision and also to floods.
			Bajra	500	...	400	...	64				
			Mandua, *marua* or *ragi*... ...	500	...	400	...	45				
			Indian-corn (maize)	200	400	300	75	70				
			Other *bhadoi* cereals and *bhadoi* pulses.	2,200	3,100	1,600	51	51				
			Other *bhadoi* food-crops (*e.g.*, vegetables).	8,600	3,700	4,100	73	50				
			Other *bhadoi* non-food-crops ...	72,500	68,500	12,800	70	60				
			Total ...	314,300	326,100	184,300	73	42	...	...	...	
Cachar ...	1,872,000	1,191,000	*Aus* or autumn rice	371,900	362,500	356,800	87	70	...	...	...	The general condition of the crops was very favourable and the outturn would have been satisfactory but for the damage caused by the sudden increase of water in the rivers in Magura, Jhenidah, and Narail subdivisions, caused by heavy rains.
			Other *bhadoi* cereals and *bhadoi* pulses.	13,600	13,000	9,000	77	52	...	...	...

FINAL FORECAST OF THE WINTER RICE CROP OF BENGAL, 1906.

THE following note is published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

The 17th December 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE WINTER RICE CROP OF BENGAL, 1906.

[On an average of five years ending 1904-1905, the area under winter rice the territory, to which this forecast relates, has represented some 28·1 per nt. of the total area under this crop in British India.]

Character of the season.—It was mentioned in the preminary forecast of the winter rice crop issued in October ast, that the ante-monsoon showers were generally defective roughout the Province. April and the early portion of lay were dry, and sowings were late in consequence in any districts. In June, the rainfall was below the normal lmost everywhere. In July and August, the fall was eneral, but very unequally distributed. Considerable damage as done by floods in North Bihar, and also in most districts f the Presidency Division. In September, the rainfall was eneral, but it was below the normal everywhere except in adia, Jessore, Gaya, Balasore and Singhbhum, where it was ightly in excess. It was most deficient in all the northern istricts of Bihar. In October again, all the districts of ihar, except the Sonthal Parganas, suffered severely from rought. Except for a few districts, the rest of the Proince had good rain. In November, there was no rain the Patna Division or in Purnea, while a few scattered owers fell elsewhere.

2. *Area cultivated.*—The area sown this year is reported be 20,033,600 acres, as against 20,605,500 acres of last ear, and a normal area of 21,301,700 acres. Since the issue

of the preliminary forecast, the estimates of this year's areas have been revised in the Burdwan, 24-Parganas, Khulna, Darbhanga and Puri districts. Last year's area has also been revised by the Collector of Balasore.

3. *Outturn.*—Out of the 33 districts in the Province, three districts only, viz., Sambalpur, Ranchi, and Singhbhum return a 100 per cent. or over a 100 per cent. crop. In the 24-Parganas and the Sonthal Parganas a 98 per cent. crop is expected. Bankura and Palamau return a 95 per cent. crop and Howrah a 90 per cent. crop. Seven districts show an outturn of between 80 and 89 per cent., and eight districts between 70 and 79 per cent. In Murshidabad, Cuttack and Darjeeling, the crops are estimated at 69, 65, and 63 per cent., respectively. Jessore, Purnea, and Monghyr show crops between 51 per cent. and 58 per cent., while Saran, Champaran, Muzaffarpur and Darbhanga, which have suffered both from floods in July—August, and from drought towards the end of the season, return crops ranging between 29 and 42 per cent. It is reported from Saran that in many places the crop has been an absolute failure. Since the issue of the preliminary forecast, prospects have, according to the returns received, improved in 8 and become worse in 19 districts.

In a few cases, I have revised the figures given in the district returns. In Bankura, for instance, where the general condition of the crop is said to be good, a normal crop has been taken; looking to the seasonable weather in the Hooghly district since the preliminary forecast was issued, there seems no reason to reduce that estimte. I have taken 90 per cent. in this case. In the case of Gaya, the Collector himself would raise the estimate from 87 to 95 per cent. I agree that at least a 95 per cent. crop will be harvested. In Purnea, a 9 annas outturn has been taken as suggested by the Collector. Coming to the Orissa Division, it is difficult to understand the marked differences in the estimates. Sambalpur returns a 105 per cent. crop, Cuttack, on the other hand, where, as far as rainfall statistics show, conditions have not been very dissimilar, shows, only 65 per cent., while the Collectors of Puri and Balasore districts, which lie on either side of Cuttack, reports the condition of the crop to be good. I think the Cuttack figure might be raised to 75 per cent. In Balasore, where the weather is reported to have been favourable, the rainfall sufficient and timely, and the general condition of the crop good, an average crop has been taken. In Puri also, the description of the weather and the condition of the crop seems to justify a 90 per cent. return.

In regard to Angul, no reason has been assigned for reducing the preliminary forecast figure, which has therefore been retained. In all other cases the district estimates have been accepted. The percentage of outturn for the whole Province in this way comes to 78, against 82 shown in the preliminary forecasts. The unseasonable weather that has occurred over a great part of the Province since the returns for the preliminary forecast were received fully accounts for this decrease. With a 78 per cent. estimate, the total outturn of the Province would amount to 172,207,200 cwts. of cleaned rice, as compared with 199,831,300 cwts. in 1905.

C. A. OLDHAM,

Director of Agriculture, Bengal.

CALCUTTA;
The 7th December 1906.

Final Forecast of the Winter Rice Crop of Bengal, 1906.

Taking 100 to represent the normal outturn, how much will represent this year's outturn (1906)?	Total area of the district which has been cadastrally surveyed.	Years during which the cadastral survey took place.	Area found under this crop during the cadastral survey.	Remarks by District Officers.	Remarks by the Director of Agriculture, Bengal.
								Acres.		Acres.		
Burdwan...	Sadar	1,721,984	638,500	351,600	368,700	95	70	51,370	1889—93, & 1903—06.	15,396	The Subdivisional Officers of Kalna and Kanigani having altered the figures in column 7, there has been a decrease in the total of this column in the present forecast. The poor outturn is due to want of sufficient rain at the sowing season and to strong winds with rain which recently prevailed in this district.	
	Kalna		324,000	118,800	100,000	110	66					
	Katwa		170,000	130,200	140,000	100	90					
	Kanigani		254,700	209,000	200,000	90	70

Bankura...	Sadar	1,229,400	428,800	346,600	350,000	350,000	90	90	15,210	1889—92 & 1894—00	Not known.	The rains set in a little too late, but the general condition of the crop is good owing to subsequent seasonable rain.	
	Vishnupur ...	448,000	214,000	160,400	190,000	190,000	90	105					
	District Total ...	1,677,440	642,800	507,000	540,000	540,000	90	100[a]	15,210	...	...		
Midnapore	Sadar	3,319,040	1,249,300	717,500	708,700	708,700	95	85	35,342	1893—98	25,260	The outturn has been less than that of last year for want of seasonable rain.	
	Contai		440,100	356,700	350,000	345,000	90	90					
	Tamluk		329,600	220,200	200,000	200,000	75	75					
	Ghatal		171,600	111,600	105,000	111,600	50	100					
	District Total ...	3,319,040	2,190,600	1,406,000	1,363,700	1,365,300	89	86	35 342	...	25,260		

Hooghly ...	Sadar	761,216	353,600	115,900	110,000	110,000	88	70	...	...	...	The low outturn is due to deficiency of rain at the time of sowing and of growth.
	Serampore ...			85,000	85,000	89,000	100 *	94				
	Arambagh ...			78,900	70,000	80,000	80	80				
	District Total ...	761,216	[illegible],600	[illegible],[illegible]	265,000	279,000	90	90*	...	...	...	
Howrah ...	Sadar	110,720	86,100	48,700	45,[illegible]	48,000	80	75	80	...	...	Prospects of crops have improved after the submission of the preliminary forecast; hence the better outturn.
	Uluberia	215,680	169,800	75,600	51,000	75,000	100	100	...			
	District Total ..	326,400	255,900	124,300	96,000	123,000	91	90	...	...	...	
24-Parganas	Sadar	3,100,160	458,600	392,000	380,000	351,700	95	100	...	...	...	The weather was not very favourable in the beginning of the sowing season. A normal outturn is however expected in all subdivisions, except Basirhat where the low outturn is attributed to damage caused by insect pests and to want of timely rainfall. The increase in the outturn of the Sadar and Diamond Harbour subdivisions as compared with the outturn given in the preliminary statement is due to the fact that the rainfall in October was very favourable.
	Baraset		100,400	100,000	70,000	100,000	100	100				
	Barrackpore ...		77,100	24,000	20,500	18,000	110	100				
	Basirhat		203,400	141,000	142,400	142,400	95	90				
	Diamond Harbour		240,200	246,300	238,900	238,900	92	100				
	District Total ..	3,100,160	1,079,700	903,300	851,800	851,000	95	98	...	...	...	
Nadia ...	Sadar	1,787,520	217,200	18,000	19,500	22,900	72	87	Not cadastrally surveyed.			The floods subsided quickly: hence the increase in the outturn as compared with that shown in the first forecast. The rainfall at the end of October has also done much good.
	Kushtia		161,800	33,300	30,900	30,900	75	75				
	Meherpur		294,700	43,500	31,800	30,800	56	75				
	Chuadanga ...		170,900	12,400	19,300	32,400	63	70				
	Ranaghat		199,200	29,600	24,900	10,900	81	80				
	District Total ..	1,787,520	1,043,800	136,800	126,400	128,900	69	76	...	...	...	
Murshidabad.	Sadar	1,371,520	481,280	392,300	67,600	68,600	70	60	...	...	...	Sowings were generally late this year for want of rain during the sowing season. Much damage was done to the crop by floods, but the rainfall in September and October has improved its condition to some extent. The increase in the area sown this year as compared with that of the normal may be attributed partly to the fact that the figures have been reported by the Police on enquiry through the *dafadars* and *panchayets*, and partly to the high price of rice this year. The normal area is under revision.
	Lalbagh		236,800	142,700	43,900	43,400	85	52				
	Jangipur		325,760	224,600	27,000	27,000	105	125				
	Kandi		327,680	225,900	138,600	124,300	75	75				
	District Total ...	1,371,520	985,500	277,100	263,300	336,400	79	69	...	...	...

Taking 100 to represent the normal outturn, how much represented outturn last year (1905)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1906)?	Figures from the Cadastral Survey. Total area of the district which has been cadastrally surveyed.	Years during which the cadastral survey took place.	Area found under this crop during the cadastral survey.	Remarks by District Officers.	Remarks by the Director of Agriculture, Bengal.
									Acres.		Acres.		
Jessore ...	Sadar	568,960	323,500	153,300	130,000	125,800	100	70	...	...	...	Sowings were late this year owing to deficiency of rainfall at the sowing season. Subsequent rainfall was not sufficient. The decrease in the outturn in Magura, Narail and Jhenida is chiefly due to the damage caused by floods. (a) During the time of scarcity, it was found, on careful enquiry, that the percentages shewn last year were quite incorrect. They should be as shewn in this report.	
	Jhenidah	304,000	197,700	55,000	55,000	55,000	75	50	...	...	...		
	Magura	272,000	171,500	82,000	48,000	70,100	(a)60	34	...	...	...		
	Narail	311,680	249,300	180,300	130,000	130,000	(a)50	53	...	...	...		
	Bongaon	415,360	249,000	113,000	100,000	87,000	100	75	...	...	...		
	District Total ..	1,872,000	1,191,000	583,600	463,000	467,900	79	58	...	...	...		
Khulna ...	Sadar	3,049,542	223,400	234,900	225,500	202,500	95	59	25,613	1893—1900 & 1903—05.	19,146	In the Sadar subdivision, the decrease in the outturn is due to floods. In the other subdivisions, the prospects of the crop have improved owing to sufficient rainfall afterwards; hence the increase in the area sown as also in the outturn now as compared with what was shown in the preliminary forecast.	
	Bagerhat		277,100	234,000	200,000	190,000	50	75					
	Satkhira		229,500	196,800	201,800	186,900	100	96					
	Area of boundary khals and rivers of the Sundarbans.												
	District Total ...	3,049,542	870,000	655,700	627,300	579,400	82	76	25,613	...	19,146		

Patna ...	Sadar	213,760	199,400	109,000	109,000	109,000	100	70	73,164	1900-01	7,343	The low outturn is due to the failure of rain in October when the crop required a good rainfall.
	Barh	336,640	282,100	97,900	75,500	75,600	75	85				
	Bihar	508,240	378,100	237,300	200,000	200,000	100	75				
	Dinapore	271,360	226,400	93,600	93,600	93,600	95	90				
	District Total ...	1,328,000	1,083,100	538,500	477,100	477,200	95	73	73,164	...	7,343	
Gaya ...	Sadar	1,219,200	917,900	466,800	396,000	391,000	100	90	514,592	Tikari estate, 1893 to 1895.	82,342	I think the estimates supplied to me are rather low. The area is less than the normal because transplantation was late owing to insufficient rain. The crop now on the ground is however excellent. I am inclined to raise the figure for the outturn to 95.
	Nawada	611,200	469,600	370,000	350,000	355,000	100	90		Govt. estate, 1893 to 1895.	8,995

REORGANIZATION OF THE PROVINCIAL AND SUBORDINATE EDUCATIONAL SERVICES AND CONSTITUTION OF A LOWER SUBORDINATE EDUCATIONAL SERVICE.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 18th December 1906.

RESOLUTION—No. 3149.

READ—

(1) The Despatches received with the endorsement from the Home Department of the Government of India, No. 622, dated the 20th September 1905.

(2) Letter to the Director of Public Instruction, Bengal, No. 2712T.—G., dated the 16th October 1905, and the replies thereto.

(3) Letters from the Government of Eastern Bengal and Assam, No. 4448C., No. 4458C., dated the 4th May 1906, and No. 9300C., dated the 11th September 1906.

(4) Memorandum by the Director of Public Instruction, Bengal, No. 212T., dated the 1st June 1906.

(5) Letters to the Government of Eastern Bengal and Assam, No. 247T.—G., dated the 19th May 1906, No. 1832 and No. 1833, dated the 11th July 1906, and No. 1524T.—G., dated the 25th August 1906.

THE scheme for reorganizing the Provincial and Subordinate Educational Services and constituting a Lower Subordinate Educational Service received the sanction of His Majesty's Secretary of State for India in August 1905, and the necessary arrangements have now been made to give effect to it from the 10th September 1905, the date on which the orders of the Secretary of State were received in India.

2. The constitution of the Provincial Educational Service before and after reorganization is shown below:—

Before Reorganization.

Class.	Pay.	Number of appointments.
	Rs.	
I ...	... 700	2
II ...	... 600	4
III ...	... 500	5
IV ...	... 400	9
V ...	... 300	14
VI ...	... 250	22
VII ...	... 200	26
VIII ...	... 150	25
	Total ...	107

After Reorganization.

Class.	Pay.	Number of appointments.
	Rs.	
I ...	... 700	4
II ...	... 600	6
III ...	... 500	8
IV ...	... 400	11
V ...	... 350	12
VI ...	... 300	17
VII ...	... 250	24
VIII ...	... 200	29 + 1
	Total ...	111 + 1

NOTE (1).—The minimum pay of the service has been increased from Rs. 150 a month to Rs. 200 a month. At the same time officers newly appointed will in future be required to undergo a period of probation of one year, at the end of which recruits will be liable to lose their posts or to be reverted to the Subordinate Service, as the case may be, if found unsatisfactory. This period of probation may be dispensed with in the case of officers who have passed through a course in the Training Colleges, the establishment of which is now under consideration.

NOTE (2).—Posts have been included in the service as above shown for the Bengali, Hindi and Uriya Translators and for the Bengal Librarian, officers who formerly held isolated appointments. One of the higher grade appointments will be reserved for the Head Master of the Apprentice Department of the Sibpur College.

NOTE (3).—The additional post in Class VIII has been created for the Inspector of Hostels and Students' Messes in Calcutta.

3. Particulars of the constitution of the Subordinate Educational Service before and after reorganization are given below:—

Before Reorganisation.

Class.	Pay.	Number of appointments.
	Rs.	
I ...	... 250	10
II ...	... 200	29
III ...	... 150	47
IV ...	... 125	63
V ...	... 100	61
VI ...	... 75	75
VII ...	... 60	65
VIII ...	... 50	90
	Total ...	440

After Reorganization.

Class.	Pay.	Number of appointments
	Rs.	
I ...	250	20
II ...	200	37
III ...	... 150	51 + 1 − 1
IV ...	125	72
V ...	100	86 + 1
VI ...	75	93 + 1
VII ...	60	114 + 1
VIII ...	50	130 + 9
	Total ...	603 + 12

NOTE (1).—One hundred and sixty-three posts formerly ungraded have been added to the service as above shown.

NOTE (2).—The service as above shown includes provision for the more highly-paid posts held by the staff employed under the three translators and the Bengal Librarian.

NOTE (3).- Twelve additional appointments have been created by this Government. These appointments were originally as follows:—

1 in Class III.	1 in Class VI.
1 in „ V.	9 in „ VIII.

The appointment, however, in Class III was of a temporary character and has since been absorbed and replaced by an appointment in Class VII.

4. The Lower Subordinate Educational Service as reorganized under the scheme sanctioned by the Secretary of State, included the majority of the

posts, formerly ungraded, which were not transferred to the Subordinate Educational Service. The scheme contemplated that the pay in this service should be progressive. The reorganized service consists of five grades as follows:—

Class.	Pay.	Number of appointments.
	Rs.	
I	35—2—45	77
II	30—1—35	110+4
III	25—1—30	153+2
IV	20—1—25	220+2
V	15—1—20	382
	Total ...	942+8

NOTE (1).—The service includes provision for the less highly-paid posts on the establishments of the three translators and the Bengal Librarian.

NOTE (2).—The eight additional posts in Classes II, III and IV have been created by this Government.

5. The following nominal rolls of officers in the Provincial Educational Service and Classes I and II of the Subordinate Educational Service are issued with the concurrence of the Government of Eastern Bengal and Assam.

PROVINCIAL EDUCATIONAL SERVICE.

Class I (4), Rs. 700.

1. Mr. P. Brühl.
2. Dr. Praphulla Chandra Ray.
3. Mr. Jogendra Nath Das Gupta.
4. „ R. W. F. Shaw.

Class II (6), Rs. 600.

1. Babu Bipin Bihari Gupta.
2. Mr. Debendra Nath Mallik.
3. „ F. Waltord.
4. Dr. Purnananda Chatarji.
5. Mr. Manomohan Ghose.
6. Mahamahopadhyaya Hara Prasad Shastri.

Class III (8), Rs. 500.

1. Mr. E Pegler.
2. Babu Sasi Bhusan Dutt.
3. Khan Sahib Muhammad Ibrahim.
4. Mr. H. A. Stark.
5. Mr. Bhupati Nath Das.
6. Babu Jyoti Bhushan Bhaduri.
7. Rai Kumudini Kanta Banarji Bahadur.
8. Babu Jadu Nath Sarkar.

Class IV (11), Rs. 400.

1. Shams-ul-ulama Ahmad.
2. Maulvi Abdul Karim.
3. Mr. E. A. LeFeuvre.
4. Babu Debendra Nath Basu.
5. Mr. Subodh Chandra Mahalanabis.
6. Babu Kisori Mohan Sen Gupta.
7. Babu Upendra Nath Maitra.
8. Mr. Dwija Das Datta.
9. Babu Kali Pada Basu.
10. „ Narendra Nath Basu.
11. „ Narayan Chandra Bhattacherji.

Class V (12), Rs. 350.

1. Mr. P. W. Byers.
2. Babu Braja Ballabh Datta.
3. „ Kailash Chandra Bhattacharji.
4. „ Madhu Sudan Rao.
5. „ Jogesh Chandra Ray.
6. Mr. A. Barnes.
7. Miss E. E. Greene.
8. Babu Ishan Chandra Ghosh.
9. „ Hari Das Banarji.
10. „ Baladeva Ram Jha.
11. „ Surendra Kumar Basu.
12. „ Rasamay Mitra.

Class VI (17), Rs. 300.

1. Maulvi Abdul Munim
2. Mr J. V. Francies.
3. Babu Abanindra Nath Thakur.
4. „ Kali Prasanna Bhattacharji.
5. „ Rajendra Nath Banarjea.
6. „ Raj Mohan Sen.
7. „ Hari Charan Ray.
8. „ Chandra Bhushan Bhaduri.
9. Babu Braja Lal Mukharji.
10. „ Paresh Nath Sen.
11. „ Phani Bhushan Basu.
12. „ Jay Gopal De.
13. „ Satish Chandra De.
14. „ Binayendra Nath Sen.
15. Mr. Nagendra Chandra Mitra.
16. Rai Rajendra Chandra Shastri Bahadur.
17. Babu Som Nath Jharkandi.

„ *Shashi Shekhar Banarjea.*

Class VII (24), Rs. 250.

1. Babu Mohini Mohan Chaudhuri.
2. „ Biswesswar Sen.
3. „ Muralidhar Banarji.
4. Mrs. Kumudini Das.
5. Babu Bhagabati Sahay.
6. „ Bidhu Bhushan Gosain.
7. „ Rakhal Raj Biswas.
8. „ Nalini Mohan Sanyal.
9. Mr. P. Walsh.
10. Babu Hriday Chandra Banarji.
11. „ Chuni Lal Sarkar.
12. Maulvi Amjad Ali.
13. Babu Bijay Gopal Mukharji.
14. Babu Asutosh Chatterji.
15. „ Sarada Prasanna Das.
16. „ Baladev Misra.
17. „ Krishna Chandra Bhattacharji.
18. „ Satyendra Nath Bhadra.
19. „ Purna Chandra Kundu.
20. Maulvi Muhammad Aziz-ul Hakk.
21. Babu Jyotish Chandra Banarji.
22. „ Aditya Nath Mukharji.
23. Mahamahopadhyaya Satish Chandra Acharji Bidyabhushan.
24. Babu Chaturbhuj Patnaik.

Class VIII (30), Rs. 200.

1. Babu Harish Chandra Datta.
2. „ Mohini Mohan Dutt.
3. Mrs. M. Moorat.
4. Babu Rakhal Das Chakrabarti.
5. „ Hem Chandra Sarkar.
6. „ Satish Chandra Ray.
7. Shams-ul-ulama Mirza Ashraf Ali.
8. Babu Ashwini Kumar Mukharji.
9. „ Kiran Chandra Mitra.
10. „ Bama Charan Bhattacharji.
11. „ Hem Chandra De.
12. „ Jatindra Chandra Guha.
13. „ Khagendra Nath Mitra.
14. „ Raj Kumar Das.
15. „ Syama Das Mukharji.
16. „ Ambika Charan Mitra.
17. „ Hari Das Saha.
18. Babu Bipin Bihari Sen.
19. „ Ramendra Nath Ghosh.
20. „ Debendra Kumar Ray.
21. „ Gopal Chandra Ganguli.
22. „ Rakhal Das Ghosh.
23. Maulvi Ashanulla.
24. „ Safi-ullah.
25. Miss E. N. S. Bracs.
26. Maulvi Kamaluddin Ahmed.
27. „ Abu Nasr Obeed, from 23rd September 1905.
28. Pandit Kamakhya Nath Tarkabagisha sub *protempore*.
29. Babu Purna Chandra Bhattacharji, substantive *protempore* from 1st November 1905.
30. Vacant.

SUBORDINATE EDUCATIONAL SERVICE.

Class I (20), Rs. 250.

1. Mr. G. W. Lawrence.
2. „ A. F. Burnie.
3. Maulvi Abdul Hakk Abid.
4. Babu Becharam Nandi.
5. „ Adya Nath Mukerjea.
6. „ Mohini Mohan Bose.
7. „ Hira Lal Pal.
8. „ Tarak Nath Sarkar.
9. „ Tripura Charan Banarji.
10. „ Trailokya Nath Ghosh.
11. „ Bhubaneswar Gupta.
12. Mr. G. R. Ballantine.
13. Babu Loke Nath Chakrabarti.

7. Babu Harendra Narayan Chakrabarti.
8. „ Radha Raman Guha.
9. „ Adhar Chandra Banarji.
10. „ Bidhu Bhushan Mukharji.
11. „ Hari Mohan Sen.
12. „ Gopal Chandra Sarkar.
13. „ Suresh Chandra Deb.
14. „ Rajendra Lal Gupta.
15. „ Priya Nath Ray.
    „ *Jogendra Nath Hajra.*
16. „ Sripati Mukharji.
17. „ Annada Prasad Mitra.
18. Maulvi Muhammad Sulaiman.
19. Babu Purna Chandra Chakrabarti.
20. Maulvi Abul Maqsud.
21. Babu Satkari Chandra Ghosh.
22. Mr. A. D'Silva.
23. Babu Kali Kumar Ganguli.
24. „ Basanta Kumar Das.
25. „ Tarini Kisor Bardhan.
26. „ Narayan Chandra Mukharji
27. Mr. Samuel Bibhudan Mandal.
28. „ A. Von Herrenkohl.
29. Babu Kali Prasanna Das.
30. „ Raj Krishna Basu.
31. Mr. W. D'Silva.
32. „ L. M. Martyr.
33. M. Kabiruddin Ahmad.
34. Pandit Ashutosh Shastri.
35. „ Bharat Bandhu Laha.
36. „ Makhan Lal De, substantive *pro tempore*
37. Mr. E. E. Sharp, substantive *pro tempore*, from 6th November 1905.

6. A nominal roll of officers in the lower classes (Classes III to VIII) of the Subordinate Educational Service has been prepared in communication with

the Government of Eastern Bengal and Assam, and will be published by the Director of Public Instruction.

7. A nominal roll of the officers in the Lower Subordinate Educational Service in Bengal will be published by the Director of Public Instruction in due course.

8. Unless otherwise specified in the nominal rolls which have now been issued, or which may subsequently be issued, the promotion of officers will take effect from the 10th September 1905, as indicated in paragraph 1 above.

9. This Government has been in correspondence with the Government of Eastern Bengal and Assam, regarding the distribution of the services as reconstituted under the scheme of reorganization between the Province of Bengal and the Province of Eastern Bengal and Assam. As a result of this correspondence it has been arranged between the two Governments that 26 appointments in the Provincial Educational Service, 151 appointments in the Subordinate Educational Service and 314 appointments in the Lower Subordinate Educational Service should be transferred to Eastern Bengal and Assam. In accordance with this arrangement, the Provincial Educational Service in this Province will comprise 86 officers, the Subordinate Educational Service 464 officers and the Lower Subordinate Educational Service 636 officers.

The grading of the officers of the Provincial Educational Service now serving in Bengal is shown in the following table :—

Class.	Pay. Rs.	Number of officers.
I ...	... 700	4
II ...	... 600	5
III ...	... 500	6
IV ...	... 400	8
V ...	... 350	10
VI ...	... 300	15
VII ...	... 250	20
VIII ...	... 200	18
	Total	... 86

The grading, however, above shown will be of a temporary character. It is proposed that as soon as the necessary readjustments can be effected the Provincial Educational Service in Bengal should be constituted as follows :—

Class.	Number of officers.
I	3
II	5
III	6
IV	9
V	9
VI	13
VII	18
VIII	23
Total	... 86

In the case of the Subordinate Educational Service, the appointments now held in Bengal are as follows :—

Subordinate Educational Service.

Class.	Pay. Rs.	Number of appointments.
I ...	... 250	15
II ...	... 200	29
III ...	... 150	41
IV ...	... 125	55
V ...	... 100	64
VI ...	... 75	71
VII ...	... 60	
VIII ...	... 50	
	Total	... 464

The permanent constitution of the service has not been finally decided, this Government being still in communication with the Government of Eastern Bengal and Assam in regard to the distribution of the total number of appointments between the two Provinces.

The Lower Subordinate Educational Service will be constituted in Bengal until further orders, as follows:—

Class.	Pay.	Number of appointments.
	Rs.	
I ...	.. 35—2—45	52
II	30—1—35	72+4
III	.. 25—1—30	102+2
IV	.. 20—1—25	147+2
V	. 15—1—20	255
	Total ...	628+8

10. In the cases of the Provincial and Subordinate Educational Services it has not yet been decided from what date the separation of the services as regards *personnel* between this Province and the Province of Eastern Bengal and Assam should take effect. The arrangement in force is that officers serving in Eastern Bengal and Assam should be regarded as lent to that Province. In the case of the Lower Subordinate Educational Service it has been agreed that officers of this service serving in Eastern Bengal and Assam should be regarded as having been finally transferred to that Province with effect from the 1st November 1905. It follows therefore that this Government has no further concern with the personnel or constitution of the last-named service in Eastern Bengal and Assam.

ORDER.—Ordered that a copy of this Resolution be submitted to the Government of India, and that copies be also forwarded to the Government of Eastern Bengal and Assam, the Director of Public Instruction, Bengal, and the Appointment Department of this Government for information, and to the Financial Department for information and communication to the Accountant-General, Bengal.

Ordered also that the Resolution be published in the Supplement to the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

T. W. RICHARDSON,

Offg. Secretary.

COMMERCE AND TRADE.

THE following is republished for general information.

By order, etc.,

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

No. 8758-8765—56, dated Calcutta, the 29th November 1906.

RESOLUTION—By the Government of India, Dept. of Commerce and Industry.

IN July 1905, the Right Hon'ble the Secretary of State for India, acting at the instance of certain Flour Millers' Associations in the United Kingdom, asked the Government of India to consider whether any measures could be devised, with the co-operation of the commercial community, for the improvement of the purity of Indian wheat exported to foreign countries by sea. Though this question of the adulteration of Indian wheat had on several previous occasions received the careful consideration of the Government of India, it was decided, in view of the rapidly growing importance of the export trade, to consult the leading Indian Chambers of Commerce on the subject.

2. The Government of India were then disposed to think that the rigid adherence of English buyers to the system of purchase on a fixed basis of refraction was to a great extent responsible for the systematic adulteration—as opposed to the addition of impurities owing to the system of cultivation and the methods of preparation for the market—of wheat before it left India; and they therefore suggested that considerable improvement might be effected if Home dealers were authoritatively informed that there would be no difficulty in supplying clean wheat on a basis of two per cent. refraction, which would cover the maximum amount of impurities due to natural causes and would preclude deliberate adulteration. The replies received from the Chambers of Commerce were, however, not sufficiently explicit on this point, and it was necessary again to consult them and the local millers in regard to this matter. It appeared to the Government of India that, if the existing system under which the grain is sold was altered, no action on their part would be necessary, and they therefore again proposed, with the object of strengthening the position of a certain section of English buyers who were known to be in favour of procuring cleaner wheat, to state authoritatively that wheat could be regularly supplied from India containing not more than 2 per cent. of impurities. The point specifically referred for opinion was whether this announcement could safely be made.

3. The replies received have been considered, and the Government of India now feel justified in announcing for general information that, if buyers of Indian wheat desire to obtain regular supplies containing not more than 2 per cent. of impurities (that term covering all foreign matter other than food-grains), the mass of Indian shipments can be made on that basis.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Government of Bombay, Revenue Department / Madras, Revenue Department / Bengal, Revenue Department / the Punjab, Revenue Department / the United Provinces, Revenue, Department, for information, in continuation of the correspondence ending with the letter from that Government, No. 7455 / 620 / 985T.-R. / 1879, dated the 3rd August 1906 / 15th May 1906 / 15th June 1906 / 24th August 1906 / 19th June 1906.

Ordered also that a copy of the Resolution be forwarded to the Department of Revenue and Agriculture / Director-General of Commercial Intelligence, for information, in continuation of the endorsement from this Department, Nos. 1967-1968, dated the 16th March 1906.

Ordered also that the Resolution be published in the Supplement to the *Gazette of India* for general information.

W. L. HARVEY,
Secretary to the Government of India.

LIBERALITY OF SRIMATI KADAMBINI DEVI OF PARULIA IN THE DISTRICT OF BIRBHUM IN REGARD TO THE CREATION OF AN ENDOWMENT FUND FOR THE BENEFIT OF THE POOR.

No. 3066F., dated the 7th August 1906.

From—H. J. McIntosh, Esq., I.C.S., Offg. Secretary to the Government of Bengal Financial Department,

To—The Commissioner of the Burdwan Division.

I am directed to acknowledge the receipt of your letter No. $\frac{271 J.G.}{XVII-2}$, dated the 31st May 1906, with which you forward an Indenture duly executed by Srimati Kadambini Devi of Parulia in the district of Birbhum in connection with a donation of Rs. 10,000 in Government Securities made by her with the object of creating an Endowment Fund for the benefit of the poor. The Indenture provides that the net proceeds of the Securities will be devoted to the purchase of blankets, sheets, *dhutis* and other articles of clothing for distribution to persons who are blind, lame, deaf and dumb or otherwise unfit to earn their livelihood at the discretion of the Collector of Birbhum, subject, however, to the reservation that during the lifetime of the donor one-half of the proceeds will be paid to her for her own support.

2. The liberality and public spirit of the donor have already been acknowledged in Government order No. 897T.—F., dated the 29th June 1905.

WEATHER AND CROP REPORT.

For the week ending the 17th December 1906.

29	HAZARIBAGH	—	9½	9½	Prospects of standing crops good. Harvesting of paddy going on. Pressing of sugarcane going on. Fodder and water sufficient.
30	RANCHI ...	Nil	11	11	Weather seasonable. Harvesting of paddy nearly finished. Threshing of *sirguja* continuing. Cattle-disease reported from two thanas. Fodder and water sufficient.
31	PALAMAU ...	Nil	9 9/16	9 9/16	Weather seasonable. Harvesting of paddy continuing. Sugarcane being pressed. *Rabi* crops doing well. Cattle-disease reported from some places. Fodder and water sufficient.
32	MANBHUM ...	Nil	10	10	Weather seasonable. Prospects of crops good. Cattle-disease reported from thanas Tundi and Gobindpur. Fodder and water sufficient.
33	SINGHBHUM ...	Nil	9	10	Harvesting of winter paddy nearly finished. Common rice selling at 12 seers a rupee in Seraikella and Kharsawan. Fodder and water sufficient.
34	COOCH BEHAR	Nil	6½	6½	Weather seasonable. Harvesting of *aman* paddy going on. Fodder and water sufficient.

GENERAL SUMMARY.—There was no rain during the week. Harvesting operations of the winter rice crop are still in progress. *Rabi* sowings are almost over in Bihar. They still continue in some places in Lower Bengal. Rain is needed for these crops in Gaya, Saran, Champaran, Bhagalpur and Purnea. The prospects of the *rabi* are reported to be unfavourable in Darbhanga, where some damage has also been done by insects. Elsewhere the condition of the standing crops is generally favourable. The number of persons receiving gratuitous relief is—Muzaffarpur 2,105, Darbhanga 18,387. The number on test-works is—Muzaffarpur 81, Darbhanga 16. The number of persons on relief works in Darbhanga is 15,070. Cattle-disease prevails in eight districts. Fodder and water-supply are sufficient everywhere. Cholera continues in parts of Burdwan and Jessore. Small-pox is also reported from the former district. The price of common rice has risen in six and fallen in ten districts.

C. A. OLDHAM,

Director of Agriculture, Bengal.

DEPT. OF AGRICULTURE, BENGAL

(a) Mean of 29 days. (b) Mean of 21 days. c) Mean of 28 days.

SUMMARY ON THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF NOVEMBER 1906.

At the end of October a depression, which formed over the Andamans, advanced towards the Circars and was in the neighbourhood of Cocanada on the morning of the 20th. It passed inland on the morning of the 30th, giving abundant rain over the Circars coast. The rainfall initiated by this depression continued for the first three days of the month, but gradually diminished, and was confined chiefly to the south-eastern districts of Eastern Bengal and Assam, Bengal, Orissa and Chota Nagpur. On the 4th Dibrugarh reported rain, but over the rest of the area no precipitation occurred during the remainder of the first week. During the second week, with the exception of a few showers in Assam, no rain fell over the reporting area. In the Bay a low pressure area appeared on the 9th of the month over the south-east of the Bay. This subsequently extended, and, becoming better defined, reached its greatest development on the 14th, and was then situated over the sea area in close proximity to the land. The weather was consequently somewhat disturbed during this period in the south-west of the Bay, but over the remaining area was very little affected. During the third week of the month Shillong was the only station that reported rain, and skies were generally clear, except for a little cloud in Bihar, Chota Nagpur and the Coast districts. In the south-west of the Bay conditions remained somewhat unsettled. Towards the end of the week, however, the pressure distribution became practically normal. During the last week of the month practically no rain fell. Light cloud occurred on most days in Orissa, and towards the close of the month it extended into Bengal and Assam. In the Bay weather was again somewhat disturbed owing to the formation of a low pressure area over the south, giving heavy rain on the Coromandel coast and in the Bay Islands.

Summary of temperature.—Weather was unusually warm over the whole of the reporting area. The highest temperature recorded during the month was 90°·6 at Angul and the lowest 47° at Palamau.

The following table gives the summary of the temperature of each of the seven Meteorological Divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of November 1906:—

TEMPERATURE.

Meteorological Division.	Highest observed during month.	Lowest observed during month.	*Average for month.*			Average mean of month above or below normal mean of month.
			Of highest of each day.	Of lowest of each day.	Of mean for each day.	
Bengal	87·6	55·2	83·3	65·0	74·2	+ 1·0
Eastern Bengal, North	87·3	55·4	82·4	63·0	72·7	+ 1·1
Eastern Bengal, South	88·4	59·0	83·5	65·8	74·4	+ 0·7
Bihar	90·0	51·0	83·7	60·1	71·9	+ 1·1
Orissa	90·6	53·6	84·4	64·9	74·7	+ 0·3
Chota Nagpur*	88·9	47·0	80·6	58·3	69·5	+ 0·5
Assam	87·5	52·2	80·7	62·2	71·5	+ 0·1

* Purulia not included.

Summary of rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that Department. A short table, however, is attached to this report giving the rainfall recorded during the month at the head-quarters of the various districts of the Province.

Rainfall fell short of the small amount usually expected during this month everywhere, except in the southern districts of Eastern Bengal, where a slight excess was recorded.

Actual and average rainfall and departure from normal for November 1906.

	Inches.
The total fall of rain from 9th to 15th December 1906	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·03
The total fall from 1st January to 15th December 1906	57·19
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·34

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew.

C. W. PEAKE,
for *Director-General of Observatories*.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 3533L.R.—The 17th December 1906.—The following rules for the grant of leases for quarrying lime-stone in Government lands in the Province of Bengal have been approved by the Lieutenant-Governor and are hereby published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

RULES FOR THE GRANT OF LEASES FOR QUARRYING LIMESTONE.

Application for lease.

1. Every application for the grant of a lease for quarrying limestone shall be presented to the Collector or Deputy Commissioner in whose district the land or any part of the land with respect to which the lease is applied is situate. If the land is situated in two or more districts, the Commissioner shall decide as to which Collector or Deputy Commissioner will deal with the case.

Particulars thereof.

2. Every such application shall contain the following particulars, namely :—

(*a*) the name, residence and profession of the applicant;

(*b*) a description, as accurate as possible and illustrated by a rough sketch, of the land, whether in Government Estate or Protected or Reserved forest or in other waste lands not included in the above, with respect to which the lease is required;

(*c*) a statement showing particulars as to the licenses or leases already held by the applicant from Government under these or other rules.

3. The area of limestone quarries shall ordinarily be limited to half a square mile. When any applicant, Company or Association applies for more than this area, special grounds shall be given in the application. The sanction of the Board of Revenue, as a special case, shall be necessary to the lease of more than one block to one applicant or the lease of a second block to an applicant who already holds one.

Area of block to be leased.

Note 1.—The right of an applicant in respect of a lease for quarrying limestones is limited to one block of half a square mile. The number of blocks which may properly be granted under any one lease is a matter of importance. The object of Government is not only to secure a rent for its quarries, but also to develop the resources of the country, and it is much more likely that a monopoly will hinder development than promote it. The position in practice is that if a lessee could succeed in taking up all the available quarries, he might block out all legitimate competition and extension of the business. This should be carefully guarded against, as it is certain that efforts will be made to take up all workable quarries in one interest and actually to work only one or two quarries. A lease should be restricted to such area as is reasonably required for *bonâ fide* quarrying of limestone. It should be such as would be sufficient to prevent disturbance of any sort by another lessee quarrying in the immediate neighbourhood of the quarry and sufficient to give full scope to all the work contemplated by the lessee. It is not enough to consider the resources at the command of the applicant, but also and not less the possibility of other capitalists being likely to engage in the same industry.

Note 2.—The right should be reserved to Government to make surface roads over any block.

4. The term for which a lease for quarrying limestone may be granted may be 20 years or such shorter term as the applicant may desire, and every lease granted under these rules shall be duly registered.

Term of lease.

5. (1) All operations conducted within a Reserved forest shall be subject to such conditions as the Government may by general or special order from time to time prescribe.

(2) It shall be a condition of every lease granted under these rules that before the commencement of operations within a Reserved forest, notice shall be given to the District Forest Officer of the intention to commence work and that the operations shall be conducted subject to any rules regarding the use of fire he may prescribe.

(3) Every quarrying lease which includes any portion of a Reserved forest shall, if it authorises the lessee to fell timber for quarrying purposes, specify the area within which, or the quantity up to which, and the terms and conditions upon which, he may exercise that authority.

6. Every such lease shall contain such conditions and stipulations as the Collector or Deputy Commissioner may in each case consider necessary; but shall in every case contain the following conditions:—

Its condition.

(*i*) Limestone shall be charged at the following rates, or at rates sanctioned by the Board on a report of the Commissioner.

Payment of royalty.

	Rs.	A.	P.	
(*a*) For a quarry within 5 miles of a public railway station—				
Stone	0	6	6	per ton.
Lime	0	9	0	„
(*b*) For a quarry more than 5 miles, but not more than 15 miles, from a public railway station—				
Stone	0	4	4	„
Lime	0	6	0	„
(*c*) For a quarry more than 15 miles from a public railway station—				
Stone	0	3	3	per ton.
Lime	0	4	6	„
(*d*) For limestone quarried for ballast purposes ...	0	1	1	„

Provided that if the Commissioner proposes to fix lower rates in the case of a new applicant than those fixed for adjacent quarries, he shall give notice to the lessees of the adjacent quarries, calling upon them to show cause why such lower rates should not be fixed in the lease to be granted to the new applicant. In submitting his recommendation to the board, the Commissioner shall forward the objections (if any) of the adjacent lessees together with his own opinion.

N. B.—I.—The above rates are liable to alteration from time to time.

II.—No royalty shall be charged for limestone used for buildings at the site.

(*ii*) The lessee shall also pay for all land he may take up, use or occupy for the purpose of the quarry, an annual rent not exceeding Rs. 100, to be fixed by the Commissioner on the report of the Collector or Deputy Commissioner.

Rent for occupancy of land.

(*iii*) The lessee shall commence operations within a year from the date of execution of the lease and shall thereafter carry them on effectually in a proper and skilful manner unless prevented by unavoidable cause. The Commissioner, with the consent of the Public Works Department, shall depute an officer of that Department, on the requisition of the Collector or Deputy Commissioner, to report if the work is properly and skilfully done. If that officer reports that the work is not being done properly and skilfully or that the operations were not commenced within a year from the date of execution of the lease, the lease shall be subject to forfeiture.

Commencement of operations.

(*iv*) Neither the lessee nor any person claiming through or under him shall assign the lease or transfer any right or interest thereunder, or underlet the whole or any portion of the premises comprised in such lease, without the assent of the Board of Revenue first obtained. The penalty for the infraction of this condition shall be the forfeiture of the lease.

Assignment of lease or transfer of right or interest thereunder.

(*v*) (*a*) The lease may, at the request of the lessee, be terminated at any time on six months' notice being given by the lessee to the Collector or Deputy Commissioner, provided that the date of the termination of the lease shall run from the date on which all outstanding dues on account of the property leased have been paid, and that the lessee has removed all plant and stock of limestone, including limestone used for buildings at the site.

Determination of lease.

(*b*) All plant, limestone, and lime not removed by a date to be fixed by the Collector or Deputy Commissioner before the termination of the lease shall become the absolute property of Government.

Removal of plant, &c.

(*vi*) The lessee shall keep correct accounts showing the quantity and particulars of limestone and lime, and submit them to the Collector or Deputy Commissioner of the district quarterly, and all stone and lime shall be exported from certain public railway stations to be specified on the lease on pain of foreiture of the lease, except with the permission of the Collector or Deputy Commissioner of the district.

Keeping of accounts and export of limestone or lime.

(*vii*) The lessee shall allow any officer appointed by Government or deputed by the Collector to enter upon the premises in the lease for the purpose of inspecting the same. On proof of any obstruction to such entry the lease shall be liable to be forfeited.

Inspection of premises.

(*viii*) The rent and royalty shall be paid according to fixed instalments, to be entered in the lease, to the Collector or Deputy Commissioner of the district, and on failure of payment of any instalment, the arrears shall be recoverable by the Certificate Procedure under the Public Demands Recovery Act, I (B. C.) of 1895. If any instalment of rent remain unpaid for the period of three months after due date, the lease may be cancelled by the Collector or Deputy Commissioner with the consent of the Commissioner.

Instalment.

(*ix*) The lessee shall pay any cesses, such as Road and Public Works cess of *any other which may hereafter be imposed by law*, in addition to the rent and royalty to be paid.

Liability to cess.

(*x*) The land shall be subject to all existing rights of-way and water and other easements to be specified in the lease, so far as possible, and to any exceptions and reservations which may be specified in the lease.

Land to be subject to rights-of-way, &c.

(*xi*) If any boundary dispute or disputes regarding right-of-way or any other dispute whatsoever regarding the construction of any term or condition in the lease arises between the lessee and the lessee of any adjoining block already leased under these rules or which may subsequently be leased, the lessee shall be bound to submit such dispute to the decision of the Collector or Deputy Commissioner. The decision of such officer shall be appealable to the superior revenue authorities in due course, and the decision of the Board of Revenue shall be final and binding on the lessees.

Boundary disputes.

(*xii*) The lessee shall have no claim against Government for compensation or damages in respect of land having been included in his lease which has already been included in some previous lease, but the lessee shall be entitled to proportionate reduction of the assessment in respect of any land covered by the lease which may subsequently be discovered not to have been available for lease.

(*viii*) The lessee in the event of any accident occurring in the area under lease shall forthwith report the same to the Collector or Deputy Commissioner of the district in the form prescribed by Government for the purpose. The Collector or Deputy Commissioner as the case may be shall supply copies of the forms at the time of execution of the lease.

Report of accident.

(*ix*) The lease shall be subject to all rules and regulations which may from time to time be issued by the Local Government regulating the working of the quarries and other matters affecting the safety, health and convenience of the lessees, employés or of the public whether under the Indian Mines Act or otherwise.

Lease subject to rules.

(*x*) The lessee shall furnish such reports and returns relating to output, labourers employed and other matters as the Local Government may prescribe.

Submission of reports.

(*xi*) The lessee may, on the expiration of the term, have a renewal of the lease on terms to be agreed upon by the Collector or Deputy Commissioner and lessee, subject to the approval of the Commissioner.

Renewal of lease.

(*xii*) The lessee shall, before beginning operations, demarcate the area leased to him with boundary marks of stone or pucka masonry and keep these boundary marks always in proper repair. If within six months of the date of the execution of the lease, the lands have not, in the opinion of the Collector or Deputy Commissioner, been properly demarcated, the lease shall be liable to be forfeited.

Demarcation of area and boundary marks.

(*xiii*) In the event of breach of any of the conditions specified in these rules, the lessee shall be liable to a fine representing liquidated damages to be imposed by the Collector or Deputy Commissioner, which shall not exceed half the yearly rental and shall be recoverable under section 7 (1) (*i*) of the Public Demands Recovery Act, I (B. C.) of 1895, and shall also be liable to ejectment for any breach of the conditions specified in (*iii*), (*iv*) (*vi*), (*vii*) (*viii*) and (*xii*) above.

Penalty for breach of conditions.

No. 3534L.R.—The 17th December 1906.—The following form of lease for lime-stone quarries in Government lands in the Province of Bengal has been approved by the Lieutenant-Governor and is hereby published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

Lease of Limestone Quarries in Government lands.

THIS indenture made the day of between the Secretary of State for India in Council hereinafter called the lessor of the one part and hereinafter called the lessee of the other part witnesseth that in consideration of the rent royalty or other payment and lessee's covenant hereinafter reserved and contained the lessor doth hereby demise unto the lessee the land measuring situated in kasra No. of mauza bearing settlement No. tahsil circle district and delineated on the plan hereto annexed and therein marked to hold the same for a period of commencing from and ending on for the purpose and subject to the conditions set forth below :—

Namely—

1. The lessee shall have the right to quarry limestone and convert it into lime and to do all acts necessary for the extraction of the stone or the manufacture of the lime including the erection on the land leased of buildings and plant required for these purposes

provided,

(*a*) that the lessee shall agree that all operations conducted within the land hereby leased to him shall be subject to such conditions as the Government may by general or special order from time to time prescribe;

(*b*) that the lessee shall agree that before the commencement of operations within a reserved or protected forest he shall give notice to the Collector / Deputy Commissioner of his intention to commence work and that the operations shall be conducted subject to any rules regarding the use of fire which may be prescribed;

(c) the lessee shall in no circumstances fell timber unless he takes previous permission of the Collector / Deputy Commissioner to do so and the lessee shall observe all conditions as to the area within which the quantity up to which and the terms on which he may exercise that authority.

2. That the lessee during the said term shall pay royalty for limestone and lime at the following rates:—

* * * *

* *Note.*—Here will be inserted the rates specified below, or those sanctioned by the Board on a report of the Commissioner.

	Rs.	A.	P.	
(a) For a quarry within 5 miles of a public railway station—				
Stone	0	6	6	per ton.
Lime	0	9	0	" "
(b) For a quarry more than 5 miles but not more than 15 miles from a public railway station—				
Stone	0	4	4	per ton.
Lime	0	6	0	" "
(c) For a quarry more than 15 miles from a public railway station—				
Stone	0	3	3	per ton.
Lime	0	4	6	" "
(d) For limestone quarried for ballast purposes ...	0	1	1	" "

3. That the lessee shall also pay for all land he may take up use or occupy for the purpose of the quarry an annual rent not exceeding Rs. 100 to be fixed by the Commissioner on the report of the Collector or Deputy Commissioner.

Rent for occupancy of land.

4. That the lessee shall commence operations within a year from the date of execution of the lease and shall thereafter carry them on effectually in a proper and skilful manner unless prevented by unavoidable cause.

Commencement of operations.

5. That for the purpose of ascertaining whether the work is properly and skilfully done it shall be open to the Commissioner with the consent of the Public Works Department to depute an officer of that Department on the requisition of the Collector or Deputy Commissioner to report if the work is properly and skilfully done and that if that officer reports that the work is not being done properly and skilfully or that the operations were not commenced within a year from the date of execution of the lease the lease shall be subject to forfeiture.

6. That neither the lessee nor any person claiming through or under him shall assign the lease or transfer any right or interest thereunder or underlet the whole or any portion of the premises comprised in such lease without the assent of the Board of Revenue first obtained. The penalty for the infraction of this condition shall be the forfeiture of the lease.

Assignment of lease or transfer of right or interest thereunder.

7. That the lease may, at the request of the lessee, be terminated at any time on six months' notice being given by the lessee to the Collector or Deputy Commissioner, provided that the date of the termination of the lease shall run from the date on which all outstanding dues on account of the property leased have been paid, and that the lessee shall have removed all plant and stock of limestone, including limestone used for buildings at the site.

Determination of lease.

8. That all plant, limestone and lime not removed by a date to be fixed by the Collector or Deputy Commissioner before the termination of the lease shall become the absolute property of Government.

Removal of plant, &c.

9. That the lessee shall keep correct accounts showing the quantity and particulars of limestone and lime, and submit them to the Collector or Deputy Commissioner of the district quarterly, and that all stone and lime shall be exported from the public railway stations specified below on pain of forfeiture of the lease, except with the permission of the Collector or Deputy Commissioner of the district.

Keeping of accounts and export of limestone or lime.

10. That the lessee shall allow any officer appointed by Government or deputed by the Collector to enter upon the premises in the lease for the purpose of inspecting the same and that on proof of any obstruction to such entry the lease shall be liable to be forfeited.

Inspection of premises.

11. That the lessee shall pay the aforesaid rent and royalty according to the following instalments, to the Collector or Deputy Commissioner of the district, and that on his failure to pay any instalment, the arrears shall be recoverable by the Certificate Procedure under the Public Demands Recovery Act, I (B. C.) of 1895. Further, that if any instalment of rent remain unpaid for the period

Instalment.

of three months after due date, the lease may be cancelled by the Collector or Deputy Commissioner with the consent of the Commissioner.

Rent	...	(Here enter the instalments and dates of payment)
Royalty	...	(ditto ditto ditto)

12. That the lessee shall pay any cesses, such as Road and Public Works Cess or *any other which may hereafter be imposed by law*, in addition to the rent and royalty to be paid.

Liability to cess.

13. That the land shall be subject to all existing rights-of-way and water and other easements and to the exceptions and reservations described in Schedule A hereto annexed.

and to be subject to rights-of-, &c.

14. That Government has the right to make surface roads over any block in the leased area.

15. That if any boundary dispute or disputes regarding right-of-way or any other dispute whatsoever regarding the construction of any term or condition in the lease arises between the lessee and the lessee of any adjoining block already leased under these rules or which may subsequently be leased, the lessee shall be bound to submit such dispute to the decision of the Collector or Deputy Commissioner. The decision of such officer shall be appealable to the superior revenue authorities in due course, and the decision of the Board of Revenue shall be final and binding on the lessees.

Boundary dispute.

16. That the lessee shall have no claim against Government for compensation or damages in respect of land having been included in his lease which has already been included in some previous lease, but that the lessee shall be entitled to proportionate reduction of the assessment in respect of any land covered by the lease which may subsequently be discovered not to have been available for lease.

17. That in the event of any accident occurring in the area under lease the lessee shall forthwith report the same to the Collector or Deputy Commissioner of the district in the form prescribed by Government for the purpose, copies of which shall be obtained by the lessee on application to the Collector or Deputy Commissioner.

Report of accident.

18. That the lease shall be subject to all rules and regulations which may from time to time be issued by the Local Government regulating the working of the quarries and other matters affecting the safety, health and convenience of the lessees, employés or of the public whether under the Indian Mines Act or otherwise.

Lease subject to rules.

19. That the lessee shall furnish such reports and returns relating to output, labourers employed and other matters as the Local Government may prescribe.

Submission of reports.

20. That on the expiration of the period of this lease the lessee may, if he has duly observed all the foregoing conditions, have a renewal of the lease on terms to be agreed upon by the Collector or Deputy Commissioner and the lessee, subject to the approval of the Commissioner.

21. That the lessee shall, before beginning operations demarcate the area leased to him with boundary marks of stone or pucka masonry and keep these boundary marks always in proper repair. And that if within six months of the date of the execution of the lease, the lands have not, in the opinion of the Collector or Deputy Commissioner, been properly demarcated, the lease shall be liable to be forfeited.

Demarcation of area and boundary marks.

22. That in the event of breach of any of the conditions specified in these rules, the lessee shall be liable to a fine representing liquidated damages to be imposed by the Collector or Deputy Commissioner, which shall not exceed half the yearly rental and shall be recoverable under section 7 (1) (*c*) of the Public Demands Recovery Act, I (B. C.) of 1895, and shall also be liable to ejectment for any breach of the conditions specified in clauses 4, 6, 9, 10, 11, and 21 above.

Penalty for breach of conditions.

SCHEDULE A.

Table of exceptions and reservations to be included here—*vide* clause 13 of the lease.

24-Parganas.

No. 3589L.R.—The 20th December 1906.—In exercise of the powers conferred upon him by section 101 (2) (*c*) and section 101 (2) (*d*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor is pleased to direct that a survey shall be made and a record of rights be prepared in respect of all lands included in the Government estates noted below in the district of the 24-Parganas.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) the name of each tenant or occupant;

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(*c*) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) the name of each tenant's landlord;

(*e*) the money-rent payable at the time the record of rights is being prepared, or if the rent payable is a produce-rent, the fact that a produce-rent is paid, and the customary terms according to which it is paid;

(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;

(*g*) if the rent is a gradually increasing rent, the time at which and the steps by which it increases;

(*h*) the special conditions and incidents, if any, of the tenancy;

(*i*) if the land is claimed to be held rent-free,—whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(*j*) the custom of the village regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

Tauzi number and name of estate.	Pargana.

A plan of the land may be inspected in the office of the District Engineer of Singhbhum.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT.

NOTIFICATION.

No. 2188.—The 21st December 1906.—The following resolution, issued by the Government of India in the Department of Commerce and Industry, is republished for general information.

T. W. RICHARDSON,
Offg. Secy. to the Govt. of Bengal.

No. 9697—9709—112, dated Calcutta, the 13th December 1906.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

HIS MAJESTY'S Secretary of State for India has communicated to the Government of India a request from the Governor-General of Canada that emigration from India to Canada should be discouraged, and that intending emigrants should be warned that there is no probability of their obtaining employment in that country and that in the event of their destitution, they are liable to deportation under the law of Canada.

2. The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation generally known, particularly in places from which emigation to Canada is believed to be most common, and also to warn intending emigrants at the ports of embarkation of the risks they run in proceeding to that Colony.

No. 8391, dated Calcutta, the 21st December 1906.—Babu Debendra Nath Ghosh, third-grade Assistant Surgeon, did supernumerary duty in the Medical College Hospital, Calcutta, with effect from the 10th to the 14th December 1906, both days inclusive.

R. MACRAE, M.B., COL., I.M.S.,
Inspector-General of Civil Hospitals, Bengal.

HIGH COURT NOTICE.

HIGH COURT—ORIGINAL SIDE.

The 20th December 1906.

THE Honourable the Chief Justice of the High Court of Judicature at Fort William in Bengal has appointed Francis George Clark, Esq., of Exchange Corner, 63, Pitt Street, Sydney, Solicitor, a Commissioner within all parts of the State of New South Wales to take affidavits or affirmations or declarations in all suits, matters and proceedings in the Calcutta High Court and also the acknowledgments of married women in respect of property in India.

By order,
W. R. FINK,
Registrar.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION, UNITED PROVINCES.

NOTICE.

Dated Allahabad, the 2nd October 1906.

THE Local Government having approved of an application made by Raja Tasadduq Rasul Khan, C.S.I., of Jahangirabad in the Bara Banki district, that a sum of Rs. 20,200 be vested under the designation of the "Tasadduq Rasul Arabic Scholarship Endowment Trust Aligarh," in the Treasurer of Charitable Endowments for the territories subject to the said Local Government, to be applied in Trust upon the terms that the interest accruing thereon be expended in the payment of scholarships for the higher study of Arabic at the Muhammadan Anglo-Oriental College, Aligarh, on certain conditions, the following is published for general information :—

(1) that the scholarships shall be awarded in each year to Muhammadan students of Arabic who, after having passed the examination for the time being prescribed for the B. A. degree of any University to which the Indian Universities Act 1904 (VIII of 1904), applies purpose to study in the Muhammadan Anglo-Oriental College, Aligarh, for two years for the examination for the time being prescribed for the M. A. degree in Arabic of the Allahabad University;

(2) that there shall be one or more scholarships of the value of Rs. 20 per mensem, tenable for two years; and the Secretary and the Principal of the Muhammadan Anglo-Oriental College, Aligarh, shall decide, with reference to the funds available for the purpose, the number of the scholarships to be granted in any year;

(3) that the nomination for the said scholarship or scholarships shall rest with the Principal of the said College who shall in making the nomination give preference to candidates who are inhabitants of the United Provinces of Agra and Oudh;

(4) that the holder of a scholarship shall in all matters carry out the instructions of the Principal, who shall have power to suspend and withdraw the scholarship in the event of the misconduct of the holder;

(5) that the income accruing on the Trust shall be expended in the payment of these Arabic scholarships and no other object;

(6) that all savings, from whatever cause arising, shall, if the said Local Government deems the amount to be sufficient for the purpose, be added to and form part of the funds hereby vested in the said Treasurer of Charitable Endowments; and the income accruing on the amounts so added shall also be expended in the manner prescribed for the income accruing on the said funds;

(7) that in the event of the Arabic classes of the said College being abolished and in the event of its ceasing to teach Arabic the income accruing from the Trust shall be expended in scholarships for some other branch of higher education at the same College in the name of the donor, and in the event of the Muhammadan Anglo-Oriental College, Aligarh, ceasing to exist the amount of the Trust shall be returned to the said Raja Tasadduq Rasul Khan, C.S.I., of Jahangirabad, or his heir or representative.

2. Applications for these scholarships should be made in writing to the Principal, Muhammadan Anglo-Oriental College, Aligarh.

T. C. LEWIS, M.A.,

Director of Public Instruction, United Provinces.

THE FINAL EXAMINATION FOR B AND C CLASSES, 1907.

I

ROUTINE FOR FINAL EXAMINATION OF THE B CLASSES, 1907.

THE examination will be held at the following centres and on the following dates :—

BENGAL ... ... Bankipore, Midnapore and Ranchi.
EASTERN BENGAL AND ASSAM ... Rampur Boalia, Rangpur, Pabna, Bari Dacca and Mymensingh.

DATES.	8 to 11 A.M.	1 to 4 P.M.
Friday, the 1st February 1907	Manual Training ...	Manual Training.
Saturday, the 2nd February 1907	Ditto ...	Ditto.
Monday, the 4th February 1907	Arithmetic and Algebra.	Geometry and Mensuration.
Tuesday, the 5th February 1907	Drawing and Practical Geometry.	Engineering.
Wednesday, the 6th February 1907	Surveying ...	Modern English, I.
Thursday, the 7th February 1907	Modern English, II	Elementary Science.

2. The exact periods allotted to the Manual Training test will be indicated on the examination paper. The examination will begin on Friday, the 1st February 1907, at 8 A.M., and continue, morning and afternoon, until the time allotted has expired The Manual Training test is on no account to be conducted during any hours other than those prescribed on the examination paper.

3. After each period the candidate's test work together with his question-paper will be taken from him and locked up by the Superintendent and securely sealed. It will remain in his custody until the hour set apart for resuming the examination. Before re-distributing the work to the candidates the Superintendent should assure himself that the seal has not been tampered with.

4. The examination at each centre will be in charge of the Superintendent of the local Technical School. Each Superintendent will be informed by the Examiner, not later than the first week in January, as to the scantlings and length of wood necessary for the practical test. It will be the duty of the Superintendent to see that a sufficient quantity of wood of the required size is available.

5. No extra wood may be given to any candidate.

6. No mistry will be allowed in the shops during the examination.

7. When the time allotted to the practical test has expired, the Superintendent is immediately to pack carefully the materials which have been worked on by the candidates and despatch the packages under seal to the Head Master, Ahsanullah School of Engineering, Dacca, together with a certificate that in each case these examination rules have been rigidly complied with. He will inform the Head Master by telegraph of the despatch of the test.

II.

ROUTINE FOR THE FINAL EXAMINATION OF THE C CLASSES, 1907, BENGAL CENTRES.

1. The examination will be conducted at the following centres and on the following dates :—

The Hare School, Calcutta (for all Calcutta candidates) Ranchi, Uttarpara, Hooghly and Barasat.

DATES.	8 to 11 A.M.	1 to 4 P.M.
Monday, the 4th February 1907	Arithmetic and Algebra	Geometry and Mensuration.
Tuesday, the 5th February 1907	Drawing and Practical Geometry.	History.
Wednesday, the 6th February 1907	Geography	Modern English, I.
Thursday, the 7th February 1907	Modern English, II.	

2. Arrangements for conducting the final examination of the C classes in Eastern Bengal and Assam will be published by the Director of Public Instruction, Eastern Bengal and Assam.

III.

...	Modern English, III	J. A. Chapman	Professor, Presidency College, Calcutta.
...	Elementary Practical Mechanics.	F. W. Arnold ..	Head Master, Dacca School of Engineering.

3. All question-papers, except those for the practical tests, are to be such as can be answered in three-hour periods. Modern English (I) and Modern English (II) are divided into two sections; the questions on each section should be such as can be answered in 1½ hours. The answer-papers on each section of Modern English are to be collected at the end of the 1½-hour period assigned to it.

CALCUTTA,
The 11th December 1906.

A. EARLE,
Director of Public Instruction, Bengal.

THE CIVIL ENGINEERING COLLEGE, SIBPUR.

THE following courses of instruction are provided at this College.—

I.—Engineer Department.

A four-year course leading to the Engineering Degrees of the Calcutta University. Admissions made yearly in June. Admission qualification, the First Arts examination of the Calcutta University or its equivalent.

II.—Apprentice Department.

The full course of study covers five years. There are special classes in Mining and in Electrical Engineering.

After 1½ years the Sub-Overseer examination is held.

After 3½ years the Final or Overseer examination is held with special modification for Mining students.

After a further 1½ years' practical training the certificate of Foreman Mechanic or Upper Subordinate is given.

Admissions are made yearly in June to 1st year and in March to 2nd and 3rd years. Admission qualifications—

To 1st-year class, Entrance examination of Calcutta University or equivalent, to the Middle School.

To 2nd-year class, the Final examination of B Course of zilla schools.

To 3rd-year class, the Sub-Overseer examination of affiliated Technical schools.

III.—Workshops.

Artisan classes in the following shops :—

Carpenters'; Blacksmiths';	Fitters'; Turners;	Machine, and Foundry.

IV.—Agricultural Department.

Admission made by nomination of His Honour the Lieutenant-Governor. Application to be sent to the Principal. A two-year course leading to the Agricultural Diploma of the College. Admission made yearly in November.

Admission qualifications—

As general student, B. A., B Course, of Calcutta University or equivalent.

As special student, satisfactory evidence that the candidate can benefit by the instruction.

For further information apply to the Office Superintendent and Bursar, Civil Engineering College, Sibpur.

SIBPUR,
The 7th June 1906.

B. HEATON,
Principal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 7131B.

NOTICE is hereby given that the First Sale of Opium, the provision of 1904-05, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Thursday, the 3rd January 1907, at 11 A.M., and will comprise 4,400 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory consisting of ...	2,200
Ditto at the Ghazipur Factory consisting of ...	2,200
Total ...	4,400

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the notification issued on the 27th November 1906, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 21st January 1907, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Tuesday, the 8th January 1907, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Monday, the 21st January 1907.

4th.—In addition to the quantity above advertised for sale, the following quantities more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATE.	Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.

On or about Friday, 1st November ,, ...	2,200	2,200	4,400
On or about Tuesday, 3rd December ,, ...	2,200	2,200	4,400
Total ...	24,200	24,200	48,400

By order of the Board of Revenue, L. P.,

R. B. MISRA, *Offg. Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 1st December 1906.*

No. 7054B.

NOTICE is hereby given that the Provisional Opium to be brought forward for sale by public auction in the year 1907, will consist of about 26,400 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 26,400 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1904-1905 and 1905-1906 in the proportion marginally noted.

OPIUM.

THE HONOURABLE MR. W. C. MACPHERSON, C.S.I.

Opium manufactured at the Patna Factory.

		Chests.
Supply from 1904-1905	...	20,868
Ditto 1905-1906	...	5,532
Total	...	26,400

Opium manufactured at the Ghazipur Factory.

		Chests.
Supply from 1904-1905	...	15,595
Ditto 1905-1906	...	10,805
Total	...	26,400

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazipur Factories which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates, should circumstances render it expedient to do so. In accordance with the Notification of the Government of India, No. 3494A., dated 22nd June 1906, 2,200 chests of Patna and 2,200 chests of Benares opium will be sold monthly from January to December 1907:—

DATES.		Chests manufactured at the Patna Factory.	Chests manufactured at the Ghazipur Factory.	Total chests.
On or about Thursday, 3rd January	1907	2,200	2,200	4,400
On or about Tuesday, 5th February	,,	2,200	2,200	4,400
On or about Tuesday, 5th March	,,	2,200	2,200	4,400
On or about Tuesday, 2nd April	,,	2,200	2,200	4,400
On or about Wednesday, 1st May	,,	2,200	2,200	4,400
On or about Tuesday, 4th June	,,	2,200	2,200	4,400
On or about Tuesday, 2nd July	,,	2,200	2,200	4,400
On or about Tuesday, 6th August	,,	2,200	2,200	4,400
On or about Wednesday, 4th September	,,	2,200	2,200	4,400
On or about Thursday, 3rd October	,,	2,200	2,200	4,400
On or about Friday, 1st November	,,	2,200	2,200	4,400
On or about Tuesday, 3rd December	,,	2,200	2,200	4,400
	Total	26,400	26,400	52,800

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which, provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,300 per chest, Rs. 200 per chest.
On bids of Rs. 1,300 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remains a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1905-1906, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

R. B. MISRA,
Offg. Secretary.

CALCUTTA,
the 17th November 1906.

NOTICE.

THE HON'BLE MR. F. A. SLACKE, I.C.S.,
Member, in charge.

WHEREAS the Court of Wards has assumed charge of the estate belonging to the infant son of the late Raja Ashutosh Nath Roy of Kasimbazar, in the district of Murshidabad, in pursuance of its orders dated the 19th December 1906, declaring him to be a minor under section 6 (*b*) of Act IX (B.C.) of 1879, notice is hereby given, under sub-section (1), section 10A of the same Act as amended by Act I (B. C.) of 1906, that all creditors having claims against the said disqualified proprietor or his immoveable property shall submit the same in writing to the Collector of Murshidabad at Berhampore within six months from the date of publication of this notice.

Gaya Collectorate, the 7th December 1906.

B. FOLEY, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on Friday, the 4th January 1907, corresponding to 1313 (B.S.).

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estates and the entire proprietary right of Government in such estates will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	Remarks.
			Rs. A. P.

4 RUSSEL STREET, CALCUTTA.

EXECUTIVE ENGINEER'S OFFICE,

THIRD CALCUTTA DIVISION.

Notice.

THE public are hereby informed that 500 feet roadway of the 3rd mile, 3rd furlong, Grand Trunk Road, Howrah (i.e., 250 feet on the North and 250 feet on the South of the Punjab Line Level Crossing) will be closed to all traffic from the 24th December 1906 to 8th January 1907 (both days inclusive) for making improvements to the approaches.

L. D. CROSS,
Executive Engineer, Third Calcutta Division.

Calcutta, the 19th December 1906.

Notice.

THE annual *mela* at Daltonganj, in the district of Palamau, commences from the 18th January 1907 corresponding with 4th Magh 1313 B.S., and will last for about a month. An agriculture and cattle show will also be held in connection with it during the first week of February.

Traders and dealers in plough and milk cattle, horses and ponies, and other traders and merchants excepting those from plague-infected areas are invited to attend. No tax is levied. The comfort of strangers is looked after. The *mela* is held on the bank of the River Coel, so there is no difficulty for drinking water for men and cattle. Fodder will be available at reasonable rates. Bamboos and posts are supplied to traders free of cost for making booths. Police and conservancy arrangements are made.

S. R. HIGNELL,
Deputy Commissioner.

Daltonganj, the 13th December 1906. (1339—4)

„ 2. „ 2 Case, 2′ 4″ × 1′ 4″ × 1′ 4″.
„ 3. „ 3 Case, 2′ 7″ × 1′ 7″ × 1′ 6″.
„ 4 Case, 2′ 10½ × 1′ 10″ × 1′ 7″.
„ 5 Case, 3′ 1″ × 1′ 11″ × 1′ 8″.
Cases of special sizes per cubic foot.
Dammered cases.
Refitting cases
Converting wooden cases and supplying 12 iron clamps and 2 iron bands.
„ 10. Opening cases.

The cases should be of good mangoe or kowrah planks, six-eighths of an inch in thickness, and should be secured by twelve iron clamps six inches long and ¾ inch broad of steel hoop iron of a quality to bend to the round weight; such clamps should be affixed with three-quarter inch nails before the cases are delivered to store, and two iron bands ¾ inch wide of the aforesaid quality. About 11,000 cases will be required annually.

3. Packing cases should be delivered to the office of the undersigned, as required, free of cartage and cooly-hire.

4. Samples of packing cases should be furnished with tenders and distinctly marked with the name of tenderer.

5. Sealed tenders should be submitted in the forms to be obtained from this office, and superscribed "Tenders for packing cases," accompanied by a deposit of Rs. 1,500. The deposit if made in cash should be paid into the Bank of Bengal and the Bank's receipt sent with the tender.

6. Tenderers are required to declare any relationship or business connection that may exist between them and any assistant of this office. The suppression of any such information will render the contract liable to be cancelled without notice or compensation.

7. Every successful tenderer will have to deposit as security Rs. 1,500 and to execute a contract bond (the form of which can be seen at the office) within 15 days from the date of his being informed of the acceptance of his tender. In case of failure to execute the bond within the specified time, the amount deposited with the tender will be forfeited and credited to Government and the tender considered as cancelled.

8. Fifty cases of the sizes as per margin should
No. 1—10. always be kept ready on the office
„ 2—10. premises over and above the
„ 3—10. daily requirements of the office
„ 4—10.
„ 5—10.

9. The necessary stamp duty on the Contract bond must be paid by the contractor.

10. The undersigned does not bind himself to accept the lowest or any tender, and he reserves to himself the right of rejecting any tender without assigning his reasons for so doing.

[illegible],
Officer in charge of the Forms Department, Bengal Forms Department, Dallanda Buildings,

No. 247; Lower Circular Road, Calcutta, the 19th December 1906.

NOTICE

IS hereby given for the information of the public that the Faridpur Agricultural Industrial and Horticultural Exhibition and *mela* will be held as usual at this station from the 7th January to the 7th February next and the bazar will be removed to the *mela* grounds from the 1st January 1907. Dealers, merchants, and traders, etc., of all quarters are invited to buy and sell at the *mela* during that time.

A. MARR, Magistrate-President.

Faridpur, the 7th December 1906. (1324—3)

Notice

THE Suri Cattle and Produce Exhibition will be held (for the 11th year) at Barabagan, Suri, East Indian Railway, in the district of Birbhum, 11 miles from East Indian Railway station Sainthia, on the 26th January and the two following days. The grounds will be open for the sale of articles from the 25th January for a week. Cattle, agricultural produce, and indigenous manufactures will be received as exhibits on the 27th and 28th January 1906. Competition for India Government prizes for bulls, cows and heifers will be allowed within the four districts of Birbhum, Bankura, Burdwan and Sonthal Parganas. Prizes in money, medals, certificates and selected seeds amounting to the value of Rs. 700 will be awarded for other exhibits of this district as well as for those of good quality from other districts. Intending exhibitors should prepare their exhibits and begin to make collections of indigenous articles from now, for which rewards will be amply given. Dealers and performers of music and sports may come and open their stalls in the exhibition ground two or three days beforehand. They should communicate with the Secretary about sites and other particulars at least a week before. The Railway Company has agreed to make some concessions in the rates for luggage, etc., of the exhibits coming to and going from the show.

HIRA LAL BANARJI,
for Collector.

Dated Suri, the 11th December 1906. (1333—3)

NOTICE.

In the Court of 3rd Sub-Judge, Mymensingh.

DECLARATORY SUIT No. 47 OF 1906 FOR THE REGISTRATION OF INSTALMENT BOND.

Joy Krishna Saha and others of Kowaimari *alias* Gopalpur, station Sorishabari, Mymensingh, plaintiffs, *versus* G. A. Stylianides of Sorishabari, Jute office, Mymensingh, defendant.

THE INDIAN LAW REPORTS

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.

Memoir, Geological Survey of India, Palæontologia Indica, New Series, Volume II, Memoir No. 3. By F. R. Cowper

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER 26, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 20th December 1906.*

BAY OF BENGAL—BURMA COAST.

Caution—Series of Volcanic eruptions.

No. 486 (first publication).—The following telegraphic communication has been received from the Principal Port Officer, Burma :—

Inspector of light-houses wires on 19th December 1906 from Kyouk Phyou that series of volcanic eruptions, resulting in large island being upheaved, 12 miles from Beacon, bearing approximately 36° west by north—Still active. Mariners are hereby warned.

The 20th December 1906.

BAY OF BENGAL—BURMA COAST.

Caution—Position of a submerged Country craft.

No. 479 (second publication).—A telegraphic communication has been received from the Principal Port Officer, Rangoon, intimating that a report has been received that a small country craft, submerged, was passed bearing east, distance 9 miles from Alguada light-house. Length of boat about 80 feet.

Mariners are hereby warned.

The 11th December 1906.

AUSTRALIA—QUEENSLAND.

Brisbane river—Minimum available depth.

No. 480 (second publication).—The Port Master, Brisbane, has given notice (No. 7 of 1906) that the minimum available depth in the Brisbane River from Moreton Bay to the Custom House, Town Reach, is 22 feet at low-water springs.

Charts affected—Nos. 1674, 1670b and 1039; Australia Directory, vol. 2.

INDIA, WEST—SIND COAST.

Karachi harbour—Lights on Military works at Manora.

No. 481 (second publication).—The Bombay Government have given notice (No. 126 of 1906) that from 1st December 1906, repairs will be taken in hand on the seaward side of the Manora Point Fort and Breakwater, and powerful lights may be used at times for the purpose. Ships approaching Karachi Harbour should therefore be careful not to mistake these lights with leading and harbour lights.

This Notice affects the following Admiralty Charts :—Karachi Harbour, No. 40; also West Coast of Hindustan Pilot, 1898, page 304.

AFRICA, NORTH-EAST—Red sea.

The Brothers—Experimental exhibition of light.

No. 482 (second publi ation).—With reference to Notice to Mariners No. 51, dated the 3rd February 1906, issued by this office, the British Admiralty has given further notice (No. 1304 of 1906) that, during the latter end of November and the beginning of December, a *white flashing* light will be experimentally exhibited from the tower now in course of construction on the Brothers.

Approximate position, lat. 26° 19′ N., long. 34° 51′ E.

Further Notice will be given when the above light is permanently established, which will be about 1st January 1907.

This Notice affects the following Admiralty Chart :—Red Sea with plan of the Brothers, No. 8b : Also List of Lights, 1906, Part V, No. 1441; Part VI, No. 161; Red Sea, &c., Pilot, 1900, page 71; and Supplement, 1904, page 10.

AFRICA, NORTH-EAST—Red Sea, western shore—Sheik el Barghut approach.

Sanganeb reef—Experimental exhibition of light.

No. 483 (second publication).—With reference to notice to Mariners No. 207, dated 7th June 1906, issued by this office, the British Admiralty has given further notice (No. 1305 of 1906) that during the latter half of November and the early part of December, a *white flashing* light will be exhibited experimentally from a tower now in course of erection on Sanganeb reef in the approach to Sheik el Barghut (port Sudan).

Approximate, position, lat. 19° 43½′ N., long. 37° 26′ E.

Further Notice will be given when this light has been permanently established, which will be about 1st January 1907.

This Notice affects the following Admiralty Charts :—Red Sea, No. 8c : Mersa Durur to Trinkitat, No. 81 : Also List of Lights, 1906, Part V, No. 1443; Part VI, No. 158 ; Red Sea, etc., Pilot, 1900, page 155 ; and Supplement, 1904, page 17.

BAY OF BENGAL—Orissa coast.

Balasore river—Elfin channel—Depth of water on the bars and at the buoys.

No. 484 (second publication).—The Port Officer, Cuttack and Balasore ports, has given notice that the following depth of water was found on the bars and at the buoys, in the Elfin channel, Balasore river, on the 10th December 1906—

Bars.

	Ft.	in.
Elfin bar	2	6
Nolcool	1	6
Jimkana	2	6

Buoys.

	Ft.
Anchoring buoy	22
Fairway „	12
Centre Elfin	4

The course in from the Fairway buoy to the Barabulong river is N. 33° W. *magnetic.*

Vessels drawing 9 feet should not attempt to cross the Elfin bar with less than 16 feet rise at Saugor.

The 14th December 1906.

INDIA, WEST—Malabar coast.

Ponani—Particulars of present boundary pillars.

No. 485 (second publication).—The Presidency Port Officer, Madras, has given notice (No. 31 of 1906) of the following particulars of boundary pillars at Ponani, in supersession of previous Notice :—

North boundary pillar, situated on the Sand ridge north of the river entrance, 120 yards from H. W. mark in Lat. 10° 48′ 11″ N.

South boundary pillar, situated on the foreshore south of the river entrance, 450 yards from H. W. mark in Lat 10° 46′ 57″ N.

The pillars are 2,860 yards apart in a straight line bearing approximately No. 29° W.

The 17th December 1906.

BAY OF BENGAL—Chittagong coast.

Kurnafuli river—Depth of water in the channels.

No. 468 (third publication).—The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 29th and 30th November 1906—

	Ft.	In.
Track No. 1—Outer bar—		
Disc on diamond	14	0
Track No. 2—Inner bar—		
Disc on diamond	11	6
Batten beacon on pillar	11	6
Track No. 3—		
Triangle on cross and ball	16	6
Track No. 4—Guptakhally crossing—		
Tripod on cross and ball and diamond ...	20	0

INDIA, WEST—Sind coast.

Karachi harbour—Removal of Deep Water Point mooring buoy.

No. 469 (third publication).—The Bombay Government has given notice (No. 125, dated 28th November), that the Deep Water Point Mooring Buoy, Karachi Harbour, has been removed and will not be replaced until further notice.

This notice affects the following Admiralty Chart :—Karachi Harbour, No. 40; also West Coast of Hindustan Pilot, 1898, page 304, and Supplement 1903, page 19.

EASTERN ARCHIPELAGO—Borneo, south-east coast.

Pulo Laut strait—Light-buoy established.

No. 470 (third publication).—With reference to Notice to Mariners No. 226, dated 26th June 1906, issued by this office, the British Admiralty has given further notice (No. 1271 of 1906) that a light-buoy exhibiting a *white occulting* light, *every twenty seconds*, thus:—light, *ten seconds;* eclipse, *ten seconds*, has been established in a position situated about one mile S. 75° E. from Petang point, in the southern entrance to Pulo Laut strait.

Approximate position, lat. 3° 37′ S., long. 115° 57½′ E.

(*Variation 2° Easterly in 1906.*)

This Notice affects the following Admiralty Charts :—Makassar strait, No. 2637; plan of Pulo Laut strait on chart No. 2662; Also Eastern Archipelago, part II, 1904, page 277.

CHINA, NORTH—Manchuria, south coast.

Cambrian or Lakhutan cove.—Non-existence of shoal.

No. 471 (third publication).—With reference to notice to Mariners No. 498, dated 12th December 1905, issued by this Office, the British Admiralty has given further notice (No. 1272 of 1906) that the rock reported by the S.S. *Ishibashi Maru* off Cambrian cove, as situated in a position 12 cables S. 73° W. from the rock off the south-eastern extremity of South Entry point, in the approach to Talien hwan bay, has been repeatedly and carefully searched for at a distance of 2 cables in all directions around the assigned position without any indication being found of its existence, the general depths in the locality being 17 fathoms over mud, sand, and shells bottom. This rock has therefore been erased from the charts.

Approximate position, lat. 38° 51′ N., long. 121° 40½′ E.

Note.—The Japanese name for the Talien islands to the westward of Cambrian cove is Dairen, and this has now been adopted on chart No. 1798.

(*Variation 4° Westerly in 1906.*)

This Notice affects the following Admiralty Chart :—Kwang tung peninsula, No. 1797 : Also, China Sea Directory, vol. III, 1904, page 590.

EASTERN ARCHIPELAGO—MALAY PENINSULA, WEST COAST—SIAM, PUKET OR TONGKA HARBOUR.

Goh Tapaunoi light—Temporary alterations.

No. 472 (third publication).—The British Admiraty has given notice (No. 1273 of 1906) that Goh Tapaunoi white flashing light, Tongka harbour, will be temporarily replaced by a *white fixed* light whilst undergoing repairs.

Approximate position, lat. 7° 50¾′ N., long. 98° 25½′ E.

Further Notice will be given as necessary.

This notice temporarily affects the following Admiralty Chart:—Puket or Tongka harbour, No. 843: Also, List of Lights, part VI, 1906, No. 383; Bay of Bengal Pilot, 1901, page 434; and China Sea Directory, vol. I, 1896, page 117.

PACIFIC OCEAN—SULU SEA—THE PHILIPPINE ISLANDS.

Basilan strait—Shoal inserted on Charts.

No. 473 (third publication).—The British Admiralty has given notice (No. 1274 of 1906) that as a shoal with a depth of 3⅓ fathoms over it appears on the United States Government chart of Basilan strait, situated on chart No. 961 in approximately lat. 6° 46′ 0″ N., long. 122° 4′ 20″ E., it has been inserted on the Admiralty charts in this position.

NOTE.—The authority for this danger is a Spanish chart corrected to 1895.

This Notice affects the following Admiralty Charts:—Sulu Archipelago, Nos. 2576, 928; Basilan strait, No. 961: Also, Eastern Archipelago, part I, 1890, page 99.

EASTERN ARCHIPELAGO—JAVA, NORTH COAST.

Pamanukan rock—Buoy replaced by light-buoy.

No. 474 (third publication).—With reference to Notice to Mariners No. 226, dated 26th June 1906, issued by this office, the British Admiralty has given further notice (No. 1275 of 1906) that the black bell buoy surmounted by a ball marking Pamanukan rock, has been replaced by a light-buoy, painted black, exhibiting a *white occulting* light *every twenty seconds*, thus:—light, *ten seconds;* eclipse, *ten seconds.*

Approximate position, lat. 6° 1′ S., long. 107° 52½′ E.

This Notice affects the following Admiralty Chart:—Java, No. 1653: Also Eastern Archipelago, part II, 1904, page 97.

EASTERN ARCHIPELAGO—JAVA ISLAND, EAST COAST—SURABAYA STRAIT

Kleta reef.—Beacon erected.

No. 475 (third publication).—The British Admiralty has given notice (No. 1292 of 1906) that an iron screwpile beacon, painted in black and red horizontal bands, with a truncated cone as a topmark, has been erected in a depth of 2 feet on Kleta reef, in the eastern entrance to Surabaya strait, in a position situated at a distance of 6 $\frac{6}{10}$ miles S. 42° E. from Larangan mosque.

Approximate position on chart No. 934 lat. 7° 19½′ S., long 112° 52′ E.

Variation 2° Easterly in 1906.

This notice affects the following Admiralty Charts:—Java, No. 1654, Surabaya strait; & chart No. 934: Also, Eastern Archipelago, Part II 1904, page 127; and Supplement, 1906, page 11.

JAPAN SEA—Peter the Great bay—Vladivostok approach.

Cape Gamova light—Further particulars given, Askold island—Pilot station.

No. 476 (third publication).—With reference to Notice to Mariners No. 402, dated 20th October, issued by this office, the British Admiralty has given further notice (No. 1293 of 1906) that a *white group flashing* light showing groups of *two* flashes, each group being of about *two seconds'* duration, *every ten seconds*, elevated 210 feet above high water, and visible from a distance of 16 miles, has been established on cape Gamova, Vladivostok approach. The light, which is of the 2nd order, is shown from a lighthouse 48 feet high.

A siren worked by compressed air and a bell have been established on the southern end of the cape; during thick or foggy weather the siren will give one blast of four seconds' duration *every minute*, and the bell probably worked in accordance with the Russian uniform system.

Approximate position, lat. 42° 33½′ N., long. 131° 12½′ E.

Also, that it is no longer now requisite to make cape Gamova when approaching Vladivostok, but it is equally safe to make Askold island, and, obtaining a pilot from thence, to approach Vladivostok by the eastern entrance to the Eastern Bosporus strait.

Approximate position, Askold light. lat. 42° 44′ N., long. 132° 22′ E.

This Notice affects the following Admiralty Charts:—Kuril islands, No. 2405; Tumen Ula to Strelok bay, No. 2432; Trinity bay to the Eastern Bosporus, No. 511: Also List of Lights, part VI, 1906, page 189, No. 1156; and Sailing Directions for Japan, &c., 1904, page 169, 191.

AUSTRALIA, SOUTH—Gulf of St. Vincent—Backstairs passage.

Yatala shoal—Buoy established.

No. 477 (third publication).—The British Admiralty has given notice (No. 1298 of 1906) that, on or about the 24th of that month, a spherical buoy, painted in red and white horizontal bands, and surmounted by a half globe, base downwards, would be moored in a depth of 5 fathoms on the north-western side of Yatala shoal, Backstairs passage. The exact position of this buoy is not given, but it has been placed on the chart at a distance of $4\frac{1}{10}$ miles N. 19° E. from cape St. Alban.

Approximate position, lat. 35° 44½′ S., long. 138° 9¾′ E.

(*Variation 5° Easterly in 1906.*)

This Notice affects the following Admiralty Charts:—Gulf of St. Vincent, &c., No. 2389a; Backstairs passage, No. 25: Also Australia Directory, vol. I, 1897, page 308.

AUSTRALIA—New South Wales.

Port Jackson—Fog Signals altered.

No. 478 (third publication).—With reference to Notice to Mariners No. 286, dated 29th July 1905, issued by this office, the British Admiralty has given further notice (No. 1299 of 1906) that the fog bells at Bradley head, fort Denison, and Dawes point, in port Jackson, will in future be sounded continuously during thick or foggy weather, and not as described in the above-mentioned Notice.

Approximate position, fort Denison, lat. 33° 51½′ S., long. 151° 13½′ E.

This Notice affects the following Admiralty Charts:—Port Jackson, No. 1069; Woolloomooloo, &c., No. 1890: Also List of Lights, part VI, 1906, Nos. 1364a, 1365, 1365a; Australia Directory, vol. I, 1897, pages 824, 829; vol. II, 1898, pages 59, 62, 63.

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR 1905-1906.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 15th December 1906.

RESOLUTION—No. 3119.

READ—

The Report on Public Instruction in Bengal for the year 1905-06.

1. Sir Alexander Pedler, KT., F.R.S., C.I.E., was in charge of the Department as Director of Public Instruction throughout the year. Mr. A. Earle, I.C.S., was placed on special duty in the office of the Director and was associated with Sir Alexander Pedler in the control of the Department with effect from the 15th January, 1906. Mr. Earle, by whom the Report has been submitted, assumed sole charge of the Department on the 31st March, 1906, the date on which Sir Alexander Pedler retired.

2. The introductory chapter contains a brief general review of the year's work throughout the whole field of educational endeavour, while in the chapters which follow details are separately supplied in reference to each of the customary divisions of the subject. The Report exceeds the prescribed length by

eleven pages This is attributed partly to the fact that an attempt has been made to write for the first time a complete introductory summary in accordance with standing orders, and to give, in the chapters which follow, a collected and readable narrative of the operations of the year. This renders any further review of the events of the year unnecessary. The length of the Report is also due to the fact that numerous schemes of educational reform are at the present time in process of development, and that more space than usual has therefore been required for their discussion. These schemes and the important questions raised in the Report are under the consideration of Government.

3. In publishing the Report the Lieutenant-Governor desires to thank Mr. Earle for the care and thoroughness with which it has been prepared and for the interesting account which it gives of the working of the Educational Department in Bengal during the year 1905-06. His Honour has had opportunities in reviewing the Reports of the two previous years, of acknowledging the services rendered by Sir Alexander Pedler to the cause of education during his tenure of office.

ORDER—Ordered that the Report be published in the Gazette.

By order of the Lieutenant-Governor of Bengal,

REPORT

ON

PUBLIC INSTRUCTION IN BENGAL

FOR 1905-06.

CHAPTER I.

GENERAL REVIEW OF THE YEAR'S WORKING.

Introductory Remarks.

1. This chapter attempts to give a bird's-eye but a complete view of the salient features of educational progress in the Province during the year 1905-1906. If any reader is sufficiently interested in any branch of education to wish to learn about it more in detail, I would ask him to refer to the particular chapter which deals with that phase of education which he seeks to investigate. This chapter is intended for the ordinary busy man, who is interested in a general way in the progress of education, but has neither the time nor the inclination to make a special study of the various problems involved.

Controlling Agencies.

2. Educational work has increased so rapidly of recent years without a D corresponding increase to the staff that at the present time we are found to be attempting the impossible task of making bricks without straw. To begin with, the directing staff is inadequate. The work required to be done by the Director and the Assistant Director is considerably more than two men, even working under excessive strain, can accomplish. Proposals are under consideration for the appointment of a Deputy Director to take charge of technical and industrial education, and I am of opinion that the time is not far distant when it will be generally recognised that the Director also requires further assistants, possibly a Deputy Director for secondary, and another for primary, education.

3. A scheme was sanctioned by His Majesty's Secretary of State during In the year for considerably strengthening the inspecting agency. When funds an permit of the scheme being brought into operation, a much needed relief will sta be afforded. There remains however the equally important need of a large increase to the professorial staff of the colleges. This is a subject on which the Commission recently appointed by the Calcutta University to inspect colleges has laid special stress. At present we are so short-handed that it is scarcely possible to carry on the administration, and the break-down of a single officer causes great dislocation of work. This matter will shortly be made the subject of a representation to Government. More female inspecting agents also are required. The staff has lately been increased by the appointment of three additional Assistant Inspectresses, but more are urgently required. The appointment of an additional Inspectress is also under consideration. I foresee the need, before many years are passed, of an Inspectress for every Division in which there is at present an Inspector of Schools.

Provincial, Subordinate and Lower Subordinate Educational Services.

4. The sanction of His Majesty's Secretary of State was received during the year to a scheme for the reorganisation of the Provincial and Subordinate Educational Services and the creation of a Lower Subordinate Educational Service. The pay and prospects of all officers of these services have been considerably improved by this measure, which will undoubtedly make for greater efficiency.

The Calcutta University and Collegiate Education.

The new University regulations.

5. The preparation of the new regulations under the Indian Universities' Act, 1904, and the inspection of arts colleges by the Commission referred to above were the two most important events of the year. Inasmuch as the University was unable to submit the new regulations to the Government of India in a complete form before the close of the year, the final stages of the work were entrusted to a special committee appointed by that Government. The regulations were approved by the Government of India on the 11th August 1906. They will doubtless make greater demands upon students than those previously in force. Hence it is, in my opinion, essential that the interests of poor scholars should be safe-guarded by the provision of an adequate number of scholarships of a sufficient value. This subject will be carefully borne in mind.

Report of the Commission.

6. I have referred above to the Commission appointed by the University to inspect colleges throughout this Province. The report submitted by it has brought to light numerous defects in the administration of colleges, and in particular has laid stress on the inadequacy of the professorial staff and the insufficiency in many cases of the accommodation and equipment. The Commission's report will be of great value when steps are taken to enforce the new regulations. As regards Government colleges, Government will no doubt do all that is required in order to carry out the necessary improvements; but the private colleges, if left to themselves, would indeed be in bad case. Fortunately the Government of India have foreseen the difficulty and are giving annual grants of money for the express purpose of enabling these colleges to comply with the regulations. That they will be able to do so in a short time is out of the question: progress will necessarily be gradual. One of the most pressing of all needs is the provision of hostels or messes under proper supervision for students who do not reside with their parents or other legal guardians. The Local Government has done its best to assist the University in this respect by inaugurating a system of college messes under supervision; but the work is only in the initial stage and the co-operation of the University is required in order to bring the scheme to a satisfactory issue.

The Presidency College.

7. The Presidency College, which is considerably the largest, and, according to the Commission referred to in the last paragraph, in certain respects by far the best equipped college in Calcutta, is seriously overcrowded; and in the opinion of the Commission either the numbers must be reduced or the college must be enlarged or rebuilt on a more open site. The scientific departments of this college suffer in particular owing to the want of space, while the department of chemistry is also reported to suffer from the dust and dirt of the neighbourhood. It is further reported that important groups of magnetic and electrical measurements cannot be made within an area surrounded by electric trams, and that therefore the use of such instruments cannot be taught to students. Proposals are now under consideration either for largely extending the college on its present site or removing it to another site in the neighbourhood of Calcutta. This is a question in which the public is interested and in regard to which it will, no doubt, be fully consulted.

General statistics of colleges.

8. The results of the last Entrance Examination were very disappointing, the percentage of success being only 26·4. The subject is now under the consideration of a special committee appointed by the Senate. Probably no great improvement in respect of the teaching given in High schools can be effected until the training colleges referred to in the chapter on Training Colleges and Schools are established. There has been but little variation as regards expenditure. Of the total expenditure amounting to

Rs. 7,65,695, Rs. 2,77,480 were derived from public, and Rs. 4,88,215 from private, funds. The cost *per annum* of educating a student is rising considerably. It was Rs. 110. only two years ago; while in the year under review it was Rs. 136.

Secondary Education for Indian Boys.

9. The number of secondary schools declined by 8, while that of pupils attending them increased by 2,422. The decline in the number of schools chiefly concerns Middle Vernacular Schools, and is mainly to be ascribed to the smaller value which attaches year by year to a purely vernacular education. In years gone by a Middle Vernacular pass qualified a student for admission to Medical and Survey Schools and to the Mukhtiyarship examination. This is no longer the case. The steady decline in the popularity of these schools must, in my opinion, culminate in their abolition as a separate class of schools. They more naturally fall under the head of primary schools, and they are so classified in the Bombay Presidency. Stat

10. As indicated later in this chapter, the revision of the vernacular scheme of education is in progress. The courses are at present too advanced and too diversified and the text-books are not written in language commonly used by the people, but in an unfamiliar literary style. The teaching of English in secondary schools also requires amendment. The result at present is that a great number of boys leave High Schools with an inadequate knowledge of that language, and that when they go to college they cannot understand their lecturers. The question will shortly come under review. Lastly, the training colleges for teachers in High and other secondary schools, which will shortly be opened, should work a revolution in the methods of teaching in secondary schools. Sub meth teac

11. Special instruction is given at selected secondary schools in subjects, leading up to an industrial, commercial or agricultural career. These classes are still in the experimental stage and have not hitherto proved successful. They require careful fostering. Special arrangements are being made for their supervision by persons who have some special knowledge of these subjects, and it is hoped that in this way these classes will receive a fresh impetus. Spe tion

Primary Education for Indian Boys.

12. The increase in the number of schools and scholars by 1·1 *per cent.* and 2·1 *per cent.* respectively is undoubtedly a matter for congratulation. Such a result could scarcely be looked for in view of the fact that the policy, very properly followed in recent years, has been to demand an increased standard of efficiency before putting a school on the aided or stipendiary list. Further advance may now be reasonably anticipated, and, if we are able to remove certain hindrances which are at present operating to retard progress, the future may be considered to be hopeful. The first of the drawbacks referred to is the present system of vernacular instruction with courses which are too advanced and too diversified, and with text-books not written in language commonly used by the people but in an unfamiliar literary style. Much progress has been made in the work of revision, and it is hoped that by the close of the current year it will be completed. Another cause which has had a distinctly depressing effect on primary education has been the abolition of the public examinations which were previously held at the close of the lower primary and upper primary stages. I have no wish to suggest a revival of the examinations as previously held with all their attendant evils; but I recognise that a stimulus which existed has been withdrawn and that nothing has been put in its place. Boys when they leave school want some form of certificate that they have passed through a given course. I think that it would be desirable to organise a system of leaving certificates based on the reports of the school authorities and a private examination conducted in the school itself by the inspecting officer. Such a system could very well be arranged as soon as the inspecting staff is strengthened. Pro hin pro

pils in the imary stage of truction.

13. The most correct view of public primary instruction is obtained by a consideration of the number of boys reading in the primary stage, whether in primary or secondary schools. Inclusive of pupils reading in the primary stage in secondary schools the total number of pupils under primary instruction was 1,011,290, as against 1,001,324 in the previous year. One boy in every 4 boys of a school-going age was under primary instruction.

hool buildings.

14. Bengal has hitherto had the unenviable reputation of being the most backward of all the Provinces in the matter of buildings for primary schools. Substantial progress was however made in the year under review, the Local Government assigning a sum of Rs. 5,03,598 towards the construction of suitable buildings on condition that a reasonable proportion should be contributed from local sources. During the current year and in future years very little expenditure in this direction will, I anticipate, be possible owing to the urgent calls for money in numerous other directions; nor am I personally of opinion that further money should be expended in this way. Government has set an example in the matter, and I consider that the most advantageous procedure to follow in future will be to promise specially favourable grants-in-aid where the residents of any locality are prepared to supply the funds necessary for building a school-house and to undertake to keep it in repair. I propose to work out a scheme on these lines as soon as practicable and to submit it for the consideration of Government.

Training Colleges and Schools for Indian Teachers.

Training colleges for teachers in secondary schools.

15. During the year under review His Majesty's Secretary of State accorded his approval to a scheme for the training of teachers who impart instruction through the medium of English. The establishment of training colleges for such teachers is one of the prime needs of the Province. Many—I might say a large majority—of the present staff of teachers are well educated men interested in their work, while many are devoted labourers. What is wanted however is that teachers should not only be well educated, but also be properly trained before they are allowed to take up the important work of secondary education.

Training schools for teachers in primary schools.

16. Most interesting is the experiment now being made as regards the training of the lowest grades of teachers of the country, that is to say, the teachers of the ordinary village schools. The work is a gigantic one, not only on account of the large number of teachers who require training—some thirty to forty thousand—but also on account of the very poor attainments of the men to be trained. Real progress has however been made, and a satisfactory scheme for gradually bringing all these teachers under training has been evolved. There will be two schools of this kind in each subdivision and such schools will be provided with suitable accommodation for the students and also for at any rate one member of the staff.

Proposed training colleges for female teachers.

17. As pointed out later when the subject of the education of women is dealt with, everything points to the fact that we have reached a stage where a very considerable expansion of this branch of education is likely to take place. In order to meet this we must however have respectable and properly qualified female teachers and inspecting agents. The prime need therefore, as regards this branch of education at the present time, is the establishment of training colleges for women teachers. It is a subject which is engaging the earnest attention of the Education Department and Government. In the meantime a decided step in advance has recently been taken in the sending to England of two Indian ladies to be trained at an English training college. If the proposed colleges for women teachers are established these ladies will be invaluable as members of the staff.

Statistics in respect of training schools for teachers, male and female, taken together.

18. The total expenditure under this head increased in the year under report by Rs. 31,903. The number of schools for male pupils and of male pupils has increased by 8 and 206 respectively; while, though schools for females have declined by 1, the number of female pupils has increased by 74. The year has been one of progress, but the progress can only be considered as an instalment towards what is to come.

Professional and Technical Education.

The Sibpur Engineering College.

Mining instruction.

19. The most important development made at the College during the year under review was the inauguration of classes for students who intend to take up mining as a profession. These classes have already been opened under a Professor of Mining recruited from the University of Birmingham, which is considered to be one of the best, if not the best, centre of mining instruction in England. Further, another Professor has been appointed to instruct persons actually engaged in the mining industry; and four centres of instruction have been selected—two in the Raniganj, and two in the Jheria, coalfield. It may also be mentioned that in addition to the schemes referred to above, a certain number of students from Bengal are each year being sent by the Government of India to go through a course of mining instruction at the Birmingham University. Four such students were sent home in the year 1904 and two in the year 1905.

Mechanical testing.

20. A question of considerable importance was under discussion during the year under review in connection with the establishment at the College of a laboratory for mechanical testing. Work of this nature has been carried on at the College on a small scale for some time past; but the amount of work to be disposed of has increased so largely that a proposal to appoint a whole-time officer to deal with it is now under consideration. It is expected that the chief volume of work will come from Departments of Government; but it is proposed to make the laboratory available to the public, subject to the payment of fees according to a scale to be approved by Government.

Results of examinations.

21. The results of the B. E. and F. E. examinations were satisfactory. In the former the percentage of success was 34·6, as compared with 25·9 and 46·1 in the two preceding years (1904-1905 and 1903-1904); while in the latter it was 53·3, as against 25 and 60·8 in the same years. The attendance at the College (82·2 *per cent.*) was not as good as in the previous year, when it was 92 *per cent.* This was owing to the fact that the year under review was a very unhealthy one at Sibpur; the daily average number of students under treatment, chiefly on account of malaria, being 22. The total expenditure of the College was Rs. 1,57,916, of which Rs. 1,29,249 were contributed from Provincial revenues, Rs. 22,405 from fees and Rs. 6,262 from other sources.

Draftsman Classes.

22. A strong need having been felt for the establishment of classes for draftsmen, steps were taken during the year under review, with the help of representatives of leading Railway Companies and Engineering firms, to establish such a class; and it is hoped that the scheme will be brought into operation during the current year.

Motor Car Driver Class.

23. At the instance of the Automobile Association of Bengal a scheme is under the consideration of Government for the establishment of a class at the Sibpur Engineering College with the object of giving to men intending to become drivers of motor cars a mechanical training such as will enable them to execute all ordinary repairs.

Industrial Chemistry.

24. In order to meet the growing industrial needs of the Province a scheme is under consideration for the establishment of Industrial Chemistry classes at the Sibpur College. The details of the scheme have still to be worked out.

Commercial Classes.

The new scheme of commercial education.

25. A new scheme of Commercial Education, which was elaborated in consultation with the Bengal Chamber of Commerce and the Bengal National Chamber of Commerce, was inaugurated at the Presidency College on the 1st July 1905. The scheme consists of two parts, the one comprising a day course, every part of which is obligatory, extending over a period

of two years and the other a series of evening lectures on certain subjects, any one or more of which may be selected at option. It is too early yet to judge how far this scheme will prove effective and adequate. The day course is the principal one; and, as stated above, it extends over two years. The first examination of students under the new scheme for the day course will therefore not take place till April 1907. The evening classes have hitherto not proved a success, and in fact it is doubtful whether in this climate such classes can be expected to achieve results such as are obtained in Europe. The immediate need in respect of these classes is to remove them from the Presidency College, where they are cramped for room, to the business part of the city. It is unreasonable to expect business men after a long day's work to travel any considerable distance for the purpose of attending the evening classes.

26. The commercial education provided at the Presidency College aims only at turning out men qualified to be good clerks. If the present scheme proves a success, it will obviously be necessary to provide before long for a superior commercial education such as will fit a man to conduct a business on his own account. Meantime, the proposal recently made by the Government of India to send scholars to England for an advanced course of commercial education will meet a distinct want in this Province.

Industry.

27. The Government of India have sanctioned the opening of a Weaving School at Serampore, and it is hoped that it will be possible to commence work in the coming cold weather. The object of the scheme is, firstly, to bring home to the ordinary artisans the latest improvements in respect of weaving apparatus, and, after supplying them with the necessary instruction, to give them advances of money in order to enable them to purchase the necessary apparatus; and, secondly, to train up higher class students with the object of enabling them to become teachers of improved methods in outlying centres or to start businesses of their own in the weaving line.

28. These schools increased during the year from 30 to 41. There is a great opening here for development, but no substantial results can be expected until a special officer is appointed to have charge of all the technical and industrial schools. These schools at present languish for want of encouragement. As indicated above, a proposal is now under consideration for the appointment of a special officer for the purpose.

Education of Indian girls in secondary and primary schools, and zanana education.

29. As I stated above in connection with the urgent need for respectable and well qualified women teachers and inspecting agents and the proposal to establish training colleges in order to meet that need, everything points to the fact that we are on the eve of a large expansion of education for women and girls. The people are willing to welcome such an expansion provided that progress proceeds on lines that are not antagonistic to their conservative instincts, with which sympathy should be shown. The policy must not be destructively radical, but progressively conservative. We can only advance by devising measures which are not inconsistent with prescription, to which in the past insufficient concessions have been made. We must not run amuck against tradition, but must carry tradition with us on the lines of progress. The recent history of this branch of education in Egypt throws a vivid light on the question as it affects India. There, as the report of His Majesty's Agent and Consul-General for the year 1905 tells us, the reluctance of parents to send their daughters to school has already been largely overcome. I quote the following passage from the report:—

"It is to be observed that the steady output of boys from Secondary Schools and Higher Colleges has distinctly stimulated the movement for female education, for the younger generation are beginning to demand that their wives should possess some qualifications other than those which can be secured in the seclusion of the harem. The interaction of the two branches of education does not stop here, for not only has the growth of education among boys stimulated the desire for instruction to girls, but it has also tended to improve

the quality of education given to the girls by prolonging the period of instruction. There appears good reason for supposing that, where education has made progress, the age of marriage has risen, and that, in consequence, the girls are allowed to remain longer than heretofore at school."

May we not hope that progress will follow the same lines in this country? Signs are not wanting that the advance in this Province will be general and not merely confined to the Bengali-speaking districts. In fact some of the most progressive districts in this respect are in Bihar, which is usually considered a backward part of the Province from an educational point of view.

Statistics.

30. During the year under review secondary and primary schools for girls increased from 2,563 to 2,877 and female students in such schools from 59,034 to 65,632, that is to say, by 12·3 and 11·15 *per cent.*; respectively; while the total number of girls under instruction in primary and secondary schools for girls and boys increased from 102,546 to 109,078, or by 6·37 *per cent.* Simultaneously, expenditure in connection with secondary and primary girls' schools has increased by Rs. 42,731.

European education.

Backward condition.

31. Last year when reporting on the general condition of European education in Bengal the Inspector spoke in no doubtful terms of its unsoundness and urged the unwisdom from a political point of view of allowing this unsoundness to continue. In reviewing these remarks the Government of Bengal stated in its Resolution that the political consequence of such a state of things could not be regarded with indifference, because, restricted as Europeans and Eurasians are in their choice of the means of livelihood, their educational fitness is a matter of great importance. Judged by the results of the year under review European education in the Province, except in the case of a few superior schools, cannot be considered to be satisfactory. Of the 74 candidates who entered for the High School Examination, 20, or 27 *per cent.* only, passed. Of 81 candidates who entered for the Middle School Examination 14, or 17·2 *per cent.* only, were successful. Still more significant perhaps is it that out of 49 boys who, having completed their school education, were sent up for the Middle School examination before being sent out into the world, only 5, or 10·2 *per cent.*, were able to pass. The Inspector of European Schools remarked in his report for 1904-1905 "that a certain amount of proficiency was obtained by boys in elementary arithmetic, but that, with this exception, the work was poor and slovenly to a degree." His criticism still holds good. The picture presented is, as far as the past is concerned, indeed gloomy from every point of view. Some of the leading schools of the Province are still struggling under a burden of debt which makes any real progress impossible. Many are working in buildings which are admittedly quite unsuitable, while all practically are striving to accomplish tasks for the performance of which their resources are inadequate. Inspectors have told us that the work of the schools is bad, and employers of labour have testified to the truth of this criticism.

Hope for future.

32. The question therefore to be answered is what is to be done. The reply seems to me to be that we must have a better scheme of work and better teachers. Dark as the past has been, I am thankful to say that the future is not without hope. Proposals for revised courses of study, approved by a representative conference of school managers, teachers and others interested in European education, have already been submitted to Government, and, when these are approved, we shall at least know that the system upon which we are working is sound. In order however to give a sound education on the revised lines we must have better qualified teachers, and in this respect we should indeed have been in bad case had not the Government of India come to our rescue and begun to make special provision for European education. Gradually the circumstances of each school will be systematically overhauled, and such assistance as is required will be given in order to enable it to work up to a higher standard. The work has already begun, and, slow though the progress may be at first, I am full of hope that the corner has been turned and that a new era has begun.

Muhammadan Education.

33. It is very satisfactory that the reaction reported last year has been arrested. In the years 1902-1903 and 1903-1904 the increase in the number of Muhammadans attending all classes of educational institutions was 5·8 and 11·7 *per cent.* respectively, and a hope was expressed that a real and lasting awakening had occurred on the part of the Muhammadan community to the advantages of education. In the year 1904-1905 however there was a sudden decline of 3·1 *per cent.* The increase in the year under review of 3·0 *per cent.* is therefore encouraging. A further impetus may also be anticipated in the near future because a scheme for bringing under the grant-in-aid system the indigenous Muhammadan primary schools which exist throughout the Province is now being brought into full operation. These schools will be aided on condition that they conform to simple departmental standards.

Education of Special Classes.

34. There is a wide field awaiting exploration in connection with aboriginal and backward races and tribes, and indigent Muhammadans and Hindus. These people can only be reached by an extensive development of primary education, and this can only be done as a result of considerable expenditure. We have already reached the better classes and the more accessible tracts of country, and any step now taken in advance will, for obvious reasons, be more costly. At present, if we had the money, the experiment would be of doubtful value, for we have not the necessary supervising staff. As soon however as that staff has been strengthened, the time will have arrived for a forward move.

35. The most satisfactory feature of the year's working was the marked improvement in respect of discipline and conduct in the reformatory schools. There is no doubt that this result is due to the policy laid down by Government that the boys are to be treated as if they were at school and not as if they were in jail. In pursuance of this humane and civilising policy, many important reforms are now in process of development. The chief of these are:—

(1) the project for the removal of the Alipore Reformatory School from its present site near the Alipore Jail to a site in the suburbs, where there will be no jail associations and where there will be plenty of room for play-grounds;

(2) the development of the industrial training given at the schools, and especially at the Alipore School, on more advanced and scientific lines:

(3) an improved and more conciliatory system of watch over discharged boys; and

(4) last, but certainly not least, a proposal to replace, as far as possible, the present illiterate guards by resident teachers qualified to influence the lives of the boys for good.

Hostels and Messes for Indian students.

36. A strong forward movement is being made in regard to the provision of hostel and mess accommodation for students of all classes. Both in Calcutta and in the Mufassal steps have been taken by Government to provide students, who do not live with their parents or guardians, with some kind of residence under supervision. The project is in an experimental stage at present and it would be rash to pronounce upon it. There is good reason however to believe that it will gradually develop into an orderly scheme which will be of the greatest benefit to students. The new Calcutta University regulations make residence in either a hostel or mess under supervision compulsory and so set the seal to a scheme which was initiated in anticipation of their enactment. The next step to be taken will be to inaugurate a scheme of residence for school boys who do not reside with their parents or guardians. This will be an easier matter, because in the case of such students a large proportion come from the immediate neighbourhood of the schools and hence do not require provision to be made for them. In some places what is chiefly required in

regard to schools is the provision of hostels so as to enable boys from the interior of the districts to take advantage of higher education. This they are at present unable to do owing to the absence of the necessary facilities.

37. The number of hostels increased from 310 to 377, the number of inmates from 9,478 to 11,424 and the expenditure from Rs. 3,24,457 to Rs. 3,77,403. All this is satisfactory, and it is also satisfactory that the bulk of the money expended, viz. Rs. 3,36,122, came from private sources.

The Central Text-Book Committee and the Calcutta School Book Society.

38. The working of the Central Text-Book Committee has recently been adversely criticised, the main objections raised being:—

(1) that the preliminary examination of text-books which is required under standing orders before their submission to the Text-Book Committee should not, as heretofore, be conducted in a confidential manner, but that the names of the persons consulted should be made public,

(2) that members of the Text-Book Committee should be remunerated for their work, and

(3) that the exclusion from the Text-Book Committee of persons who are authors or who have any interest in the production of text-books has the effect of depriving the Committee of the services of the very persons whose services would be of real use.

These questions are now under consideration in connection with a proposal which has been made by certain publishing firms in Calcutta that the School Book Society should be abolished on the ground that it interferes with private trade. The functions of the School Book Society and the Text-Book Committee are interconnected, and the questions raised will be dealt with together.

CHAPTER II.

CONTROLLING AGENCIES.

Managing Agencies.

39. Of the 38,781 institutions for public instruction which were in existence during the year under review, 950 were under public, and 37,831 under private, management. Of the 37,831 institutions under private management, 30,472 were aided by Government and 7,359 unaided. The bulk of the primary schools of the Province were under private management. Thus, of a total number of 36,533 primary schools, as many as 35,961 were under such management, 29,193 of these being aided by Government and 6,768 unaided. The proportions were very similar in regard to secondary schools. The total number of such schools was 1,534. Of these 1,314 were under private management, 987 being aided by Government and 327 unaided. Again, as regards colleges, although in this case the proportion under public management was greater, more were under private, than were under public, management. Thus, of 49 colleges, 18 were under public, and 31 under private, management; while no less than 25 of the colleges privately managed were unaided. It is only as regards training schools that Government took the lead, managing 112 such schools, as against 26 which were under private management.

The appointment of an Assistant Director of Public Instruction.

40. The appointment of an Assistant Director of Public Instruction was sanctioned in the year 1902-1903 with the object of enabling the Director to devote more attention to important cases and to enable him to carry out better his duties of inspection. The work to be done has however increased so largely in recent years, owing to the much greater amount of attention that is being paid to education and the enhanced expenditure incurred thereon, that this appointment is not at the present time, I consider, sufficient. As indicated in the chapter on Professional and Technical Education, the appointment of a

tion; and I am of opinion that the time is [illegible] recognised that the Director requires other officers to assist him, possibly a Deputy Director for secondary, and another for primary, education. At the present time it is only by excessive strain upon the Director and Assistant Director that the work is done at all, and I am fully conscious that even in this way it is not done as it should be. To take one branch of the duties of the Director as an example, the Director has only been able to absent himself from Calcutta on inspection duty, since the date of the appointment of an Assistant Director, for, on an average, 41 days a year. This is, I consider, quite insufficient; but the explanation lies in the fact that the work to be done by him is excessive.

The Reorganisation Scheme.

41. The sanction of His Majesty's Secretary of State was received during the year under review to the scheme of reorganisation of the Provincial and Subordinate Educational Services, and for the creation of a Lower Subordinate Educational Service to include the large majority of the ungraded educational appointments. The lowest grade in the Provincial Educational Service has been raised from Rs. 150 to Rs. 200, the number of appointments in the higher grades has been increased, and a new grade on Rs. 350 has been created. In the Subordinate Educational Service 163 appointments have been added, 163 ungraded men being included in that service. Lastly, a Lower Subordinate Educational Service has been created with five grades, carrying incremental salaries, for men who hitherto have been on fixed salaries outside any graded service. The cost of the scheme, as regards this Province, comes to Rs. 1,41,147 a year. The scheme, which will take effect from the 10th September 1905, will shortly be promulgated by Government. The distribution of the staff between Eastern Bengal and Assam and this Province, and the consequent necessity of making references to the former Government, has been the cause of the delay in the publication of the project.

Increase of the inspecting agency.

42. The Indian and Provincial Educational Services are at the present time undermanned and unable to cope satisfactorily with the work to be done. The pay and prospects of the men in the Provincial Educational Service have been improved by the reorganisation scheme above referred to, but the number of appointments in that service has not been enhanced. The numerous educational reforms which have been initiated in recent years have entailed upon these services a large amount of additional work; but the additional appointments made to the services in question have not been by any means commensurate with the increased responsibilities involved. A scheme for increasing the inspecting agency has recently been sanctioned by His Majesty's Secretary of State, and, when it is brought into operation, a much needed relief will be afforded in one branch of work. The scheme provides, subject to the allotment of the necessary funds by the Local Government, for the appointment of 9 Inspectors, 14 Assistant Inspectors, 50 Deputy Inspectors, 160 Sub-Inspectors, and 100 Assistant Sub-Inspectors, of Schools. Inasmuch however as the scheme was proposed with reference to the needs of Bengal prior to the Partition, the Government of Eastern Bengal and Assam is entitled to a share of these appointments, which may roughly be taken at one-third. The cost of the scheme, as regards this Province, is Rs. 4,00,750 a year.

Inadequacy of the professorial staff.

43 The question of the adequacy of the professorial staff has still to be considered. The Commission appointed by the University of Calcutta to inspect Calcutta and mufassal colleges has recently reported that the professorial staff is decidedly undermanned. The Commission has thus expressed itself at page 22 of its Report on Mufassal Colleges :—

"It follows that if we are convinced of the expediency of changing the type of education given we must greatly strengthen the teaching staff. For the adequate carrying out of the new type of instruction the staff needs almost everywhere to be increased in number.

"If we now bring forward the other claims of the new ideal and lay down that in addition to more exacting forms of class work the staff of a college is also to be responsible for the general, physical and moral well-being of all its students, the inconformity between aspiration and resources is pushed still further. We have very greatly increased the load of work and responsibility on our staff by introducing new conceptions of duty; we have done nothing to lighten the burden. It becomes still clearer that the old scale of staff is no longer adequate."

The Commission then goes on to recommend that for the present a proportion of 1 to 15 between the staff and students should be regarded as the lowest proportion of teachers that is compatible with efficiency. Definite proposals have been called for by me from Principals of colleges, and a report will shortly be submitted to Government making suggestions as to the increase which is required in the Indian and Provincial Educational Services.

The transfer of Sub-Inspectors of Schools from the control of the District Boards and Municipalities.

44. During the year under review Sub-Inspectors of Schools in the employ of District Boards and Municipalities were transferred to the Department. Great difficulties were experienced as regards the transfer and promotion of Sub-Inspectors of Schools as long as their appointment rested with the local authorities. Invidious distinctions were also created under the old system between the pay and the prospects of departmental and non-departmental Sub-Inspectors. Further, it was felt that the responsibility for inspecting schools should, as in other Provinces, rest with the Department and not with the local authorities which were charged with the duties of maintaining and aiding schools. The prospects of the Sub-Inspectors have been materially improved by the change.

Female Inspecting Agency.

45. In a recent report to Government I pointed out the very rapid increase in the number of girls' schools, and that, owing to the inadequacy of the inspecting agency, many schools and much zanana teaching work went altogether uninspected. I stated that in my opinion at least thirteen additional Assistant Inspectresses were required; but that I was constrained, owing to lack of funds, to limit my application to the immediate appointment of three such officers. I also shewed the necessity of appointing an additional Inspectress of Schools and foreshadowed the probable need, before many years had elapsed, for an Inspectress of Schools in each Division in which there is an Inspector of Schools. Government has since sanctioned the appointment of the three additional Assistant Inspectresses, while the question of appointing an additional Inspectress is under consideration. I have in the chapter on the Education of Indian Girls commented on the pressing need of more well-qualified female inspecting agents, and, as soon as funds are available, I shall submit a further representation to Government on the subject.

Functions of District Officers and their Assistants.

46. Important circulars were issued during the year under review both to educational and executive officers inviting their attention to the instructions which had been issued from time to time by the Government of India and the Local Government concerning the duties of executive officers in regard to educational work and reminding them of the necessity for mutual co-operation in all branches of education, and specially in the matter of primary and secondary education. These instructions were in certain quarters regarded as likely to cause undue interference by executive officers in educational matters. The misconception, where it existed, was, I think, due to a want of appreciation of the fact that the special knowledge of a district which an executive officer possesses is indispensable to the organisation of school education. In this connection it may be observed that in the Resolution of the 28th October 1899 on Mr. Cotton's Review, the Government of India observed:—

"Revenue officers are in no way relieved of that duty (*i.e.*, inspection) by the transference of schools from their charge to the charge of Local Boards. The District Officer has many a burden laid on him, but village schools' inspection is a very necessary duty and must be insisted on. Where Revenue Officers cease to interest themselves in the cause of

ld specially observe how far it is performed."

That a great improvement has been effected in this respect is clear from the fact that I am able to record my marked appreciation of the very valuable services which are being rendered to the Education Department by executive officers of all ranks.

District Board and Municipal Management.

47. It has been generally reported that District Boards and Municipal Committees have worked harmoniously with educational officers during the year under review. There was a larger expenditure on education from both District and Municipal funds—in the case of the former the increase has been from Rs. 11,50,315 to Rs. 11,77,325, or by 2·35 *per cent.*, and in that of the latter from Rs. 1,01,831 to Rs. 1,05,520, or by 3·6 *per cent.* In not a few cases, however, it is reported that Municipal Committees failed to expend the prescribed proportion of their income, viz., 3·2 *per cent.*, on primary education. The necessary explanations are being called for.

Inspection Work.

48. The late Director was only able to spend 35 days on tour during the year under review. This was presumably owing to the fact that he was much detained in Calcutta during the cold weather in connection with the framing of the new regulations of the Calcutta University. I spent 17 days on tour after joining the office of Director towards the end of the year and before taking over formal charge on the 31st March 1906. The work of inspecting officers of all grades was generally very satisfactory. Explanations are being called for from certain Sub-Inspectors who failed to conform to the standing orders as regards the amount of touring required of them, and due notice will be taken in cases in which the explanations submitted are unsatisfactory.

CHAPTER III.

THE CALCUTTA UNIVERSITY AND COLLEGIATE EDUCATION.

The Calcutta University.

new regula-s.

49. The University was unable to finish its work in connection with the new regulations under the Universities Act, 1904, before the close of the year under review. The completion of the work was therefore assigned to a special committee appointed by the Government of India. The new regulations were approved by that Government on the 11th August 1906.

pection of ges.

50. A very important event of the year as regards collegiate education was the systematic inspection of colleges by a Commission appointed by the Senate of the University. The report submitted by the Commission has brought to light numerous defects in the administration of colleges, and in particular has laid stress on the inadequacy of the professorial staff and the insufficiency in many cases of the accommodation and equipment. The Commission's report will be of great value when steps are taken to enforce the new University regulations.

nts by the ernment of a to the versity.

51. During the year under review a grant of Rs. 30,000 was made by the Government of India to the University for the purpose of improvements to privately managed Colleges. In making the grant the Government of India observed that it was important that adequate arrangements should be made for the residence of students who do not lodge with their parents, guardians or relations and for the supervision of resident students. Mention was also made of improvement in teaching as a proper object of expenditure. Pending the receipt of the report of the Commission referred to in the last paragraph, the Syndicate was unable to submit its recommendations on the

subject, and hence no expenditure was incurred during the year under review. The sum referred to has however been regranted, and will, with a further sum of Rs. 80,000 granted for the current year, shortly be distributed among the colleges by the Local Government after consideration of the recommendations of the Syndicate on the subject. I have expressed a hope elsewhere in this report that these grants may chiefly be utilised in making a beginning towards the provision of hostel accommodation for students. I know of no more urgent need.

General Statistics of Arts Colleges.

52. The total number of Arts colleges during the year under review was 34. The Doveton College has submitted no returns and apparently has no collegiate classes at present. Of the 34 colleges, 10 were under public, and 24 under private, management. Of the 10 colleges under public management, 8 were Government colleges and 2 were managed by local authorities. Of the 24 colleges under private management, 6 were aided and 18 unaided. Of the 34 colleges, as many as 17 are in Calcutta, 4 being Government, 4 aided, and 9 unaided, colleges. N

53. There has been but little change as regards expenditure. Of the total expenditure of Rs. 7,65,695, Rs. 2,77,480 were derived from public, and Rs. 4,88,215 from private, funds, *i.e.*, 36 and 64 *per cent.*, respectively. The large proportion of the cost of higher education paid from private sources is very noteworthy. E

54. The cost *per annum* of educating a student is rising considerably. It was Rs. 110 in 1903-1904, Rs. 124 in 1904-1905 and Rs. 136 in the year under review. The difference in the cost at the several colleges is most striking, the highest rates being Rs. 458, Rs. 304, and Rs. 264 at the Sanskrit, Patna, and the Presidency Colleges, respectively, and Rs. 31 at the Ripon College and the Church Missionary Society's College. At the Bethune Ladies' College, where the number of students is small, the cost rises as high as to Rs. 608. C

Attendance.

55. The total attendance at colleges has declined from 6,400 to 5,675. The decline occurred chiefly at aided and unaided colleges. Of the number of boys of a school-going age, 1 in every 695 was in an arts college during the year under review, as against 1 in every 711 when the Fourth Quinquennial Review was written. Of the total number of students, 1,413 were in colleges under public management; of these again, 1,334 were in Government colleges, a small balance of 79 being in colleges managed by local authorities. Of the 4,262 students in privately managed colleges, 1,381 were in aided, and 2,881 in unaided, colleges. G

The Presidency College.

56. The Presidency College had 698 students on its rolls on the 31st March 1906. The Principal reports that the class rooms are seriously overcrowded and that the college is not capable of accommodating with advantage more than 400 to 500 students. I cite below what the Commission referred to above has said on the subject:— C

"The Presidency College is considerably the largest, and, in certain respects, by far the best equipped college in Calcutta. The class-room accommodation is not, however, enough for the great number of students attending the college, and the rooms are faulty in arrangement. The numbers in the Arts classes have greatly increased since the college was built, and latterly the numbers have been further swelled by the addition of commercial classes. The class-room accommodation remains unaltered, and consequently there are not class-rooms enough for all purposes, and some classes are so large as to overcrowd the existing class-rooms. Classes that were formerly divided into sections are now kept undivided, and as the size of the class-rooms has not expanded, the inevitable result has been overcrowding. This overcrowding is an evil in two ways. Students have to sit so close together that they cannot write with any comfort or ease. The classes are too large for satisfactory teaching, and even the maintenance of order is made difficult. The present congestion of numbers is a grave defect and calls for immediate remedy.

* * * * * * * * * *

Either the numbers must be reduced, or the college must be enlarged and extended or rebuilt on a more open site."

Proposals for improvement.

57. Proposals are now under consideration either for largely extending the college on its present site or removing it to another site in the neighbourhood of Calcutta. This is a question in which the public is interested and in regard to which it will, no doubt, be fully consulted.

Accommodation at Government colleges generally.

58. The general subject of accommodation at Government colleges will also be considered together with that of strengthening the professorial staff. The first question to be decided in each case will be how many students each college is, or should be made to be, able to accommodate with advantage, and then what staff is required in order to give that number effective teaching.

The Principalship of the Presidency College.

59. Closely connected with the working of the Presidency College is the question of the Principalship. This is what the Commission referred to above says on the subject:—

"The Principal's position is most unsatisfactory, if he may be regarded as the head of a learned society, and as invested with the control and management of the largest and most advanced body of students in the Presidency. He is over-burdened with routine work of a multifarious description, which leaves him little leisure for the consideration of questions truly educational and the adequate discharge of his responsibility for the intellectual and moral welfare of seven or eight hundred students.

This is at once evident if the position and duties of the Principal of the Presidency College are compared with those of the head of an educational institution on the same scale and of the same character out of India. Until this anomaly is altered, it is idle to look for a really satisfactory carrying on of the Presidency College as an educational institution. To effect a change for the better the Principal must be relieved, wholly or in part, of his grave financial responsibilities and of the bulk of that routine office work which consists of signing his name and checking items of expenditure. However great may be the departmental convenience of the present arrangement, it is fatal to real educational efficiency, and the Presidency College is first and foremost an *educational* institution. A separate (fully responsible) officer is needed for the purely business work of the College. The Principal of the Presidency College is also at present, quite unaccountably, President of a Reformatory. The connection between this responsibility and the management of a great college is difficult to understand. In all these respects the position of the Principal of the Presidency College contrasts unfavourably with the position of the Principal of every other college affiliated to the University."

In my opinion not only should the views of the Commission be adopted—and their views are receiving my attention—but the Principal of this college should be given an allowance over and above his ordinary pay. We want one of the best men in the service for this post, but at present we penalise him (1) by giving him exceptional responsibilities and (2) by making him live in the most expensive place in Bengal. This aspect of the question will also receive my consideration when I submit proposals as regards increasing the professorial staff.

The Patna College.

60. Extensive improvements are in process of development in respect of this college. In the first place, a considerable area of land in the neighbourhood of the college is being acquired in order to make the college premises more compact and to provide room for additional buildings. Secondly, arrangements are almost complete for the construction of a hostel for Hindu students to be called the "Minto Hindu Hostel," to be built with money subscribed by the Maharajas of Darbhanga, Gidhour and Sonbarsa, the Raja of Khaira and the Maharanis of Bettiah, Dumraon and Hatwa in honour of the visit to Bankipore of His Excellency the Viceroy during the year under review. Further plans involve the construction of a hostel for Muhammadans, new Science Laboratories, houses for the Principal and for one of the professors of the college, and a gymnasium.

Examinations.

61. The Entrance Examination results were exceptionally bad, the percentage of success in regard to this Province being 26·4 only; and a cry has been raised that innocents have been massacred. A special committee of the Senate has been appointed to investigate the subject. Unaided colleges did much better both in the F.A. and B.A. examinations, the percentages of success being 31·29 as against 23·76 in the year 1904-1905 in the former, and 20·8 as against 15·8 in the latter, case.

Collegiate Education for Women.

62. The Bethune College, Calcutta, is the only college for ladies in Bengal. There are however University classes attached to Loreto House, Calcutta. The number of students from these institutions fell off during the year under review from 32 to 19. The examination results of the Bethune College are however strikingly good. Out of 7 candidates sent up for the F.A. examination 6 passed; while out of 4 candidates sent up for the B.A. examination 2 passed.

Residence, Common-rooms, Games and Discipline.

63. I am recording what I have to say under these heads in the chapter on "Physical and Moral Training."

Laboratories and Accommodation for Scientific Departments.

64. Mr. Cunningham, Professor of Chemistry, Presidency College, strongly urges the claims of his department to radical reform. He lays special stress on the want of accommodation, the interruption of lectures caused by the noise from the surrounding streets and bazaar, the dirty state of the chemical laboratory owing to the dust and dirt of the neighbourhood, the inadequacy of the funds supplied for carrying on the work of the laboratory, and the insufficient pay of the menial staff. He also reports that important groups of magnetic and electrical measurements cannot be made within an area surrounded by electric trams, and that therefore the use of such instruments cannot be taught to students. The want of accommodation for the Science Departments of this college has been amply demonstrated by the Commission which recently inspected colleges. As indicated above, proposals are under consideration either for largely extending this college on its present site or removing it to another site in the neighbourhood of Calcutta. The urgency of this matter will be at once apparent when it is remembered that the Intermediate examination in Science will be held for the first time in accordance with the new regulations in 1909. The regulations include an insistence that all students presenting themselves for this examination shall produce a certificate stating that they have completed a course of practical work in each science. The teaching for this examination will begin in July 1907. The first batch of students will have to be satisfied with beginning their practical work in July 1908; but in subsequent years it will be necessary to get through some of their laboratory work in their first year. Thus, entirely new practical classes will have to be provided for in addition to a much more thorough training during subsequent years in remodelled or newly constructed laboratories. The other questions raised by Professor Cunningham are, I hope, capable of easy solution: they are receiving my attention. Professor Cunningham also makes serious complaint as regards the delay caused by the present system of indenting for apparatus for the laboratory. In this connection I may mention that the Commission has pointed out how seriously Government colleges are handicapped in this respect as compared with private colleges. I have discussed this matter in the chapter on "Professional and Technical Education," and stated that I would make a representation on the subject to Government.

Scholarships.

65. The Education Commission of 1882 recommended that Local Governments should be asked "to consider whether it was necessary to assign for scholarships tenable in Arts Colleges a larger proportion of the Provincial grant for education than 2 *per cent.*" This proposal was confirmed by the Government of India in their Resolution on the report of the Education Commission, and orders to the same effect were reiterated by that Government in their Resolution on Mr. Cotton's Third Quinquennial Review of Education, in which it was pointed out that the 2 *per cent.* limit had been considerably exceeded in Bengal. Accordingly, in the year 1900 the Bengal Government reduced the value of both the Senior and Junior Scholarships so as to conform to the orders of the Government of India. The reduction gave rise to much discontent, and in the year 1904 the whole question was again discussed. It was then found

that, owing to the increase in the amount of the Provincial grant for education, the values of the scholarships could be raised to their former amounts, and also that the number of the scholarships could be increased without infringing the prescribed limit of expenditure. A scheme submitted to that effect by the Director was therefore approved, subject to the allotment of the necessary funds. Hitherto it has been found impracticable to give effect to the proposal owing to numerous calls upon available funds. I am however now referring the matter to Government, and at the same time am suggesting that a reference on the subject should be made to the Government of Eastern Bengal and Assam, so that both the Provinces may take similar action in the matter. I am of opinion that there is urgent need that the scheme provisionally sanctioned in the year 1904 should be given effect to as soon as possible. The new regulations of the University make greater demands upon students than those previously in force, and I consider it essential that poor scholars should have the fullest measure of consideration meted out to them.

Oriental Colleges.

66. Indigenous institutions for the study of Sanskrit and Arabic are dealt with in the chapter on "Private Institutions." I now deal with those oriental colleges which are returned as public institutions. These are the Sanskrit College, Calcutta, and the Arabic Department of the Calcutta Madrassah.

67. It is satisfactory to note that students are now beginning to take up for the Sanskrit Title Examination the more difficult and abstruse subjects, such as law and philosophy, instead of the easier subjects, such as literature and grammar.

68. The Principal of the Sanskrit College is charged with the duty of supervising the examination of candidates sent up, on the recommendation of certain recognised Associations, from institutions for advanced Sanskrit learning which conform to approved methods of teaching. These examinations lead up to the Title Examination referred to in the last paragraph. A question has recently been raised whether representative persons should not be associated with the Principal of the Sanskrit College in the superintendence of the several Sanskrit examinations. This matter is now under consideration.

69. The Calcutta Madrassah and private Madrassahs are mentioned in the chapter on Muhammadan Education.

CHAPTER IV.

SECONDARY EDUCATION FOR INDIAN BOYS.

70. As stated in the Fourth Quinquennial Review, the secondary stage of general education extends from the end of the primary stage, that is to say, the upper primary stage, to the end of the school course. In this Province it is a simple prolongation of the primary stage, and the pupil proceeds to the secondary course after traversing the full primary course, and often without change of school.

71. The middle school has all the primary classes, and merely carries the pupil two classes beyond the primary stage. Middle schools may however at option teach English as a language in the four top classes. A high school has all the classes of a middle school, but carries the pupil four classes higher, teaching through the medium of English in those classes. Boys studying in these four classes are considered to be in the high school stage.

Scope of the Chapter.

72. Following the method adopted in the Fourth Quinquennial Review, I deal in this chapter chiefly with the secondary stage of education, leaving the primary stage, even when the instruction is given in secondary schools, to the next chapter. Similarly, I relegate the secondary education of girls to the chapter on the Education of Indian Girls. Three hundred and sixty girls were reading in secondary schools for boys during the year under review.

These are included in the statements which purport to deal with the numbe of *pupils* in boys' schools. In other respects, this chapter deals only wit schools for boys and boys in secondary schools.

Secondary Schools.

73. The total number of secondary schools declined from 1,464 to 1,456, or by 8, in the year under review. The number of Middle English schools remained stationary, that of High schools increased by 2, and that of Middle Vernacular schools declined by 10. The decline in the number of Middle Vernacular schools is the inevitable outcome of the small value which attaches to a purely vernacular education. In years gone by a Middle Vernacular pass qualified a student for admission to Medical and Survey schools and to the Mukhtiyarship examination. This is no longer the case. The steady decline in the popularity of these schools must, in my opinion, culminate in their abolition as a separate class of schools. As indicated in the next chapter, there is only one examination held in this Province, that is to say, that held at the end of the middle vernacular course. It is however termed the "Primary Examination." It would be consistent therefore to consider all Middle Vernacular schools as Primary schools, as in the Bombay Presidency. This is a subject which is engaging my attention, and I shall, if necessary, make a reference to Government in regard to it. General stati of English a Vernacular s for boys.

74. In paragraph 316 of the Fourth Quinquennial Review the cheapness of an English Secondary school is commented upon. It is stated that the cost of such a school in the year 1901-1902 was Rs. 191 a month. This calculation evidently proceeds on the assumption that all Middle English schools should be classed as Secondary English schools. It has to be borne in mind however that no subjects are taught through the medium of English in these schools, but that English is taught merely as a language in the four top classes. These schools are really therefore Vernacular to a much larger extent than they are English. The monthly cost of a High school in the year under review was Rs. 362, and that of a Middle English school Rs. 67. On the other hand, if both these classes of schools be considered as English Secondary schools, as in the Fourth Quinquennial Review, the cost was Rs. 178, as against Rs. 191 in the last year of the last quinquennial period. Cost of Englis schools.

75. If we reckon Middle English schools as Secondary English schools, we find that of 1,029 such schools, 73 were under public, and 956 under private, management. Of the 73 schools under public management, Government itself only maintained 41, the rest being managed by the District Boards and Municipal Committees. The bulk of the schools maintained by Government are High schools, in pursuance of the established policy that there should be one Government High school in each district. Management o English Secon schools.

76. Of the 427 Middle Vernacular schools, 121 were under public, and 306 under private, management. Of the 121 schools under public management Government itself however maintained only 17. Management o Middle Vernac schools.

77. Of 956 privately managed English Secondary schools, 655 were aided, and 301 unaided. The proportion of aided schools was much greater in respect of Middle Vernacular schools. Thus, of 306 such schools, 263 were aided and 43 only unaided. The inference is obvious. People want schools where English is taught, and therefore contribute readily enough towards that form of education. Aid to privately managed Engli and Vernacula Secondary schools.

Statistics of Pupils.

78. Pupils in secondary schools increased from 145,094 to 147,516, or by ·66 *per cent.* Of the 147,516 pupils in secondary schools, 65,385 were in the secondary, and 82,131 in the primary, stage of education. The primary stage pupils are included in the statistics given in the chapter on Primary Education and are not taken into account in this paragraph. Of the 65,385 pupils in the secondary stage of education, 61,254 were in English, and 4,131 in Vernacular, Secondary schools. Again, of the 61,254 pupils in the secondary stage in English schools, 33,805 were in the high, and 27,449 in the middle, stage of instruction. One pupil was in the secondary stage of instruction in an English Secondary school to every 63 pupils of a school-going age, as against 1 to every 71 at the close of the last quinquennial period. On the Pupils in Sec dary schools and the secondary st of education.

other hand, 1 pupil was in the secondary stage of instruction in Vernacular schools to every 949, as against 1 to every 830 at the close of the last quinquennial period. The falling off in the latter case is due to the unpopularity of Verpacular schools noticed above.

Expenditure.

General statistics of expenditure.

79. There was very little change as regards either the expenditure on Secondary schools for boys or the sources from which that expenditure was derived. The total expenditure increased from Rs. 23,90,040 to Rs. 24,29,130. Of the last-named sum, Rs. 4,43,970 were contributed from public, and Rs. 19,85,160 from private, funds.

Cost of educating a boy.

80. The average annual cost of educating a boy in a High, Middle English and Middle Vernacular, School respectively during the year under review was Rs. 22, Rs. 12, and Rs. 9.

Subjects and methods of teaching.

Revision of the vernacular scheme of education as touching the lower classes of High schools.

81. I deal in the next chapter with the question of the revision of the vernacular scheme of education which was sanctioned by Government in 1901. As there stated, that scheme has resulted in comparatively empty lower classes in Government and aided High schools. Parents are anxious enough to send their boys to these schools as soon as they are fit for entry into the classes where the medium of instruction is English, because in general the teaching is better at such schools; but they not infrequently get them educated up to that stage in privately managed schools which are not subject to the vernacular system of education. It is hoped that the revision of the courses which is now to be taken in hand will result in modifying this anomalous state of affairs.

The teaching of English in the lower classes of High schools.

82. There is another reason for the preference for the teaching as given in privately managed schools. This is because in such schools more importance is attached to the teaching of English in the lower classes. It is true that in a Government or aided High school English is taught as a language in four classes below the fourth class, in which teaching through the medium of English begins. The transition from the fifth to the fourth class is however too abrupt, and it is long before the student begins to have any idea of what is being taught him through the medium of a foreign tongue. In fact, I am afraid that the teaching through the medium of English in this class is often a mere sham. As indicated in the next chapter, a revision of the courses of studies in the classes below the high school stage is under consideration, and this question will then be carefully considered. Possibly some system of oral instruction in English in the lower classes will be suggested, which will not at the same time cause undue interference with the main course of instruction, which is rightly given through the medium of the vernacular.

The teaching of English in the four top classes of High schools.

83. I comment in the chapter on Training Colleges and Schools on the urgent need for the training of teachers for High and other secondary schools, and allude to the steps that are being taken for the opening of training colleges for such teachers. The wonder seems to me to be not that so few students pass the Entrance examination as in the present year, but that so many are usually able to do so. I have in the last paragraph observed that it takes a boy a long time after entry into class IV of a High school to understand at all the instruction given through the medium of English. I fear that in a similar way boys who have passed the Entrance examination often have so little real knowledge of English as to make it impossible for them to understand their college lecturers when they first join a college. This is a complaint which I have frequently heard made. If, however, as may be hoped, the proposed Training Colleges are a success, there should before long be a great improvement in this respect.

Special instruction at selected Government High schools.

Industrial classes in High schools.

84. Under a scheme sanctioned by the Government of Bengal in the year 1900, boys who wish to enter an industrial career may, at certain selected High schools, instead of following the ordinary literary course up to the end of their school life, specialise during their last two years at school. Such

students take up as their subjects (1) Modern English, (2) Mathematics, (3) Drawing and practical geometry, mensuration, elementary engineering and surveying, and (4) Manual training. Those who are successful pass on to either a technical school affiliated to the Sibpur Engineering College or to the Apprentice Department of that college. Seven out of the ten High schools in which this system prevails are now in the Province of Eastern Bengal and Assam, but the Principal of the Sibpur Engineering College, in accordance with the wishes of the Lieutenant-Governor of that Province, still supervises the working of these classes. On the whole the classes have not been a success, especially in the schools which now remain in Bengal. These classes require very careful fostering, and in present circumstances they do not receive the attention which they require. If however a special officer is appointed, as suggested in the chapter on Professional and Technical Education, to supervise technical and industrial schools, these classes will come under more effective control and there should be a decided improvement.

Commercial c in High sch

85. In accordance with the scheme referred to in the last paragraph, boys who wish to enter a commercial career may, at certain selected High schools, instead of continuing the ordinary literary course up to the end of their school life, specialise during their last two years at school. The course has recently been revised, and comprises at present the following subjects:—

(1) Mathematics,
(2) Modern English,
(3) History and geography,
(4) Drawing and practical geometry, and
(5) A vernacular.

These classes have hitherto not proved successful. I have lately placed them under the general supervision of the Professor in charge of the Presidency College classes, and it is hoped that this measure may tend to increase their efficiency. As explained however in the chapter on Professional and Technical Education, the classes at the Presidency College, up to which they lead, are themselves in the experimental stage.

Agricultural classes in Hi schools.

86. At certain selected High schools provision has similarly been made for specialisation as regards agriculture during the last two years of the school course; practical training being given at the neighbouring experimental farms which are under the control of the Director of Agriculture. These classes have hitherto not been under expert supervision, and it is impossible therefore to say what success has attended them. The Director of Agriculture has kindly consented to supervise them in future, and the question of the instruction to be imparted at them is under his present consideration.

Examinations.

The Entranc examination the Middle S (now called Primary) examination.

87. I have in the last chapter commented on the results of the Entrance examination. The percentage of success for the year under review was 26·4 only. At the Middle School examination, out of 10,248 candidates, 7,761, or 75·7 *per cent.*, passed. The popularity of this examination has been enhanced by the decision to grant leaving certificates as a result of success at it. As indicated in the next chapter, no public examinations are held at the upper and lower primary stages, and the figures given in General Table VI against these examinations represent merely the results of class examinations.

CHAPTER V.

PRIMARY EDUCATION FOR INDIAN BOYS.

Scope of the Chapter.

Primary scho and primary departments Secondary sc

88. As stated in the Fourth Quinquennial Review, primary education may be regarded in either of two aspects, in the first place as the education given in primary schools, and in the second place as the primary stage of instruction, in whatever grade of institution that instruction may be received. This chapter is generally concerned with primary schools only; but, when the

courses of instruction in primary schools are discussed, the remarks made apply generally in regard to the lower classes of secondary schools in which primary instruction is imparted.

Primary schools for boys and girls.

89. There were 33,665 primary schools for boys and 2,843 primary schools for girls in the year under review. Over 24·7 *per cent.* of the male, and nearly 2·7 *per cent.* of the female, population of a school-going age are in the primary stage of education. Following the procedure adopted in the Fourth Quinquennial Review, I have relegated the subject of the primary education of girls to the chapter on Female Education, on the ground that it would mislead and confuse to amalgamate statistics for boys and girls. Owing however to the system of co-education which prevails in this Province, the figures for the pupils in boys' schools include a certain percentage of girls studying in such schools. The total number of such girls in the year under review was 43,086. This number is comparatively small and is included in statements which purport to deal with the number of *pupils* in boys' schools.

Primary Schools.

General statistics.

90. The number of public primary schools for boys rose from 33,298 to 33,665 and the pupils attending them from 909,971 to 929,163, or by 1·1 *per cent.* and 2·1 *per cent.*, respectively. In the Government Resolution on last year's annual report, it was remarked, in connection with the decrease that had occurred in that year in the number of primary schools and pupils attending them, that the policy, introduced within the last few years, of insisting on a certain degree of efficiency before putting a school on the aided or stipendiary list, had no doubt resulted in a considerable decrease in the number of schools and of boys attending them. Later on in this chapter I discuss at some length removeable causes which, I think, are operating to retard the progress of primary education both in primary schools and in the primary departments of secondary schools. I think it is a sign of the vitality of these schools that, notwithstanding our insistence on a higher standard of efficiency and the existence of the drawbacks to which I allude, their number and the number of pupils attending them now show a tendency to rise. The increase in schools and pupils is generally shared by all Divisions, except the Burdwan and Chota Nagpur Divisions. In the former the loss of schools amounted to 2·6 *per cent.* and that of pupils to 1·1 *per cent.* In the latter the number of schools decreased by 1·7 *per cent.*, while that of pupils attending them increased by ·2 *per cent.*

Upper and lower primary schools.

91. The bulk of pupils do not study beyond the primary stage and are taught in primary schools. Of the 33,665 primary schools of this Province, 2,867 are upper primary, and 30,798 lower primary, schools. Both classes of schools have increased, and with the increase in the number of schools, there has been a corresponding increase in the number of pupils attending them. Thus, upper primary schools have increased from 2,747 to 2,867 and the number of pupils attending them from 122,624 to 133,639; while lower primary schools have increased from 30,551 to 30,798 and the number of pupils attending them from 787,347 to 795,524.

Schools according to management.

92. Of the 33,665 primary schools which existed in the year under review, 204, or ·6 *per cent.*, were under public management. Of the 33,461 privately managed schools, 26,760 were aided by Government and 6,701 were unaided.

Statistics of pupils in the primary stage of instruction, whether in Primary or Secondary Schools.

General statistics.

93. As explained above the statistics of pupils may be regarded in either of two ways; firstly, with respect to pupils in primary schools and, secondly, with reference to pupils in the primary stage of instruction whether in primary or secondary schools. The number of pupils in the primary stage in primary and secondary schools in the year under review was 1,011,290, as against 1,001,324 in the previous year. This figure gives the most correct view of the general condition of public primary instruction. If the number of girls studying in boys' schools is excluded, 1 in every 4 boys of a school-going age is in the primary stage of instruction.

94. In the year under review 246 boys per thousand of a school-going age were in the primary stage of instruction in public schools. The figures for male literacy, estimated according to the present population, works out however to 107 per thousand only. As explained in the Fourth Quinquennial Review, the rudimentary character of the instruction given in many of the Bengal village schools may have some bearing on this circumstance. Proportion under instr and male li

Finance.

95. The total expenditure on boys' primary schools shews but a slight increase, the figures being Rs. 23,63,767 for 1904-1905 and Rs. 24,09,456 for 1905-1906. The last-named sum does not however take into consideration the expenditure incurred on the construction of buildings for primary schools referred to in the next paragraph. General sta

96. A large grant for primary education was made in the year under review by the Government of India. Out of this grant Rs. 5,03,598 were assigned towards the construction of suitable buildings for primary schools. Further sums, amounting in all to Rs. 75,381, were expended on various improvements connected with primary education, the chief of which was the development of indigenous Muhammadan schools (*maktabs*). A balance of Rs. 88,021 was not utilised during the year; but this sum will be available for expenditure in future years. The grant of Rs. 6,67,000 for primary educatien.

97. Of the total expenditure of Rs. 24,09,456 on primary schools for boys Rs. 8,45,663 were derived from public, and Rs. 15,63,793 from private, sources. Of the expenditure from public funds, Rs. 1,54,257 were derived from Provincial Revenues, Rs. 6,34,414 from District Funds, and Rs. 56,992 from Municipal Funds. The bulk of the money allotted to aided primary schools is given by District Boards. Thus, of Rs. 7,98,048 distributed by way of grants-in-aid to these schools, Rs. 1,33,976 were contributed by Provincial Revenues, Rs. 6,08,413 by District Funds, and Rs. 55,659 by Municipal Funds. Expenditure public and p sources.

Distribution grants by Go ment and by District Boar Municipaliti

98. A rule still exists that District Boards are required to spend not less than 10 *per cent.* of their ordinary income on primary education. Inasmuch however as the amounts which District Boards must spend on education have recently been fixed by orders of Government, the question whether this rule should be retained or be replaced by some other rule is now under consideration. Municipal Committees are required to spend 3·2 *per cent.* of their income on primary education, and, until this condition is fulfilled, they may not devote their funds to the aid of secondary schools. Rules regard District Boar Municipal ex penditure.

99. Reporting officers are unanimous that the present system of payment of teachers of primary schools, partly by a subsistence allowance and partly by subsequent annual lump payments, is working as well as it can be expected to do in present circumstances. The system will however work much more effectively when the inspecting staff is strengthened. Grant-in-aid s

100. The average cost of educating a pupil in a boys' primary school amounted, as in the previous year, to Rs. 2-9 a year. Cost of educ a pupil in a b primary schoo

101. The extraordinary cheapness of Indian primary schools has often been made the subject of remark. The average cost of a primary school in this Province for the year 1905-1906 was Rs. 6 a month, while the average cost of an unaided primary school was Rs. 3 a month. It is essential to bear the cheapness of these schools in mind when treating of problems concerning them and the teachers employed in them. Cost of a sch

Primary Education in the Darjeeling Hills.

102. At an important conference of officials and representatives of the planting community held in Darjeeling after the close of the year, the question of extending elementary education among the hill population was discussed, and it was decided that steps should be taken in that direction; the understanding being that Government should give liberal grants-in-aid, and that tea garden managers on the other hand should provide the sites and the school buildings and keep the latter in repair. The matter has since been discussed by the Darjeeling Planters' Association, and the conclusions arrived at by the conference have been endorsed. Steps are therefore being taken to provide Conference at Darjeeling.

for the training of teachers for the proposed new schools, and it is hoped that the current year will see a commencement of a forward movement.

Night and Continuation schools.

Night schools.

103. As will appear from the Fourth Quinquennial Review the night school system has never had much success in this country, and the number of schools and pupils in the three Presidencies (Madras, Bombay and Bengal) in which the system referred to has been tried, has gradually been declining. The decline still continues in Bengal, the number of schools and pupils having fallen from 784 and 16,081 to 773 and 15,873, respectively. Circumstances are altogether against the system in India. Owing to climatic conditions the very people who would derive benefit from these schools, if they were able to attend them, are fatigued at the end of a day's work, and have no inclination to study at night. Then there is the difficulty about lighting. The ordinary Indian country lamp gives a very bad light, and it is doubtful whether it is wise to encourage schools of this kind, except in big towns, where proper lighting arrangements can be made.

Continuation schools.

104. A real attempt is, however, being made in the Presidency Division, in which the town population is large, to develop continuation schools with classes held either by day or night, the subjects to be taught being chiefly book-keeping, correspondence, mathematics and science. The number of such schools increased during the year under review from 19 to 31, and I have recently sanctioned the opening of 24 more schools of this type. I have at the same time circulated copies of the correspondence on this subject to the Commissioner of the Presidency Division and the District Officers of the Division soliciting their co-operation in working out this important experiment.

School Buildings.

105. Bengal has hitherto had the unenviable reputation of being the most backward of all the Provinces in the matter of school buildings. Substantial progress was however made in the year under review, the Local Government assigning a sum of Rs. 5,03,598 towards the construction of suitable buildings on condition that a reasonable proportion should be contributed from local sources. During the current year and in future years very little expenditure in this direction will, I anticipate, be possible owing to the urgent calls for money in numerous other directions; nor am I personally of opinion that further money should be expended in this way. Government has set an example in the matter, and I consider that the most advantageous procedure to follow in future will be to promise specially favourable grants-in-aid where the residents of any locality are prepared to supply the funds necessary for building a school-house and to undertake to keep it in repair. I propose to work out a scheme on these lines as soon as practicable and to submit it for the consideration of Government.

Subjects and the methods of teaching.

General scope of the changes proposed.

106. As stated in the chapter on "Educational Conferences," much progress has been made with the revision of the vernacular scheme of education, as sanctioned by Government in the year 1901, in so far as it concerns lower primary schools. The system, as hitherto in force, is one of the causes to which I have alluded above as operating to retard the progress of primary education both in primary schools and in the primary departments of secondary schools. The effect of the system has been particularly noticeable in high schools. The four highest classes of these schools, in which instruction is imparted through the medium of English, are generally crowded; whereas the attendance in the lower classes, in which the vernacular system of education is in force, is very small. What happens not infrequently is that boys in private schools, in which the vernacular system is in force, and then join the higher classes of a high school. This is one of the commonest ways in which the scheme is evaded.

Simplification the text-book courses of stu

107. The first measure to be taken is to produce proper text-books. Loud complaints have been made that the present text-books are not written in simple language, commonly used by the people, but in an unfamiliar literary style. The subject-matter of these books also is not free from criticism. Steps are accordingly being taken to bring out, at the expense of Government, text-books in which, it is hoped, these defects will not be found. This does not of course mean that Government intends to monopolise the production of text-books. It will merely give the lead by showing the kind of books which are required; and if private enterprise can produce equally good or better books these will be accepted. The next point is that the existing courses, as far as lower primary schools in rural areas are concerned, are too long, too advanced and too diversified, and that for all classes of lower primary schools the present syllabus presents too many and too difficult subjects. As regards lower primary schools in rural areas, the compulsory course according to the revised syllabus will extend to three hours daily only; but instruction will be given in certain supplementary subjects, of which those who wish to do so may avail themselves. In lower primary schools in other than purely rural areas, the combined compulsory and optional subjects will constitute the prescribed course.

Reduction in number of cl

108. At present there are three Infant classes in a lower primary school, in addition to the two classes which read the courses of study prescribed for standards I and II. It is considered that two Infant classes will be quite sufficient. Instead therefore of three Infant classes, as heretofore, for the ages of 5-6, 6-7, and 7-8, there will be two classes, the first for infants aged from 5-7 years and the second for those aged 6—8. The remaining two classes will, as heretofore, be termed standards I and II and be for children aged about 8 and 9, respectively. This reduction of the number of classes is not a matter of small importance in view of the fact that in the vast majority of these schools there is only one teacher. Even thus, each teacher will have to look after four classes; and it will more than tax his strength to do this even moderately well.

A brief account of the revised Syllabus.

Introductory remarks.

109. In the preparation of the revised syllabus the instructions, as laid down by the Government of India in paragraphs 20, 21, and 25 of their Resolution, entitled "Indian Education Policy" of the 11th March 1904, have been carefully borne in mind. Full advantage has also been taken of that excellent publication entitled "Suggestions for the consideration of teachers and others concerned in the work of public elementary schools" which was issued by the Board of Education, London, in the year 1905. The syllabus opens with an Introduction on the function of education as regards the formation of character. Two typical paragraphs of this introduction are quoted in the chapter on Physical and Moral Training.

Observation expression l

110. Much attention is paid to observation and expression lessons. The former will take the place of the subjects which are set down in the present syllabus under the names of Botany, Natural History, Agriculture, Physics and Chemistry. The existing science primer, which condenses these subjects into a few pages, will be abolished; for it is believed that the result of this system has been rote teaching and mechanical learning, that is to say, teaching from treatises about objects and not from objects. Children of this age are incapable of learning science, for generalising from facts belongs to a later stage of mental discipline, and instruction with this aim can only be given if the power of intelligent and accurate observation has been first developed. The cultivation of this power, which is the chief aim of the revised syllabus, is impossible, unless children are taught to observe, compare and contrast the objects which are around them. This they can never do so long as they merely read about objects. The existence of the Science Primer and the use to which it has been put has defeated the whole object with which the vernacular scheme of education was introduced. The object was to discourage rote teaching and to develop faculties, other than those which are exercised by reading and learning by heart; but the faculty of observation is not developed by reading unintelligently and committing to memory for the sake of examinations pseudo-scientific treatises. The books have been bad and the result of teaching from them so disastrous that numerous schools have declined to teach the

syllabus and have thus cut themselves off from the Government system; while many others, though nominally following the syllabus, have really ignored that part of it which was concerned with the so-called teaching of Science. In connection with the study of plant life, which will be one of the main features of the Nature observation work, especially in rural schools, an extract is given in the syllabus from Mr. Sly's valuable "Note on school gardens." In that note it is stated that the "real object of a school garden should be to supply materials for object lessons in which pupils can study the growth of plants," and that "the garden should be one, where 'Nature is studied in its relations to the child, from the child's standpoint by the teacher with the children.'" It is true that the new system will make great demands upon the teachers. Lack of knowledge on the part of teachers, however, cannot be made good by putting into their hands a book dealing in a condensed manner with scientific subjects. To do this is to abandon the object which we have now set before us. Want of knowledge on the part of teachers can only be made good by careful and systematic training, and, as indicated in the chapter on Training Colleges and Schools, steps are being taken so that gradually all the teachers will come under such training. Meantime, although we must not expect too much from the teachers, we shall, however, have the satisfaction of knowing that the revised syllabus indicates to them the right lines on which to make a beginning.

111. I have mentioned the observation and expression lessons first, because they predominate in the infant stages. In standard I reading, writing and arithmetic, with oral composition, drawing, modelling, simple hygiene and elementary drill are added, while in standard II geography is first introduced.

112. To illustrate the character of the syllabus under the head of reading, I cannot do better than quote the instructions on the subject for standard I, which runs as follows:—

"The main purpose of teaching to read is to enable the pupils to master printed or written matter for their own information. Silent reading should, therefore, be practised from the first, and the teacher will soon get the children into the way of this, if, to begin with, he gives them short pieces to read and after a little time goes round to the children individually and asks for an account in their own words of what has been read. Such pieces should be full of incident and interest. As regards reading aloud clearness of utterance and fluency should always be kept in view, but it is also essential that children should be taught to read intelligently. The teacher should make the gist of the piece clear before it is read, so that the general meaning may be mastered before it is read out in the class. Without this the reading must be mechanical, because it is unintelligent. It is advisable that the teacher should occasionally read out a passage to the class by way of illustration; but in this case also the class should go through the piece beforehand. The reading material put into the hands of children is of the greatest importance. The Primer should contain nothing which is not written in good language, and in words which will be easily intelligible to all. The arrangement of each piece must be logical, and the language must be good in so far as each sentence must express clearly and straightforwardly the meaning which it is intended to convey. The Primer should contain stories which fall within the range of the children's comprehension and interest; descriptions of the various scenes and episodes of rural life should also be included. Provision should also be made in the Primer for acquainting the children with some of the more impressive stories of English and Indian history. The whole should be written in an easy narrative style. A passage having been prepared beforehand and the difficulties elucidated, the actual reading lesson should be as little as possible interrupted by the teacher, and all long disquisitions on points suggested by the subject-matter should be avoided. At the end of every reading lesson the children should be questioned on the subject-matter individually, and should be trained to give individually in their own words an account of what has been read."

113. It is unnecessary to say much on the other subjects of the curriculum; but it may be mentioned that in standard II, that is to say, the standard at which the mass of pupils leave school, the object aimed at is to send away the pupils with their intelligence awakened, with a fair knowledge of the three "R's," and with some acquaintance with weights and measures, land measurements, the village accounts and the ordinary land-record documents with which they will be confronted in after-life.

114. After protracted discussion it has been decided that it is both impracticable and unnecessary to frame separate curricula for urban and rural schools. In rural areas only a short course of studies will be made compulsory, with optional supplementary courses for those who wish to take them; whereas in urban areas all the subjects will be compulsory. Generally speaking,

it is not in respect of the subjects taught, but of the method of teaching these subjects that any distinction is possible in urban and rural areas. The teaching, in order to be effective, must have reference to the environment of the schools and the scholars. The syllabus makes due provision for this, and so will the text-books which are to be written in accordance with it. One of the great advantages to be gained by this decision will be that the duplication of text-books will be obviated. The enormous difficulty of securing suitable text-books is so well known that it is needless to dwell on the advantages of avoiding unnecessary duplication.

115. As soon as the revision of the vernacular scheme of education, as sanctioned by Government in the year 1901, has been carried into effect as far as the lower primary school courses are concerned, that is to say, up to standard II, similar steps will be taken as regards the courses in the higher standards (III to VI). A committee has already been appointed by Government to deal with this subject and to submit proposals. When the committee has submitted its report, the public will no doubt be consulted in regard to the proposals made, in the same manner as it was consulted concerning the courses of study for lower primary schools.

Upper and Lower Primary Examinations.

116. Another cause which has undoubtedly had a depressing effect on primary education has been the abolition of the public examinations held at the end of the lower primary and upper primary courses. I have no wish to suggest a revival of the examinations as previously held with all their attendant evils. I recognise however that the abolition has had at any rate temporarily a very discouraging effect on primary education. The orders of the Government of India, as contained in paragraph 12 of their Resolution, entitled "Indian Educational Policy," of the 11th March 1904, are that there are to be only two examinations preceding the University courses. The first of these, the primary examination, will mark the completion of the lowest stage of instruction, and will test the degree of proficiency attained in the highest classes of primary schools. But it will no longer be a public examination held at centres to which a number of schools are summoned. It will be conducted by the inspecting officer in the school itself. Now, in this Province the first examination is held, under orders passed by this Government in the year 1902, at the end of the middle course, which comprises two classes above the Upper Primary stage. Hence there is no examination of any kind, except the ordinary class examinations, for the mass of boys who do not go beyond the Lower Primary standard, nor even for those who proceed as far as the Upper Primary standard. I am looking into this question and propose to submit a report on the subject to Government. Whatever may be decided in this respect, I am satisfied from enquiries made that the abolition of the examinations for the Lower and Upper Primary standards has withdrawn a distinct stimulus which once existed. As stated above, I have no wish to suggest a revival of the examinations as previously held; but, as at present advised, I do think that it would be desirable to organise a system of leaving certificates for the lower and upper primary standards based on the reports of the school authorities and a private examination conducted in the school itself by the inspecting officer. Such a system could very well be arranged as soon as the inspecting staff is strengthened. Leaving certificates are at present only given at the end of the middle course as a result of the examination which is held at the end of that stage.

The Teaching of English.

117. Instruction through the medium of English and the teaching of English as a language are prohibited in all primary schools; but the teaching of English as a second language is allowed in middle schools in the classes corresponding to the two top classes of an upper primary school. I have discussed certain important questions connected with the teaching of this language in the chapter on secondary education.

CHAPTER VI.

TRAINING COLLEGES AND SCHOOLS FOR INDIAN TEACHERS.

Training Colleges for Teachers in High and other Secondary Schools.

118. The prime need of the Province under this head is the establishment of training colleges for teachers who impart instruction through the medium of English. The deplorable results of the last Entrance examination have very naturally led to discussion, and a cry has been raised that innocents have been massacred. At the instance of the Principal of one of the colleges of Calcutta, the Senate of the Calcutta University has appointed a committee to examine this question. I cannot say that I anticipate that this enquiry will prove fruitful. The results of the Entrance examination must, for obvious reasons, vary considerably from year to year, and no one has thought it necessary to call in question the work of the examiners in years in which the results have been abnormally good. I do however anticipate good results when the University begin to overhaul High schools under the new regulations, because the investigation thus made must bring forcibly to notice the necessity of securing better teachers in these schools. It is not difficult for those who have personal knowledge of the working of such schools to understand why there are many failures at the Entrance examination. I lately visited an important High school, and found that the Head Master could with difficulty understand English when addressed in that language. This man had to teach the students through the medium of English. Comment is superfluous. If they do these things in a green tree what shall be done in the dry? In making the above remarks I do not wish it to be understood that I am decrying the masters in High and other secondary schools as a body of workers. Many—I might say a large majority—are well educated men interested in their work, while many are devoted labourers. What is wanted however is that teachers should not only be well educated but also be properly trained before they are allowed to take up the important work of secondary education. To this end the Secretary of State has already approved the establishment of a training college for graduates and a normal college for under-graduates for this Province, and it is hoped that this most important project will shortly be inaugurated.

Training Schools for Teachers in the higher classes of Vernacular Schools and the Vernacular classes of High Schools.

119. As regards the training of teachers for the higher classes of vernacular schools and the vernacular classes of High schools, we are in a far better position. We already have six excellent training schools for the purpose, and we are now establishing a model school of the same kind with provision for a Principal and a Master of Method, both of whom will be Europeans trained in the latest methods of teaching. In addition to his work at the school this officer will supervise the working of the six existing schools above referred to.

Training Schools for Teachers in Primary Schools.

120. Most interesting is the experiment now being made as regards the training of the lowest grades of teachers of the country, that is to say, the teachers of the ordinary village schools. The task is a gigantic one, not only on account of the large number of teachers who require training—some thirty to forty thousand—but also on account of the very poor attainments of the men to be trained. The subject has engaged a great deal of my attention, and I have the satisfaction of being able to say that Government has recently approved several important proposals for improving the training schools for these teachers. The fundamental idea underlying the system hitherto in vogue has been that the teachers of primary schools will not give up their school work during the period of their training and devote themselves exclusively to their training. Hence a system was elaborated according to which training schools were established in the neighbourhood of the teachers

to be trained, the object in view being to attract teachers to the schools during the few spare hours when they were not engaged in their schools. The intention was that after the teachers of a given neighbourhood had been trained, the training school should be moved on to another area, and that the building thus vacated should then be utilised for the purpose of a primary school. The defects of such a scheme are apparent. The teacher, poorly endowed by nature and with the slenderest educational equipment, was expected not only to keep his school going during the period of his training, but also during his spare hours to improve his own general education and learn the art of teaching.

121. The next point in respect of which the scheme was open to criticism was that as long as these training schools were considered to be of a temporary character, it was impossible to spend money on building hostels for the students and quarters for the teachers or to organise any system of nature study in combination with school gardening. These defects will now be rectified. At the same time, in order to compensate teachers for the loss sustained by them in having to give up their school while under training, the amount of the stipend to be held by them during that period will be increased so as to give them a bare means of subsistence. There is ample evidence that the new scheme will be appreciated, and I regard it as one of the most hopeful and useful of the educational projects now in process of development. It is only necessary to add that these training schools will receive for instruction men who wish to become teachers of primary schools, as well as those who have already taken up the profession of teaching.

Statistics in respect of schools for teachers.

122. All classes of training institutions for male teachers being considered together, the total expenditure during the year under review amounted to Rs. 1,34,180, of which Rs. 1,19,229 were provided from Provincial Revenues, Rs. 949 from District Funds, Rs. 4,403 from fees and fines, and Rs. 9,599 from other sources. Eight new schools for the training of teachers for primary schools were opened during the year.

Proposed Training Colleges for Female Teachers.

The great trained tea

123. I now come to the momentous subject of the training of female teachers—a subject which has been engaging my assiduous attention since I joined the office of the Director of Public Instruction early in the year. There are at the present time in Bengal, as now constituted, more than four million girls of a school-going age. What are we doing to provide teachers for this vast number? Hitherto our work has practically been confined to aiding a few training classes, the best of which are concerned with the training of Christian girls. Now, good though the work done by the Christian Mission Training Schools is, these classes may practically be left out of account, because they provide teachers almost entirely for Christian girls' schools. Moreover, strenuous objection is raised nearly everywhere to Christian women teachers, while even Brahmo women teachers are not by any means universally welcome. The crying want is therefore for good Hindu and Muhammadan female teachers. Speaking of the training that is at present given in the aided training schools, Miss Brock, the Inspectress of Schools, has observed that the opening of proper training colleges in Bengal is, in her opinion, one of the most pressing educational needs of the Province. So strongly does she feel the necessity of such institutions that she does not believe that any material progress can be made until steps are taken in that direction. She adds that the training that is at present being given in the case of Hindu, Muhammadan and Brahmo female teachers is of the poorest description, and that there is extraordinary waste of time, teaching power and money in the process. She observes that Hindus are constantly imploring her to find well-trained teachers, and that the two branches of the Brahmo Somaj are constantly addressing her on the subject of efficient instruction for their women teachers.

124. It is not too much to say that the need for properly trained women teachers has now become exceedingly acute. Government has sanctioned schemes for peripatetic teaching by lady teachers. It has also sanctioned a scheme by which girls in villages and towns can be instructed at central gatherings by

lady teachers. The success, however, of these schemes and of numerous others, such as utilising the services of Muhammadan *a'lus* (lady teachers), training the wives of school-masters as teachers, etc., depends upon the question whether the people who are training others to teach are themselves properly taught. At the present time not only are properly qualified teachers not available, but it is impossible to obtain the services of ladies even with the kind of qualifications which we are at present obliged to consider as passable. To cite an illustration of the seriousness of the situation, I may observe that Government lately sanctioned the opening of a Middle English School for girls at Bankipore in order to meet the urgent need felt by the Hindus of that place for the education of their female children. The whole scheme, however, is blocked, owing to the fact that suitable teachers cannot be procured either in Bengal or elsewhere. Again, the Board of Revenue have sanctioned the employment of governesses in Wards' Estates for *parda-nashin* ladies and children; but they are finding the greatest difficulty in supplying the need. In fact we have begun at the wrong end. We have started schemes for teaching without providing for qualified teachers, and we are wasting money and doing much harm to the cause of education by employing unqualified teachers. It is still, however, not too late to make amends for past neglect.

125. I will now endeavour to make clear what kind of training we wish ed. to impart. The existing aided training classes for Hindu, Muhammadan and Brahmo girls are not even capable, under present conditions, of turning out teachers qualified to impart a good primary education to girls, while no attempt is being made to train teachers qualified to teach in secondary schools. We may leave alone for the present any attempt to train female teachers who will be able to teach English in high schools for girls. The number of such schools is at present very limited, and the English classes in them are at present mostly staffed by English women. In course of time we shall, no doubt, have to train Indian ladies to teach English; but, for the present, no attempt need be made in that direction. We shall have plenty to do for some time to come if we are to succeed in turning out properly qualified vernacular teachers.

ng 126. Deeply impressed therefore with the urgent necessity of establishing thoroughly efficient Government training colleges for women teachers, I have endeavoured to develop, with the aid of influential Indian gentlemen and Government officials, a movement for the establishment of two training colleges, one in Calcutta and the other at Bankipore. The scheme has been provisionally approved by the Government of Bengal, but, owing to financial difficulties, has not yet been submitted by that Government for the approval of the Government of India. Convinced as I am that the future of female education in Bengal very largely depends on the success of this project, and knowing, as I do, that this belief is shared by many who have the cause of female education at heart, I am confident that the time is not far distant when these colleges will be opened. The first step in advance has already been taken, with the approval of the Government of India, in the sending to England of two Indian lady scholars to be trained for two years at an English training college. These ladies, it may be added, have been accompanied by a third Indian lady who intends to undergo a similar course of training at her own expense, so that, on her return to India, she may be able to undertake the training of women teachers for primary schools in Orissa.

Statistics in respect of Existing Training Classes for Female Teachers.

127. During the year under report there were 17 aided training schools with 806 pupils, and 1 unaided training school with 32 pupils; the total expenditure on all the schools being Rs. 68,972, of which Rs. 26,679 were contributed from Provincial Revenues, Rs. 56 from District Funds, Rs. 143 from Municipal Funds, Rs. 2,723 from fees and fines, and Rs. 39,171 from other sources. The comparatively large contribution from "other sources" is chiefly expenditure incurred by the Christian Missions, the good work of which has been mentioned above.

Statistics in respect of Training Schools for Teachers, Male and Female, taken together.

128. Training schools of all classes for teachers, both male and female being taken together, the total expenditure has increased in the yea under report by Rs. 31,903. Schools for males, and male pupils, hav increased by 8 and 206 respectively; while, though schools for females hav declined by 1, the number of female pupils has increased by 74. The year ha been one of progress, but the progress can only be considered as a mere instal ment towards what is to come.

CHAPTER VII.

PROFESSIONAL AND TECHNICAL EDUCATION.

Law.

129. There is not much of interest to be said under this head. There i no central law college in this Province, but classes for the purpose of impartin egal instruction are attached to Arts colleges. The chief work in connectio with legal instruction is done at the Ripon College, Metropolitan Institution City College and the Bangabasi College, all of these institutions being i Calcutta. The official verdict hitherto has been that there is very little rea eaching in these classes and that "the students rely solely on their ow unaided efforts to pass the University examinations, and attend lectures merel or the purpose of obtaining the certificate of attendance which is required b he University." It may also be mentioned that hitherto the students have no sually had access to any law library. The new University regulations, i ddition to raising the standard of the Bachelor of Law Degree, make provisio or a Degree of Master of Law. They also make it incumbent on every colleg ffiliated in Law to make suitable provision for a law library, so as to enable it tudents to have access to the reports or other books in which leading cases are t e found. The Law classes have hitherto usually been entirely self-supporting nd in many cases have been regarded as valuable adjuncts to Arts Colleges ecause the receipts from them have exceeded the expenditure incurred on them t remains to be seen how the position will be affected under the new onditions imposed by the regulations. The results of the B. L. examinatio uring the year under review were very poor, only 86 out of 512 candidates 16·7 *per cent.*, being successful.

Medicine.

130. It is not clear why the Director of Public Instruction ha therto included statistics in regard to the Medical College, Calcutta, and the edical Schools in his reports and commented on the working of these insti tions. He has no personal knowledge of the working of these institutions, nd any remarks which he makes in regard to them can only be the result o condhand information. Moreover, this very information, which consists o opies of the reports of the Inspector-General of Civil Hospitals and the ccompanying statistics, is, at the time when the Director writes his report, nder the consideration of Government. Possibly the retention of these tistics in the Director's report is a survival of the time when he had control the Medical College and Medical Schools; and in this connection it is interesting note that lately when examining the old history of the Sanskrit College I und that the first medical teaching given in Bengal was given at that college. n the other hand, if it is considered desirable that the Director should include e statistics referred to in his report, it is not clear why he is not required to clude the statistics relating to Veterinary Science, which is included under e head of Professional and Technical Education in the Fourth Quinquennial eview. A similar question will soon have to be considered in regard to griculture. At present an Agricultural Department is attached to the Sibpur ngineering College; but, as soon as the Bengal Provincial Agricultural ollege is opened, the Director of Public Instruction will no longer have any

control, over Agricultural education. These questions will be made the subject of a reference to Government, and are only noticed on the present occasion, because I do not understand how I can with any advantage follow the practice hitherto followed in the Annual Report in respect of the Medical College and Schools.

The Sibpur Civil Engineering College.

University regulations as they affect engineering.

131. The recently published regulations of the Calcutta University have in view the following objects as regards Engineering:—

(1) modernising the Engineering Course,

(2) affording specialised instruction in

(*a*) Civil Engineering,

(*b*) Mechanical and Electrical Engineering, and

(*c*) Mining Engineering,

(3) facilitating the affiliation of schools of Engineering up to the First (or Intermediate) Engineering Examination.

The Principal of the Sibpur College anticipates good results from these changes.

Mining instruction.

132. The most important development made at the College during the year under review was the inauguration of classes for students who intend to take up mining as a profession. These classes have already been opened under a Professor of Mining recruited from the University of Birmingham, which is considered to be one of the best, if not the best, centre of mining instruction in England. Further, another Professor has been appointed to instruct persons actually engaged in the mining industry; and four centres of instruction have been selected—two in the Raniganj, and two in the Jheria, coalfield. It may also be mentioned that in addition to the schemes referred to above, a certain number of students from Bengal are each year being sent by the Government of India to go through a course of mining instruction at the Birmingham University. Four such students were sent home in the year 1904 and two in the year 1905.

Mechanical testing.

133. A question of considerable importance was under discussion during the year under review in connection with the establishment at the College of a laboratory for mechanical testing. Work of this nature has been carried on at the College on a small scale for some time past; but the amount of work to be disposed of has increased so largely that a proposal to appoint a whole-time officer to deal with it is now under consideration. It is expected that the chief volume of work will come from Departments of Government; but it is proposed to make the laboratory available to the public, subject to the payment of fees according to a scale to be approved by Government.

Board of Examiners for the College and its affiliated schools.

134. Another important question, which has been under discussion during the year, is a proposal to establish a Board of Examiners for the College and its affiliated schools. Hitherto this work has been done by the Principal of the College and his staff. It is felt that, now that the affiliated schools have increased both in number and importance, it is desirable that the control of the examinations should rest with an independent body of examiners specially selected for their interest in, and knowledge of, the problems with which these institutions have to deal.

Delays in the receipt of apparatus.

135. The Principal (Mr. Heaton) deplores the delays which occur owing to the system in force as regards sending indents for apparatus to England. He observes that such delays hinder research work and often make it impossible; for, having conducted his research to a certain point, and finding a certain instrument indispensable, an officer not infrequently has to throw up his research, knowing that he is not likely to receive the instrument in time for it to be of any use. Similar complaints are also made by Dr. Bose, C. I. E., and Mr. Cunningham, Professors of the Presidency College, who carry on research work. I am decidedly of opinion that the rules are too stringent and that a relaxation is called for in favour of (*a*) officers engaged in research work and (*b*) selected officers in charge of important institutions, and I propose to make a reference to Government on the subject.

136. The results of the B. E. and F. E. examinations were satisfactory. In the former the percentage of success was 34·6, as compared with 25·9 and 46·1 in the two preceding years (1904-1905 and 1903-1904); while in the latter it was 53·3, as against 25 and 60·8 in the same years. The attendance at the College (82·2 *per cent.*) was not as good as in the previous year, when it was 92·5 *per cent.* This was owing to the fact that the year under review was a very unhealthy one at Sibpur; the daily average number of students under treatment, chiefly on account of malaria, being 22. The total expenditure of the College was Rs. 1,57,916, of which Rs. 1,29,249 were contributed from Provincial revenues, Rs. 22,405 from fees and Rs. 6,262 from other sources. Results of examination expenditure

The Bihar School of Engineering.

137. This is an extremely important school, which teaches up to the Overseer standard. It had 171 students on the rolls at the commencement of the session. The Head Master reports that all the students who have passed out of the school in recent years have, as far as is known, easily obtained employment. The great success of this institution renders it likely that, before many years are past, this school will be raised to the status of a College. It is very satisfactory to notice that the establishment of a boarding-house attached to the school has developed in a marked degree a corporate and social life among the students: in this respect the school is a model which many colleges in Bengal could follow with great advantage. The results of the Overseer and Sub-Overseer examinations were satisfactory, 10 out of 13 students sent up passing by the former, and 20 out of 32 students sent up passing by the latter, examination. Expenditure increased from Rs. 27,613 in the year 1904-1905 to Rs. 34,311 in the year under review. Of the last-named sum Rs. 29,222 were contributed from Provincial revenues and Rs. 5,089 from private sources.

The Cuttack Survey School.

138. This school at present turns out Surveyors and men of the Amin class. It is in contemplation however to raise its status to the Overseer standard at an early date, and for this purpose a considerable sum of money has been raised locally.

Preliminary technical education in schools.

139. In certain selected High Schools the course of studies in the two highest classes is arranged so as to lead naturally to the instruction provided in technical schools which prepare students up to the Sub-Overseer standard. The results hitherto attained have been very disappointing. These classes, as well as all aided technical and industrial schools, are under the inspection of the Principal of the Sibpur Engineering College. It is generally thought that the time has now come when a special officer should be appointed to inspect, foster and develop technical and industrial education throughout the Province; and proposals to this effect are under discussion.

Draftsman Classes.

140. A strong need having been felt for the establishment of classes for draftsmen, steps were taken during the year under review, with the help of representatives of leading Railway Companies and Engineering firms, to establish such a class; and it is hoped that the scheme will be brought into operation during the current year.

Motor Car Driver Class.

141. At the instance of the Automobile Association of Bengal a scheme is under the consideration of Government for the establishment of a class at the Sibpur Engineering College with the object of giving to men intending to become drivers of motor cars a mechanical training such as will enable them to execute all ordinary repairs.

Industrial Chemistry.

142. In order to meet the growing industrial needs of the Province a scheme is under consideration for the establishment of classes for imparting instruction in Industrial Chemistry at the Sibpur College. The details of the scheme have still to be worked out.

Agriculture.

143. A class for instruction in Agriculture is attached to the Civil Engineering College, Sibpur. The course extends over a period of two years. Out of 11 students who were presented for the diploma examination, 7 were successful; while all obtained immediate employment under Government. This class will be transferred to the Provincial Agricultural College as soon as that institution is established.

Commercial Classes.

144. A new scheme of Commercial Education, which was elaborated in consultation with the Bengal Chamber of Commerce and the Bengal National Chamber of Commerce was inaugurated at the Presidency College on the 1st July 1905. The scheme consists of two parts, the one comprising a day course, every part of which is obligatory, extending over a period of two years, and the other a series of evening lectures on certain subjects, any one or more of which may be selected at option. The following are the subjects prescribed for the day course :—

(*i*) English (modern), and especially English correspondence, including commercial correspondence, letter-drafting and *précis*-writing;
(*ii*) arithmetic, including commercial and mental arithmetic;
(*iii*) one of the following languages, namely, Bengali, Hindi, Urdu, Uriya, French, German or Latin;
(*iv*) one of the following subjects, namely, book-keeping, shorthand-writing or type-writing; and
(*v*) commercial history and geography.

The following are the subjects prescribed for the evening course :—

(*i*) outlines of political economy;
(*ii*) banking and currency;
(*iii*) commercial and industrial law;
(*iv*) annuities and insurance;
(*v*) book-keeping;
(*vi*) shorthand-writing;
(*vii*) type-writing; and
(*viii*) English (modern).

It is too early yet to judge how far this scheme will prove effective and adequate. The day course is the principal one; and, as stated above, it extends over two years. The first examination of students under the new scheme for the day course will therefore not take place till April 1907. The evening classes have hitherto not proved a success, and in fact it is doubtful whether in this climate such classes can be expected to achieve results such as are obtained in Europe. The immediate need in respect of these classes is to remove them from the Presidency College, where they are cramped for room, to the business part of the city. It is unreasonable to expect business men after a long day's work to travel any considerable distance for the purpose of attending the evening classes.

145. The commercial education provided at the Presidency College aims only at turning out men qualified to be good clerks. If the present scheme proves a success, it will obviously be necessary to provide before long for a superior commercial education such as will fit a man to conduct a business on his own account. Meantime, the proposal recently made by the Government of India to send scholars to England for an advanced course of commercial education will meet a distinct want in this Province.

146. Commercial education is also provided at the Kurseong Victoria Boys' School and at several Government and aided high schools. In the case of the latter schools the course of study leads up to the day course prescribed for the commercial classes at the Presidency College. Besides the above mentioned schools at which commercial instruction is given, there are three privately managed commercial schools, one aided and two unaided which teach shorthand and type-writing.

The Calcutta Art School and Art Gallery.

147. At the instance of Mr. Havell, the Principal of the School of Art, a Japanese artist of the Tokio Art School was engaged temporarily during the year under review to give lessons in the Japanese method of brush work and flower painting. The class in the school which gives the most promise is the Advanced Design Class. It is hoped that students from this class will be able to undertake the decoration of the new Art Gallery building which is now in process of construction. Pending the completion of the building referred to, the collection of Indian paintings belonging to the Art Gallery is stored in the Art School premises. These paintings were inspected during the year under review by a party of Japanese artists and Art experts, who declared them to be the best collection of Indian paintings to be seen in India. The increase of expenditure during the year under review (Rs. 21,464), shown under the head of "Schools of Art," was due to large purchases made for the Art Gallery of old Tibetan banner pictures, Buddhist statues, valuable textile fabrics, etc. Some of the inscriptions on the statues and paintings are said to be of considerable archæological interest.

The Serampore Weaving School.

148. The Government of India have sanctioned the opening of a Weaving School at Serampore, and it is hoped that it will be possible to commence work in the coming cold weather. The object of the scheme is, firstly, to bring home to the ordinary artisans the latest improvements in respect of weaving apparatus, and, after supplying them with the necessary instruction, to give them advances of money in order to enable them to purchase the necessary apparatus; and, secondly, to train a higher class of students with the object of enabling them to become teachers of improved methods in outlying centres or to start businesses of their own in the weaving line.

Industrial Schools.

149. These schools have increased in number from 30 to 41, chiefly owing to the activity displayed in this connection in the district of Hazaribagh by the present Deputy Commissioner, Mr. Radice. As stated above a special officer is required for the effective supervision of technical and industrial education. The example set by Mr. Radice in Hazaribagh shows how quickly this branch of education could be developed if there were an officer whose whole time could be devoted to the subject. I regard this as an essential step towards future progress. The total expenditure increased from Rs. 32,535 to Rs. 36,853. Of this latter sum, Rs. 7,954 were contributed from Provincial Revenues, Rs. 6,745 from District Funds, Rs. 314 from Municipal funds, and Rs. 21,840 from fees and fines and other sources.

CHAPTER VIII.

EDUCATION OF INDIAN GIRLS IN SECONDARY AND PRIMARY SCHOOLS, AND ZANANA EDUCATION.

General Remarks.

150. So preponderating is the need for trained female teachers that though I have expressed my views on the subject at length in the chapter on Training Colleges and Schools, it is impossible to avoid a reference to the same subject when considering the question of the education of girls in secondary and primary schools and the zanana. It is very generally admitted that there is an urgent need for training colleges in Bengal. A criticism has however been made in this connection that "it is only in higher schools and in large towns that the need for well-qualified female teachers is so pressing, and that for many years to come such luxuries will have to be dispensed with in the upper and lower primary girls' schools, where use must yet be made of the local *guru* or *pandit*." Now, though it is undoubtedly true that we cannot for many years to come dispense with the local male teacher, and that a large extension of the system of mixed schools is very desirable, I cannot at all admit that the urgent need

Need for female

for well-qualified female teachers is by any means limited to the higher schools and to large towns. In the first place, there is a very general and marked aversion on the part of a large proportion of the population to sending girls to school at all, not because the people are indifferent to the education of their female children, but because they do not like sending them to schools where there are male teachers, that is to say, schools where the *pardah* is not observed. In the second place, even if girls are allowed to go to school, they are, for the reason just given, removed from it at a very early age. Thirdly, if we are to instruct girls only up to the age when they are removed from school, I fear that our efforts will be largely wasted: the little instruction thus given is soon forgotten. I hold that the education of girls should not be abandoned at this early age, but should be continued in the zanana. Here we are immediately met face to face by the most pressing need for female teachers; and, if good results are to be secured, these teachers must generally be neither Christians nor Brahmos, but Hindus and Muhammadans. Christian Missions have doubtless done much good work, and Government is greatly in their debt for what they have effected in the way of popularising female education and sending out Christian female teachers. The Missions themselves would, however, be the first to admit that their sphere of usefulness as regards the development of this branch of education is not unlimited.

151. Referring to the want of progress in respect of the education of women in Bengal in the last quinquennial period (1897-98—1901-02), Sir Alexander Pedler observed:—

"The chief causes for the slow progress of this branch of education in this country are:—(1) The conservatism of a great portion of the people; (2) the fact that the education of their female children is a matter of great indifference to a large proportion of parents and guardians, as they usually do not take the same amount of care and interest in the education of their female wards as they do in that of boys; (3) the system of early marriage which presents an almost insurmountable barrier to education beyond the primary stages; (4) the want of educated female teachers; (5) the want of a system for educating zanana ladies; and (6) the want of adequate State aid and aid from other public funds."

152. Without wishing to dispute the large measure of truth contained in these observations, I am distinctly of opinion that they do not constitute quite a complete, or in some respects fair, account of the position. I quote below what Miss Brock, the Inspectress of Schools, said in her report for the year 1904-1905:—

"I found from visiting zananas and from the expression of native opinion that there was no prejudice against the education of girls, but a strong feeling against any relaxation of the *pardah* system for higher caste girls. In support of this is the fact that recently a meeting was held at Muzaffarpur of the more educated classes, with a view to opening a strictly *pardah* school for Hindus. In some parts of Bihar education would be welcome did it not bring with it the presence of male officials. What is needed is a far greater extension of the zanana system of teaching for higher caste girls as a preliminary step to schools, and for lower class girls strictly *pardah* schools. These would of necessity have to be wholly inspected by women"

153. I also give below some very interesting extracts from that lady's report for the year 1905-1906:—

"The most important question in relation to female education still remains the problem of obtaining and adequately training teachers. Only as regards the staffing of Mission Schools is the outlook at all promising. As regards Hindu, Muhammadan and even Brahmo schools, the difficulty remains unsolved * * * *"

"As regards zanana teaching I am obliged to draw a sharp distinction between Hindu and Muhammadan work. I am quite convinced that as soon as we can command trained female teachers, orthodox and of good family, education will make remarkable progress among Bengali Hindu *pardah* women. I am repeatedly struck by the fact that in large towns Hindu gentlemen are in the habit of trying to induce European ladies to give instruction, including teaching in English, to their girls, and are often willing to pay good fees. On the other hand, even entrance into Muhammadan zananas is very difficult, and the education of women is regarded with extreme suspicion * * * * * *"

"In the immediate future, if adequate assistance is afforded, I anticipate a great increase in the number of girls' schools. From month to month it is increasingly impressed upon me that many of the supposed difficulties with regard to Hindu female education do not exist, and that the real obstacles we have to encounter might be overcome by a more intimate knowledge of Indian social life as it affects women. A very large number of Bengalis would not oppose female education were it offered in a form which would be acceptable. This was the opinion I stated a year ago. During this past year this view of the matter

has been expressed to me again and again by Indian gentlemen. In the work of understanding local needs I consider the work of women assistant officials would be invaluable and can only be afforded by them. As regards higher caste girls the way to them lies through zanana teaching, and one of the most promising points of female educational work the impetus that is being given to this method of teaching * * * ."

"As regards primary schools under Mission management endeavour is being made to draft untrained members of teaching staffs into good training classes and to staff primary schools entirely with trained female teachers. I have good hopes that in Calcutta at all events before long both these objects will be attained in these schools. Primary schools under Hindu management still continue to be, for the most part, in the hands of *pandits*, but the request is everywhere being made by them for a competent female teacher to be added to the staff. The difficulty in meeting this demand is however very great, even when the teachers are forthcoming. Christian and Brahmo girls, where accepted, demand high salaries and for the most part will not work in the districts and in primary schools. Should the Government training colleges be started, one of the greatest difficulties will be to induce the girls after a training in Calcutta and Bankipore to return to the village primary school. If Hindu and Muhammadan women however are secured the difficulty will vanish. They will expect to return to their own villages or towns * * * ."

"I have this year seen more of Muhammadan schools and come more into touch with Muhammadan zanana life. Education both in the schools and in the zanana is of the most meagre description. In the former this is undoubtedly due to the early age at which girls are withdrawn, not for marriage, but within the *pardah*: in the latter it is owing to the almost utter lack of training and education in the teachers. From what I have observed I consider that in the case of Muhammadans the work has not yet been attempted on the right lines for success. The majority of Muhammadans will no doubt for years to come view the movement for the education of women with dislike; but that will be no bar, if certain conditions are allowed, to the progress of education both in the zanana and the school. Muhammadan schools must be altogether *pardah*, and all local male officials entirely withdrawn from the schools. A conveyance grant for the schools is necessary if high class Muhammadan girls are to be secured. Women of good family must be obtained as teachers for the schools, but above all for the zanana. These teachers must be able to speak good Urdu. Lastly, one of the most important points is, I consider, the giving of certain concessions with regard to the curriculum. The text books above all should be such as are acceptable to the Muhammadans. I am convinced that if we could obtain teachers capable of giving an acceptable course of instruction, a large number of zananas would be at once accessible."

154. I think that Miss Brock's remarks throw a great deal of valuable light on a most difficult question. It seems to me that if the education of women is presented, as Miss Brock says, "in an acceptable form" "the conservatism of a great portion of the people" which was referred to by Sir Alexander Pedler as being the first cause of slow progress, would gradually be won over to the side of progress. Miss Brock's report also shows—and enquiries made by me corroborate her view—that the people are not so indifferent to the education of their female children as is usually supposed: there is a considerable awakening in this respect. This was the second cause referred to by Sir Alexander Pedler as hindering the progress of female education.

155. The third cause assigned by Sir Alexander Pedler for the want of progress was the system of early marriage, which he stated presented an almost insurmountable barrier to education beyond the primary stage. My reply to this is that the barrier itself will yield to the influence of education. It has already done so in the case of the Brahmo community, whose girls marry later in life and consequently attend school longer than Hindu and Muhammadan girls. Most instructive in this respect are the remarks made by His Majesty's Agent and Consul-General in Egypt in his Administration Report for the year 1905, from which I quote the following passage:—

"The remarkable and continuous progress of female education in Egypt marks very clearly the changes of custom and alteration of ideas which are taking place in the country. When the first efforts to promote female education were made, they met with little sympathy from the population in general. Parents sent their daughters to school reluctantly, and took them away early. In order to encourage the education of girls, it was necessary to admit a large number of free pupils. Most of these came from the poorer classes, and left early, either to be married or because it was thought unbecoming for a girl to attend school after she had passed the earliest years of childhood. The reluctance of parents to send their daughters to school has now been largely overcome. Free education in the Government Primary Schools has been practically abolished. Demands are frequently made for the establishment of other schools in different parts of the country. The number of private schools for girls has also greatly increased of late years. Further, it is to be observed that the steady output of boys from the Secondary Schools and Higher Colleges has distinctly

stimulated the movement for female education, for the younger generation are beginning to demand that their wives should possess some qualification other than those which can be secured in the seclusion of the harem. The interaction of the two branches of education does not stop here, for not only has the growth of education among boys stimulated the desire for instruction to girls, but it has also tended to improve the quality of education given to the girls by prolonging the period of instruction. There appears good reason for supposing that, where education has made progress, the age of marriage has risen, and that, in consequence, the girls are allowed to remain longer than heretofore at school."

156. I invite particular attention to the last sentence of the quotation just given. Surely Egypt and India are not so different that it is unreasonable to expect that, where education makes progress, the age of marriage will rise, and that in consequence girls will be allowed to remain longer than heretofore at school.

157. Three further causes were given by Sir Alexander Pedler as presenting a hindrance to the progress of the education of women, viz., (1) the want of educated female teachers, (2) the want of a system of educating zanana ladies, and (3) the want of adequate State aid and aid from other public funds. Sir Alexander Pedler stated however that a considerable increase in the expenditure had been incurred in recent years, and that more energetic measures were being taken to foster the spread of female education. I have also shown in this report that active steps are being taken to supply the need of trained female teachers both for girls' schools and for the zanana.

158. To sum up the matters above discussed, I venture to say that, as far as Bengal is concerned, the chief cause at the present time operating to hinder the progress of the education of women is the want of qualified and respectable Hindu and Muhammadan female teachers and inspecting agents, and the consequent inability to organise the kind of schools or the type of zanana education which the people require. We still want money of course, but it is not immediately so much needed for increasing the number of schools for girls and zanana centres of instruction as for producing suitable teachers. Given these, I feel that a vast field lies ready for exploration. I have ample evidence of this in the various schemes for imparting instruction to females which are being put forward.

159. One of the most hopeful is a project which has been quite recently brought forward by Mrs. Roy, wife of Dr. P. K. Roy, late of the Indian Educational Service. This is a scheme for the award of scholarships and rewards with the object of encouraging instruction in the zanana. Committees of ladies, European and Indian, assisted by advisory Committees of men, are to be formed at suitable local centres. These Committees will work out syllabuses of instruction suitable to the various classes of the community and frame scales of scholarhips and rewards. It is said that a system of this sort was widely in vogue and very popular some years ago in the Dacca Division, but that it eventually languished owing to want of encouragement by Government. An indirect, but very substantial, by-product of this project will be the formation of the committees referred to. Such committees will not only be useful for the purpose of the project above sketched, but will also be of great value in other directions, such as helping and advising in the work of local girls' schools, aiding and encouraging zanana instruction of all kinds, helping the female inspecting agency as regards their work in training classes and the selection of teachers for training, etc., etc. I regard this latest development as most hopeful.

160. In short, the direction which progress must take must not be antagonistic to the conservative instincts of the people with which sympathy must be shown. Our policy must not be destructively radical but progressively conservative. We can only advance by devising measures which are not inconsistent with prescription, to which in the past insufficient concessions have been made. We should not run amuck against tradition, but should carry tradition with us on the lines of progress.

Statistics in respect of secondary and primary schools.

161. During the year under review secondary and primary schools for girls taken together increased from 2,563 to 2,877, and students in such schools from 61,432 to 67,755, that is, by 12·3 and 10·3 *per cent.*, respectively. If the number

of boys in girls' schools be deducted, the actual figure as regards girls in girls' schools comes to 65,632, as against 59,034 in the previous year, the percentage of increase being 11·15. In addition to the 65,632 girls in girls' schools, there were 43,446 girls in boys' schools; the total of girls under instruction being 109,078, as against 102,546 in the previous year, and the percentage of increase being 6·37. One in every 36 girls of a school-going age, or 2·7 *per cent.*, was under instruction, as against 1 in every 58, or 1·7 *per cent.*, at the close of the last quinquennial period. It may be explained in this connection that each centre where zanana instruction is imparted is counted, for the purpose of the statistical returns, as a primary school and the girls under instruction as students in such schools. In future, however, I shall show figures for zanana education separately in the returns.

Distribution between the primary and secondary stages of instruction.

162. Almost all the girls under instruction were in the primary stage of instruction. Thus, of the total number of schools for girls (2,877) all except 34 were primary schools; and of the total number of girls under instruction (109,078) all except 402 were in the primary stage.

Expenditure.

163. Expenditure in connection with secondary and primary girls' schools increased by Rs. 42,791; and of the total expenditure incurred, viz., Rs. 3,99,837, Rs. 1,17,031 were contributed from Provincial Revenues, Rs. 69,753 from Local Funds, Rs. 46,440 from fees, and Rs. 1,66,613 from other sources.

Results of examination.

164. The results of the examination held at the end of standard VI were satisfactory, 66 candidates appearing, of whom 52 passed, as against, in the previous year, 64 candidates, of whom 49 passed. There are no formal examinations at the end of the upper primary and lower primary courses, as explained in the chapter on "Primary Education for Indian Boys"; but the class examinations held at the end of these stages show a large falling off in the number of candidates appearing, with, however, a large increase in the percentage of successful candidates. The combined figures for these two stages show that, whereas in the year 1904-1905 of 2,098 candidates 1,358 were successful, in the year under review of 1,595 candidates 1,297 were successful. The general causes for the unpopularity of these examinations have been discussed in the chapter above quoted.

Technical and Industrial Training.

165. Very little technical and industrial work for women is at present aided by Government, but a comparatively large amount is being done in different parts of the Province, chiefly by Mission agencies. The lace-industry at Kalimpong, which is aided by Government, is already a success, and it is proposed to extend it to parts of the Chota Nagpur Division and the Sonthal Parganas. The work requires fostering, and when our female inspecting staff is increased, this will be possible.

CHAPTER IX.

EUROPEAN EDUCATION.

Introductory.

The term "European."

166. The term "European," as used in this chapter, signifies any person of European descent, pure or mixed, who retains European habits and modes of life; and for the purpose of the grant-in-aid rules all except 15 *per cent.* must answer to the above definition.

The Partition.

167. Although the Partition was given effect to from the 16th October 1905, European education in the Divisions transferred to the new Province remained in charge of the Bengal Education Department till late in the year under review. As a result of the separation of these Divisions this Province has lost 6 schools. This report primarily concerns the schools which are left with this Province, but the statistics given in respect of the annual examinations concern candidates from Bengal and Eastern Bengal and Assam, inasmuch as these examinations were held for both Provinces by the Bengal Education Department.

Collegiate Education.

168. Collegiate education for Europeans is practically non-existent. Loreto House, Calcutta, which has University classes attached to it, returned only one student. The Bethune College for ladies returned two European students.

Schools.

169. This report deals with 69 schools, of which 2 are managed by Government, 62 are aided and 5 are unaided. It is much to be regretted that the Inspector has failed to secure returns from the Armenian College, which is not included in the 5 unaided schools above referred to. The Armenians, though a small community, form an important element in the complex society of Calcutta, and the education given at the college is not a matter of indifference to Government. Of the 69 schools referred to, 44 were secondary, and 25 primary, schools. Of the 44 secondary schools however only 14 taught up to the high school stage, the rest being middle schools.

Pupils.

Vocational institutions of all kinds.

170. The total number of pupils in educational institutions of all kinds for Europeans was 7,925, of whom 301 were in institutions managed by Government, 6,782 in aided institutions and 842 in unaided institutions. In addition, there were 209 European pupils studying in institutions for Indians. These pupils are not however included in the statistics dealt with in this chapter, which refers solely to institutions for Europeans and pupils of such institutions.

Secondary and primary schools.

171. The total number of pupils undergoing general education in secondary and primary schools on the 31st March 1906 was 7,803, as against 8,286 on the 31st March 1905. If however allowance is made for the transfer of 6 schools to the new Province and for the fact that the Armenian College has submitted no returns, there appears to have been no loss, but a gain of some hundred or more pupils. Of the 7,803 pupils referred to, 2,098 were in the secondary, and 5,705 in the primary, stage of education. Of the 7,803 pupils above referred to, 7,133 were of European, and 670 of Indian, parentage.

Secondary and primary schools and scholars according to management.

172. Of the 7,133 European pupils in secondary and primary schools 57·17 *per cent.* were in schools controlled by the Roman Catholic Church; while 28 out of the total number of 69 schools, or 40·6 *per cent.*, were under the management of that Church. Next comes the Church of England with 17·28 *per cent.* of the total number of pupils and with 11 schools out of the total number of 69. It is interesting to note on the other hand that the census figures show that out of the total European population 51·4 *per cent.* belong to the Anglican Communion, and 36·2 *per cent.* only to the Roman Catholic Church. These figures are to some extent vitiated by the inclusion in the census figures of the British forces; but it is well known that a large number of Protestant children study in Roman Catholic schools.

Finance.

Unreliability of accounts.

173. The total expenditure amounted to Rs. 14,15,562, of which, according to the returns submitted, Rs. 3,43,683 were derived from Provincial Revenues, Rs. 2,754 from the Calcutta Corporation, Rs. 6,80,325 from fees, Rs. 2,44,812 from subscriptions and donations, and Rs. 1,43,988 from endowments and other sources. I regret to say however that the figures returned for subscriptions and donations are totally unreliable. It is needless in this report to enter into details, but it may be stated that the amount reported under this head is probably at least a lakh of rupees in excess of the amount actually contributed. On the assumption that that is the case, it appears that not much more than about Rs. 1,00,000 were subscribed by the general public; for, included in the figures under this head, are sums of Rs. 30,451 received from the Bruce Institution for the maintenance and education of its wards and Rs. 9,230 paid by Railway Companies in grants to Railway schools. As an illustration of the general unreliability of the returns, I may mention that the expenditure returned under the head of

"Boarding Charges" has declined by Rs. 1,59,302, whereas no material change of circumstances has in fact occurred. The decline is apparently to be accounted for by the vagueness of the information received from the schools and by the absence in the Inspector's office of any settled principle for the distribution of the expenditure among the various heads of the statistics. This unsatisfactory state of the returns will continue till all school accounts are kept in some rational way common to all and audited by some one who has an expert knowledge of account-keeping. This question, together with that of a proper system of auditing accounts, was discussed by the Hill Schools' Committee in their report, and the subject is engaging the attention of the Government of India. Meantime, I have with the assistance of Mr. Chapman, lecturer for the Commercial classes, Presidency College, had a modified form of return prepared, which is under consideration.

Total expenditure.

174. The total expenditure returned last year was Rs. 14,50,414. The expenditure for the year under review being Rs. 14,15,562, the decrease amounts to Rs. 34,852. This decline is attributable to the transfer of 6 schools to the new Province and to the fact that returns have not been received for the Armenian College this year.

Examinations.

Departmental examinations.

175. The results of the examinations could scarcely be worse. Of 74 candidates that appeared at the High School and Scholarship Examination 20, or 27 *per cent.* only, passed. At the Middle School examination, of 81 candidates who appeared 14, or 17·2 *per cent.* only, passed. The position perhaps becomes still clearer when it is stated that of 49 boys who, having completed their education, were sent up for the Middle School examination before being sent out into the world, only 5, or 10·2 *per cent.*, were able to pass. It is true that owing to the fact that several schools now take the Cambridge University Examinations, some of the best teachers in European schools are now available as examiners, and this circumstance may have led to a raising of the standard. The fact however to be faced is that the verdict of a specially able body of examiners has been most unfavourable. A certain amount of good work was shown in arithmetic, and this mostly by boys; otherwise the results of these examinations seem to bear out the truth of the following remark made by the Inspector in his report for 1904-1905:—"A certain amount of proficiency is obtained by boys in elementary arithmetic. With this exception the work is poor and slovenly to a degree." I reserve my remarks as to what can be done to set matters right to a later part of this chapter.

The Cambridge Local Examinations.

176. La Martinière College, Calcutta, for boys and girls, the Diocesan Girls' School, Darjeeling, and the Pratt Memorial School, Calcutta, did well at these examinations. La Martinière secured 2 passes at the Senior Local, 9 at the Junior Local, and 18 at the Preliminary Local, examination.

Calcutta University Entrance Examination.

177. From Loreto House 2 candidates passed the Entrance Examination, while from St. Xavier's College 9 were successful.

The training of female teachers.

178. The attempt to train female teachers at Kurseong and at the Welland Memorial Kindergarten, Calcutta, has up to date been a dismal failure. The mistake has been made of endeavouring to train students as teachers with inadequate and insufficiently qualified staffs. At Kurseong the staff employed has been neither adequate nor sufficiently qualified, and at the Welland Memorial Kindergarten the conditions of work are quite unsuitable. The mistake is being rectified, but much valuable time has been lost. It is now proposed that a separate training college should be established at Kurseong with an adequate staff, and that in future the least qualifications that members of the teaching staff shall possess shall be those of a person who has not only had a secondary school education and secured a University degree, but who has in addition had some experience on the staff of a secondary school. As students have not hitherto had a fair chance, I refrain from giving details in regard to the depressing results hitherto obtained. We are, I believe, now upon the right path.

Professional and Technical Education.

The Sibpur Engineering College.

179. Engineering is one of the best openings for European boys. On the 31st March 1906 there were 47 such boys at the Sibpur Engineering College, viz., 4 in the Engineering, and 43 in the Apprentice, Department. One European passed the B. E. Examination and two the First Examination in Engineering. Four Europeans passed the overseer, and 4 the sub-overseer, examination; while 2 passed the survey final examination.

Victoria Boys' School, Kurseong.

180. Twelve boys were under instruction in the technical classes which are attached to the Victoria Boys' School, Kurseong. Five boys were sent up for the last sub overseer examination of the Civil Engineering College, Sibpur, this being the first batch of candidates presented from this school. The result of the examination was satisfactory. Out of the 5 candidates sent up, 3 were successful, one obtaining the first place on the list, while the other two stood 7th and 16th respectively. The failure of the two remaining candidates was reported to have been due to their having contracted a severe type of the fever while going through their practical training in surveying in the Darjeeling Terai in November 1905. Orders have since been passed that in future the survey camp is not to be held in the Terai.

The East Indian Railway Technical School.

181. The East Indian Railway Technical Night School at Jamalpur continues to give instruction in steam engine and machine construction, applied mechanics, algebra and mensuration, and it is reported that it is proposed to extend the work of the school. The average nightly attendance at this institution during the year under review was 51·3.

St. Andrew's Colonial Homes, Kalimpong.

182. St. Andrew's Colonial Homes, Kalimpong, give a certain amount of training in carpentry and farm work. Both boys and girls are trained to domestic work by being made to do all the work which is required for the management of the Homes.

St. Helen's Convent, Kurseong.

183. At St. Helen's Convent, Kurseong, there is a well equipped department for instruction in cookery, needle-work, dress-making, sick-nursing and the compounding of medicines. It is to be regretted however that though girls are willing to join the Technical Department, they are not as a rule inclined to devote to it time or attention sufficient to enable them to master any single subject. In order to meet this defect orders have recently been issued that no Government grant will be paid on account of any student of this department who has not attended 75 *per cent.* of the total number of school meetings held during a school session.

Other schools for girls.

184. Some other schools for girls attempt a certain amount of instruction in cookery and dress-making, but in all this technical work for girls there is a lack of organisation and definiteness of aim which deprives it of a great deal of its value. In order to meet this evil it is proposed to open at the suggested Training College for female teachers at Kurseong a Technical Department for the training of a small number of teachers in Technical subjects.

185. A commercial class was opened at the Kurseong Victoria School for boys at the beginning of the current session (1906) with a master specially recruited from England for the purpose. Commercial education of an elementary character is also given at several other schools. The work suffers however from lack of organisation and supervision. I shall endeavour to arrange some system of general control, as I have already done in the case of commercial classes in Indian schools.

Volunteering.

186. Eleven hundred and fifty-four cadets became efficient during this year.

General Remarks.

187. Last year when reporting on the general condition of European education in Bengal the Inspector spoke in no doubtful terms of its unsoundness and urged the unwisdom from a political point of view of allowing this unsoundness to continue. In reviewing these remarks the Government of Bengal stated in its Resolution that the political consequence of such a state of things could not be regarded with indifference; because, restricted as Europeans and Eurasians are in their choice of the means of livelihood, their educational fitness is a matter of great importance. The picture

presented by the various facts recorded in this report is, except in the case of a few superior schools, gloomy indeed from almost every point of view. Other features of the problem which have not been referred to are equally discouraging. Some of the leading schools of the Province are still struggling under a burden of debt which makes any real progress impossible. Many are working in buildings which are admittedly quite unsuitable, while all practically are striving to accomplish tasks for the performance of which their resources are inadequate. Inspectors have told us that the work of the schools is bad and employers of labour have testified to the truth of this criticism. Three years ago a partner of one of the leading Engineering firms of Calcutta stated before the Hill Schools Committee that in his opinion European boys educated in India never had more nor better opportunities of getting on if they would only apply themselves to work and take advantage of their opportunities. Then, after pointing out that an engineering firm most emphatically does not expect boys to come to it technically trained, he declared that, in spite of their opportunities, European boys educated in India did not get on in Engineering work owing mainly, he thought, to their total ignorance of elementary practical mathematics and geometry and their hopeless want of application.

188. The question is what is to be done. To my mind the answer is clear. We must have a better scheme of work and better teachers. I am thankful to be able to say that, dark as the past has been, the future is not without hope. We have now attained to a position from which, if we will use our eyes, we can see the goal which we wish to reach and at the same time make out the path which, if we follow them consistently, will lead us to it. Last year the Government of India, in returning to Local Governments the Revised Code of Regulations for European Schools, expressed themselves as dissatisfied with the curriculum laid down, and desired Local Governments to examine it with a view to its consolidation in the various classes of schools. This letter was sent to the Inspector of European Schools, who submitted in reply an exhaustive criticism of the present system, in which he pointed out that under present conditions only one class of school is recognised, and that the only difference between such divisions of schools as do exist lies in the fact that certain schools are permitted to take the whole of what purports to be a complete school course, whereas others are only allowed to take certain parts of it. Now, if only one class of schools is recognised, it is obviously futile to attempt to consolidate the courses in various classes of schools. Consequently, Mr. Hornell first of all suggested how in his opinion schools should be classified; and, having laid down the principle that, for the future, recognition should mean recognition as a school of a certain class, he proceeded to make proposals for the curriculum of each class. Mr. Hornell's proposals were then placed before a representative conference of school managers, teachers and others interested in European education. The classification proposed by him the conference was not prepared to accept; his criticisms it did not attempt to gainsay. It accepted the principle that European schools should be classified into elementary and secondary; and, having laid down two excellent curricula, one for elementary and the other for secondary schools, it proposed that under ordinary circumstances no school should be recognised either as an elementary or as a secondary school unless it could show that it could teach efficiently the whole of the curriculum prescribed. It further agreed that any school applying for recommendation as a secondary school should in the first instance be inspected by a board of three Inspectors, of whom the Inspector of European Schools should be one. The proposals put forward by the conference have since been referred to Government for orders.

189. In these resolutions of the conference, it appears to me, lies the hope of the future. We can make no advance until we know first of all what we desire to teach and secondly what schools there are which can impart this instruction. To the first stage we may claim to have attained when the conference unanimously proposed curricula for elementary and secondary schools which from an educational point of view leave practically nothing to be desired. To the second stage we cannot hope to attain until we learn from a competent authority what schools can teach the secondary, and what schools can teach the elementary, curriculum. This information we may hope to get when the proposed Board of Inspectors has done its work.

190. When the real facts are before us and when the defects are laid bare we cannot of course stop. On the contrary it is at this point that the work of reconstruction must begin, and the lines on which that work will have to proceed will be the raising of particular schools to a condition in which they will be able to undertake efficiently the work which in the interests of the community in general it is incumbent on them to attempt. The extra expenditure incurred will probably have to be borne very largely by the State, and it is fortunate that we have already begun to receive the necessary pecuniary assistance from the Government of India. It will obviously be impossible to raise at once all the schools which require assistance. This being so, complaints may perhaps arise that this policy is likely to prove in actual working both invidious and unfair. I have little doubt, however, that if the Education Department proceeds tactfully and fairly, with due regard to the needs of the community as a whole and to vested interests, the Managers of European schools in Bengal will gladly sink to some extent their individual ambitions for the good of the general cause. The Government of India have recognised the advisability of giving State assistance on the basis of the particular needs of individual schools. In Article 38 of the Revised Code they have empowered Local Governments to make supplementary grants to schools for the efficient maintenance of which the ordinary grants are not sufficient. No one who has followed the history of European education in India will question the justice or the wisdom of this principle. It must never be forgotten that though the responsibility of the British Government in the matter of the education of the domiciled European community is great, the resources which it can apply to this work are necessarily small; and that therefore while Government cannot allow the boys and girls of the European and Eurasian community to be educated in schools which are through lack of resources unable to undertake efficiently the work which they are attempting, it cannot afford to spend on any school a single rupee more than that school actually requires.

191. Having decided what secondary and what elementary schools we want, and having ascertained clearly how far and in what particulars the existing schools fall short of our requirements, we shall begin the work of reconstructing individual schools on the basis of these considerations. An efficient teaching staff will be everywhere the first consideration; and, as I fear that a sufficient number of efficient teachers will not at first be forthcoming, it will be necessary in not a few instances, for the present at any rate, to arrange that the managers of schools may be in a position to recruit from England. I recognise however that the necessity for this importation is not a healthy sign; for, though the occasional introduction of new blood from England will doubtless be always desirable, the bulk of the schools ought obviously be to able to recruit the majority of their teachers in India. The Training College at Kurseong will supply us with the necessary number of female teachers; while, as regards the training of male teachers we must look to the establishment of the proposed Training College at Allahabad. We have ascertained by experiment that for the present at any rate there is no hope of such a college being successful if confined to this Province only.

192. On the whole therefore we may fairly say that, dark as the past history of European Education in Bengal has been, we are beginning to leave that past behind. The corner has been turned and we may hope that a new era has begun.

CHAPTER X.

MUHAMMADAN EDUCATION.

General Remarks.

193. Owing to the Partition the proportion which the Muhammadan population bears to the general population has been considerably curtailed. The Muhammadan population of the Province is at present 9,034,949 and represents only 17·2 *per cent.* of the general population.

194. In the case of the general population 108 per mille of males and 5 per mille of females are literate. In the case of the Muhammadans the proportions are only 81 and 3 respectively. Present state of Muhammadan literacy.

195. As stated above, the Muhammadan population is 17·2 *per cent.* of the general population. On the other hand the percentage of Muhammadan pupils to pupils of all creeds is only 13·9, or if the figures returned by private institutions are, for the reasons given in Chapter XII, excluded as unreliable, the percentage is exactly 13. The percentage of Muhammadan pupils under instruction in public institutions in the year under review to Muhammadan children of a school-going age was 11·2; while the corresponding percentage for the general population was 14·8. It is however when we come to analyse the figures as regards the higher stages of instruction that the backwardness of the Muhammadans comes out more clearly. Thus, though the percentage of Muhammadans in primary schools is 13·7, and though this figure bears a fair proportion to the percentage of the Muhammadan population (17·2), in the higher stages of instruction the percentages fall off in a striking manner. Thus, in secondary schools the percentage is 8·7 only, in professional colleges, 4·2 only, and in arts colleges, 6·3 only. From all points of view therefore the Muhammadans have much ground to make up. Pupils under instruction.

Progress.

196. The total number of Muhammadans attending all classes of educational institutions increased from 166,781 in the year 1904-1905 to 171,905 in the year under review, or by 3·0 *per cent.*, as against an increase of 2·2 *per cent.* in the total number of pupils of all religions. On account however of the unreliability of the statistics returned by private institutions it is safer to make the comparison by reference only to pupils attending public institutions. In that case the increase in respect of Muhammadan pupils is 2·45 *per cent.*, as against an increase of 2·16 *per cent.* in respect of the total number of pupils of all religions. The result is satisfactory so far as it goes. In the Government Resolutions on the Director's reports for the years 1902-1903 and 1903-1904 the hope was expressed that, in view of the increase in those years of 5·8 and 11·7 *per cent.* respectively in the number of Muhammadan pupils under instruction, a real and lasting awakening had occurred on the part of the Muhammadan community to the advantages of education. In the year 1904-1905 however the total number of Muhammadans attending educational institutions declined by 3·1 *per cent.*, as against a decrease of 1·5 *per cent.* in the total number of pupils of all religions. It is not wise therefore to expect too much: on the whole there is a steady, though slow, improvement, and it is possible to hope that it may be maintained.

The Calcutta, Hooghly and Murshidabad Madrassahs.

197. A proposal is under consideration for the establishment of a Title Examination for Madrassahs on the lines of the Sanskrit Title Examination referred to in the chapter on University and Collegiate Education. A scheme to this effect was recently submitted by Dr. Ross, late Principal of the Calcutta Madrassah, and is now under consideration. The Sanskrit Title Examination has been so eminently successful in stimulating Sanskrit learning that it is not too much to hope that considerable enthusiasm will be evoked in regard to Muhammadan lore, if the examination referred to is established. I have already mentioned, in the chapter on "Education of Special Classes," that His Highness the Nawab of Murshidabad has submitted proposals for the amalgamation of the Murshidabad Madrassah with the local Government High school.

Indigenous Schools.

198. A scheme which affords much cause for hope in connection with Muhammadan education is one which was elaborated in the year 1903-1904 by a conference over which Dr. Ross presided, for developing the indigenous Muhammadan primary schools which exist throughout this Province. This scheme was sanctioned in the year referred to, and was partially brought into force in the year under review. It is only in the current year however that it has been found possible to provide the necessary funds

for giving effect to the complete project, the recurring charges of which amount to Rs. 18,542. I trust that even this will prove to be only the beginning of a wider scheme for bringing these schools under Government recognition. It is certain that that recognition will increase the number of pupils, and that the financial aid afforded will give stability to a deserving class of institutions.

Results of Examinations.

199. Muhammadan candidates did considerably better in the B. A. and F. A. examinations than in the previous year, notwithstanding the fact that in that year the results of the B. A. examination were exceptionally good. In the M. A. examination however and in all other examinations the results were very disappointing.

CHAPTER XI.

EDUCATION OF SPECIAL CLASSES.

Education of Chiefs and Nobles.

Education of the sons of Chiefs and Zamindars.

200. The Nawab of Murshidabad's Madrassah is intended for the education of the descendants and relations of the Nawab Bahadur of Murshidabad. As such, it has been a failure. Mixing only with their equals and removed from outside influences, these lads have no incentive to improvement. So convinced of this is His Highness that he has agreed to a proposal that the Madrassah should be amalgamated with the local Government High School. He hopes that by mixing with other boys in the High School the Nizamat boys will be stimulated to make better use of their time at school. The Nawab Bahadur has expressed a wish that any money saved by the amalgamation may be devoted to the furtherance of the proposed Ranchi Arts College Scheme. In Orissa the sons of Chiefs are educated chiefly at the Ravenshaw Collegiate School; while in the Chota Nagpur Division they are mostly sent to the Government High Schools.

Aboriginal Races and Tribes.

Number receiving education.

201. It was stated in the Fourth Quinquennial Review that out of the 6¼ million aborigines found in the area dealt with in that review, 2¼ million belonged to Bengal. This figure is scarcely affected by the Partition. The homes of these people are chiefly to be found in the Chota Nagpur, Bhagalpur and Orissa Divisions, the Orissa Tributary Mahals, and the Birbhum and Bankura districts of the Burdwan Division. The aboriginal population of a school-going age, at the usual calculation of 15 *per cent.*, comes to 337,500; and of this number 43,320 (9,342 Christians and 33,978 non-Christians), or 12 *per cent.* only, are receiving instruction. The increase in the number of pupils during the year under review was 2,021. This is satisfactory, but there is ample room for improvement. Government is much indebted to the various Missionary agencies which have done so much for the education of these people. There is however a wide field which those agencies cannot cover and which will have to be explored by the Education Department as funds become available.

Examination results.

202. As observed in the Fourth Quinquennial Report, Christian aboriginals secure better results in the examinations than non-Christian aboriginals. The examination results for the year 1905-1906 are so striking in this respect that I quote them below:—

Caste and creed of the pupils.	Total number of pupils attending educational institutions.	Standard VI or Middle Standard.				Standard IV or Upper Primary Standard.				Standard II or Lower Primary Standard.			
		Number passed.		Number gained scholarships.		Number passed.		Number gained scholarships.		Number passed.		Number gained scholarships.	
		Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.
Christian Aboriginals	9,342	81	0	3	1	163	18	3	2	338	86	6	3
Non-Christian Aboriginals	33,978	49	...	2	...	145	...	1	...	745	8	33	...

Indigent Classes.

203. The number of pupils of these classes (both Hindu and Muhammadan) increased from 65,564 in the year 1904-1905 to 66,011 in the year under review, a result which is satisfactory so far as it goes. Indigent Muhammadans require particular care. Of the Hindu indigent classes the Domes, Chandals, Bagdis, Muchis and Haris deserve special attention. Of these five castes alone there are 2,485,211 in this Province; the Bagdis numbering 1,012,600, the Chandals 539,864, the Domes 323,956, the Muchis 357,919 and the Haris 250,872. At the usual calculation of 15 *per cent.*, the population of a school-going age of these five castes comes to 372,781. Here too therefore there is a wide field for improvement as funds become available.

Other Backward Races.

204. These races are shown in the returns as the Tharus, Lepchas, Oraons (*i.e.*, those members of the race that are Hindus) and Paharyas. The population of these tribes is 110,282, and the number of these people of a school-going age, at the usual calculation of 15 *per cent.*, is 16,542. Of this number 237, or 1·4 *per cent.* only, are receiving instruction. There is therefore ample scope for improvement in this direction also; and one of the first duties to be assigned to the inspecting staff, when it is strengthened, will be that of making a careful survey of the educational needs of the aboriginal races and tribes, indigent classes and backward races referred to in this and the last two paragraphs.

The Reformatory Schools at Alipore and Hazaribagh.

205. Inasmuch as a separate report has been submitted to Government in regard to these schools, it is unnecessary to give any detailed account of them in this report. The most satisfactory feature of the year's working was the marked improvement in respect of discipline and conduct. There is no doubt that this result is due to the policy laid down by Government that the boys are to be treated as if they were at school and not as if they were in jail. In pursuance of this humane and civilising policy, many important reforms are now in process of development. The chief of these are:—

(1) the project for the removal of the Alipore Reformatory School from its present site near the Alipore Jail to a site in the suburbs, where there will be no jail associations and where there will be plenty of room for play-grounds;

(2) the development of the industrial training given at the schools—and especially at the Alipore School—on more advanced and scientific lines:

(3) an improved and more conciliatory system of watch over discharged boys; and

(4) last, but certainly not least, a proposal to replace, as far as possible, the present illiterate guards by resident teachers qualified to influence the lives of the boys for good.

Miscellaneous Schools.

206. While deaf-mutes receive a certain amount of attention from Government, next to nothing is done for the blind. The Calcutta Deaf and Dumb School provides for 39 inmates, and a large share of the expenditure incurred is met by Government. On the other hand, the blind are much neglected. The Aided Anglican Mission School for the blind at Ranchi provides for some 19 pupils; but Calcutta, which might reasonably be expected to take the lead in such a matter, has only two small aided schools, viz., the London Mission Society's school,—called "ST. Anthony's School,"—with about 100 pupils, and the Elliott Road "Industrial Home for Blind Children" with about 13 pupils. There is certainly an opening here for beneficence, and it is to be hoped that the opportunity may not be neglected.

CHAPTER XII.

PRIVATE INSTITUTIONS.

Meaning of the term.

207. As stated in the Fourth Quinquennial Review the term "Private Institutions" includes "all schools which have not accepted Departmental or University standards, and do not submit to any public test." Care must be taken not to confuse these institutions with the schools "under private management," whether aided or unaided, which are recognized by the Department and which form the bulk of the public institutions shown in the statistical returns. These institutions are divided in the statistical returns attached to this report thus:—

(1) Advanced Institutions; teaching (*a*) Arabic, (*b*) Sanskrit, and (*c*) other Oriental languages.

(2) Elementary Institutions; including (*a*) Koran Schools, and (*b*) schools teaching a vernacular only or mainly.

(3) Other schools not conforming to departmental standards.

Under the head of advanced institutions teaching Sanskrit are included only those Sanskrit "tols" which do not conform to departmental standards. Those which do so conform are returned under the head of "School Education—Special—Miscellaneous," and are discussed in the chapter on collegiate education.

Statistics

208. The statistics furnished in regard to these institutions are necessarily unreliable. The Education Department has no control over the institutions in question, and there is no means of checking the figures returned by them. The justification for including such figures in the returns lies in the fact that it is very important to keep some account of these institutions, because they are for the most part schools in the making which may sooner or later be expected to improve their methods of teaching. As shown in the chapter on Muhammadan Education, many of the indigenous Muhammadan schools, called "*maktabs*," will henceforth be brought under the grant-in-aid system. At present, however, owing to the inadequacy of the inspecting staff, it is impossible for the Department to influence the bulk of the private institutions to any great extent. When the inspecting staff is increased, it will be feasible to do much in this direction; and one of the first duties then to be assigned to the local educational officers will be the preparation of an accurate survey of these schools. There are no great variations to report in regard to the number of schools or pupils in respect of the different classes of private institutions. Schools are reported to have increased from 5,141 to 5,215 and pupils from 54,841 to 57,021.

CHAPTER XIII.

PHYSICAL AND MORAL TRAINING.

Hostels and Messes.

Calcutta Mess Scheme for College Students.

209. As stated in the Fourth Quinquennial Review, hostels may be placed high in the list of influences on which reliance can be placed in moulding the character of students, because the existence of a well-arranged boarding-house affects fundamentally the character of the discipline and training afforded by a college or school and gives greater scope than anything else for the operation of other educational influences. I am glad to be able to say that the scheme inaugurated a few years ago for the improvement of the residence of college students in Calcutta is advancing. As stated in last year's report, Government has taken upon itself the responsibilty of finding mess accommodation for all college students in Calcutta, who are not certified by the Principals of their colleges to be living either with their parents or recognised guardians. According to this scheme each college has its own mess or messes; that is to say, students from different colleges are not allowed to congregate together where they please, but are told off to messes which are under the control of the Principals of their

colleges. On the other hand, the Principals of colleges undertake to recover, as far as possible, from the students in the shape of rent the expenditure incurred by Government. A certain amount of loss necessarily accrues to Government in the carrying out of this scheme, owing to various causes, such as the estimated accommodation taken on lease being more than what is actually found to be required, unexpected loss of students, &c. During the year under review the loss incurred by Government amounted to Rs. 6,423.

210. Towards the close of the year under review Government intimated to the University its consent to continue the scheme above referred to for four years, that is to say, until such time as the University should be able to take over from Government the control of a matter which primarily concerns that authority rather than Government. At a conference of Principals of colleges held by me in March last it was held that if the scheme was to be a success, the appointment of Superintendents to control the messes was essential. Arrangements have been made accordingly during the current year, the Superintendents having been appointed by the Principals of the colleges concerned; and Government has been asked to contribute an average sum of Rs. 20 a month in each case towards the pay of these officers. The officers selected as Superintendents are professors of colleges, teachers, graduates, or other qualified persons duly approved by the Principals.

211. The scheme is still in an experimental stage, and it would be rash to pronounce upon it. I hope however that it will develop into an orderly scheme which will be of much benefit to the students. Under the new University regulations residence either in hostels or messes and the appointment of resident superintendents at hostels and messes are compulsory. A Students' Residence Committee also is to be appointed, and Government may reasonably expect to receive valuable advice from this body as to the lines on which future developments should proceed. Whatever it may be possible to do in the immediate future, there can be very little doubt that the creation of collegiate hostels is the goal towards which progress points. I trust that a fair share of the money which Government is allotting to the University for the improvement of colleges may be spent in this way.

Mufassal Mess Scheme for College Student

212. At the instance of Government a scheme on lines similar to those followed in Calcutta has during the current year been initiated at all the important colleges in the mufassal. For this purpose Mr. Tipping, the officer who inaugurated the Calcutta Mess Scheme, was placed on special duty for three months early in the year. The colleges which have been dealt with are the Patna College, the Burdwan College, the Bankura Wesleyan Mission College, the Berhampore College, the Krishnagar College, the Midnapore College and the Ravenshaw College, Cuttack. The Hooghly College is already provided with hostel accommodation. This scheme is of course in its initial stage; but I am satisfied from inspections made by myself that it is a hopeful project.

Hostels for High Schools.

213. I hope that during the current year the Department will be in a position to take up the question of developing a proper system of residence for school-boys. Hitherto the working out of a scheme of residence for college students—a matter which primarily concerns the University—has devolved upon the Department owing to the inability of the University to deal with the matter. It will be a great relief when that authority is able to undertake the control of this subject and leave the Department to deal with that of residence for school boys. This will be a somewhat easier task, because in the case of such students a larger proportion come from the immediate neighbourhood of the schools and live with their parents. In some places what is chiefly required in regard to schools is the provision of hostels so as to enable boys from the interior of the districts to take advantage of higher education. This they are at present unable to do owing to the absence of the necessary facilities. It is for this purpose that an amendment of the Local Self-Government Act is in contemplation so as to permit District Boards to contribute towards the construction of hostels and the payment of hostel Superintendents. Lastly, I may mention that the new University regulations make it incumbent on the authorities of affiliated High Schools to see that all pupils, who are not resident with either parents or guardians,

live either in a hostel or mess under the control of some person responsible to the Head Master of the School for the discipline and well-being of such pupils. I am instructing Inspectors of Schools to draw the attention of Managers of aided High Schools to the regulations and to inform them that the question of hostel and mess accommodation will be taken into consideration when applications for grants-in-aid are received.

General remarks as regards hostels for colleges and schools.

214. Some of the messes at which students reside in the mufassal, in places where it has not been possible as yet to organise special arrangements, have been visited by me during the course of my tours, and I have no hesitation in saying that immediate reform is called for. It is scarcely conceivable that parents can know of the squalid dens in which their sons reside; and, whether they know or not, a very large measure of responsibility in this matter rests on the authorities conducting schools. The fact cannot be blinked that infinitely more harm may be done to boys in these so-called messes, than good can be done to them in the colleges or schools.

Statistics as regards boarding-houses, hostels and messes for European and Indian Students.

215. The number of hostels increased during the year under review from 346 to 410, and the number of inmates from 12,416 to 14,655. The decline in expenditure from Rs. 9,40,100 to Rs. 8,20,372, which occurred entirely under the head of boarding charges in European schools, is due to causes explained in the chapter on European Education.

Statistics as regards Hostels and Messes for Indian Students.

216. The number of hostels increased from 310 to 377, the number of inmates from 9,478 to 11,424 and the expenditure from Rs. 3,24,457 to Rs. 3,77,403. The bulk of this money, viz., Rs. 3,36,122, came from private sources, and Rs. 41,281 only from Provincial Revenues and District and Municipal Funds. This is satisfactory in view of the orders of the Government of India that hostels should, as far as possible, be self-supporting. It is also satisfactory to note that receipts from private sources increased by Rs. 37,728. The large increase in the number of hostels, inmates of hostels and expenditure on account of hostels is due (1) to the introduction of the Calcutta Mess Scheme for college students as described above, and (2) to the general impetus which has been given in recent years to the hostel movement.

Social Intercourse between Teachers and Students in Common-rooms and on Play-grounds.

217. Perhaps in no department can the good influence of professors and teachers be exercised on students more effectively than in common rooms and on play-grounds. Such influences can however only be brought to bear fully and effectively when social life has been evolved by teachers and students living near each other under the conditions of a residential institution. It is gratifying however to find that even in present circumstances the heads of not a few colleges and schools have been successful in promoting social relations between the students and the staff. This has been notably the case, as regards Government colleges, at the Patna, Madrassa and Sanskrit colleges, and the Bihar School of Engineering.

Physical Exercise and Games.

Physical Directors.

218. Two important proposals have been under consideration during the year, the one for the appointment of a Physical Director for Calcutta and the other for a similar officer for the Mufassal. The intention is that the officers to be appointed should be men of superior qualifications who have studied physical exercise from a scientific point of view. Such appointments are not uncommon in America, and the proposal as regards the appointment of such an officer for Calcutta came from an American source. I think that these appointments are very necessary, and, as soon as funds allow, I shall make a representation on the subject to Government. We are groping very much in the dark in the matter of calisthenics. The *Desi Kasrat*, or Indian system of gymnastics adopted from the Central Provinces, is in force in this Province. It is quite impossible, however, without expert advice, to say how far this system is a sound one. Many applications come up from Inspectors of Schools asking for large expenditure as regards the training of gymnastic teachers. I am declining to entertain these applications till we have some authority to whom we can look for advice as to how our money can best be spent.

219. There is nothing of special interest to be said this year as regards games and drill at colleges and schools. Physical exercise of some kind is compulsory, but in some cases I have found Head Masters of schools negligent of their duties in this respect. In Orissa the Inspector reports that the organisation of games is said to be hampered by the want of suitable playgrounds. A special report will be called for from him on this subject. Games and

Moral Training.

220. I have already dealt with the training of teachers in Chapter VI. As stated in the Fourth Quinquennial Review, the maintenance of a high standard of discipline depends chiefly on this training and on the character of the persons who enter the teaching profession. The formation of character is of course one of the main aims of education, and this is being very strongly emphasised in the revised syllabus of studies which is now under issue in respect of lower primary schools. Similar stress will be laid on the subject when the revision of the syllabus for the higher standards is undertaken. The revised syllabus above referred to begins with an Introduction which illustrates what I have said above, and I cannot do better than cite the two concluding paragraphs, which run thus:—

"Above all school life must prevent children from forming bad habits, and this it can only do by training them in good habits and, if possible, in good conduct, by which is meant something wider than the mere cheerful observance of school regulations. In the matter of this moral training the most important factor will be the habitual conduct of the teacher in the school. If he is thorough, patient, kind but firm, and scrupulously fair, these traits will evoke similar traits in his pupils, and will give point and force to any moral instruction he may attempt. A teacher who is obviously slipshod and lazy, discoursing to children about the value of industry and thoroughness, is an absurdity which cannot but prove morally disintegrating to a child. Stories in readers designed to inculcate morals tend, if silly, as they frequently are, to make moral instruction ridiculous. Even if they are good, they are of little value unless they are backed by personal example.

"The every-day incidents of school life will enable the teachers to impress upon the children the importance of punctuality, of good manners, of cleanliness and neatness, of cheerful obedience to duty, of consideration and respect for others, and of honour and truthfulness in word and act. Children will notice such details in the conduct of a teacher as punctuality, order, neatness and gentleness, and they will imitate what they see and hear. They are quick to observe; and if the teacher's conduct is in these respects defective, his example must almost certainly have a disastrous effect on the habits of the pupils. Thus, the punctual and methodical performances of duties, even in matters of trivial routine, will impress upon the children better than any lesson the importance of orderliness; and the good habits of the teacher will be even more powerful than his express requirements in shaping his pupils for the proper conduct of life."

In the course of this chapter the influence of the teachers employed, the influence resulting from the nature of the teaching imparted, and the influence of hostel life have all been mentioned. As, however, the Government of India pointed out in a letter issued during the year under review in reply to a memorial from certain residents of this Province, the greatest of all influences is that of home life, that is to say, of parents, relations and guardians. As that Government observed, that is an agency entirely independent of Government, and the State can neither call it into existence nor direct its operation; and it rests with the Indian people themselves to see that a proper moral atmosphere prevails in the Indian home.

Discipline at Colleges and Schools during the year under review.

221. Two grave breaches of discipline occurred at the Presidency College soon after effect was given to the Partition. Discipline at the Sibpur Civil Engineering College also suffered at the same time. It is reported that when the students joined the College in November 1905 they were suffering from the effects of political agitation, that a spirit of turbulence manifested itself, and that two of the ringleaders had to be expelled before order could be restored. The grant-in-aid of the Garbhawanipur High English School in the district of Howrah has been withdrawn on account of a bad case of boycotting by the students of that school. At the Hooghly College two students were punished for unruly behaviour in a public thoroughfare. At the Krishnagar College discipline has not been satisfactory. The district of Khulna also came unfavourably to notice on account of Breaches of discipline.

disturbances caused by students; and the Khulna Zillah School and the Daulatpur High School were deprived of the privilege of competing for Government scholarships for a year.

222. The question of the control of masters of schools over the conduct of boys beyond the school premises has recently formed the subject of discussion in Bombay, and an important Press Note has recently been issued by the Government of that Presidency, an extract from which, as reported in the newspapers, I quote below. It is a ruling of much importance.

"It is quite a mistake to suppose that the Head Master's authority over day boys does not extend beyond the school premises. In certain cases it is obvious that he is bound to take notice of misconduct, and in other matters though the necessity for his interference may not be so obvious, it is still unquestionable that an order given to a pupil must be obeyed. If any parent or guardian is dissatisfied with any order of the kind, it is always open to him to apply to higher authority, in which case he may be quite sure of a careful enquiry into the circumstances. But he should never counsel disobedience, which can only injure the boy whose welfare he desires to promote. Such disobedience would not be tolerated in any well regulated school in England, and cannot, in justice to the pupils, be permitted in this country. The importance of discipline, whether in the family or in the school, is a matter which can hardly be disputed, and the small minority who take a different view cannot reasonably expect others to agree with them. When disobedience occurs, it must be punished by the ordinary school methods."

CHAPTER XIV.

EDUCATIONAL CONFERENCES.

Revision of the scheme of vernacular education.

223. THE most important conferences held during the year under review were those in connection with the revision of the vernacular scheme of education which was brought into force in the year 1901, in so far as it affects lower primary, and especially rural lower primary, schools. This subject had been considered in the year 1904 by a conference specially convened by the Lieutenant-Governor. The results of that conference formed the subject of the Resolution of Government No. 658, dated the 7th February 1905, in which the public was invited to submit criticisms in regard to the scheme proposed. The replies received were then considered by a further conference, appointed by His Honour, which submitted a report to Government on the 3rd August 1905. The working out of the details of the scheme, as provisionally approved by the conference just referred to, was then referred to a special committee, which brought its labours to a conclusion at the close of the year under review. The views of the special committee were submitted by me to Government with my letter No. 86T., dated the 14th May 1906, and the orders of Government generally sanctioning the proposals made by the committee were received in Government letter No. 1800, dated the 5th July 1906. Active steps are now being taken to carry out the necessary reforms. A full account of the changes to be initiated has already been given in the chapter on Primary Education.

Conference at Darjeeling.

224. An important conference was held at Darjeeling shortly after the close of the year in connection with a proposal to extend primary education amongst the hill population. The results of this conference have been mentioned in the chapter on Primary Education.

Mufassal Educational Conferences.

225. Numerous useful conferences were held during the year by educational officers on various matters demanding concerted action. It is unnecessary to refer to the subjects discussed at these conferences; but I am glad to notice that officers of all grades are fully alive to the advantages of meeting together to deliberate over educational questions in which special difficulties are encountered.

Delegation of powers to Inspectors of Schools.

226. I hope during the course of the current year to be able to hold a conference of Inspectors of Schools with the object of deciding in what directions a delegation of the powers of the Director is at present feasible. The stress of work has been so great ever since I joined the office of Director in January 1906 that I have not as yet been able to convene a meeting. Probably it will not at present be possible to effect any

large delegation of powers; because of the well-known inadequacy of the Inspectorate. A beginning should however be made as soon as practicable; and, when the Inspectorate is strengthened, a further devolution of powers will be considered.

CHAPTER XV.

TEXT-BOOK COMMITTEES AND THE CALCUTTA SCHOOL BOOK SOCIETY.

The Central Text-Book Committee.

227. The working of the Central Text-Book Committee has recently been adversely criticised, the main objections raised being

(1) that the preliminary examination of text-books which is required under standing orders before their submission to the Text-Book Committee should not, as heretofore, be conducted in a confidential manner, but that the names of the persons consulted should be made public,

(2) that members of the Text-Book Committee should be remunerated for their work, and

(3) that the exclusion from the Text-Book Committee of persons who are authors or who have any interest in the production of text-books has the effect of depriving the Committee of the services of the very persons whose services would be of real use.

These questions are now under my consideration in connection with a proposal which has been made by certain publishing firms in Calcutta that Government support should be withdrawn from the School Book Society on the ground that the operations of the Society interfere with private trade. The functions of the School Book Society and the Text-Book Committee are interconnected, and it will be convenient to deal with all the questions raised together.

228. Meantime, I wish merely to say on the present occasion that I think that the functions of the Text-Book Committee have been somewhat misunderstood. These functions are strictly limited to *advising* Government as to which of certain books presented to them for examination are fit to be used in schools. That advice in practice merely amounts, as far as I can gather, to recommendations being made in favour of all books with any pretence to merit or suitability. The Committee has no power, even if it considers that the books submitted to it for examination are not as good as they should be, to take steps to secure the production of suitable books. In short, the production of text-books has been left to unguided private speculation. As shown however in the chapters on Secondary and Primary Education, this system has signally failed in respect of the production of suitable text-books for certain classes of schools, and Government has decided to bring out certain books itself, by the exercise of a power which is specially reserved to it under the rules. This does not of course mean that Government intends to monopolise the production of text-books. It will merely give the lead by showing the kind of books which are required; and, if private enterprise can produce equally good or better books, these will be accepted.

The Calcutta School Book Society.

229. The sales of the Calcutta School Book Society amounted during the year under review to Rs. 1,33,777, as against Rs. 1,66,338 in the year 1904-1905.

A. EARLE,

Director of Public Instruction, Bengal.

B. S. Tour Press—718D—1250—21-12-1906—W. H. S.

REPORT OF THE COTTON CROP OF BENGAL, 1906.

THE following note is published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

The 19th December 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

REPORT ON THE COTTON CROP OF BENGAL, DECEMBER 1906.

[On an average of the five years ending 1904-1905, the area under cotton crops in the territory to which the present forecast relates has represented some 0·6 per cent. of the total area under cotton crops in India.]

Explanatory.—The forecasts of the cotton crop issued in August and October dealt with the area sown with cotton this year, and with the general condition of the crop. The present forecast deals with revised estimates of the area sown, and furnishes also an estimate of the probable outturn.

Character of the season.—Of the early cotton-growing districts of Bengal, the Sonthal Parganas, Sambalpur, Manbhum, Singhbhum and Angul are the most important. The climatic conditions in these districts, covering 81 per cent. of the entire early cotton area, as well as in the other early cotton districts, Sambalpur excepted, were favourable throughout the season. In the last-named district, some little damage was done to the crop by heavy rain during the flowering season in October.

In Saran, the most important of the late cotton districts, and also in Champaran, Darbhanga, and in the Sadar subdivision of Muzaffarpur where late cotton only is almost entirely grown, the crops suffered to a very considerable extent from excessive rain and floods. From the other late cotton districts, the prospects are reported to be satisfactory.

Area sown.—The area sown with early cotton this year is estimated at present at 37,428 acres against 37,400 acres shown in the October forecast, and against 36,504 acres estimated in December last year. The area sown with late cotton amounts to 32,376 acres up to date. Sowings are reported to be still going on in Cuttack.

Outturn.—The outturn of early cotton, calculated from the data furnished by District Officers, comes to 5,763 bales of 400 lbs. each, and that of late cotton, similarly calculated, to 9,361 bales. Supplementing this produce with an additional 5 per cent. crop for the fibre grown in the Native

States, for which statistics are not available, the total aggregate outturn for the Province works out as follows:—

	Bales.
Early cotton	6,051
Late „	9,831
Gross total of both varieties ...	15,882

C. A. OLDHAM,

Director of Agriculture, Bengal.

CALCUTTA;
The 11th December 1906.

OLUTION ON THE EMBANKMENT AND DRAINAGE REPORTS FOR THE YEAR 1905-1906.

No. 2598*I.*

Government of Bengal

IRRIGATION DEPARTMENT.

IRRIGATION.

Dated Calcutta, the 22nd December 1906.

RESOLUTION.

The Embankment and Drainage Reports for the year 1905-1906.

A summary of the expenditure incurred on works and repairs (exclusive ok charges for establishment and tools and plant) during the year on nkments and drainage works in Bengal is given in the following nent:—.

	1905-1906. Rs.
I.—Embankments—	
Class A.—Government embankments in Orissa ...	49,195
Class B.—Schedule D and other Government embankments	2,63,654
Class C.—Maintained by Government under contract with zamindars	1,06,082
Class D.—Maintained by Goverament with an annual apportionment of charges on estates benefited ...	7,166
II.—Works undertaken under the provisions of the Drainage Act, VI (B.C.) of 1880	11,916
III.—Works undertaken under the provisions of the Sanitary Drainage Act, VIII (B. C.) of 1895	1,81,254
IV.—Drainage works carried out under the provisions of the Embankment Act, II (B. C.) of 1882	39,228
V.—Drainage works carried out at the cost of Government, but not under the provisions of any Act	24,025
Total ...	6,82,520

2. *Lengths of Embankments and areas protected.*—The lengths of embank in each class and the areas to which they give protection are shown :—

Circle.	Class.	Length.		Areas protected.
1	2	3		4
		Miles.	Feet.	Acres.
... ...	A	516	1,565	644,691*
	B	315	1,793	446,880
	C	6	1,146	44,800
	D	Nil.		Nil.
	Total ...	837	4,504	1,136,371

	D, ...	71	610	292,933
	Total ...	2,141	4,741	8,649,738

* 1,681 feet of spur embankments, Panar river, were maintained during the year at Government expense.

There has been a net increase of 1,673 feet in the length of the class A embankments in Orissa, mainly due to the construction of retired lines. In the South-Western Circle, there was an addition of 507 feet to the length of schedule D embankments owing to the construction of a cross bund at Mowah in the district of Murshidabad connecting the Bhagirathi left embankment with the Bhagawangola retired line. The Rampur-Boalia embankments (Schedule D, Nos. 55, 56, 56A and 56B) in the district of Rajshahi were transferred to the Government of Eastern Bengal and Assam during the year, as also the embankments in the districts of Malda, Pabna and Bogra. The aggregate length of these embankments is 10 miles and 2,050 feet.

3. *Floods.*—During the year, the monsoon floods in the Orissa rivers were low and no damage was done to any of the Government works except two small breaches in the left embankment of the Bhargovi river. These were promptly closed. There was, however, a very unusual winter flood in the Brahmini and Kharsua rivers which caused some damage to the *dalua* rice crop. In the Gandak Circle there were no heavy floods during the year. The Gandak river rose on 30th July to 240·60 at Siswa, 242·40 being the highest recorded flood level. The flood level in the Ganges at *Bazitpur* was 4·05 lower than that of the previous year. The highest flood in the Bagmati in September rose to 185·32, at Belahiaghat against 190·40, the recorded flood level of 1893. The Burgandak river at Secunderpur rose to 176·40 on 12th August. This was only 1·30 below the highest recorded reading.

There were heavy floods in the South-Western Circle and the embankments were damaged. The highest flood of the year in the Cossye river occurred on the 30th September. The highest flood in the Selye and Rupnarain (or Darkeswar) rivers was on the 29th July. There were three floods in the Damodar between July and September. The highest was on the 29th July, when the gauge at Edilpur read 16 feet 6 inches, which is the same as the maximum recorded flood level of 1902. No serious damage was done to the embankment, but the bamboo spurs at the base of the removed embankment on the right bank at Nathu, Sadipur and Srikistopur were slightly damaged. The flood in the Ajai river on 29th July was 3 feet 9 inches lower than the highest recorded level of 1899. The river protective works were slightly damaged. The floods in the rivers in the Purnea and Bhagalpur districts were of ordinary character and caused no injury to the embankments.

4. *Surveys and investigations.*—In the Orissa Circle investigations were made into the existing village irrigation system in the district of Puri, while the possibilities of further irrigation from the Salia river were under investigation. Investigations in regard to the question of the maintenance of the channels of approach to and discharge from all the sluices in the embankments were completed. In the Gandak Circle surveys in connection with a proposal for a sluice and channel from the Bya river were carried out. In the South-Western Circle surveys were made of the schedule D embankments with the object of establishing a record of the formation level of the crests of those embankments. Surveys were also made of the villages exposed to inundation by the removal of the Laltakuri marginal embankment in the Murshidabad district.

5. *Original works.*—The outlay of the year (without charges for establishment and tools and plant) under this head amounts to Rs. 64,473 distributed over the different classes of embankments as under:—

	1905-1906.	1904-1905.
	Rs.	Rs.
Class A	15,385	20,560
„ B	49,088	16,674
„ C	Nil.	Nil.
„ D	Nil.	1,104
Total ...	64,473	38,338

The more important works are briefly noted:—

In the Orissa Circle the two escapes on the Kushbhadra river referred to in last year's report were completed at a total cost of Rs. 13,470, the expenditure of the year being Rs. 11,680. The stone paving at the head of Tantighai on the right bank of the river Khursuah was in progress at the end of the year. The construction of a permanent escape at Achootpore in the 5th mile Bhargovi left embankment, was completed during the year, the total cost being Rs. 22,250.

In the South-Western Circle an expenditure of Rs. 29,160 was incurred on raising the embankment on the left bank of the Hooghly. The work was nearly completed at the close of the year. A sum of Rs. 15,638 was expended on the embankments along the Nadia rivers principally on the strengthening of the Bhagwangola retired line.

In the Gandak Circle the construction of the drainage sluice in the 6th mile of the Bazitpur embankment referred to in last year's report was completed except the outfall and the approach channels.

6. *Ordinary repairs.*—The expenditure on repairs (without book charges for establishment and tools and plant) aggregated Rs. 3,32,049, which is distributed under the different classes of embankments as follows:—

	1905-1906.	1904-1905.
	Rs.	Rs.
Class A	33,810	26,689
„ B	2,14,566	2,36,572
„ C	1,06,082	1,27,828
„ D	7,166	5,058
Total ...	3,61,624	3,96,147

The expenditure on repairs to the Orissa embankments was Rs. 33,810, against Rs. 26,689 in the previous year. The total cost of repairs to the schedule D embankments (class B) in the Midnapore district which are in the Orissa Circle was Rs. 29,012, of which Rs. 3,452 were expended on retired lines of embankments, Rs. 5,028 on making a diversion cut of the Raniakhal at the 20th mile of the sea-dyke.

In the South-Western Circle, the expenditure on ordinary repairs to Schedule D and other embankments was Rs. 1,42,392, against Rs. 1,02,629 in the previous year. The excess took place chiefly in the districts of Burdwan, Hooghly, Midnapore, Murshidabad and 24-Parganas.

The heavy expenditure in the Burdwan district was due to repairs done to the Damodar left embankment. The excess in the Hooghly district was due to repairs and extensions of the stone revetments in the Rupnarain left embankment and the Damodar left and right embankments. The comparatively heavy expenditure in the Murshidabad district was chiefly due to extensive repairs to the Bhagirathi embankment.

On (class C) *takavi* embankments under contract in the Midnapore, Muzaffarpur, Saran and Champaran districts, a sum of Rs. 1,06,082 was expended during the year, as compared with the contract provision of Rs. 1,05,070. The outlay incurred on the maintenance and special repairs of the Gandak embankments was Rs. 66,984, against Rs. 65,286 in the preceding year. The amount spent on special repairs was Rs. 48,894, against Rs. 43,317 in the preceding year. The expenditure on repairs to the Midnapore embankments in the Cossye and Balasore Divisions was Rs. 39,098, against Rs. 60,303, of the previous year.

On (class D) *takavi* embankments the outlay incurred on repairs was Rs. 7,166, against Rs. 5,058 in the previous year.

7. *Breaches.*—In the Orissa Circle only two small breaches occurred in the Bhargovi left embankment.

In the South-Western Circle 15 breaches occurred in the schedule D embankments and three in the takavi embankments. The total expenditure incurred in closing breaches and in making good damage caused by flood was Rs. 34,443, against Rs. 32,693 in the previous year. There were no breaches in the embankments in the Gandak and Northern Circles.

8. *Retired lines.*—In the Orissa Circle the amount expended in constructing retired lines of embankments, including in this head slope-cutting which is an alternative measure, was Rs. 6,546, against Rs. 5,064 in the previous year. In the South-Western Circle the cost of constructing retired lines in the Burdwan, Midnapore, Murshidabad and 24-Parganas districts was Rs. 8,100, against Rs. 63,165 in the previous year. No retired lines were constructed in the Gandak and Northern Circles.

9. *River protective works.*—In the Orissa Circle the total outlay incurred on repairs to the revetment and river protective works was Rs. 4,883, against Rs. 675 in the preceding year. The expenditure on river protective works in the Gandak Circle amounted to Rs. 4,110, against Rs. 6,482 of the year before.

10. *Financial.*—The actual outlay during the year on the Orissa embankments (class A) maintained as agricultural works, exclusive of charges for establishment and tools and plant was Rs. 33,810, against Rs. 26,689 in the previous year, the average rate per mile being Rs. 65. The expenditure on class B Government embankments was Rs. 2,14,566, against Rs. 2,36,572 in the previous year, the average rate being Rs. 199, against Rs. 217 in 1904-1905.

Government has contracted to maintain certain embankments on behalf of the persons benefited at a fixed annual charge in the districts of Saran, Champaran, Muzaffarpur and Midnapore. The following statement shows the expenditure incurred on these embankments as compared with the contract payments:—

Year.	Midnapore District.		Saran District.		Champaran District.		Muzaffarpur District.	
	Maintenance charge.	Contract amount.	Maintenance charge.	Contract amount.	Maintenance charge.	Contract amount.	Maintenance charge.	Contract amount.
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Note.—The figures in this table under column "Maintenance charge" represent the cash outlay on maintenance and repair without any book charges for establishment or tools and plant.

11. *Works undertaken under the provisions of the Drainage Act, VI (B. C.) of 1880.*—The Dankuni, Howrah, Rajapur and Burajalla drainage works in

the Hooghly district in charge of the Executive Engineer; Northern Drainage and Embankment Division, were maintained in good order during the year. The cost of their maintenance compared with the previous year is below :—

	1904-1905.	1905-1906.	Annual amount fixed for maintenance.
	Rs.	Rs.	Rs.
Dankuni ..	... 1,119	1,126	4,300
Howrah ...	... 3,071	5,303	2,000
Rajapur ... Brrajalla ...	7,828	7,753	5,000
Total	... 12,018	14,182	11,300

There was some loss of crops in a small area in Rajapur basin, due overflow from Ampta basin which is at present undrained. The income derived from land-rent, fisheries, tolls on boats and other sources has hitherto been credited to the Civil Department. It has since been decided that all receipts shall be finally adjusted in the books of this Department.

Towards the close of the year a proposal was sent up by the Collector of Nadia for the drainage of the Choriucole swamp near Kumarkhali in the Kushtia subdivision of the district under the provisions of the Bengal Drainage Act, VI (B. C) of 1880. The project which will be carried out through the agency of the District Board, Nadia, has received administrative sanction at an estimated cost of Rs. 24,644 and Drainage Commissioners have been appointed.

12. *Works undertaken under the provisions of the Sanitary Drainage Act, VIII (B. C.) of 1895.*—The only work taken up under the Sanitary Drainage Act is the Magra Hât drainage scheme in the 24-Parganas district. It is designed to drain the swamps around Magra Hât in the central portion of the tracts enclosed by the 24-Parganas embankments. The swamps are mainly those along the Kaorapukhar khal, near Hotar, those connected with the Surjipur sluice, those at Joynagar and along the Srichandra and Sangrampur khals, as well as north of the railway near Sangrampur and at Dhosa and Habka. The rough estimates amounting to Rs. 17,39,000 have been approved by the Municipal Department of this Government. The work being very urgently required has been put in hand in anticipation of the sanction of the Secretary of State which has been applied for.

During the year under review Rs. 1,68,775 were spent on work and Rs. 12,479 on the acquisition of land.

13.—DRAINAGE WORKS CARRIED OUT UNDER THE PROVISIONS OF THE EMBANKMENT ACT, II (B. C.) OF 1882.

Original works.—In the South-Western Circle, the embankment on the left bank of the Peali river with two sluices was completed during the year at a total cost of Rs. 71,979, the expenditure of the year being Rs. 6,596. Work was in progress during the year on the construction of a sluice at Dhutkhali in the 108th mile of the 24-Parganas embankment. The expenditure during and to end of the year was respectively Rs. 9,588 and Rs. 15,412. Arrangements were made to start work during the year on the construction of a sluice at Fulbagicha in the 131st mile of the schedule D embankment, No. 78. A scheme was prepared for improving the drainage of the Arapanch basin in the 24-Parganas, which involved a new length of embankment and a new sluice. The matter is still under consideration. In the meantime the outfall channel leading from the existing sluice in the embankment has been cleared which will give relief for some years. In the Orissa Circle the silt-clearance of the Kunjapur and other khals was completed during the year at a total cost of Rs. 19,432, the expenditure of the year being Rs. 3,872. A project for the drainage of the lands within the Argoal circuit embankment was commenced during the year and a sum of Rs. 14,669 was expended. The construction of the sluices in the 15th mile of the Kalinagar Hassia embankment (schedule D, No. 45) and in the 12th mile of the Jalpai embankment (schedule D, No. 53) referred to in the previous year was completed.

Maintenance and repairs.—The Charrial khal drainage scheme was maintained in good condition during the year at a cost of Rs. 2,492, against Rs. 854 in the previous year. With a few exceptions all the sluices in the schedule D embankment, 24-Parganas district, were efficiently maintained during the year at a total cost of Rs. 1,634. The Kumrool sluice and channel in the 53rd mile of the Damodar left embankment were repaired and maintained during the year at a cost of Rs. 377.

14.—DRAINAGE WORKS CARRIED OUT AT THE COST OF GOVERNMENT, BUT NOT UNDER THE PROVISIONS OF ANY ACT.

Original Works.—A commencement was made in the improvement of the drainage channel from Daudpur to Utterpadima, known as the Tajpur drainage project, in the Contai subdivision of the Balasore Division.

On the Bullee Bhil in the South-Western Circle Rs. 5,066 were expended on repairs and maintenance. In the Balasore Division the Balliaghye main drain was kept open to traffic throughout the year, while the branch drain from 0 mile to the 6th mile post was closed to traffic for silt-clearance from 1st January 1906 till the end of the year. A sum of Rs. 8,139 was spent on silt-clearance and the work was in progress at the close of the year. The outlay on the silt-clearance of the khas tahsil khals in charge of this Department was Rs. 9,217.

Order.—Ordered that a copy of the Resolution and of its appendices (A and B) be published in the Supplement to the *Calcutta Gazette* and submitted to the Government of India, Public Works Department, for information.

Ordered also that copies of the Resolution and of its appendices (A and B) be forwarded to the Revenue and Financial Departments of this Government; the Secretary to the Board of Revenue, Lower Provinces; the Commissioners of the Presidency, Burdwan, Patna, Bhagalpur, Chota Nagpur and Orissa Divisions; the Director-General of Commercial Intelligence; the Superintending Engineers of the Orissa, South-Western, Sone, Gandak, and Northern Circles; and the Examiner, Public Works Accounts, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary to the Government of Bengal.

	1,64,917				1,16,848				

(a) The difference of Rs. 3 in column 2 as compared with the last year's return is due to the increase of Rs. 3 in embankment cess demand owing to increase in the land revenue jama of certain estates by resettlement.

(b) The difference compared with the last year's return is due to the actual annual demand having been shown here.

(c) The difference of Rs. 3 in column 3 is due to the correction made in the assessment of two estates.

(d) The decrease of Re. 1 is due to partitions and omission of fractions of a rupee less than eight annas.

(e) The difference of Rs. 111 and Rs. 351 in the figures shown in columns 3 and 4 as compared with the figures shown in columns 10 and 8 of the last year's return is due to the transfer of some advance amounts to the arrears due from certain estates.

(f) Out of this a sum of Rs. 340 has been collected since the close of the year and for the remaining action will be taken under the certificate procedure.

(g) This balance has been arrived at by deducting Rs. 745 due from Government on account of khas mahals benefited by the embankment.
